

**256B.431 RATE DETERMINATION.**

Subdivision 1. **In general.** The commissioner shall determine prospective payment rates for resident care costs. For rates established on or after July 1, 1985, the commissioner shall develop procedures for determining operating cost payment rates that take into account the mix of resident needs, geographic location, and other factors as determined by the commissioner. The commissioner shall consider whether the fact that a facility is attached to a hospital or has an average length of stay of 180 days or less should be taken into account in determining rates. The commissioner shall consider the use of the standard metropolitan statistical areas when developing groups by geographic location. The commissioner shall provide notice to each nursing facility on or before August 15 of the rates effective for the following rate year except that if legislation is pending on August 15 that may affect rates for nursing facilities, the commissioner shall set the rates after the legislation is enacted and provide notice to each facility as soon as possible.

Compensation for top management personnel shall continue to be categorized as a general and administrative cost and is subject to any limits imposed on that cost category.

Subd. 2. [Repealed, 2000 c 449 s 15]

Subd. 2a. [Repealed, 2000 c 449 s 15]

Subd. 2b. **Operating costs after July 1, 1985.** (a) For rate years beginning on or after July 1, 1985, the commissioner shall establish procedures for determining per diem reimbursement for operating costs.

(b) The commissioner shall contract with an econometric firm with recognized expertise in and access to national economic change indices that can be applied to the appropriate cost categories when determining the operating cost payment rate.

(c) The commissioner shall analyze and evaluate each nursing facility's cost report of allowable operating costs incurred by the nursing facility during the reporting year immediately preceding the rate year for which the payment rate becomes effective.

(d) The commissioner shall establish limits on actual allowable historical operating cost per diems based on cost reports of allowable operating costs for the reporting year that begins October 1, 1983, taking into consideration relevant factors including resident needs, geographic location, and size of the nursing facility. In developing the geographic groups for purposes of reimbursement under this section, the commissioner shall ensure that nursing facilities in any county contiguous to the Minneapolis-St. Paul seven-county metropolitan area are included in the same geographic group. The limits established by the commissioner shall not be less, in the aggregate, than the 60th percentile of total actual allowable historical operating cost per diems for each group of nursing facilities established under subdivision 1 based on cost reports of allowable operating costs in the previous reporting year. For rate years beginning on or after July 1, 1989, facilities located in geographic group I as described in Minnesota Rules, part 9549.0052, on January 1, 1989, may choose to have the commissioner apply either the care related limits or the other operating cost limits calculated for facilities located in geographic group II, or both, if either of the limits calculated for the group II facilities is higher. The efficiency incentive for geographic group I nursing facilities must be calculated based on geographic group I limits. The phase-in must be established utilizing the chosen limits. For purposes of these exceptions to the geographic grouping requirements, the definitions in Minnesota Rules, parts 9549.0050 to 9549.0059 (Emergency), and 9549.0010 to 9549.0080, apply. The limits established under this paragraph remain in effect until the commissioner establishes a new base period. Until the new base period is established, the commissioner shall adjust the limits annually using the appropriate economic change indices established in paragraph (e). In determining allowable historical

operating cost per diems for purposes of setting limits and nursing facility payment rates, the commissioner shall divide the allowable historical operating costs by the actual number of resident days, except that where a nursing facility is occupied at less than 90 percent of licensed capacity days, the commissioner may establish procedures to adjust the computation of the per diem to an imputed occupancy level at or below 90 percent. The commissioner shall establish efficiency incentives as appropriate. The commissioner may establish efficiency incentives for different operating cost categories. The commissioner shall consider establishing efficiency incentives in care related cost categories. The commissioner may combine one or more operating cost categories and may use different methods for calculating payment rates for each operating cost category or combination of operating cost categories. For the rate year beginning on July 1, 1985, the commissioner shall:

(1) allow nursing facilities that have an average length of stay of 180 days or less in their skilled nursing level of care, 125 percent of the care related limit and 105 percent of the other operating cost limit established by rule; and

(2) exempt nursing facilities licensed on July 1, 1983, by the commissioner to provide residential services for the physically disabled under Minnesota Rules, parts 9570.2000 to 9570.3600, from the care related limits and allow 105 percent of the other operating cost limit established by rule.

For the purpose of calculating the other operating cost efficiency incentive for nursing facilities referred to in clause (1) or (2), the commissioner shall use the other operating cost limit established by rule before application of the 105 percent.

(e) The commissioner shall establish a composite index or indices by determining the appropriate economic change indicators to be applied to specific operating cost categories or combination of operating cost categories.

(f) Each nursing facility shall receive an operating cost payment rate equal to the sum of the nursing facility's operating cost payment rates for each operating cost category. The operating cost payment rate for an operating cost category shall be the lesser of the nursing facility's historical operating cost in the category increased by the appropriate index established in paragraph (e) for the operating cost category plus an efficiency incentive established pursuant to paragraph (d) or the limit for the operating cost category increased by the same index. If a nursing facility's actual historic operating costs are greater than the prospective payment rate for that rate year, there shall be no retroactive cost settle up. In establishing payment rates for one or more operating cost categories, the commissioner may establish separate rates for different classes of residents based on their relative care needs.

(g) The commissioner shall include the reported actual real estate tax liability or payments in lieu of real estate tax of each nursing facility as an operating cost of that nursing facility. Allowable costs under this subdivision for payments made by a nonprofit nursing facility that are in lieu of real estate taxes shall not exceed the amount which the nursing facility would have paid to a city or township and county for fire, police, sanitation services, and road maintenance costs had real estate taxes been levied on that property for those purposes. For rate years beginning on or after July 1, 1987, the reported actual real estate tax liability or payments in lieu of real estate tax of nursing facilities shall be adjusted to include an amount equal to one-half of the dollar change in real estate taxes from the prior year. The commissioner shall include a reported actual special assessment, and reported actual license fees required by the Minnesota Department of Health, for each nursing facility as an operating cost of that nursing facility. For rate years beginning on or after July 1, 1989, the commissioner shall include a nursing facility's reported Public Employee Retirement Act contribution for the reporting year as apportioned to the care-related operating cost categories and other

operating cost categories multiplied by the appropriate composite index or indices established pursuant to paragraph (e) as costs under this paragraph. Total adjusted real estate tax liability, payments in lieu of real estate tax, actual special assessments paid, the indexed Public Employee Retirement Act contribution, and license fees paid as required by the Minnesota Department of Health, for each nursing facility (1) shall be divided by actual resident days in order to compute the operating cost payment rate for this operating cost category, (2) shall not be used to compute the care-related operating cost limits or other operating cost limits established by the commissioner, and (3) shall not be increased by the composite index or indices established pursuant to paragraph (e), unless otherwise indicated in this paragraph.

Subd. 2c. [Repealed, 2012 c 216 art 9 s 38]

Subd. 2d. **Cost report or audit.** If an annual cost report or field audit indicates that expenditures for direct resident care have been reduced in amounts large enough to indicate a possible detrimental effect on the quality of care, the commissioner shall notify the commissioner of health and the interagency long-term care planning committee. If a field audit reveals that unallowable expenditures have been included in the nursing facility's historical operating costs, the commissioner shall disallow the expenditures and recover the entire overpayment. The commissioner shall establish, by rule, procedures for assessing an interest charge at the rate determined for unpaid taxes or penalties under section 270C.40 on any outstanding balance resulting from an overpayment or underpayment.

Subd. 2e. **Contracts for services for ventilator-dependent persons.** (a) The commissioner may negotiate with a nursing facility eligible to receive medical assistance payments to provide services to a ventilator-dependent person identified by the commissioner according to criteria developed by the commissioner, including:

- (1) nursing facility care has been recommended for the person by a preadmission screening team;
- (2) the person has been hospitalized and no longer requires inpatient acute care hospital services; and
- (3) the commissioner has determined that necessary services for the person cannot be provided under existing nursing facility rates.

