

136A.675 RISK ANALYSIS.

The office shall develop a set of financial and programmatic evaluation metrics to aid in the detection of the failure or potential failure of a school to meet the standards established under sections 136A.61 to 136A.71. These metrics shall include indicators of financial stability, changes in the senior management or the financial aid and senior administrative staff of an institution, changes in enrollment, changes in program offerings, and changes in faculty staffing patterns. The development of financial standards shall use industry standards as benchmarks. The development of the nonfinancial standards shall include a measure of trends and dramatic changes in trends or practice. The agency must specify the metrics and standards for each area and provide a copy to each registered institution and post them on the agency Web site. The agency shall use regularly reported data submitted to the federal government or other regulatory or accreditation agencies wherever possible. The agency may require more frequent data reporting by an institution to ascertain whether the standards are being met.
