SPECIAL EDUCATION; INFANT TO ADULT

125A.01 DEFINITIONS.

Subdivision 1. **General application.** For purposes of this chapter, the words defined in section 120A.05 have the same meaning.

Subd. 2. **Dyslexia.** "Dyslexia" means a specific learning disability that is neurological in origin. It is characterized by difficulties with accurate or fluent recognition of words and by poor spelling and decoding abilities. These difficulties typically result from a deficit in the phonological component of language that is often unexpected in relation to other cognitive abilities and the provision of effective classroom instruction. Secondary consequences may include problems in reading comprehension and reduced reading experience that can impede the growth of vocabulary and background knowledge.

Students who have a dyslexia diagnosis must meet the state and federal eligibility criteria in order to qualify for special education services.

125A.02 CHILD WITH A DISABILITY DEFINED.

Subdivision 1. **Child with a disability.** "Child with a disability" means a child identified under federal and state special education law as deaf or hard of hearing, blind or visually impaired, deafblind, or having a speech or language impairment, a physical impairment, other health disability, developmental cognitive disability, an emotional or behavioral disorder, specific learning disability, autism spectrum disorder, traumatic brain injury, or severe multiple impairments, and who needs special education and related services, as determined by the rules of the commissioner. A licensed physician, an advanced practice nurse, or a

licensed psychologist is qualified to make a diagnosis and determination of attention deficit disorder or attention deficit hyperactivity disorder for purposes of identifying a child with a disability.

Subd. 1a. **Children ages three through seven experiencing developmental delays.** In addition, every child under age three, and at local district discretion from age three to age seven, who needs special instruction and services, as determined by the rules of the commissioner, because the child has a substantial delay or has an identifiable physical or mental condition known to hinder normal development is a child with a disability.

Subd. 2. **Not a child with a disability.** A child with a short-term or temporary physical or emotional illness or disability, as determined by the rules of the commissioner, is not a child with a disability.

History: *Ex1959 c 71 art 1 s 3; 1969 c 981 s 1; 1975 c 432 s 7; 1981 c 358 art 3 s 1; 1Sp1985 c 12 art 3 s 1; 1987 c 398 art 3 s 1; 1991 c 265 art 3 s 38; 1998 c 397 art 2 s 164; 1998 c 398 art 2 s 1; art 5 s 55; 2005 c 56 s 1; 2006 c 263 art 2 s 18; 2008 c 326 art 1 s 1; 2009 c 96 art 3 s 5; 1Sp2011 c 11 art 3 s 1*

Subd. 5. [Repealed, 1Sp2003 c 9 art 3 s 21]

Subd. 6. **Third-party liability.** Nothing in this section and section 125A.027 relieves a health plan company, third party administrator or other third-party payer of an obligation to pay for, or changes the validity of an obligation to pay for, services provided to children with disabilities ages three to 21 and their families.

Subd. 7. **Agency obligation.** Nothing in this section and section 125A.027 removes the obligation of the state, counties, local school districts, a regional agency, or a local agency or organization to comply with any federal or state law that mandates responsibility for finding, assessing, delivering, assuring, or paying for education or related services for children with disabilities and their families.

History: 1997 c 397 art 11 s 3; 1998 c 398 art 3 s 2; 1999 c 123 s 3; 1999 c 139 art 4 s 2; 2000 c 489 art 10 s 7,8; 1Sp2001 c 6 art 3 s 5; 2003 c 130 s 12; 2004 c 206 s 52; 2004 c 294 art 3 s 1; 1Sp2011 c 9 art 1 s 20; 1Sp2011 c 11 art 3 s 12; 2014 c 272 art 4 s 2,3; 1Sp2015 c 3 art 5 s 9,10

125A.027 LOCAL AGENCY COORDINATION RESPONSIBILITIES.

Subdivision 1. **School board and county board responsibilities.** (a) It is the joint responsibility of school and county boards to coordinate, provide, and pay for appropriate services and to facilitate payment for services from public and private sources. Appropriate services for children eligible under section 125A.02 and receiving services from two or more public agencies, of which one is the public school, must be determined in consultation with parents, physicians, and other education, medical health, and human services providers. The services provided must conform with a standardized written plan for each eligible child ages three to 21.

(b) Appropriate services include those services listed on a child's standardized written plan. These services are those that are required to be documented on a plan under federal and state law or rule.

(c) School and county boards shall coordinate interagency services. Service responsibilities for eligible children, ages three to 21, may be established in interagency agreements or joint powers board agreements. In addition, interagency agreements or joint powers board agreements may be developed to establish agency responsibility that ensures that coordinated interagency services are coordinated, provided, and paid for and that payment is facilitated from public and private sources. School boards must provide, pay for, and facilitate payment for special education services as required under sections 125A.03 and 125A.06. County boards must provide, pay for, and facilitate payment for those programs over which they have service and fiscal responsibility as referenced in section 125A.023, subdivision 3, paragraph (c), clause (1).

Subd. 1a. **Local governance structure.** The school boards and county boards are responsible for developing and implementing interagency policies and procedures to coordinate services at the local level for children with disabilities ages three to 21 under guidelines established by the state interagency committee under section 125A.023, subdivision 4. Consistent with the requirements in this section and section 125A.023, the school boards and county boards may organize as a joint powers board under section 471.59 or enter into an interagency agreement that establishes a governance structure.

Subd. 2. **Appropriate and necessary services.** (a) Parents, physicians, other health care professionals including school nurses, and education and human services providers jointly must determine appropriate and necessary services for eligible children with disabilities ages three to 21. The services provided to the child under this section must conform with the child's standardized written plan. The school board or county board must provide those services contained in a child's individualized education program and those services for which a legal obligation exists. Nothing in this section creates an additional right of appeal beyond the rights granted under sections 125A.091, 125A.25, and 256.045.

(b) Nothing in this section or section 125A.023 increases or decreases the obligation of the state, county, regional agency, local school district, or local agency or organization to pay for education, health care, or social services.

