MINNESOTA STATUTES 2014

290C.01 PURPOSE.

It is the policy of this state to promote sustainable forest resource management on the state's public and private lands. Recognizing that private forests comprise approximately one-half of the state forest land resources, that healthy and robust forest land provides significant benefits to the state of Minnesota, and that ad valorem property taxes represent a significant annual cost that can discourage long-term forest management investments, this chapter, hereafter referred to as the "Sustainable Forest Incentive Act," is enacted to encourage the state's private forest landowners to make a long-term commitment to sustainable forest management.
