

353.01 DEFINITIONS.

Subdivision 1. **Terms.** Unless the language or context clearly indicates that a different meaning is intended, each of the following terms, for the purposes of this chapter, has the meaning given it.

Subd. 2. **Public employee.** "Public employee" means a governmental employee or a public officer performing personal services for a governmental subdivision defined in subdivision 6, whose salary is paid, in whole or in part, from revenue derived from taxation, fees, assessments, or from other sources. For purposes of membership in the association, the term includes the classes of persons listed in subdivision 2a and excludes the classes of persons listed in subdivision 2b. Subd. 2a. **Included employees; mandatory membership.** (a) Public employees whose annual salary from one governmental subdivision is stipulated in advance to exceed \$5,100 if the person is not a school year employee or \$3,800 if the person is a school year employee and who are not specifically excluded under subdivision 2b or who have not been provided an option to participate under subdivision 2d, whether individually or by action of the governmental subdivision, must participate as members of the association with retirement coverage by the general employees retirement plan under this chapter, the public employees police and fire retirement plan under this chapter, or the local government correctional employees retirement plan under chapter 353E, whichever applies. Subd. 13. [Repealed, 1963 c 641 s 38]

Subd. 14. **Actuarial equivalent.** (a) "Actuarial equivalent" means the condition of one annuity or benefit having an equal actuarial present value as another annuity or benefit, determined as of a given date with each actuarial present value based on the appropriate mortality table adopted by the board of trustees based on the experience of the fund as recommended by the actuary retained under section 356.214, and approved under section 356.215, subdivision 18, and using the applicable preretirement or postretirement interest rate assumption specified in section 356.215, subdivision 8.

(b) For purposes of computing a joint and survivor annuity, the postretirement interest rate assumption specified in section 356.461 must be used rather than the postretirement interest rate specified in section 356.215, subdivision 8.

[See Note.]

Subd. 15. **Dependent child.** For the purpose of survivor benefit eligibility under sections 353.31, subdivision 1, and 353.657, subdivision 3, "dependent child" means a biological or adopted child of a deceased member who is unmarried, and under the age of 18, or age 18 to 23, so long as the child submits evidence of full-time enrollment in an accredited educational institution. "Dependent child" also includes a child of the member conceived during the member's lifetime and born after the member's death. It also means a dependent child who is the subject of adoption proceedings filed by a member, and who within two years after death of the member, by judgment and decree duly entered, is adjudged to be the adopted child of the deceased member; subject, however, to the qualifying conditions of age and dependency under this subdivision. The dependency of the child dates from the decree of adoption. "Dependent child" also includes

a child age 18 to 23 who had submitted evidence of full-time enrollment in an accredited educational institution but was determined to be medically unable to continue school on a full-time basis. The board of trustees shall adopt written procedures to make determinations regarding eligibility based on a student being medically unable to continue school, and may not continue a benefit for medical reasons for a period greater than one year.

Subd. 15a. **Dependent child.** For the purpose of survivor benefit eligibility under section 353.32, subdivision 1c, "dependent child" means any biological or adopted child of a deceased member who has not reached the age of 20 and is dependent for more than one-half of support upon the member. It also includes any child of the member conceived during the member's lifetime and born after the member's death.

Subd. 16. **Allowable service; limits and computation.** (a) "Allowable service" means:

(1) service during years of actual membership in the course of which employee deductions were withheld from salary and contributions were made at the applicable rates under section 353.27, 353.65, or 353E.03;

(2) periods of service covered by payments in lieu of salary deductions under sections 353.27, subdivision 12, and 353.35;

(3) service in years during which the public employee was not a member but for which the member later elected, while a member, to obtain credit by making payments to the fund as permitted by any law then in effect;

(4) a period of authorized leave of absence with pay from which deductions for employee contributions are made, deposited, and credited to the fund;

(5) a period of authorized personal, parental, or medical leave of absence without pay, including a leave of absence covered under the federal Family Medical Leave Act, that does not exceed one year, and for which a member obtained service credit for each month in the leave period by payment under section 353.0161 to the fund made in place of salary deductions. An employee must return to public service and render a minimum of three months of allowable service in order to be eligible to make payment under section 353.0161 for a subsequent authorized leave of absence without pay. Upon payment, the employee must be granted allowable service credit for the purchased period;