(c) A health plan may not exclude any medically necessary covered service solely because the service is or could be identified in a child's individual family service plan, individualized education program, a plan established under section 504 of the federal Rehabilitation Act of 1973, or a student's individual health plan. This paragraph reaffirms the obligation of a health plan company to provide or pay for certain medically necessary covered services, and encourages a health plan company to coordinate this care with any other providers of similar services. Also, a health plan company may not exclude from a health plan any medically necessary covered service such as an assessment or physical examination solely because the resulting information may be used for an individualized education program or a standardized written plan.

125A.03 SPECIAL INSTRUCTION FOR CHILDREN WITH A DISABILITY.

(a) As defined in paragraph (b), every district must provide special instruction and services, either within the district or in another district, for all children with a disability, including providing required services under Code of Federal Regulations, title 34, section 300.121, paragraph (d), to those children suspended or expelled from school for more than ten school days in that school year, who are residents of the district and who are disabled as set forth in section 125A.02. For purposes of state and federal special education laws, the phrase "special instruction and services" in the state Education Code means a free and appropriate public education provided to an eligible child with disabilities. "Free appropriate public education" means special education and related services that:

(1) are provided at public expense, under public supervision and direction, and without charge;

(2) meet the standards of the state, including the requirements of the Individuals with Disabilities Education Act, Part B or C;

(3) include an appropriate preschool, elementary school, or secondary school education; and

(4) are provided to children ages three through 21 in conformity with an individualized education program that meets the requirements of the Individuals with Disabilities Education Act, subpart A, sections 300.320 to 300.324, and provided to infants and toddlers in conformity with an individualized family service plan that meets the requirements of the Individuals with Disabilities Education Act, subpart A, sections 303.300 to 303.346.

(b) Notwithstanding any age limits in laws to the contrary, special instruction and services must be provided from birth until July 1 after the child with a disability becomes 21 years old but shall not extend beyond secondary school or its equivalent, except as provided in section 124D.68, subdivision 2. Local health, education, and social service agencies must refer children under age five who are known to need or suspected of needing special instruction and services to the school district. Districts with less than the minimum number of eligible children with a disability as determined by the commissioner must cooperate with other districts to maintain a full range of programs for education and services for children with a disability. This section does not alter the compulsory attendance requirements of section 120A.22.

(c) At the board's discretion, a school district that participates in a reciprocity agreement with a neighboring state under section 124D.041 may enroll and provide special instruction and services to a child from an adjoining state whose family resides at a Minnesota address as assigned by the United States Postal Service if the district has completed child identification procedures for that child to determine the child's eligibility for special education services, and the child has received developmental screening under sections 121A.16 to 121A.19.

(2) has a medically indicated expectation of visual deterioration.

"Braille" means the system of reading and writing through touch commonly known as standard English Braille.

(c) In developing an individualized education program for each blind student the presumption must be that proficiency in Braille reading and writing is essential for the student to achieve satisfactory educational progress. The assessment required for each student must include a Braille skills inventory, including a statement of strengths and deficits. Braille instruction and use are not required by this paragraph if, in

the course of developing the student's individualized education program, team members concur that the student's visual impairment does not affect reading and writing performance commensurate with ability. This paragraph does not require the exclusive use of Braille if other special education services are appropriate to the student's educational needs. The provision of other appropriate services does not preclude Braille use or instruction. Instruction in Braille reading and writing must be available for each blind student for whom the multidisciplinary team has determined that reading and writing is appropriate.

(d) Instruction in Braille reading and writing must be sufficient to enable each blind student to communicate effectively and efficiently with the same level of proficiency expected of the student's peers of comparable ability and grade level.

(e) The student's individualized education program must specify:

(1) the results obtained from the assessment required under paragraph (c);

(2) how Braille will be implemented through integration with other classroom activities;

(3) the date on which Braille instruction will begin;

(4) the length of the period of instruction and the frequency and duration of each instructional session;

(5) the level of competency in Braille reading and writing to be achieved by the end of the period and the objective assessment measures to be used; and

(6) if a decision has been made under paragraph (c) that Braille instruction or use is not required for the student:

(i) a statement that the decision was reached after a review of pertinent literature describing the educational benefits of Braille instruction and use; and

(ii) a specification of the evidence used to determine that the student's ability to read and write effectively without Braille is not impaired.

(f) Instruction in Braille reading and writing is a service for the purpose of special education and services under this section.

(g) Paragraphs (b) to (f) must not be construed to supersede any rights of a parent or guardian of a child with a disability under federal or state law.

(5) increased accountability for all individuals and agencies that provide instruction and other services to students with disabilities;

(6) greater focus for the state and local resources dedicated to educating students with disabilities; and

125A.08 INDIVIDUALIZED EDUCATION PROGRAMS.

(a) At the beginning of each school year, each school district shall have in effect, for each child with a disability, an individualized education program.

(b) As defined in this section, every district must ensure the following:

(1) all students with disabilities are provided the special instruction and services which are appropriate to their needs. Where the individualized education program team has determined appropriate goals and objectives based on the student's needs, including the extent to which the student can be included in the least restrictive environment, and where there are essentially equivalent and effective instruction, related services, or assistive technology devices available to meet the student's needs, cost to the district may be among the factors considered by the team in choosing how to provide the appropriate services, instruction, or devices that are to be made part of the student's individualized education program. The individualized education program team shall consider and may authorize services covered by medical assistance according to section 256B.0625, subdivision 26. The student's needs and the special education instruction and services to be provided must be agreed upon through the development of an individualized education program. The program must address the student's need to develop skills to live and work as independently as possible within the community. The individualized education program team must consider positive behavioral interventions, strategies, and supports that address behavior needs for children. During grade 9, the program must address the student's needs for transition from secondary services to postsecondary education and training, employment, community participation, recreation, and leisure and home living. In developing the program, districts must inform parents of the full range of transitional goals and related services that should be considered. The program must include a statement of the needed transition services, including a statement of the interagency responsibilities or linkages or both before secondary services are concluded;

(2) children with a disability under age five and their families are provided special instruction and services appropriate to the child's level of functioning and needs;

(3) children with a disability and their parents or guardians are guaranteed procedural safeguards and the right to participate in decisions involving identification, assessment including assistive technology assessment, and educational placement of children with a disability;

(4) eligibility and needs of children with a disability are determined by an initial evaluation or reevaluation, which may be completed using existing data under United States Code, title 20, section 33, et seq.;

(5) to the maximum extent appropriate, children with a disability, including those in public or private institutions or other care facilities, are educated with children who are not disabled, and that special classes, separate schooling, or other removal of children with a disability from the regular educational environment occurs only when and to the extent that the nature or severity of the disability is such that education in regular classes with the use of supplementary services cannot be achieved satisfactorily;

(6) in accordance with recognized professional standards, testing and evaluation materials, and procedures used for the purposes of classification and placement of children with a disability are selected and administered so as not to be racially or culturally discriminatory; and

(7) the rights of the child are protected when the parents or guardians are not known or not available, or the child is a ward of the state.