The commissioner may negotiate an adjustment to the operating cost payment rate for a nursing facility with a resident who is ventilator-dependent, for that resident. The negotiated adjustment must reflect only the actual additional cost of meeting the specialized care needs of a ventilator-dependent person identified by the commissioner for whom necessary services cannot be provided under existing nursing facility rates and which are not otherwise covered under Minnesota Rules, parts 9549.0010 to 9549.0080 or 9505.0170 to 9505.0475. For persons who are initially admitted to a nursing facility before July 1, 2001, and have their payment rate under this subdivision negotiated after July 1, 2001, the negotiated payment rate must not exceed 200 percent of the highest multiple bedroom payment rate for the facility, as initially established by the commissioner for the rate year for case mix classification K; or, upon implementation of the RUG's-based case mix system, 200 percent of the highest RUG's rate. For persons initially admitted to a nursing facility on or after July 1, 2001, the negotiated payment rate must not exceed 300 percent of the facility's multiple bedroom payment rate for case mix classification K; or, upon implementation of the RUG's-based case mix system, 300 percent of the highest RUG's rate. The negotiated adjustment shall not affect the payment rate charged to private paying residents under the provisions of section 256B.48, subdivision 1.

(b) Effective July 1, 2007, or upon opening a unit of at least ten beds dedicated to care of ventilator-dependent persons in partnership with Mayo Health Systems, whichever is later, the operating payment rates for residents determined eligible under paragraph (a) of a nursing facility in Waseca County that on

February 1, 2007, was licensed for 70 beds and reimbursed under this section, section 256B.434, or section 256B.441, shall be 300 percent of the facility's highest RUG rate.

Subd. 2f. [Repealed, 2000 c 449 s 15]

Subd. 2g. [Repealed, 2012 c 216 art 9 s 38]

Subd. 2h. [Repealed, 2000 c 449 s 15]

Subd. 2i. [Repealed, 2012 c 216 art 9 s 38]

Subd. 2j. [Repealed, 2012 c 216 art 9 s 38]

Subd. 2k. [Repealed, 2012 c 216 art 9 s 38]

Subd. 2l. [Repealed, 2012 c 216 art 9 s 38]

Subd. 2m. [Repealed, 2000 c 449 s 15]

Subd. 2n. **Efficiency incentive reductions for substandard care.** For rate years beginning on or after July 1, 1991, the efficiency incentive established under subdivision 2b, paragraph (d), shall be reduced or eliminated for nursing facilities determined by the commissioner of health under section 144A.10, subdivision 4, to have uncorrected or repeated violations which create a risk to resident care, safety, or rights, except for uncorrected or repeated violations relating to a facility's physical plant. Upon being notified by the commissioner of health of uncorrected or repeated violations, the commissioner of human services shall require the nursing facility to use efficiency incentive payments to correct the violations. The commissioner of human services shall require the nursing facility to forfeit efficiency incentive payments for failure to correct the violations. Any forfeiture shall be limited to the amount necessary to correct the violation.

Subd. 2o. [Repealed, 2012 c 216 art 9 s 38]

Subd. 2p. [Repealed, 2000 c 449 s 15]

Subd. 2q. [Repealed, 2000 c 449 s 15]

Subd. 2r. **Payment restrictions on leave days.** (a) Effective July 1, 1993, the commissioner shall limit payment for leave days in a nursing facility to 79 percent of that nursing facility's total payment rate for the involved resident.

(b) For services rendered on or after July 1, 2003, for facilities reimbursed under this section or section 256B.434, the commissioner shall limit payment for leave days in a nursing facility to 60 percent of that nursing facility's total payment rate for the involved resident.

(c) For services rendered on or after July 1, 2011, for facilities reimbursed under this chapter, the commissioner shall limit payment for leave days in a nursing facility to 30 percent of that nursing facility's total payment rate for the involved resident, and shall allow this payment only when the occupancy of the nursing facility, inclusive of bed hold days, is equal to or greater than 96 percent, notwithstanding Minnesota Rules, part 9505.0415.

Subd. 2s. **Nonallowable cost.** Costs incurred for any activities which are directed at or are intended to influence or dissuade employees in the exercise of their legal rights to freely engage in the process of selecting an exclusive representative for the purpose of collective bargaining with their employer shall not be allowable for purposes of setting payment rates.

Subd. 2t. **Payment limitation.** For services rendered on or after July 1, 2003, for facilities reimbursed under this chapter, the Medicaid program shall only pay a co-payment during a Medicare-covered skilled nursing facility stay if the Medicare rate less the resident's co-payment responsibility is less than the Medicaid RUG-III case-mix payment rate, or, beginning January 1, 2012, the Medicaid RUG-IV case-mix payment rate. The amount that shall be paid by the Medicaid program is equal to the amount by which the Medicaid RUG-III or RUG-IV case-mix payment rate exceeds the Medicare rate less the co-payment responsibility. Health plans paying for nursing home services under section 256B.69, subdivision 6a, may limit payments as allowed under this subdivision.

Subd. 3. [Repealed, 2000 c 449 s 15]

Subd. 3a. **Property-related costs after July 1, 1985.** (a) For rate years beginning on or after July 1, 1985, the commissioner, by permanent rule, shall reimburse nursing facility providers that are vendors in the medical assistance program for the rental use of real estate and depreciable equipment. "Real estate" means land improvements, buildings, and attached fixtures used directly for resident care. "Depreciable equipment" means the standard movable resident care equipment and support service equipment generally used in long-term care facilities.

(b) In developing the method for determining payment rates for the rental use of nursing facilities, the commissioner shall consider factors designed to:

- (1) simplify the administrative procedures for determining payment rates for property-related costs;
- (2) minimize discretionary or appealable decisions;
- (3) eliminate any incentives to sell nursing facilities;
- (4) recognize legitimate costs of preserving and replacing property;
- (5) recognize the existing costs of outstanding indebtedness allowable under the statutes and rules in effect on May 1, 1983;
- (6) address the current value of, if used directly for patient care, land improvements, buildings, attached fixtures, and equipment;
- (7) establish an investment per bed limitation;
- (8) reward efficient management of capital assets;
- (9) provide equitable treatment of facilities;
- (10) consider a variable rate; and
- (11) phase-in implementation of the rental reimbursement method.

(c) For rate years beginning on or after July 1, 1987, a nursing facility which has reduced licensed bed capacity after January 1, 1986, shall be allowed to:

- (1) aggregate the applicable investment per bed limits based on the number of beds licensed prior to the reduction; and
- (2) establish capacity days for each rate year following the licensure reduction based on the number of beds licensed on the previous April 1 if the commissioner is notified of the change by April 4. The

notification must include a copy of the delicensure request that has been submitted to the commissioner of health.

(d) For rate years beginning on or after July 1, 1989, the interest expense that results from a refinancing of a nursing facility's demand call loan, when the loan that must be refinanced was incurred before May 22, 1983, is an allowable interest expense if:

(1) the demand call loan or any part of it was in the form of a loan that was callable at the demand of the lender;

(2) the demand call loan or any part of it was called by the lender through no fault of the nursing facility;

(3) the demand call loan or any part of it was made by a government agency operating under a statutory or regulatory loan program;

(4) the refinanced debt does not exceed the sum of the allowable remaining balance of the demand call loan at the time of payment on the demand call loan and refinancing costs;

(5) the term of the refinanced debt does not exceed the remaining term of the demand call loan, had the debt not been subject to an on-call payment demand; and

(6) the refinanced debt is not a debt between related organizations as defined in Minnesota Rules, part 9549.0020, subpart 38.

