Subdivision 1. **General exchange provisions.** (a) Any Class A land may, with the unanimous approval of the board, be exchanged for any publicly held or privately owned land in the manner and subject to the conditions herein prescribed. Class A land may be exchanged only if it meets the requirements of subdivision 3 or 5.

(b) The commissioner, with the approval of the board, shall formulate general programs of exchange of Class A land designed to serve the best interests of the state in the acquisition, development, and use of lands for purposes within the province of the Department of Natural Resources.

Subd. 2. **Lands devoted to specific public use.** Except as herein expressly prohibited, Class A land may be exchanged, though devoted to a specific public use, if the use is discretionary and the authority in charge thereof shall approve the exchange, or if the commissioner, with the approval of the board, shall determine that the exchange will not materially curtail the activity or project for which the land is used; provided, that exchanges of land belonging to any state forest, game preserve, conservation area, or other territory designated by law for particular purposes shall be made so as to consolidate or fill out the state's holdings of land therein, and not materially to reduce the same.

Subd. 2a. **Valuation of land.** The commissioner shall cause the state land and the land proposed to be exchanged therefor to be examined and value determined as provided in section 84.0272; provided, that in exchanges with the United States or any agency thereof the examination and value determination may be made in the manner as the Land Exchange Board may direct. The determined values shall not be conclusive, but shall be taken into consideration by the commissioner and the board, together with such other matters as they deem material, in determining the values for the purposes of exchange.

Subd. 3. **Exchanging land of substantially equal value or lower value.** (a) Except as otherwise provided, Class A land shall be exchanged only for land of at least substantially equal value to the state, as determined by the commissioner, with the approval of the board.

(2) in other cases, the values of the exchanged lands do not differ by more than 20 percent.

(c) Other than school trust land, Class A land may be exchanged for land of lesser value if the other party to the exchange pays to the state the amount of the difference in value. Money received by the commissioner in such cases shall be credited to the same fund as in the case of sale of the land, if such a fund exists, otherwise to the special fund, if any, from which the cost of the land was paid, otherwise to the general fund.

Subd. 4. **Reservations.** There shall be reserved to the state in all Class A land conveyed in exchange all mineral and water power rights and such other rights and easements as the commissioner, with the approval of the board, shall direct. All Class A land which at the time of exchange is subject to the provisions of section 103G.545 shall remain subject thereto as a condition of the exchange, and all land received by the state in exchange for Class A land within the area to which those provisions apply shall become subject thereto. Land may be received in exchange subject to any mineral reservations or other reservations thereon. All such reservations and conditions shall be taken into consideration in determining the value of the lands exchanged.

Subd. 5. **Exchanging land of greater value.** Class A land may be exchanged for land of greater value if the other party to the exchange shall waive payment for the difference or if there is an appropriation available for the acquisition of such land from which the difference may be paid.
