

INDEX

The index to Minnesota Statutes 2013 Supplement includes references to general and permanent laws passed in the 2012 First Special Session and 2013 Regular Session. References in the index are to statutory section numbers.

For newly enacted statutory sections, the supplement index coverage is complete. For amended statutory sections, a reference is included in the supplement only if the existing references in the statute index needed changes or additions to cover the amendments. Thus the user should always begin an index search with the main index volumes.

See the user's guide at the beginning of each volume for more information about the statutes index.