Subd. 3b. [Repealed, 2000 c 449 s 15]

Subd. 3c. [Repealed, 2012 c 216 art 9 s 38]

Subd. 3d. [Repealed, 2000 c 449 s 15]

Subd. 3e. **Hospital-attached convalescent and nursing care facilities.** If a nonprofit or community-operated hospital and attached convalescent and nursing care facility suspend operation of the hospital, the surviving nursing care facility must be allowed to continue its status as a hospital-attached convalescent and nursing care facility for reimbursement purposes in five subsequent rate years. In the fourth year the facility shall receive 60 percent of the difference between the hospital-attached limit and the freestanding nursing facility limit, and in the fifth year the facility shall receive 30 percent of the difference.

Subd. 3f. **Property costs after July 1, 1988.** (a) For the rate year beginning July 1, 1988, the replacement-cost-new per bed limit must be \$32,571 per licensed bed in multiple bedrooms and \$48,857 per licensed bed in a single bedroom. For the rate year beginning July 1, 1989, the replacement-cost-new per bed limit for a single bedroom must be \$49,907 adjusted according to Minnesota Rules, part 9549.0060, subpart 4, item A, subitem (1). Beginning January 1, 1990, the replacement-cost-new per bed limits must be adjusted annually as specified in Minnesota Rules, part 9549.0060, subpart 4, item A, subitem (1). Beginning January 1, 1991, the replacement-cost-new per bed limits will be adjusted annually as specified in Minnesota Rules, part 9549.0060, subpart 4, item A, subitem (1), except that the index utilized will be the Bureau of Economic Analysis: Price Indexes for Private Fixed Investments in Structures; Special Care.

(b) For the rate year beginning July 1, 1988, the commissioner shall increase the rental factor as established in Minnesota Rules, part 9549.0060, subpart 8, item A, by 6.2 percent rounded to the nearest 100th percent for the purpose of reimbursing nursing facilities for soft costs and entrepreneurial profits not included in the cost valuation services used by the state's contracted appraisers. For rate years beginning

on or after July 1, 1989, the rental factor is the amount determined under this paragraph for the rate year beginning July 1, 1988.

(c) For rate years beginning on or after July 1, 1988, in order to determine property-related payment rates under Minnesota Rules, part 9549.0060, for all nursing facilities except those whose average length of stay in a skilled level of care within a nursing facility is 180 days or less, the commissioner shall use 95 percent of capacity days. For a nursing facility whose average length of stay in a skilled level of care within a nursing facility is 180 days or less, the commissioner shall use the greater of resident days or 80 percent of capacity days but in no event shall the divisor exceed 95 percent of capacity days.

(d) For rate years beginning on July 1, 1988, and July 1, 1989, the commissioner shall add ten cents per resident per day to each nursing facility's property-related payment rate. The ten-cent property-related payment rate increase is not cumulative from rate year to rate year. For the rate year beginning July 1, 1990, the commissioner shall increase each nursing facility's equipment allowance as established in Minnesota Rules, part 9549.0060, subpart 10, by ten cents per resident per day. For rate years beginning on or after July 1, 1991, the adjusted equipment allowance must be adjusted annually for inflation as in Minnesota Rules, part 9549.0060, subpart 10, item E. For the rate period beginning October 1, 1992, the equipment allowance for each nursing facility shall be increased by 28 percent. For rate years beginning after June 30, 1993, the allowance must be adjusted annually for inflation.

(e) For rate years beginning on or after July 1, 1990, Minnesota Rules, part 9549.0060, subpart 5, item E, shall not apply to outstanding related organization debt incurred prior to May 23, 1983, provided that the debt was an allowable debt under Minnesota Rules, parts 9510.0010 to 9510.0480, the debt is subject to repayment through annual principal payments, and the nursing facility demonstrates to the commissioner's satisfaction that the interest rate on the debt was less than market interest rates for similar arm's-length transactions at the time the debt was incurred. If the debt was incurred due to a sale between family members, the nursing facility must also demonstrate that the seller no longer participates in the management or operation of the nursing facility. Debts meeting the conditions of this paragraph are subject to all other provisions of Minnesota Rules, parts 9549.0010 to 9549.0080.

(f) For rate years beginning on or after July 1, 1990, a nursing facility with operating lease costs incurred for the nursing facility's buildings shall receive its building capital allowance computed in accordance with Minnesota Rules, part 9549.0060, subpart 8. If an operating lease provides that the lessee's rent is adjusted to recognize improvements made by the lessor and related debt, the costs for capital improvements and related debt shall be allowed in the computation of the lessee's building capital allowance, provided that reimbursement for these costs under an operating lease shall not exceed the rate otherwise paid.

**Subd. 3g. Property costs after July 1, 1990, for certain facilities.** (a) For rate years beginning on or after July 1, 1990, nursing facilities that, on or after January 1, 1976, but prior to January 1, 1987, were newly licensed after new construction, or increased their licensed beds by a minimum of 35 percent through new construction, and whose building capital allowance is less than their allowable annual principal and interest on allowable debt prior to the application of the replacement-cost-new per bed limit and whose remaining weighted average debt amortization schedule as of January 1, 1988, exceeded 15 years, must receive a property-related payment rate equal to the greater of their rental per diem or their annual allowable principal and allowable interest without application of the replacement-cost-new per bed limit, divided by their capacity days as determined under Minnesota Rules, part 9549.0060, subpart 11, as modified by subdivision 3f, paragraph (c), for the preceding reporting year, plus their equipment allowance. A nursing facility that is eligible for a property-related payment rate under this subdivision and whose property-related payment rate in a subsequent rate year is its rental per diem must continue to have its property-related

payment rates established for all future rate years based on the rental reimbursement method in Minnesota Rules, part 9549.0060.

The commissioner may require the nursing facility to apply for refinancing as a condition of receiving special rate treatment under this subdivision.

(b) If a nursing facility is eligible for a property-related payment rate under this subdivision, and the nursing facility's debt is refinanced after October 1, 1988, the provisions in paragraphs (1) to (7) also apply to the property-related payment rate for rate years beginning on or after July 1, 1990.

(1) A nursing facility's refinancing must not include debts with balloon payments.

(2) If the issuance costs, including issuance costs on the debt refinanced, are financed as part of the refinancing, the historical cost of capital assets limit in Minnesota Rules, part 9549.0060, subpart 5, item A, subitem (6), includes issuance costs that do not exceed seven percent of the debt refinanced, plus the related issuance costs. For purposes of this paragraph, issuance costs means the fees charged by the underwriter, issuer, attorneys, bond raters, appraisers, and trustees, and includes the cost of printing, title insurance, registration tax, and a feasibility study for the refinancing of a nursing facility's debt. Issuance costs do not include bond premiums or discounts when bonds are sold at other than their par value, points, or a bond reserve fund. To the extent otherwise allowed under this paragraph, the straight-line amortization of the refinancing issuance costs is not an allowable cost.

(3) The annual principal and interest expense payments and any required annual municipal fees on the nursing facility's refinancing replace those of the refinanced debt and, together with annual principal and interest payments on other allowable debts, are allowable costs subject to the limitation on historical cost of capital assets plus issuance costs as limited in paragraph (2), if any.

(4) If the nursing facility's refinancing includes zero coupon bonds, the commissioner shall establish a monthly debt service payment schedule based on an annuity that will produce an amount equal to the zero coupon bonds at maturity. The term and interest rate is the term and interest rate of the zero coupon bonds. Any refinancing to repay the zero coupon bonds is not an allowable cost.

