Subdivision 1. **General supervision.** The commissioner shall have general supervision over aeronautics within this state. The commissioner is empowered and directed to encourage, foster, and assist in the development of aeronautics in this state and to encourage the establishment of airports and other air navigation facilities.

Subd. 2. **Cooperation with federal and other agencies.** (a) The commissioner shall cooperate with and assist the federal government, the municipalities of this state, and others engaged in aeronautics or the promotion of aeronautics and shall seek to coordinate the aeronautical activities of these bodies. To this end, the commissioner is empowered to confer with or to hold joint hearings with any federal aeronautical agency in connection with any matter arising under sections 360.011 to 360.076, or relating to the sound development of aeronautics, and to take advantage of the cooperation, services, records, and facilities of such federal agencies, as fully as may be practicable, in the administration and enforcement of sections 360.011 to 360.076. The commissioner shall reciprocate by furnishing cooperation, services, records, and facilities, insofar as may be practicable, to the federal agencies. The commissioner may also contract for the presentation of educational and informational programs that promote safety and interest in aeronautics.

(b) The commissioner shall report to the appropriate federal agency all accidents in aeronautics in this state of which the commissioner is informed. The commissioner shall also preserve, protect, and prevent the removal of the component parts of any aircraft involved in an accident being investigated by the commissioner until a federal agency institutes an investigation. The commissioner shall report the following to the appropriate federal agency:

- (1) all refusals by the commissioner to register federal licenses, certificates, or permits;
- (2) all revocations of certificates of registration, and the reasons therefor; and
- (3) all penalties of which the commissioner has knowledge imposed upon airmen for violations of the laws of this state relating to aeronautics or violations of the rules or orders of the commissioner.

Subd. 3. **Rules.** The commissioner may perform such acts, issue and amend such orders, and make, promulgate, and amend such reasonable general or special rules and procedure and establish such minimum standards, consistent with the provisions of sections 360.011 to 360.076, as the commissioner shall deem necessary to carry out the provisions of sections 360.011 to 360.076, and to perform duties thereunder: all commensurate with and for the purpose of protecting and insuring the general public interest and safety, the safety of persons receiving instruction concerning, or operating, using, or traveling in, aircraft, and of persons and property on land or water, and to develop and promote aeronautics in this state. No rule of the commissioner shall apply to airports or other air navigation facilities owned or controlled by the federal government within this state.

Whenever valid rules of the commissioner and rules and regulations of a municipality are inconsistent, the rules of the commissioner shall control and the rules and regulations of the municipality are void insofar as they are inconsistent with the rules of the commissioner. Nothing herein contained shall be construed to limit the right of a metropolitan airports commission created under Laws 1943, chapter 500, as amended, to make its own rules and regulations governing the internal administrative operations of an airport owned or operated by it as distinguished from rules governing flight and flight operations promulgated by the commissioner in the interests of safety.

Subd. 4. **Conformity with federal regulations.** All rules adopted by the commissioner under the authority of sections 360.011 to 360.076, shall be kept in conformity, as nearly as may be, with the then-current federal legislation governing aeronautics and the regulations duly promulgated thereunder and the rules and standards issued from time to time pursuant thereto.

The commissioner may make a charge for these sufficient to cover the cost of printing or reproduction. The system shall be supplementary to and coordinated in design and operation with the federal airways system. It may include all types of air navigation facilities which conform to federal safety standards.

Subd. 7. **Technical services to municipality.** The commissioner may, insofar as is reasonably possible, offer the engineering or other technical services of the department, at mutually agreed terms, to any municipality desiring them in connection with the planning, acquisition, construction, maintenance, zoning, or operation or proposed planning, acquisition, construction, maintenance, zoning, or operation of an airport or restricted landing area.

Subd. 8. **Legislation recommendations.** The commissioner may draft and recommend necessary legislation to advance the interests of the state in aeronautics and represent the state in aeronautical matters before federal agencies and other state agencies.

Subd. 9. **Participation in legal proceeding.** The commissioner may participate as party plaintiff or defendant, or as intervenor, on behalf of the state or any municipality, or resident thereof, in any controversy having to do with any claimed encroachment by the federal government or any foreign state upon any state or individual rights pertaining to aeronautics.

Municipalities are authorized to cooperate with the commissioner in the development of aeronautics and aeronautics facilities in this state. The commissioner may use the facilities and services of other agencies of the state to the utmost extent possible, and such agencies are authorized and directed to make available such facilities and services.

Subd. 11. **Investigation and hearing.** The commissioner, the commissioner's assistant, or any employee of the department designated by the commissioner shall have the power to

hold investigations, inquiries, and hearings concerning matters covered by the provisions of sections 360.011 to 360.076, and orders and rules of the commissioner and concerning accidents in aeronautics within this state. All hearings so conducted shall be open to the public. The commissioner, the commissioner's assistant, and every employee of the department designated by the commissioner to hold any inquiry, investigations, or hearing shall have power to administer oaths and affirmations, certify to all official acts, issue subpoenas, and compel the attendance and testimony of witnesses and the production of papers, books, and documents. In case an aircraft's pilot in command or the copilot are killed in an aeronautical accident, and if such death occurs within four hours after said accident, then and in such cases the coroner or other official performing like function shall examine the body and shall make such tests as are necessary to determine the presence and percentage concentration of alcohol, drugs, and carbon monoxide, if feasible, in the blood of the victim. This information shall be included in a report submitted to the Department of Transportation and shall be tabulated on an annual basis by the department. This information transmitted to the department may be used only for statistical purposes by the department which do not reveal the identity of the deceased.

The provisions hereof shall not be construed to limit the authority otherwise conferred by law on the coroner.

Subd. 12. Report of investigation; limitations on use. In order to facilitate the making of investigations by the commissioner, in the interest of public safety and promotion of aeronautics, the public interest requires, and it is therefor provided, that the reports of investigations or hearings, or any part thereof, shall not be admitted in evidence or used for any purpose in any suit, action, or proceeding growing out of any matter referred to in said investigation, hearing, or report thereof, except in case of criminal or other proceedings instituted in behalf of the commissioner of this state under the provisions of sections 360.011 to 360.076, and other laws of this state relating to aeronautics, nor shall the commissioner, the commissioner's assistant, or any employee of the department be required to testify to any facts ascertained in, or information gained by reason of, official capacity, or be required to testify as an expert witness in any suit, action, or proceeding involving any aircraft.
