

216C.413 "MADE IN MINNESOTA" SOLAR ENERGY PRODUCTION INCENTIVE; QUALIFICATION.

Subdivision 1. **Application.** A manufacturer of solar photovoltaic modules seeking to qualify those modules as eligible to receive the "Made in Minnesota" solar energy production incentive must submit an application to the commissioner of commerce on a form prescribed by the commissioner. The application must contain:

(1) a technical description of the solar photovoltaic module and the processes used to manufacture it, excluding proprietary details;

(2) documentation that the solar photovoltaic module meets all the required applicable parts of the "Made in Minnesota" definition in section 216C.411, including evidence of the UL 1703 right to mark for all solar photovoltaic modules seeking to qualify as "Made in Minnesota";

(3) any additional nonproprietary information requested by the commissioner of commerce; and

(4) certification signed by the chief executive officer of the manufacturing company attesting to the truthfulness of the contents of the application and supporting materials under penalty of perjury.

Subd. 2. **Certification.** If the commissioner determines that a manufacturer's solar photovoltaic module meets the definition of "Made in Minnesota" in section 216C.411, the commissioner shall issue the manufacturer a "Made in Minnesota" certificate containing the name and model numbers of the certified solar photovoltaic modules and the date of certification. The commissioner must issue or deny the issuance of a certificate within 90 days of receipt of a completed application. A copy of the certificate must be provided to each purchaser of the solar photovoltaic module.

Subd. 3. **Revocation of certification.** The commissioner may revoke a certification of a module as "Made in Minnesota" if the commissioner finds that the module no longer meets the requirements to be certified. The revocation does not affect incentive payments awarded prior to the revocation.