(5) The annual amount of annuity payments is added to the nursing facility's allowable annual principal and interest payment computed in paragraph (3).

(6) The property-related payment rate is equal to the amount in paragraph (5), divided by the nursing facility's capacity days as determined under Minnesota Rules, part 9549.0060, subpart 11, as modified by subdivision 3f, paragraph (c), for the preceding reporting year plus an equipment allowance.

(7) Except as provided in this subdivision, the provisions of Minnesota Rules, part 9549.0060 apply.

Subd. 3h. [Repealed, 2000 c 449 s 15]

Subd. 3i. **Property costs for the rate year beginning July 1, 1990.** Notwithstanding Minnesota Rules, part 9549.0060, subpart 13, item H, the commissioner shall determine property-related payment rates for nursing facilities for the rate year beginning July 1, 1990, as follows:

(a) The property-related payment rate for a nursing facility that qualifies under subdivision 3g is the greater of the rate determined under that subdivision or the rate determined under paragraph (c), (d), or (e), whichever is applicable.

(b) Nursing facilities shall be grouped according to the type of property-related payment rate the commissioner determined for the rate year beginning July 1, 1989. A nursing facility whose property-related payment rate was determined under Minnesota Rules, part 9549.0060, subpart 13, item A (full rental reimbursement), shall be considered group A. A nursing facility whose property-related payment rate was determined under Minnesota Rules, part 9549.0060, subpart 13, item B (phase-down to full rental reimbursement), shall be considered group B. A nursing facility whose property-related payment rate was determined under Minnesota Rules, part 9549.0060, subpart 13, item C or D (phase-up to full rental reimbursement), shall be considered group C.

(c) For the rate year beginning July 1, 1990, a group A nursing facility shall receive its property-related payment rate determined under Minnesota Rules, parts 9549.0010 to 9549.0080, and this section.

(d) For the rate year beginning July 1, 1990, a Group B nursing facility shall receive the greater of 87 percent of the property-related payment rate in effect on July 1, 1989; or the rental per diem rate determined under Minnesota Rules, parts 9549.0010 to 9549.0080, and this section in effect on July 1, 1990; or the sum of 100 percent of the nursing facility's allowable principal and interest expense, plus its equipment allowance multiplied by the resident days for the reporting year ending September 30, 1989, divided by the nursing facility's capacity days as determined under Minnesota Rules, part 9549.0060, subpart 11, as modified by subdivision 3f, paragraph (c); except that the nursing facility's property-related payment rate must not exceed its property-related payment rate in effect on July 1, 1989.

(e) For the rate year beginning July 1, 1990, a group C nursing facility shall receive its property-related payment rate determined under Minnesota Rules, parts 9549.0010 to 9549.0080, and this section, except the rate must not exceed the lesser of its property-related payment rate determined for the rate year beginning July 1, 1989, multiplied by 116 percent or its rental per diem rate determined effective July 1, 1990.

(f) The property-related payment rate for a nursing facility that qualifies for a rate adjustment under Minnesota Rules, part 9549.0060, subpart 13, item G (special reappraisals), shall have the property-related payment rate determined in paragraphs (a) to (e) adjusted according to the provisions in that rule.

(g) Except as provided in subdivision 4, paragraph (f), and subdivision 11, a nursing facility that has a change in ownership or a reorganization of provider entity is subject to the provisions of Minnesota Rules, part 9549.0060, subpart 13, item F.

Subd. 3j. [Repealed, 2000 c 449 s 15]

Subd. 4. [Repealed, 2000 c 449 s 15]

Subd. 5. [Repealed, 2000 c 449 s 15]

Subd. 6. [Repealed, 1991 c 292 art 7 s 26]

Subd. 7. [Repealed, 2000 c 449 s 15]

Subd. 8. [Repealed, 2000 c 449 s 15]

Subd. 9. [Repealed, 2000 c 449 s 15]

Subd. 9a. [Repealed, 2000 c 449 s 15]

Subd. 10. **Property rate adjustments and construction projects.** A nursing facility completing a construction project that is eligible for a rate adjustment under section 256B.434, subdivision 4f, and that was not approved through the moratorium exception process in section 144A.073 must request from the

commissioner a property-related payment rate adjustment. If the request is made within 60 days after the construction project's completion date, the effective date of the rate adjustment is the first of the month following the completion date. If the request is made more than 60 days after the completion date, the rate adjustment is effective on the first of the month following the request. The commissioner shall provide a rate notice reflecting the allowable costs within 60 days after receiving all the necessary information to compute the rate adjustment. No sooner than the effective date of the rate adjustment for the construction project, a nursing facility may adjust its rates by the amount anticipated to be allowed. Any amounts collected from private pay residents in excess of the allowable rate must be repaid to private pay residents with interest at the rate used by the commissioner of revenue for the late payment of taxes and in effect on the date the rate increase is effective. Construction projects with completion dates within one year of the completion date associated with the property rate adjustment request and phased projects with project completion dates within three years of the last phase of the phased project must be aggregated for purposes of the minimum thresholds in subdivisions 16 and 17, and the maximum threshold in section 144A.071, subdivision 2. "Construction project" and "project construction costs" have the meanings given them in Minnesota Statutes, section 144A.071, subdivision 1a.

Subd. 11. [Repealed, 2012 c 216 art 9 s 38]

Subd. 12. [Repealed, 2000 c 449 s 15]

Subd. 13. **Hold-harmless property-related rates.** (a) Terms used in subdivisions 13 to 21 shall be as defined in Minnesota Rules, parts 9549.0010 to 9549.0080, and this section.

(b) Except as provided in this subdivision, for rate periods beginning on October 1, 1992, and for rate years beginning after June 30, 1993, the property-related rate for a nursing facility shall be the greater of \$4 or the property-related payment rate in effect on September 30, 1992. In addition, the incremental increase in the nursing facility's rental rate will be determined under Minnesota Rules, parts 9549.0010 to 9549.0080, and this section.

(c) Notwithstanding Minnesota Rules, part 9549.0060, subpart 13, item F, a nursing facility that has a sale permitted under subdivision 14 after June 30, 1992, shall receive the property-related payment rate in effect at the time of the sale or reorganization. For rate periods beginning after October 1, 1992, and for rate years beginning after June 30, 1993, a nursing facility shall receive, in addition to its property-related payment rate in effect at the time of the sale, the incremental increase allowed under subdivision 14.

(d) For rate years beginning after June 30, 1993, the property-related rate for a nursing facility licensed after July 1, 1989, after relocating its beds from a separate nursing home to a building formerly used as a hospital and sold during the cost reporting year ending September 30, 1991, shall be its property-related rate prior to the sale in addition to the incremental increases provided under this section effective on October 1, 1992, of 29 cents per day, and any incremental increases after October 1, 1992, calculated by using its rental rate under Minnesota Rules, parts 9549.0010 to 9549.0080, and this section, recognizing the current appraised value of the facility at the new location, and including as allowable debt otherwise allowable debt incurred to remodel the facility in the new location prior to the relocation of beds.

Subd. 14. [Repealed, 2012 c 216 art 9 s 38]

Subd. 15. **Capital repair and replacement cost reporting and rate calculation.** For rate years beginning after June 30, 1993, a nursing facility's capital repair and replacement payment rate shall be established annually as provided in paragraphs (a) to (e).

(a) Notwithstanding Minnesota Rules, part 9549.0060, subpart 12, the costs of any of the following items not included in the equity incentive computations under subdivision 16 or reported as a capital asset addition under subdivision 18, paragraph (b), including cash payment for equity investment and principal and interest expense for debt financing, must be reported in the capital repair and replacement cost category:

- (1) wall coverings;
- (2) paint;
- (3) floor coverings;
- (4) window coverings;
- (5) roof repair; and
- (6) window repair or replacement.