(c) For all paraprofessionals employed to work in programs whose role in part is to provide direct support to students with disabilities, the school board in each district shall ensure that:

(1) before or beginning at the time of employment, each paraprofessional must develop sufficient knowledge and skills in emergency procedures, building orientation, roles and responsibilities, confidentiality, vulnerability, and reportability, among other things, to begin meeting the needs, especially disability-specific and behavioral needs, of the students with whom the paraprofessional works;

(2) annual training opportunities are required to enable the paraprofessional to continue to further develop the knowledge and skills that are specific to the students with whom the paraprofessional works, including understanding disabilities, the unique and individual needs of each student according to the student's disability and how the disability affects the student's education and behavior, following lesson plans, and implementing follow-up instructional procedures and activities; and

(3) a districtwide process obligates each paraprofessional to work under the ongoing direction of a licensed teacher and, where appropriate and possible, the supervision of a school nurse.

125A.083 STUDENT INFORMATION SYSTEMS; TRANSFERRING RECORDS.

To efficiently and effectively meet federal and state compliance and accountability requirements using an online case management reporting system, school districts may contract only for a student information system that is Schools Interoperability Framework compliant and compatible with the online system for compliance reporting under section 125A.085 beginning in the 2018-2019 school year and later. A district's information system under this section must facilitate the seamless transfer of student records for a student with disabilities who transfers between school districts, including records containing the student's evaluation report, service plan, and other due process forms and information, regardless of what information system any one district uses.

History: *1Sp2015 c 3 art 5 s 13*

125A.085 ONLINE REPORTING OF REQUIRED DATA.

(a) To ensure a strong focus on outcomes for children with disabilities informs federal and state compliance and accountability requirements and to increase opportunities for special educators and related-services providers to focus on teaching children with disabilities, the commissioner must customize a streamlined, user-friendly statewide online system, with a single model online form, for effectively and efficiently collecting and reporting required special education-related data to individuals with a legitimate educational interest and who are authorized by law to access the data.

(b) The commissioner must consult with qualified experts, including information technology specialists, licensed special education teachers and directors of special education, related-services providers, third-party vendors, a designee of the commissioner of human services, parents of children with disabilities, representatives of advocacy groups representing children with disabilities, and representatives of school districts and special education cooperatives on integrating, field testing, customizing, and sustaining this simple,

easily accessible, efficient, and effective online data system for uniform statewide reporting of required due process compliance data. Among other outcomes, the system must:

(1) reduce special education teachers' paperwork burden and thereby increase the teachers' opportunities to focus on teaching children;

(2) to the extent authorized by chapter 13 or other applicable state or federal law governing access to and dissemination of educational records, provide for efficiently and effectively transmitting the records of all transferring children with disabilities, including highly mobile and homeless children with disabilities, among others, and avoid fragmented service delivery;

(3) address language and other barriers and disparities that prevent parents from understanding and communicating information about the needs of their children with disabilities; and

(4) help continuously improve the interface among the online systems serving children with disabilities in order to maintain and reinforce the children's ability to learn.

(c) The commissioner must use the federal Office of Special Education Programs model forms for the (1) individualized education program, (2) notice of procedural safeguards, and (3) prior written notice that are consistent with Part B of IDEA to integrate and customize a state-sponsored universal special education online case management system, consistent with the requirements of state law and this section for customizing a statewide online reporting system. The commissioner must use a request for proposal process to contract for the technology and software needed for customizing the online system in order for the system to be fully functional, consistent with the requirements of this section. This online system must be made available to school districts without charge beginning in the 2016-2017 school year. For the 2016-2017 and later school years, school districts may use this online system or may contract with an outside vendor for compliance reporting.

(d) All data on individuals maintained in the statewide reporting system are classified as provided in chapter 13 or other applicable state or federal law. An authorized individual's ability to enter, update, or access data must be limited through the use of role-based access codes corresponding to that individual's official duties or training level, and the statutory authorization that grants access for a particular purpose. Any action in which data in the system are entered, updated, accessed, or shared or disseminated outside of the system must be recorded in an audit trail. The audit trail must identify the specific user responsible for the action, the date and time the action occurred, and the purpose for the action. Data contained in the audit trail maintain the same classification as the underlying data affected by the action, provided the responsible authority makes the data available to a student or the student's parent upon request, and the responsible authority may access the data to audit the system's user activity and security safeguards. Before entering data on a student, the responsible authority must provide the student or the student's parent written notice of the data practices rights and responsibilities required by this section and a reasonable opportunity to refuse consent to have the student's data included in the system. Upon receiving the student or the student's parent written refusal to consent, the school district must not enter data on that student into the system and must delete any existing data on that student currently in the system.

(e) Consistent with this section, the commissioner must establish a public Internet Web interface to provide information to educators, parents, and the public about the form and content of required special education reports, to respond to queries from educators, parents, and the public about specific aspects of special education reports and reporting, and to use the information garnered from the interface to streamline and revise special education reporting on the online system under this section. The public Internet Web

interface must have a prominently linked page describing the rights and responsibilities of students and parents whose data are included in the statewide reporting system, and include information on the data practices rights of students and parents provided by this section and a form students or parents may use to refuse consent to have a student's data included in the system. The public Internet Web interface must not provide access to the educational records of any individual child.

