86B.805 ENFORCEMENT WATERCRAFT.

Subdivision 1. **Water safety enforcement watercraft.** Watercraft used primarily for enforcement shall be marked to be visible from both sides of the watercraft. The markings shall at a minimum identify the operating agency and be of a contrasting color to the background. Lettering used for identification, other than that used in an agency symbol, shall be of block character and not less than three inches in height.

- Subd. 2. **Game and fish enforcement watercraft.** Watercraft that are used primarily for enforcement of game and fish laws, when coincidentally enforcing this section, shall either be marked through the flying of a pennant of a size and marking prescribed by the commissioner or through marking of the watercraft itself under this section.
- Subd. 3. **Exemptions for enforcement watercraft.** The restrictions on hours and location of operation in this chapter do not apply to emergency, safety, and enforcement watercraft.