(b) Notwithstanding Minnesota Rules, part 9549.0060, subpart 12, the repair or replacement of a capital asset not included in the equity incentive computations under subdivision 16 or reported as a capital asset addition under subdivision 18, paragraph (b), must be reported under this subdivision when the cost of the item exceeds \$500, or in the plant operations and maintenance cost category when the cost of the item is equal to or less than \$500.

(c) To compute the capital repair and replacement payment rate, the allowable annual repair and replacement costs for the reporting year must be divided by actual resident days for the reporting year. The annual allowable capital repair and replacement costs shall not exceed \$150 per licensed bed. The excess of the allowed capital repair and replacement costs over the capital repair and replacement limit shall be a cost carryover to succeeding cost reporting periods, except that sale of a facility, under subdivision 14, shall terminate the carryover of all costs except those incurred in the most recent cost reporting year. The termination of the carryover shall have effect on the capital repair and replacement rate on the same date as provided in subdivision 14, paragraph (f), for the sale. For rate years beginning after June 30, 1994, the capital repair and replacement limit shall be subject to the index provided in subdivision 3f, paragraph (a). For purposes of this subdivision, the number of licensed beds shall be the number used to calculate the nursing facility's capacity days. The capital repair and replacement rate must be added to the nursing facility's total payment rate.

(d) Capital repair and replacement costs under this subdivision shall not be counted as either care-related or other operating costs, nor subject to care-related or other operating limits.

(e) If costs otherwise allowable under this subdivision are incurred as the result of a project approved under the moratorium exception process in section 144A.073, or in connection with an addition to or replacement of buildings, attached fixtures, or land improvements for which the total historical cost of these assets exceeds the lesser of \$150,000 or ten percent of the nursing facility's appraised value, these costs must be claimed under subdivision 16 or 17, as appropriate.

Subd. 16. **Major additions and replacements; equity incentive.** For rate years beginning after June 30, 1993, if a nursing facility acquires capital assets in connection with a project approved under the moratorium exception process in section 144A.073 or in connection with an addition to or replacement of buildings,

attached fixtures, or land improvements for which the total historical cost of those capital asset additions exceeds the lesser of \$150,000 or ten percent of the most recent appraised value, the nursing facility shall be eligible for an equity incentive payment rate as in paragraphs (a) to (d). This computation is separate from the determination of the nursing facility's rental rate. An equity incentive payment rate as computed under this subdivision is limited to one in a 12-month period.

(a) An eligible nursing facility shall receive an equity incentive payment rate equal to the allowable historical cost of the capital asset acquired, minus the allowable debt directly identified to that capital asset, multiplied by the equity incentive factor as described in paragraphs (b) and (c), and divided by the nursing facility's occupancy factor under subdivision 3f, paragraph (c). This amount shall be added to the nursing facility's total payment rate and shall be effective the same day as the incremental increase in paragraph (d) or subdivision 17. The allowable historical cost of the capital assets and the allowable debt shall be determined as provided in Minnesota Rules, parts 9549.0010 to 9549.0080, and this section.

(b) The equity incentive factor shall be determined under clauses (1) to (4):

(1) divide the initial allowable debt in paragraph (a) by the initial historical cost of the capital asset additions referred to in paragraph (a), then cube the quotient,

(2) subtract the amount calculated in clause (1) from the number one,

(3) determine the difference between the rental factor and the lesser of two percentage points above the posted yield for standard conventional fixed rate mortgages of the Federal Home Loan Mortgage Corporation as published in the Wall Street Journal and in effect on the first day of the month the debt or cost is incurred, or 16 percent,

(4) multiply the amount calculated in clause (2) by the amount calculated in clause (3).

(c) The equity incentive payment rate shall be limited to the term of the allowable debt in paragraph (a), not greater than 20 years nor less than ten years. If no debt is incurred in acquiring the capital asset, the equity incentive payment rate shall be paid for ten years. The sale of a nursing facility under subdivision 14 shall terminate application of the equity incentive payment rate effective on the date provided in subdivision 14, paragraph (f), for the sale.

(d) A nursing facility with an addition to or a renovation of its buildings, attached fixtures, or land improvements meeting the criteria in this subdivision and not receiving the property-related payment rate adjustment in subdivision 17, shall receive the incremental increase in the nursing facility's rental rate as determined under Minnesota Rules, parts 9549.0010 to 9549.0080, and this section. The incremental increase shall be added to the nursing facility's property-related payment rate. The effective date of this incremental increase shall be the first day of the month following the month in which the addition or replacement is completed.

Subd. 17. **Special provisions for moratorium exceptions.** Notwithstanding Minnesota Rules, part 9549.0060, subpart 3, for rate periods beginning on October 1, 1992, and for rate years beginning after June 30, 1993, a nursing facility that (1) has completed a construction project approved under section 144A.071, subdivision 4a, clause (m); (2) has completed a construction project approved under section 144A.071, subdivision 4a, and effective after June 30, 1995; (3) has completed a construction project approved under section 144A.071, subdivision 4c; or (4) has completed a renovation, replacement, or upgrading project approved under the moratorium exception process in section 144A.073 shall be reimbursed for costs directly identified to that project as provided in subdivision 16 and subdivisions 17 to 17f.

Subd. 17a. **Allowable interest expense.** (a) Notwithstanding Minnesota Rules, part 9549.0060, subparts 5, item A, subitems (1) and (3), and 7, item D, allowable interest expense on debt shall include:

(1) interest expense on debt related to the cost of purchasing or replacing depreciable equipment, excluding vehicles, not to exceed ten percent of the total historical cost of the project; and

(2) interest expense on debt related to financing or refinancing costs, including costs related to points, loan origination fees, financing charges, legal fees, and title searches; and issuance costs including bond discounts, bond counsel, underwriter's counsel, corporate counsel, printing, and financial forecasts. Allowable debt related to items in this clause shall not exceed seven percent of the total historical cost of the project. To the extent these costs are financed, the straight-line amortization of the costs in this clause is not an allowable cost; and

(3) interest on debt incurred for the establishment of a debt reserve fund, net of the interest earned on the debt reserve fund.

(b) Debt incurred for costs under paragraph (a) is not subject to Minnesota Rules, part 9549.0060, subpart 5, item A, subitem (5) or (6).

Subd. 17b. [Repealed, 2012 c 216 art 9 s 38]

Subd. 17c. **Replacement-costs-new per bed limit.** Notwithstanding subdivision 3f, paragraph (a), for rate periods beginning on October 1, 1992, and for rate years beginning after June 30, 1993, the replacement-costs-new per bed limit to be used in Minnesota Rules, part 9549.0060, subpart 4, item B, for a nursing facility that has completed a renovation, replacement, or upgrading project that has been approved under the moratorium exception process in section 144A.073, or that has completed an addition to or replacement of buildings, attached fixtures, or land improvements for which the total historical cost exceeds the lesser of \$150,000 or ten percent of the most recent appraised value, must be \$47,500 per licensed bed in multiple-bed rooms and \$71,250 per licensed bed in a single-bed room. These amounts must be adjusted annually as specified in subdivision 3f, paragraph (a), beginning January 1, 1993.

Subd. 17d. **Determination of rental per diem for total replacement projects.** (a) For purposes of this subdivision, a total replacement means the complete replacement of the nursing facility's physical plant through the construction of a new physical plant, the transfer of the nursing facility's license from one physical plant location to another, or a new building addition to relocate beds from three- and four-bed wards. For total replacement projects completed on or after July 1, 1992, the commissioner shall compute the incremental change in the nursing facility's rental per diem, for rate years beginning on or after July 1, 1995, by replacing its appraised value, including the historical capital asset costs, and the capital debt and interest costs with the new nursing facility's allowable capital asset costs and the related allowable capital debt and interest costs. If the new nursing facility has decreased its licensed capacity, the aggregate investment per bed limit in subdivision 3a, paragraph (c), shall apply.

