

245D.051 PSYCHOTROPIC MEDICATION USE AND MONITORING.

Subdivision 1. **Conditions for psychotropic medication administration.** (a) When a person is prescribed a psychotropic medication and the license holder is assigned responsibility for administration of the medication in the person's coordinated service and support plan or the coordinated service and support plan addendum, the license holder must ensure that the requirements in paragraphs (b) to (d) and section 245D.05, subdivision 2, are met.

(b) Use of the medication must be included in the person's coordinated service and support plan or in the coordinated service and support plan addendum and based on a prescriber's current written or electronically recorded prescription.

(c) The license holder must develop, implement, and maintain the following documentation in the person's coordinated service and support plan addendum according to the requirements in sections 245D.07 and 245D.071:

(1) a description of the target symptoms that the psychotropic medication is to alleviate; and

(2) documentation methods the license holder will use to monitor and measure changes in the target symptoms that are to be alleviated by the psychotropic medication if required by the prescriber. The license holder must collect and report on medication and symptom-related data as instructed by the prescriber. The license holder must provide the monitoring data to the expanded support team for review every three months, or as otherwise requested by the person or the person's legal representative.

For the purposes of this section, "target symptom" refers to any perceptible diagnostic criteria for a person's diagnosed mental disorder, as defined by the Diagnostic and Statistical Manual of Mental Disorders Fourth Edition Text Revision (DSM-IV-TR) or successive editions, that has been identified for alleviation.

Subd. 2. **Refusal to authorize psychotropic medication.** If the person or the person's legal representative refuses to authorize the administration of a psychotropic medication as ordered by the prescriber, the license holder must follow the requirement in section 245D.05, subdivision 2, paragraph (b), clause (2). After reporting the refusal to the prescriber, the license holder must follow any directives or orders given by the prescriber. A court order must be obtained to override the refusal. Refusal to authorize administration of a specific psychotropic medication is not grounds for service termination and does not constitute an emergency. A decision to terminate services must be reached in compliance with section 245D.10, subdivision 3.