(f) The commissioner annually by February 1 must submit to the legislature a report on the status, recent changes, and sustainability of the online system under this section.

125A.091 ALTERNATIVE DISPUTE RESOLUTION AND DUE PROCESS HEARINGS.

Subdivision 1. [Repealed by amendment, 2009 c 96 art 3 s 8]

Subd. 2. [Repealed by amendment, 2009 c 96 art 3 s 8]

Subd. 3. [Repealed by amendment, 2009 c 96 art 3 s 8]

Subd. 3a. **Additional requirements for prior written notice.** In addition to federal law requirements, a prior written notice shall:

(1) inform the parent that except for the initial placement of a child in special education, the school district will proceed with its proposal for the child's placement or for providing special education services unless the child's parent notifies the district of an objection within 14 days of when the district sends the prior written notice to the parent; and

(2) state that a parent who objects to a proposal or refusal in the prior written notice may request a conciliation conference under subdivision 7 or another alternative dispute resolution procedure under subdivision 8 or 9.

Subd. 4. [Repealed by amendment, 2009 c 96 art 3 s 8]

Subd. 5. **Initial action; parent consent.** (a) The district must not proceed with the initial evaluation of a child, the initial placement of a child in a special education program, or the initial provision of special education services for a child without the prior written consent of the child's parent. A district may not override the written refusal of a parent to consent to an initial evaluation or reevaluation.

(b) A parent, after consulting with health care, education, or other professional providers, may agree or disagree to provide the parent's child with sympathomimetic medications unless section 144.344 applies.

Subd. 6. **Dispute resolution processes; generally.** Parties are encouraged to resolve disputes over the identification, evaluation, educational placement, manifestation determination, interim alternative educational placement, or the provision of a free appropriate public education to a child with a disability through conciliation, mediation, facilitated team meetings, or other alternative process. All dispute resolution options are voluntary on the part of the parent and must not be used to deny or delay the right to a due process hearing. All dispute resolution processes under this section are provided at no cost to the parent.

Subd. 7. **Conciliation conference.** A parent must have an opportunity to meet with appropriate district staff in at least one conciliation conference if the parent objects to any proposal of which the parent receives

notice under subdivision 3a. A district must hold a conciliation conference within ten calendar days from the date the district receives a parent's objection to a proposal or refusal in the prior written notice. Except as provided in this section, all discussions held during a conciliation conference are confidential and are not admissible in a due process hearing. Within five school days after the final conciliation conference, the district must prepare and provide to the parent a conciliation conference memorandum that describes the district's final proposed offer of service. This memorandum is admissible in evidence in any subsequent proceeding.

Subd. 8. **Voluntary dispute resolution options.** In addition to offering at least one conciliation conference, a district must inform a parent of other dispute resolution processes, including at least mediation and facilitated team meetings. The fact that an alternative dispute resolution process was used is admissible in evidence at any subsequent proceeding. State-provided mediators and team meeting facilitators shall not be subpoenaed to testify at a due process hearing or civil action under federal special education law nor are any records of mediators or state-provided team meeting facilitators accessible to the parties.

Subd. 9. **Mediation.** Mediation is a dispute resolution process that involves a neutral party provided by the state to assist a parent and a district in resolving disputes over the identification, evaluation, educational placement, manifestation determination, interim alternative educational placement, or the provision of a free appropriate public education to a child with a disability. A mediation process is available as an informal alternative to a due process hearing but must not be used to deny or postpone the opportunity of a parent or district to obtain a due process hearing. Mediation is voluntary for all parties. All mediation discussions are confidential and inadmissible in evidence in any subsequent proceeding, unless the:

- (1) parties expressly agree otherwise;
- (2) evidence is otherwise available; or
- (3) evidence is offered to prove bias or prejudice of a witness.

Subd. 10. **Mediated agreements.** If the parties resolve all or a portion of the dispute, or agree to use another procedure to resolve the dispute, the mediator shall ensure that the resolution or agreement is in writing and signed by the parties and each party is given a copy of the document. The written resolution or agreement shall state that all discussions that occurred during mediation are confidential and may not be used as evidence in any hearing or civil proceeding. The resolution or agreement is legally binding upon the parties and is enforceable in the state or federal district court. A party may request another mediation to resolve a dispute over implementing the mediated agreement.

Subd. 11. **Facilitated team meeting.** A facilitated team meeting is an IEP, IFSP, or IIIP team meeting led by an impartial state-provided facilitator to promote effective communication and assist a team in developing an individualized education program.

Subd. 12. **Impartial due process hearing.** A parent or a district is entitled to an impartial due process hearing conducted by the state when a dispute arises over the identification, evaluation, educational placement, manifestation determination, interim alternative educational placement, or the provision of a free appropriate public education to a child with a disability. The hearing must be held in the district responsible for ensuring that a free appropriate public education is provided according to state and federal law. The proceedings must be recorded and preserved, at state expense, pending ultimate disposition of the action. The parent and the district shall receive, at state expense, a copy of the hearing transcript or recording and the hearing officer's findings of fact, conclusion of law, and decisions.

Subd. 13. **Hearing officer qualifications.** The commissioner shall maintain a list of qualified hearing officers. The list shall include a statement of the qualifications of each person listed. Upon receipt of a written request for a hearing, the commissioner shall appoint a hearing officer from the list. The hearing officer must:

- (1) be knowledgeable and impartial;
- (2) have no personal interest in or specific involvement with the student who is a party to the hearing;
- (3) not have been employed as an administrator by the district that is a party to the hearing;
- (4) not have been involved in selecting the district administrator who is a party to the hearing;
- (5) have no personal, economic, or professional interest in the outcome of the hearing other than properly administering federal and state laws, rules, and policies;
- (6) have no substantial involvement in developing state or local policies or procedures challenged in the hearing;
- (7) not be a current employee or board member of a Minnesota public school district, education district, intermediate unit or regional education agency, or the department if the department is the service provider;
- (8) not be a current employee or board member of a disability advocacy organization or group;
- (9) not otherwise be under contract with the department or the school district;
- (10) know and understand state and federal special education laws, rules, and regulations, and legal interpretations by federal and state courts; and
- (11) have the knowledge and ability to conduct hearings and render and write decisions according to appropriate, standard legal practice.

