

353F.04 AUGMENTATION INTEREST RATES FOR TERMINATED MEDICAL OR OTHER PUBLIC EMPLOYING UNIT FACILITY EMPLOYEES.

Subdivision 1. **Enhanced augmentation rates.** (a) The deferred annuity of a terminated medical facility or other public employing unit employee is subject to augmentation under section 353.71, subdivision 2, of the edition of Minnesota Statutes published in the year in which the privatization occurred, except that the rate of augmentation is as specified in this subdivision.

(b) This paragraph applies if the legislation adding the medical facility or other employing unit to section 353F.02, subdivision 4 or 5, as applicable, was enacted before July 26, 2005, and became effective before January 1, 2008, for the Hutchinson Area Health Care or before January 1, 2007, for all other medical facilities and all other employing units. For a terminated medical facility or other public employing unit employee, the augmentation rate is 5.5 percent compounded annually until January 1 following the year in which the person attains age 55. From that date to the effective date of retirement, the augmentation rate is 7.5 percent compounded annually.

(c) If paragraph (b) is not applicable, and if the effective date of the privatization is before January 1, 2011, the augmentation rate is four percent compounded annually until January 1, following the year in which the person attains age 55. From that date to the effective date of retirement, the augmentation rate is six percent compounded annually.

(d) If the effective date of the privatization is after December 31, 2010, the applicable augmentation rate depends on the result of computations specified in section 353F.025, subdivision 1. If those computations indicate no loss or a net gain to the fund of the general employees retirement plan of the Public Employees Retirement Association, the augmentation rate is 2.0 percent compounded annually until the effective date of retirement. If the computations under that subdivision indicate a net loss to the fund if a 2.0 percent augmentation rate is used, but a net gain or no loss if a 1.0 percent rate is used, then the augmentation rate is 1.0 percent compounded annually until the effective date of retirement.

(e) The term "effective date of the privatization" as used in this subdivision means the "effective date" as defined in section 353F.02, subdivision 3.

Subd. 2. **Exceptions.** The increased augmentation rates specified in subdivision 1 do not apply if the terminated medical facility or other public employing unit employee:

(1) becomes covered again by a retirement plan enumerated in section 356.30, subdivision 3; or

(2) begins receipt of a retirement annuity while employed by the employer which assumed operations of the medical facility or other public employing unit or purchased the medical facility or other public employing unit.