(b) If the new nursing facility has retained a portion of the original physical plant for nursing facility usage, then a portion of the appraised value prior to the replacement must be retained and included in the calculation of the incremental change in the nursing facility's rental per diem. For purposes of this subdivision, the original nursing facility means the nursing facility prior to the total replacement project. The portion of the appraised value to be retained shall be calculated according to clauses (1) to (3):

(1) The numerator of the allocation ratio shall be the square footage of the area in the original physical plant which is being retained for nursing facility usage.

(2) The denominator of the allocation ratio shall be the total square footage of the original nursing facility physical plant.

(3) Each component of the nursing facility's allowable appraised value prior to the total replacement project shall be multiplied by the allocation ratio developed by dividing clause (1) by clause (2).

(c) In the case of either type of total replacement as authorized under section 144A.071 or 144A.073, the provisions of subdivisions 17 to 17f shall also apply.

(d) For purposes of the moratorium exception authorized under section 144A.071, subdivision 4a, paragraph (s), if the total replacement involves the renovation and use of an existing health care facility physical plant, the new allowable capital asset costs and related debt and interest costs shall include first the allowable capital asset costs and related debt and interest costs of the renovation, to which shall be added the allowable capital asset costs of the existing physical plant prior to the renovation, and if reported by the facility, the related allowable capital debt and interest costs.

Subd. 17e. **Replacement-costs-new per bed limit effective October 1, 2007.** Notwithstanding Minnesota Rules, part 9549.0060, subpart 11, item C, subitem (2), for a total replacement, as defined in subdivision 17d, authorized under section 144A.071 or 144A.073 after July 1, 1999, any building project that is a relocation, renovation, upgrading, or conversion completed on or after July 1, 2001, or any building project eligible for reimbursement under section 256B.434, subdivision 4f, the replacement-costs-new per bed limit shall be \$74,280 per licensed bed in multiple-bed rooms, \$92,850 per licensed bed in semiprivate rooms with a fixed partition separating the resident beds, and \$111,420 per licensed bed in single rooms. Minnesota Rules, part 9549.0060, subpart 11, item C, subitem (2), does not apply. These amounts must be adjusted annually as specified in subdivision 3f, paragraph (a), beginning January 1, 2000. These amounts must be increased annually as specified in subdivision 3f, paragraph (a), beginning October 1, 2012.

Subd. 17f. [Repealed, 2012 c 216 art 9 s 38]

Subd. 18. **Updating appraisals, additions, and replacements.** (a) Notwithstanding Minnesota Rules, part 9549.0060, subparts 1 to 3, the appraised value, routine updating of the appraised value, and special reappraisals are subject to this subdivision.

For all rate years after June 30, 1993, the commissioner shall no longer conduct any appraisals under Minnesota Rules, part 9549.0060, for the purpose of determining property-related payment rates.

(b) Notwithstanding Minnesota Rules, part 9549.0060, subpart 2, for rate years beginning after June 30, 1993, the commissioner shall routinely update the appraised value of each nursing facility by adding the cost of capital asset acquisitions to its allowable appraised value.

The commissioner shall also annually index each nursing facility's allowable appraised value by the inflation index referenced in subdivision 3f, paragraph (a), for the purpose of computing the nursing facility's annual rental rate. In annually adjusting the nursing facility's appraised value, the commissioner must not include the historical cost of capital assets acquired during the reporting year in the nursing facility's appraised value.

In addition, the nursing facility's appraised value must be reduced by the historical cost of capital asset disposals or applicable credits such as public grants and insurance proceeds. Capital asset additions and disposals must be reported on the nursing facility's annual cost report in the reporting year of acquisition or disposal. The incremental increase in the nursing facility's rental rate resulting from this annual adjustment

as determined under Minnesota Rules, parts 9549.0010 to 9549.0080, and this section shall be added to the nursing facility's property-related payment rate for the rate year following the reporting year.

Subd. 19. [Repealed, 2012 c 216 art 9 s 38]

Subd. 20. [Repealed, 2012 c 216 art 9 s 38]

Subd. 21. **Indexing thresholds.** Beginning January 1, 1993, and each January 1 thereafter, the commissioner shall annually update the dollar thresholds in subdivisions 15, paragraph (e), 16, and 17, and in section 144A.071, subdivisions 2 and 4a, clauses (b) and (e), by the inflation index referenced in subdivision 3f, paragraph (a).

Subd. 22. **Changes to nursing facility reimbursement.** The nursing facility reimbursement changes in paragraphs (a) to (d) apply to Minnesota Rules, parts 9549.0010 to 9549.0080, and this section, and are effective for rate years beginning on or after July 1, 1993, unless otherwise indicated.

(a) In addition to the approved pension or profit-sharing plans allowed by the reimbursement rule, the commissioner shall allow those plans specified in Internal Revenue Code, sections 403(b) and 408(k).

(b) The commissioner shall allow as workers' compensation insurance costs under section 256B.421, subdivision 14, the costs of workers' compensation coverage obtained under the following conditions:

(1) a plan approved by the commissioner of commerce as a Minnesota group or individual self-insurance plan as provided in section 79A.03;

(2) a plan in which:

(i) the nursing facility, directly or indirectly, purchases workers' compensation coverage in compliance with section 176.181, subdivision 2, from an authorized insurance carrier;

(ii) a related organization to the nursing facility reinsures the workers' compensation coverage purchased, directly or indirectly, by the nursing facility; and

(iii) all of the conditions in clause (4) are met;

(3) a plan in which:

(i) the nursing facility, directly or indirectly, purchases workers' compensation coverage in compliance with section 176.181, subdivision 2, from an authorized insurance carrier;

(ii) the insurance premium is calculated retrospectively, including a maximum premium limit, and paid using the paid loss retro method; and

(iii) all of the conditions in clause (4) are met;

(4) additional conditions are:

(i) the costs of the plan are allowable under the federal Medicare program;

(ii) the reserves for the plan are maintained in an account controlled and administered by a person which is not a related organization to the nursing facility;

(iii) the reserves for the plan cannot be used, directly or indirectly, as collateral for debts incurred or other obligations of the nursing facility or related organizations to the nursing facility;

(iv) if the plan provides workers' compensation coverage for non-Minnesota nursing facilities, the plan's cost methodology must be consistent among all nursing facilities covered by the plan, and if reasonable, is allowed notwithstanding any reimbursement laws regarding cost allocation to the contrary;

(v) central, affiliated, corporate, or nursing facility costs related to their administration of the plan are costs which must remain in the nursing facility's administrative cost category and must not be allocated to other cost categories;

(vi) required security deposits, whether in the form of cash, investments, securities, assets, letters of credit, or in any other form are not allowable costs for purposes of establishing the facilities payment rate; and

(vii) for the rate year beginning on July 1, 1998, a group of nursing facilities related by common ownership that self-insures workers' compensation may allocate its directly identified costs of self-insuring its Minnesota nursing facility workers among those nursing facilities in the group that are reimbursed under this section or section 256B.434. The method of cost allocation shall be based on the ratio of each nursing facility's total allowable salaries and wages to that of the nursing facility group's total allowable salaries and wages, then similarly allocated within each nursing facility's operating cost categories. The costs associated with the administration of the group's self-insurance plan must remain classified in the nursing facility's administrative cost category. A written request of the nursing facility group's election to use this alternate method of allocation of self-insurance costs must be received by the commissioner no later than May 1, 1998, to take effect July 1, 1998, or such costs shall continue to be allocated under the existing cost allocation methods. Once a nursing facility group elects this method of cost allocation for its workers' compensation self-insurance costs, it shall remain in effect until such time as the group no longer self-insures these costs;