Subd. 14. **Request for hearing.** (a) A parent or a school district may file a written request for a due process hearing regarding a proposal or refusal to initiate or change that child's evaluation, individualized education program, or educational placement, or to provide a free appropriate public education.

(b) The parent shall include in the hearing request the name of the child, the address of the child's residence, the name of the school the child attends, a description of the child's problem relating to the proposed or refused initiation or change, including facts relating to the problem, and a proposed resolution of the problem to the extent known and available to the parents at the time.

(c) A parent or a school district may file a written request for a hearing under United States Code, title 20, section 1415, paragraph (k).

(d) A parent or school district filing a request for a hearing under this subdivision must provide the request to the other party and a copy of the request to the department. Upon receiving a request for a hearing, the department shall give to the child's parent a copy of the procedural safeguards notice available to a parent under federal regulations.

(e)(1) If the parent of a child with a disability files a written request for a hearing, and the school district has not previously sent a written notice to the parent under subdivision 3a, regarding the subject matter of

the hearing request, the school district shall, within ten days of receiving the hearing request, send to the child's parent a written explanation of why the school district proposed or refused to take the action raised in the hearing request. The explanation must include a description of other options that the individualized education program team considered and the reason why those options were rejected; a description of each evaluation procedure, assessment, record, or report that the school district used as the basis for the proposed or refused action; and a description of the factors that are relevant to the school district's proposal or refusal. A response by a school district under this subdivision does not preclude the school district from asserting that the parent's request for a hearing is insufficient under clause (2) of this paragraph; and

(2) a hearing may not occur until the party requesting the hearing files a request that meets the requirements of paragraph (b). The request under paragraph (b) is considered sufficient unless the party receiving the request notifies the hearing officer and the other party in writing within 15 days of receiving the request that the receiving party believes the request does not meet the requirements of paragraph (b). Within five days of receiving a notice under this subdivision, the hearing officer shall determine whether the request meets the requirements under paragraph (b) and notify the parties.

(f) Except as provided in paragraph (e), clause (1), the party receiving a request for a hearing shall send to the party requesting the hearing a written response that addresses the issues raised in the hearing request within ten days of receiving the request.

Subd. 15. **Prehearing conference.** A prehearing conference must be held within five business days of the date the commissioner appoints the hearing officer. The hearing officer must initiate the prehearing conference which may be conducted in person, at a location within the district, or by telephone. The hearing officer must create a written verbatim record of the prehearing conference which is available to either party upon request. At the prehearing conference, the hearing officer must:

(1) identify the questions that must be answered to resolve the dispute and eliminate claims and complaints that are without merit;

(2) set a scheduling order for the hearing and additional prehearing activities;

(3) determine if the hearing can be disposed of without an evidentiary hearing and, if so, establish the schedule and procedure for doing so; and

(4) establish the management, control, and location of the hearing to ensure its fair, efficient, and effective disposition.

Subd. 16. **Burden of proof.** The burden of proof at a due process hearing is on the party seeking relief.

Subd. 17. **Admissible evidence.** The hearing officer may admit all evidence that possesses probative value, including hearsay, if it is the type of evidence on which reasonable, prudent persons are accustomed to rely in conducting their serious affairs. The hearing officer must give effect to the rules of privilege recognized by law and exclude evidence that is incompetent, irrelevant, immaterial, or unduly repetitious.

Subd. 18. **Hearing officer authority.** (a) A hearing officer must limit an impartial due process hearing to the time sufficient for each party to present its case.

(b) A hearing officer must establish and maintain control and manage the hearing. This authority includes, but is not limited to:

(1) requiring attorneys representing parties at the hearing, after notice and an opportunity to be heard, to pay court reporting and hearing officer costs, or fines payable to the state, for failing to: (i) obey scheduling or prehearing orders, (ii) appear, (iii) be prepared, or (iv) participate in the hearing process in good faith;

(2) administering oaths and affirmations;

(3) issuing subpoenas;

(4) determining the responsible and providing districts and joining those districts, if not already notified, in the proceedings;

(5) making decisions involving identification, evaluation, educational placement, manifestation determination, interim alternative educational placement, or the provision of a free appropriate public education to a child with a disability;

(6) ordering an independent educational evaluation of a child at district expense; and

(7) extending the hearing decision timeline if the hearing officer determines that good cause exists.

(c) Good cause includes, but is not limited to, the time required for mediation or other settlement discussions, independent educational evaluation, complexity and volume of issues, or finding or changing counsel.

Subd. 19. Expedited due process hearings. Consistent with federal law, a parent or a school district may file a written request for an expedited due process hearing. A hearing officer must hold an expedited due process hearing within 20 school days of the date the expedited due process request is filed and must issue a decision within ten school days after the hearing. A resolution meeting must occur within seven days of receiving the request for an expedited due process hearing unless the parent and the school district agree in writing either to waive the resolution meeting or use the mediation process. The expedited due process hearing may proceed unless the matter has been resolved to the satisfaction of both parties within 15 days of receiving the expedited due process hearing request.

Subd. 20. Hearing officer's decision; time period. (a) The hearing officer must ensure that not later than 45 days after the 30-day period or the adjusted time periods under federal regulations expire, the hearing officer reaches a final decision in the due process hearing and transmits a copy of the decision to each party. A hearing officer, at the request of either party, may grant specific extensions of time beyond the 45-day period under subdivision 18. The hearing officer must conduct the oral arguments in a hearing at a time and place that is reasonably convenient to the parents and child involved. A hearing officer is encouraged to accelerate the time line to 30 days for a child under the age of three whose needs change rapidly and who requires quick resolution of a dispute.

(b) Once the hearing officer has issued a final decision, the hearing officer lacks authority to amend the decision except for clerical or mathematical errors.