(6) a periodic, repetitive leave that is offered to all employees of a governmental subdivision. The leave program may not exceed 208 hours per annual normal work cycle as certified to the association by the employer. A participating member obtains service credit by making employee contributions in an amount or amounts based on the member's average salary, excluding overtime pay, that would have been paid if the leave had not been taken. The employer shall pay the employer and additional employer contributions on behalf of the participating member. The employee and the employer are responsible to pay interest on their respective shares at the rate of 8.5 percent a year, compounded annually, from the end of the normal cycle until full payment is made. An employer shall also make the employer and additional employer contributions, plus 8.5 percent interest, compounded annually, on behalf of an employee who makes employee contributions but terminates public service. The employee contributions must be made within one year after the end of the annual normal working cycle or within 30 days after termination of public service, whichever is sooner. The executive director shall prescribe the manner and forms to be used by a governmental subdivision in administering a periodic, repetitive leave. Upon payment, the member must be granted allowable service credit for the purchased period;

(7) an authorized temporary or seasonal layoff under subdivision 12, limited to three months allowable service per authorized temporary or seasonal layoff in one calendar year. An employee who has received

the maximum service credit allowed for an authorized temporary or seasonal layoff must return to public service and must obtain a minimum of three months of allowable service subsequent to the layoff in order to receive allowable service for a subsequent authorized temporary or seasonal layoff;

(8) a period during which a member is absent from employment by a governmental subdivision by reason of service in the uniformed services, as defined in United States Code, title 38, section 4303(13), if the member returns to public service with the same governmental subdivision upon discharge from service in the uniformed service within the time frames required under United States Code, title 38, section 4312(e), provided that the member did not separate from uniformed service with a dishonorable or bad conduct discharge or under other than honorable conditions. The service must be credited if the member pays into the fund equivalent employee contributions based upon the contribution rate or rates in effect at the time that the uniformed service was performed multiplied by the full and fractional years being purchased and applied to the annual salary rate. The annual salary rate is the average annual salary during the purchase period that the member would have received if the member had continued to be employed in covered employment rather than to provide uniformed service, or, if the determination of that rate is not reasonably certain, the annual salary rate is the member's average salary rate during the 12-month period of covered employment rendered immediately preceding the period of the uniformed service. Payment of the member equivalent contributions must be made during a period that begins with the date on which the individual returns to public employment and that is three times the length of the military leave period, or within five years of the date of discharge from the military service, whichever is less. If the determined payment period is less than one year, the contributions required under this clause to receive service credit may be made within one year of the discharge date. Payment may not be accepted following 30 days after termination of public service under subdivision 11a. If the member equivalent contributions provided for in this clause are not paid in full, the member's allowable service credit must be prorated by multiplying the full and fractional number of years of uniformed service eligible for purchase by the ratio obtained by dividing the total member contributions received by the total member contributions otherwise required under this clause. The equivalent employer contribution, and, if applicable, the equivalent additional employer contribution must be paid by the governmental subdivision employing the member if the member makes the equivalent employee contributions. The employer payments must be made from funds available to the employing unit, using the employer and additional employer contribution rate or rates in effect at the time that the uniformed service was performed, applied to the same annual salary rate or rates used to compute the equivalent member contribution. The governmental subdivision involved may appropriate money for those payments. The amount of service credit obtainable under this section may not exceed five years unless a longer purchase period is required under United States Code, title 38, section 4312. The employing unit shall pay interest on all equivalent member and employer contribution amounts payable under this clause. Interest must be computed at a rate of 8.5 percent compounded annually from the end of each fiscal year of the leave or the break in service to the end of the month in which the payment is received. Upon payment, the employee must be granted allowable service credit for the purchased period; or

(9) a period specified under section 353.0162.