(5) any costs allowed pursuant to clauses (1) to (3) are subject to the following requirements:

(i) if the nursing facility is sold or otherwise ceases operations, the plan's reserves must be subject to an actuarially based settle up after 36 months from the date of sale or the date on which operations ceased. The facility's medical assistance portion of the total excess plan reserves must be paid to the state within 30 days following the date on which excess plan reserves are determined;

(ii) any distribution of excess plan reserves made to or withdrawals made by the nursing facility or a related organization are applicable credits and must be used to reduce the nursing facility's workers' compensation insurance costs in the reporting period in which a distribution or withdrawal is received;

(iii) if reimbursement for the plan is sought under the federal Medicare program, and is audited pursuant to the Medicare program, the nursing facility must provide a copy of Medicare's final audit report, including attachments and exhibits, to the commissioner within 30 days of receipt by the nursing facility or any related organization. The commissioner shall implement the audit findings associated with the plan upon receipt of Medicare's final audit report. The department's authority to implement the audit findings is independent of its authority to conduct a field audit.

(c) In the determination of incremental increases in the nursing facility's rental rate as required in subdivisions 14 to 21, except for a refinancing permitted under subdivision 19, the commissioner must adjust the nursing facility's property-related payment rate for both incremental increases and decreases in recomputations of its rental rate;

(d) A nursing facility's administrative cost limitation must be modified as follows:

(1) if the nursing facility's licensed beds exceed 195 licensed beds, the general and administrative cost category limitation shall be 13 percent;

(2) if the nursing facility's licensed beds are more than 150 licensed beds, but less than 196 licensed beds, the general and administrative cost category limitation shall be 14 percent; or

(3) if the nursing facility's licensed beds is less than 151 licensed beds, the general and administrative cost category limitation shall remain at 15 percent.

(e) For the rate year beginning on July 1, 1998, a group of nursing facilities related by common ownership that self-insures group health, dental, or life insurance may allocate its directly identified costs of self-insuring its Minnesota nursing facility workers among those nursing facilities in the group that are reimbursed under this section or section 256B.434. The method of cost allocation shall be based on the ratio of each nursing facility's total allowable salaries and wages to that of the nursing facility group's total allowable salaries and wages, then similarly allocated within each nursing facility's operating cost categories. The costs associated with the administration of the group's self-insurance plan must remain classified in the nursing facility's administrative cost category. A written request of the nursing facility group's election to use this alternate method of allocation of self-insurance costs must be received by the commissioner no later than May 1, 1998, to take effect July 1, 1998, or those self-insurance costs shall continue to be allocated under the existing cost allocation methods. Once a nursing facility group elects this method of cost allocation for its group health, dental, or life insurance self-insurance costs, it shall remain in effect until such time as the group no longer self-insures these costs.

Subd. 23. [Repealed, 2009 c 79 art 8 s 86]

Subd. 24. [Repealed, 2000 c 449 s 15]

Subd. 25. [Repealed, 2012 c 216 art 9 s 38]

Subd. 26. [Repealed, 2012 c 216 art 9 s 38]

Subd. 27. [Repealed, 2012 c 216 art 9 s 38]

Subd. 28. [Repealed, 2014 c 262 art 4 s 9]

Subd. 29. [Repealed, 2012 c 216 art 9 s 38]

Subd. 30. **Bed layaway and delicensure.** (a) For rate years beginning on or after July 1, 2000, a nursing facility reimbursed under this section which has placed beds on layaway shall, for purposes of application of the downsizing incentive in subdivision 3a, paragraph (c), and calculation of the rental per diem, have those beds given the same effect as if the beds had been delicensed so long as the beds remain on layaway. At the time of a layaway, a facility may change its single bed election for use in calculating capacity days under Minnesota Rules, part 9549.0060, subpart 11. The property payment rate increase shall be effective the first day of the month following the month in which the layaway of the beds becomes effective under section 144A.071, subdivision 4b.

(b) For rate years beginning on or after July 1, 2000, notwithstanding any provision to the contrary under section 256B.434, a nursing facility reimbursed under that section which has placed beds on layaway shall, for so long as the beds remain on layaway, be allowed to:

(1) aggregate the applicable investment per bed limits based on the number of beds licensed immediately prior to entering the alternative payment system;

(2) retain or change the facility's single bed election for use in calculating capacity days under Minnesota Rules, part 9549.0060, subpart 11; and

(3) establish capacity days based on the number of beds immediately prior to the layaway and the number of beds after the layaway.

The commissioner shall increase the facility's property payment rate by the incremental increase in the rental per diem resulting from the recalculation of the facility's rental per diem applying only the changes resulting from the layaway of beds and clauses (1), (2), and (3). If a facility reimbursed under section 256B.434 completes a moratorium exception project after its base year, the base year property rate shall be the moratorium project property rate. The base year rate shall be inflated by the factors in section 256B.434, subdivision 4, paragraph (c). The property payment rate increase shall be effective the first day of the month following the month in which the layaway of the beds becomes effective.

(c) If a nursing facility removes a bed from layaway status in accordance with section 144A.071, subdivision 4b, the commissioner shall establish capacity days based on the number of licensed and certified beds in the facility not on layaway and shall reduce the nursing facility's property payment rate in accordance with paragraph (b).

(d) For the rate years beginning on or after July 1, 2000, notwithstanding any provision to the contrary under section 256B.434, a nursing facility reimbursed under that section, which has delicensed beds after July 1, 2000, by giving notice of the delicensure to the commissioner of health according to the notice requirements in section 144A.071, subdivision 4b, shall be allowed to:

(1) aggregate the applicable investment per bed limits based on the number of beds licensed immediately prior to entering the alternative payment system;

(2) retain or change the facility's single bed election for use in calculating capacity days under Minnesota Rules, part 9549.0060, subpart 11; and

(3) establish capacity days based on the number of beds immediately prior to the delicensure and the number of beds after the delicensure.

The commissioner shall increase the facility's property payment rate by the incremental increase in the rental per diem resulting from the recalculation of the facility's rental per diem applying only the changes resulting from the delicensure of beds and clauses (1), (2), and (3). If a facility reimbursed under section 256B.434 completes a moratorium exception project after its base year, the base year property rate shall be the moratorium project property rate. The base year rate shall be inflated by the factors in section 256B.434, subdivision 4, paragraph (c). The property payment rate increase shall be effective the first day of the month following the month in which the delicensure of the beds becomes effective.

(e) For nursing facilities reimbursed under this section or section 256B.434, any beds placed on layaway shall not be included in calculating facility occupancy as it pertains to leave days defined in Minnesota Rules, part 9505.0415.

(f) For nursing facilities reimbursed under this section or section 256B.434, the rental rate calculated after placing beds on layaway may not be less than the rental rate prior to placing beds on layaway.

(g) A nursing facility receiving a rate adjustment as a result of this section shall comply with section 256B.47, subdivision 2.

(h) A facility that does not utilize the space made available as a result of bed layaway or delicensure under this subdivision to reduce the number of beds per room or provide more common space for nursing facility uses or perform other activities related to the operation of the nursing facility shall have its property rate increase calculated under this subdivision reduced by the ratio of the square footage made available that is not used for these purposes to the total square footage made available as a result of bed layaway or delicensure.