(c) Nothing in this subdivision precludes a hearing officer from ordering a school district to comply with federal procedural safeguards under the federal Individuals with Disabilities Education Act.

Subd. 21. Compensatory educational services. The hearing officer may require the resident or responsible district to provide compensatory educational services to the child if the hearing officer finds that the district has not offered or made available to the child a free appropriate public education in the least restrictive environment and the child suffered a loss of educational benefit. Such services take the form of

direct and indirect special education and related services designed to address any loss of educational benefit that may have occurred. The hearing officer's finding must be based on a present determination of whether the child has suffered a loss of educational benefit.

Subd. 22. [Repealed by amendment, 2009 c 96 art 3 s 8]

Subd. 23. [Repealed by amendment, 2009 c 96 art 3 s 8]

Subd. 24. **Review of hearing officer decisions.** The parent or district may seek review of the hearing officer's decision in the Minnesota Court of Appeals or in the federal district court. A party must appeal to the Minnesota Court of Appeals within 60 days of receiving the hearing officer's decision or must appeal to federal district court within 90 days of receiving the hearing officer's decision.

Subd. 25. **Enforcement of orders.** The commissioner must monitor final hearing officer decisions and ensure enforcement of hearing officer decisions.

Subd. 26. **Hearing officer and person conducting alternative dispute resolution are state employees.** A hearing officer or person conducting alternative dispute resolution under this section is an employee of the state under section 3.732 for purposes of section 3.736 only.

Subd. 27. **Hearing officer training.** A hearing officer must participate in training offered by the commissioner.

Subd. 28. **District liability.** A district is not liable for harmless technical violations of federal or state laws, rules, or regulations governing special education if the school district can demonstrate that the violations did not harm a student's educational progress or the parent's right to notice, participation, or due process. This subdivision is applicable to due process hearings and special education complaints filed with the department.

125A.094 RESTRICTIVE PROCEDURES FOR CHILDREN WITH DISABILITIES.

The use of restrictive procedures for children with disabilities is governed by sections 125A.0941 and 125A.0942.

History: *2009 c 96 art 3 s 9*

125A.0941 DEFINITIONS.

(a) The following terms have the meanings given them.

(b) "Emergency" means a situation where immediate intervention is needed to protect a child or other individual from physical injury. Emergency does not mean circumstances such as: a child who does not respond to a task or request and instead places his or her head on a desk or hides under a desk or table; a child who does not respond to a staff person's request unless failing to respond would result in physical injury to the child or other individual; or an emergency incident has already occurred and no threat of physical injury currently exists.

(c) "Physical holding" means physical intervention intended to hold a child immobile or limit a child's movement, where body contact is the only source of physical restraint, and where immobilization is used

to effectively gain control of a child in order to protect a child or other individual from physical injury. The term physical holding does not mean physical contact that:

- (1) helps a child respond or complete a task;
- (2) assists a child without restricting the child's movement;
- (3) is needed to administer an authorized health-related service or procedure; or
- (4) is needed to physically escort a child when the child does not resist or the child's resistance is minimal.

(d) "Positive behavioral interventions and supports" means interventions and strategies to improve the school environment and teach children the skills to behave appropriately.

(e) "Prone restraint" means placing a child in a face down position.

(f) "Restrictive procedures" means the use of physical holding or seclusion in an emergency. Restrictive procedures must not be used to punish or otherwise discipline a child.

(g) "Seclusion" means confining a child alone in a room from which egress is barred. Egress may be barred by an adult locking or closing the door in the room or preventing the child from leaving the room. Removing a child from an activity to a location where the child cannot participate in or observe the activity is not seclusion.

125A.0942 STANDARDS FOR RESTRICTIVE PROCEDURES.

Subdivision 1. **Restrictive procedures plan.** (a) Schools that intend to use restrictive procedures shall maintain and make publicly accessible in an electronic format on a school or district Web site or make a paper copy available upon request describing a restrictive procedures plan for children with disabilities that at least:

- (1) lists the restrictive procedures the school intends to use;
- (2) describes how the school will implement a range of positive behavior strategies and provide links to mental health services;
- (3) describes how the school will provide training on de-escalation techniques, consistent with section 122A.09, subdivision 4, paragraph (k);
- (4) describes how the school will monitor and review the use of restrictive procedures, including:
 - (i) conducting post-use debriefings, consistent with subdivision 3, paragraph (a), clause (5); and
 - (ii) convening an oversight committee to undertake a quarterly review of the use of restrictive procedures based on patterns or problems indicated by similarities in the time of day, day of the week, duration of the use of a procedure, the individuals involved, or other factors associated with the use of restrictive procedures; the number of times a restrictive procedure is used schoolwide and for individual children; the number and types of injuries, if any, resulting from the use of restrictive procedures; whether restrictive procedures are used in nonemergency situations; the need for additional staff training; and proposed actions to minimize the use of restrictive procedures; and

(5) includes a written description and documentation of the training staff completed under subdivision 5.

(b) Schools annually must publicly identify oversight committee members who must at least include:

(1) a mental health professional, school psychologist, or school social worker;

(2) an expert in positive behavior strategies;

(3) a special education administrator; and

(4) a general education administrator.

Subd. 2. **Restrictive procedures.** (a) Restrictive procedures may be used only by a licensed special education teacher, school social worker, school psychologist, behavior analyst certified by the National Behavior Analyst Certification Board, a person with a master's degree in behavior analysis, other licensed education professional, paraprofessional under section 120B.363, or mental health professional under section 245.4871, subdivision 27, who has completed the training program under subdivision 5.

(b) A school shall make reasonable efforts to notify the parent on the same day a restrictive procedure is used on the child, or if the school is unable to provide same-day notice, notice is sent within two days by written or electronic means or as otherwise indicated by the child's parent under paragraph (f).