(b) For calculating benefits under sections 353.30, 353.31, 353.32, and 353.33 for state officers and employees displaced by the Community Corrections Act, chapter 401, and transferred into county service under section 401.04, "allowable service" means the combined years of allowable service as defined in paragraph (a), clauses (1) to (6), and section 352.01, subdivision 11.

(c) No member may receive more than 12 months of allowable service credit in a year either for vesting purposes or for benefit calculation purposes. For an active member who was an active member of the former Minneapolis Firefighters Relief Association on December 29, 2011, "allowable service" is the period of

service credited by the Minneapolis Firefighters Relief Association as reflected in the transferred records of the association up to December 30, 2011, and the period of service credited under paragraph (a), clause (1), after December 30, 2011. For an active member who was an active member of the former Minneapolis Police Relief Association on December 29, 2011, "allowable service" is the period of service credited by the Minneapolis Police Relief Association as reflected in the transferred records of the association up to December 30, 2011, and the period of service credited under paragraph (a), clause (1), after December 30, 2011.

Subd. 17a. **Average salary.** (a) "Average salary," unless otherwise specified, means an amount equivalent to the average of the highest salary of the member, police officer, or firefighter, whichever applies, upon which employee contributions were paid for any five successive years of allowable service, based on dates of salary periods as listed on salary deduction reports. "Average salary" includes the salary of the employee during the period of covered employment rendered after reaching the allowable service credit limit of section 353.651, subdivision 3, paragraph (b). Average salary must be based upon all allowable service if this service is less than five years.

(b) "Average salary" may not include any reduced salary paid during a period in which the employee is entitled to benefit payments from workers' compensation for temporary disability, unless the average salary is higher, including this period.

(c) "Average salary," for purposes of calculating benefits for a surviving spouse or dependent children under section 353.657, subdivision 2 or 3, means the average of the full-time monthly base salary rate in effect during the last six months of allowable service. If the employment during the last six months of allowable service was part time, the average salary must be prorated based on the actual number of hours worked.

Subd. 18. **Year of allowable service.** "Year of allowable service" means any 12 calendar months not necessarily consecutive in which a public employee received compensation from the governmental subdivision or was eligible to credit for service. It also means 12 months credit each year for employees who are paid on a yearly basis and who may or may not receive compensation in every calendar month in the year.

Subd. 19. **Total and permanent disability.** "Total and permanent disability" means the inability to engage in any substantial gainful activity by reason of any medically determinable physical or mental impairment which can be expected to be of long-continued and indefinite duration. This date determines the rights under this chapter which occur either before or after retirement. A right to retirement is subject to termination of public service under subdivision 11a. A right to retirement requires a complete and continuous separation for 30 days from employment as a public employee and from the provision of paid services to that employer.

(b) An individual who separates from employment as a public employee and who, within 30 days of separation, returns to provide service to a governmental subdivision as an independent contractor or as an employee of an independent contractor, has not satisfied the separation requirements under paragraph (a).

(c) Notwithstanding the 30-day separation requirement under paragraph (a), a member of a defined benefit plan under this chapter, who also participates in the public employees defined contribution plan under chapter 353D for other public service, may be paid, if eligible, a retirement annuity from the defined benefit plan while participating in the defined contribution plan. A retirement annuity is also payable from a defined benefit plan under this chapter to an eligible member who terminates public service and who, within 30 days of separation, takes office as an elected official of a governmental subdivision.

(d) Elected officials included in association membership under subdivisions 2a and 2d meet the 30-day separation requirement under this section by resigning from office before filing for a subsequent term in the same office and by remaining completely and continuously separated from that office for 30 days prior to the date of the election.

A beneficiary designation is valid if it is made in the form prescribed by the executive director and is received by the association on or before the date of death of the member or former member. Subd. 42. **Less frequent duties.** "Less frequent duties" means tasks which are designated in the applicant's job description as either required from time to time or as assigned, but which are not carried out as part of the normal routine of the applicant's job.

Subd. 43. **Line of duty death.** "Line of duty death" means a death that occurs while performing or as a direct result of performing normal or less frequent duties which are specific to protecting the property and personal safety of others and that present inherent dangers that are specific to the positions covered by the public employees police and fire plan.
