This system is a partnership between the Department of Human Services and the State Quality Council established under subdivision 3.

(b) This system is a result of the recommendations from the Department of Human Services' licensing and alternative quality assurance study mandated under Laws 2005, First Special Session chapter 4, article 7, section 57, and presented to the legislature in February 2007.

(c) The disability services eligible under this section include:

The commissioner must not license or reimburse a participating facility, program, or service located in Region 10 if the commissioner has received notification from the host county that the facility, program, or service has failed to qualify for licensure.

(c) The commissioner may conduct random licensing inspections based on outcomes adopted under section 256B.0951, subdivision 3, at facilities or programs, and of services eligible under this section. The role of the random inspections is to verify that the system protects the safety and well-being of persons served and maintains the availability of high-quality services for persons with disabilities.

(d) The commissioner shall ensure that the federal home and community-based waiver requirements are met and that incidents that may have jeopardized safety and health or violated services-related assurances, civil and human rights, and other protections designed to prevent abuse, neglect, and exploitation, are reviewed, investigated, and acted upon in a timely manner.

(e) The commissioner shall seek a federal waiver by July 1, 2012, to allow intermediate care facilities for persons with developmental disabilities to participate in this system.

**Subd. 3. State Quality Council.** (a) There is hereby created a State Quality Council which must define regional quality councils, and carry out a community-based, person-directed quality review component, and a comprehensive system for effective incident reporting, investigation, analysis, and follow-up.

(g) The State Quality Council, in partnership with the commissioner, shall establish an ongoing review process for the system. The review shall take into account the comprehensive nature of the system which is designed to evaluate the broad spectrum of licensed and unlicensed entities that provide services to persons with disabilities. The review shall address efficiencies and effectiveness of the system.

(h) The State Quality Council may recommend to the commissioner certain variances from the standards governing licensure of programs for persons with disabilities in order to improve the quality of services so long as the recommended variances do not adversely affect the health or safety of persons being served or compromise the qualifications of staff to provide services.

(i) The safety standards, rights, or procedural protections referenced under subdivision 2, paragraph (c), shall not be varied. The State Quality Council may make recommendations to the commissioner or to the legislature in the report required under paragraph (c) regarding alternatives or modifications to the safety standards, rights, or procedural protections referenced under subdivision 2, paragraph (c).