(c) The district must hold a meeting of the individualized education program team, conduct or review a functional behavioral analysis, review data, consider developing additional or revised positive behavioral interventions and supports, consider actions to reduce the use of restrictive procedures, and modify the individualized education program or behavior intervention plan as appropriate. The district must hold the meeting: within ten calendar days after district staff use restrictive procedures on two separate school days within 30 calendar days or a pattern of use emerges and the child's individualized education program or behavior intervention plan does not provide for using restrictive procedures in an emergency; or at the request of a parent or the district after restrictive procedures are used. The district must review use of restrictive procedures at a child's annual individualized education program meeting when the child's individualized education program provides for using restrictive procedures in an emergency.

(d) If the individualized education program team under paragraph (c) determines that existing interventions and supports are ineffective in reducing the use of restrictive procedures or the district uses restrictive procedures on a child on ten or more school days during the same school year, the team, as appropriate, either must consult with other professionals working with the child; consult with experts in behavior analysis, mental health, communication, or autism; consult with culturally competent professionals; review existing evaluations, resources, and successful strategies; or consider whether to reevaluate the child.

(e) At the individualized education program meeting under paragraph (c), the team must review any known medical or psychological limitations, including any medical information the parent provides voluntarily, that contraindicate the use of a restrictive procedure, consider whether to prohibit that restrictive procedure, and document any prohibition in the individualized education program or behavior intervention plan.

(f) An individualized education program team may plan for using restrictive procedures and may include these procedures in a child's individualized education program or behavior intervention plan; however, the restrictive procedures may be used only in response to behavior that constitutes an emergency, consistent

with this section. The individualized education program or behavior intervention plan shall indicate how the parent wants to be notified when a restrictive procedure is used.

Subd. 3. **Physical holding or seclusion.** (a) Physical holding or seclusion may be used only in an emergency. A school that uses physical holding or seclusion shall meet the following requirements:

(1) physical holding or seclusion is the least intrusive intervention that effectively responds to the emergency;

(2) physical holding or seclusion is not used to discipline a noncompliant child;

(3) physical holding or seclusion ends when the threat of harm ends and the staff determines the child can safely return to the classroom or activity;

(4) staff directly observes the child while physical holding or seclusion is being used;

(5) each time physical holding or seclusion is used, the staff person who implements or oversees the physical holding or seclusion documents, as soon as possible after the incident concludes, the following information:

(i) a description of the incident that led to the physical holding or seclusion;

(ii) why a less restrictive measure failed or was determined by staff to be inappropriate or impractical;

(iii) the time the physical holding or seclusion began and the time the child was released; and

(iv) a brief record of the child's behavioral and physical status;

(6) the room used for seclusion must:

(i) be at least six feet by five feet;

(ii) be well lit, well ventilated, adequately heated, and clean;

(iii) have a window that allows staff to directly observe a child in seclusion;

(iv) have tamperproof fixtures, electrical switches located immediately outside the door, and secure ceilings;

(v) have doors that open out and are unlocked, locked with keyless locks that have immediate release mechanisms, or locked with locks that have immediate release mechanisms connected with a fire and emergency system; and

(vi) not contain objects that a child may use to injure the child or others;

(7) before using a room for seclusion, a school must:

(i) receive written notice from local authorities that the room and the locking mechanisms comply with applicable building, fire, and safety codes; and

(ii) register the room with the commissioner, who may view that room; and

(8) until August 1, 2015, a school district may use prone restraints with children age five or older if:

(i) the district has provided to the department a list of staff who have had specific training on the use of prone restraints;

(ii) the district provides information on the type of training that was provided and by whom;

(iii) only staff who received specific training use prone restraints;

(iv) each incident of the use of prone restraints is reported to the department within five working days on a form provided by the department; and

(v) the district, before using prone restraints, must review any known medical or psychological limitations that contraindicate the use of prone restraints.

The department must collect data on districts' use of prone restraints and publish the data in a readily accessible format on the department's Web site on a quarterly basis.

(b) By February 1, 2015, and annually thereafter, stakeholders may, as necessary, recommend to the commissioner specific and measurable implementation and outcome goals for reducing the use of restrictive procedures and the commissioner must submit to the legislature a report on districts' progress in reducing the use of restrictive procedures that recommends how to further reduce these procedures and eliminate the use of prone restraints. The statewide plan includes the following components: measurable goals; the resources, training, technical assistance, mental health services, and collaborative efforts needed to significantly reduce districts' use of prone restraints; and recommendations to clarify and improve the law governing districts' use of restrictive procedures. The commissioner must consult with interested stakeholders when preparing the report, including representatives of advocacy organizations, special education directors, teachers, para-professionals, intermediate school districts, school boards, day treatment providers, county social services, state human services department staff, mental health professionals, and autism experts. By June 30 each year, districts must report summary data on their use of restrictive procedures to the department, in a form and manner determined by the commissioner. The summary data must include information about the use of restrictive procedures, including use of reasonable force under section 121A.582.

Subd. 4. **Prohibitions.** The following actions or procedures are prohibited:

(1) engaging in conduct prohibited under section 121A.58;

(2) requiring a child to assume and maintain a specified physical position, activity, or posture that induces physical pain;

(3) totally or partially restricting a child's senses as punishment;

(4) presenting an intense sound, light, or other sensory stimuli using smell, taste, substance, or spray as punishment;

(5) denying or restricting a child's access to equipment and devices such as walkers, wheelchairs, hearing aids, and communication boards that facilitate the child's functioning, except when temporarily removing the equipment or device is needed to prevent injury to the child or others or serious damage to the equipment or device, in which case the equipment or device shall be returned to the child as soon as possible;

(6) interacting with a child in a manner that constitutes sexual abuse, neglect, or physical abuse under section 626.556;

(7) withholding regularly scheduled meals or water;

(8) denying access to bathroom facilities; and

(9) physical holding that restricts or impairs a child's ability to breathe, restricts or impairs a child's ability to communicate distress, places pressure or weight on a child's head, throat, neck, chest, lungs, sternum, diaphragm, back, or abdomen, or results in straddling a child's torso.