Subd. 31. [Repealed, 2014 c 262 art 4 s 9]

Subd. 32. **Payment during first 30 days.** (a) For rate years beginning on or after July 1, 2011, the total payment rate for a facility reimbursed under this section, section 256B.434, or any other section shall be:

(1) for the first 30 calendar days after admission, the rate shall be 120 percent of the facility's medical assistance rate for each RUG class;

(2) beginning with the 31st calendar day after admission, the payment rate shall be the rate otherwise determined under this section, section 256B.434, or any other section; and

(3) payments under this paragraph apply to admissions occurring on or after July 1, 2011.

(b) The enhanced rates under this subdivision shall not be allowed if a resident has resided during the previous 30 calendar days in:

(1) the same nursing facility;

(2) a nursing facility owned or operated by a related party; or

(3) a nursing facility or part of a facility that closed or was in the process of closing.

Subd. 33. [Repealed, 2014 c 262 art 4 s 9]

Subd. 34. [Repealed, 2014 c 262 art 4 s 9]

Subd. 35. **Exclusion of raw food cost adjustment.** For rate years beginning on or after July 1, 2001, in calculating a nursing facility's operating cost per diem for the purposes of comparing to an array, a median, or other statistical measure of nursing facility payment rates to be used to determine future rate adjustments under this section, section 256B.434, or any other section, the commissioner shall exclude adjustments for raw food costs under subdivision 2b, paragraph (h), that are related to providing special diets based on religious beliefs.

Subd. 36. **Employee scholarship costs and training in English as a second language.** (a) For the period between July 1, 2001, and June 30, 2003, the commissioner shall provide to each nursing facility reimbursed under this section, section 256B.434, or any other section, a scholarship per diem of 25 cents to the total operating payment rate. For the 27-month period beginning October 1, 2015, through December 31, 2017, the commissioner shall allow a scholarship per diem of up to 25 cents for each nursing facility with no scholarship per diem that is requesting a scholarship per diem to be added to the external fixed payment rate to be used:

(1) for employee scholarships that satisfy the following requirements:

(i) scholarships are available to all employees who work an average of at least ten hours per week at the facility except the administrator, and to reimburse student loan expenses for newly hired and recently graduated registered nurses and licensed practical nurses, and training expenses for nursing assistants as

defined in section 144A.611, subdivision 2, who are newly hired and have graduated within the last 12 months; and

(ii) the course of study is expected to lead to career advancement with the facility or in long-term care, including medical care interpreter services and social work; and

(2) to provide job-related training in English as a second language.

(b) All facilities may annually request a rate adjustment under this subdivision by submitting information to the commissioner on a schedule and in a form supplied by the commissioner. The commissioner shall allow a scholarship payment rate equal to the reported and allowable costs divided by resident days.

(c) In calculating the per diem under paragraph (b), the commissioner shall allow costs related to tuition, direct educational expenses, and reasonable costs as defined by the commissioner for child care costs and transportation expenses related to direct educational expenses.

(d) The rate increase under this subdivision is an optional rate add-on that the facility must request from the commissioner in a manner prescribed by the commissioner. The rate increase must be used for scholarships as specified in this subdivision.

(e) For instances in which a rate adjustment will be 15 cents or greater, nursing facilities that close beds during a rate year may request to have their scholarship adjustment under paragraph (b) recalculated by the commissioner for the remainder of the rate year to reflect the reduction in resident days compared to the cost report year.

Subd. 41. [Repealed, 2014 c 262 art 4 s 9]

Subd. 42. **Incentive to establish single-bed rooms.** (a) Beginning July 1, 2005, the operating payment rate for nursing facilities reimbursed under this section, section 256B.434, or 256B.441 shall be increased by 20 percent multiplied by the ratio of the number of new single-bed rooms created divided by the number of active beds on July 1, 2005, for each bed closure that results in the creation of a single-bed room after July 1, 2005. The commissioner may implement rate adjustments for up to 3,000 new single-bed rooms each year. For eligible bed closures for which the commissioner receives a notice from a facility during a calendar quarter that a bed has been delicensed and a new single-bed room has been established, the rate adjustment in this paragraph shall be effective on the first day of the second month following that calendar quarter.

(b) A nursing facility is prohibited from discharging residents for purposes of establishing single-bed rooms. A nursing facility must submit documentation to the commissioner in a form prescribed by the commissioner, certifying the occupancy status of beds closed to create single-bed rooms. In the event that the commissioner determines that a facility has discharged a resident for purposes of establishing a single-bed room, the commissioner shall not provide a rate adjustment under paragraph (a).

(c) If after August 1, 2005, and before December 31, 2007, more than 4,000 nursing home beds are removed from service, a portion of the appropriation for nursing homes shall be transferred to the alternative care program. The amount of this transfer shall equal the number of beds removed from service

less 4,000, multiplied by the average monthly per-person cost for alternative care, multiplied by 12, and further multiplied by 0.3.

Subd. 43. [Repealed, 2014 c 262 art 4 s 9]

Subd. 44. **Property rate increases for certain nursing facilities.** (a) Notwithstanding any other law to the contrary, money available for moratorium projects under section 144A.073, subdivision 11, shall be used, effective November 1, 2010, to fund an approved moratorium exception project for a nursing facility in Bloomington licensed for 137 beds as of November 1, 2010, up to a total property rate adjustment of \$19.33.

(b) Effective June 1, 2012, any nursing facility in McLeod County licensed for 110 beds shall have its replacement-cost-new limit under subdivision 17e adjusted to allow \$1,129,463 of a completed construction project to increase the property payment rate. Notwithstanding any other law to the contrary, money available under section 144A.073, subdivision 11, after the completion of the moratorium exception approval process in 2013 under section 144A.073, subdivision 3, shall be used to reduce the fiscal impact to the medical assistance budget for the increase in the replacement-cost-new limit.

(c) Effective July 1, 2012, any nursing facility in Dakota County licensed for 61 beds shall have their replacement-cost-new limit under subdivision 17e adjusted to allow \$1,407,624 of a completed construction project to increase their property payment rate. Effective September 1, 2013, or later, their replacement-cost-new limit under subdivision 17e shall be adjusted to allow \$1,244,599 of a completed construction project to increase the property payment rate. Notwithstanding any other law to the contrary, money available under section 144A.073, subdivision 11, after the completion of the moratorium exception approval process in 2013 under section 144A.073, subdivision 3, shall be used to reduce the fiscal impact to the medical assistance budget for the increase in the replacement-cost-new limit.

(d) Effective July 1, 2013, or later, any boarding care facility in Hennepin County licensed for 101 beds shall be allowed to receive a property rate adjustment for a construction project that takes action to come into compliance with Minnesota Department of Labor and Industry elevator upgrade requirements, with costs below the minimum threshold under subdivision 16. Only costs related to the construction project that brings the facility into compliance with the elevator requirements shall be allowed. Notwithstanding any other law to the contrary, money available under section 144A.073, subdivision 11, after the completion of the moratorium exception approval process in 2013 under section 144A.073, subdivision 3, shall be used to reduce the fiscal impact to the medical assistance program.

Subd. 45. **Rate adjustments for some moratorium exception projects.** Notwithstanding any other law to the contrary, money available for moratorium exception projects under section 144A.073, subdivisions 2 and 11, shall be used to fund the incremental rate increases resulting from this section for any nursing facility with a moratorium exception project approved under section 144A.073, and completed after August 30, 2010, where the replacement-costs-new limits under subdivision 17e were higher at any time after project approval than at the time of project completion. The commissioner shall calculate the property rate increase for these facilities using the highest set of limits; however, any rate increase under this section shall not be effective until on or after the effective date of this section, contingent upon federal approval. No property rate decrease shall result from this section.