Subd. 5. **Training for staff.** (a) To meet the requirements of subdivision 1, staff who use restrictive procedures, including paraprofessionals, shall complete training in the following skills and knowledge areas:

(1) positive behavioral interventions;

(2) communicative intent of behaviors;

(3) relationship building;

(4) alternatives to restrictive procedures, including techniques to identify events and environmental factors that may escalate behavior;

(5) de-escalation methods;

(6) standards for using restrictive procedures only in an emergency;

(7) obtaining emergency medical assistance;

(8) the physiological and psychological impact of physical holding and seclusion;

(9) monitoring and responding to a child's physical signs of distress when physical holding is being used;

(10) recognizing the symptoms of and interventions that may cause positional asphyxia when physical holding is used;

(11) district policies and procedures for timely reporting and documenting each incident involving use of a restricted procedure; and

(12) schoolwide programs on positive behavior strategies.

(b) The commissioner, after consulting with the commissioner of human services, must develop and maintain a list of training programs that satisfy the requirements of paragraph (a). The commissioner also must develop and maintain a list of experts to help individualized education program teams reduce the use of restrictive procedures. The district shall maintain records of staff who have been trained and the organization or professional that conducted the training. The district may collaborate with children's community mental health providers to coordinate trainings.

Subd. 6. **Behavior supports; reasonable force.** (a) School districts are encouraged to establish effective schoolwide systems of positive behavior interventions and supports.

(b) Nothing in this section or section 125A.0941 precludes the use of reasonable force under sections 121A.582; 609.06, subdivision 1; and 609.379. For the 2014-2015 school year and later, districts must collect and submit to the commissioner summary data, consistent with subdivision 3, paragraph (b), on

district use of reasonable force that is consistent with the definition of physical holding or seclusion for a child with a disability under this section.

125A.11 SPECIAL INSTRUCTIONS FOR NONRESIDENT CHILDREN.

Subdivision 1. **Nonresident tuition rate; other costs.** (a) For fiscal year 2015 and later, when a school district provides special instruction and services for a pupil with a disability as defined in section 125A.02 outside the district of residence, excluding a pupil for whom an adjustment to special education aid is calculated according to section 127A.47, subdivision 7, paragraphs (b) to (d), special education aid paid to the resident district must be reduced by an amount equal to (1) the actual cost of providing special instruction and services to the pupil, including a proportionate amount for special transportation and unreimbursed building lease and debt service costs for facilities used primarily for special education, plus (2) the amount of general education revenue and referendum equalization aid attributable to that pupil, calculated using the resident district's average general education revenue and referendum equalization aid per adjusted pupil unit excluding basic skills revenue, elementary sparsity revenue and secondary sparsity revenue, minus (3) the amount of special education aid for children with a disability under section 125A.76 received on behalf of that child, minus (4) if the pupil receives special instruction and services outside the regular classroom for more than 60 percent of the school day, the amount of general education revenue and referendum equalization aid, excluding portions attributable to district and school administration, district support services, operations and maintenance, capital expenditures, and pupil transportation, attributable to that pupil for the portion of time the pupil receives special instruction and services outside of the regular classroom, calculated using the resident district's average general education revenue and referendum equalization aid per adjusted pupil unit excluding basic skills revenue, elementary sparsity revenue and secondary sparsity revenue and the serving district's basic skills revenue, elementary sparsity revenue and secondary sparsity revenue per adjusted pupil unit. Notwithstanding clauses (1) and (4), for pupils served by a cooperative unit without a fiscal agent school district, the general education revenue and referendum equalization aid attributable to a pupil must be calculated using the resident district's average general education revenue and referendum equalization aid excluding compensatory revenue, elementary sparsity revenue, and secondary sparsity revenue. Special education aid paid to the district or cooperative providing special instruction and services for the pupil must be increased by the amount of the reduction in the aid paid to the resident district. Amounts paid to cooperatives under this subdivision and section 127A.47, subdivision 7, shall be recognized and reported as revenues and expenditures on the resident school district's books of account under sections 123B.75 and 123B.76. If the resident district's special education aid is insufficient to make the full adjustment, the remaining adjustment shall be made to other state aid due to the district.

(b) Notwithstanding paragraph (a), when a charter school receiving special education aid under section 124E.21, subdivision 3, provides special instruction and services for a pupil with a disability as defined in section 125A.02, excluding a pupil for whom an adjustment to special education aid is calculated according to section 127A.46, subdivision 7, paragraphs (b) to (e), special education aid paid to the resident district must be reduced by an amount equal to that calculated under paragraph (a) as if the charter school received aid under section 124E.21, subdivision 1. Notwithstanding paragraph (a), special education aid paid to the charter school providing special instruction and services for the pupil must not be increased by the amount of the reduction in the aid paid to the resident district.

(c) Notwithstanding paragraph (a) and section 127A.47, subdivision 7, paragraphs (b) to (d), a charter school where more than 30 percent of enrolled students receive special education and related services, a site approved under section 125A.515, an intermediate district, a special education cooperative, or a school district that served as the applicant agency for a group of school districts for federal special education aids for fiscal year 2006 may apply to the commissioner for authority to charge the resident district an additional amount to recover any remaining unreimbursed costs of serving pupils with a disability. The application must include a description of the costs and the calculations used to determine the unreimbursed portion to be charged to the resident district. Amounts approved by the commissioner under this paragraph must be included in the tuition billings or aid adjustments under paragraph (a), or section 127A.47, subdivision 7, paragraphs (b) to (d), as applicable.

(d) For purposes of this subdivision and section 127A.47, subdivision 7, paragraph (b), "general education revenue and referendum equalization aid" means the sum of the general education revenue according to section 126C.10, subdivision 1, excluding the local optional levy according to section 126C.10, subdivision 2e, paragraph (c), plus the referendum equalization aid according to section 126C.17, subdivision 7.

Subd. 2. Nonresident transportation. When a district provides instruction and services in a day program outside the district of residence, the district of residence is responsible for providing transportation. When a district provides instruction and services requiring board and lodging or placement in a residential program outside the district of residence, the nonresident district in which the child is placed is responsible for providing transportation. Transportation costs shall be paid by the district responsible for providing transportation and the state shall pay transportation aid to that district.

Subd. 3. Agreement between districts to provide special instruction and services. For the purposes of this section, any school district may enter into an agreement, upon mutually agreed-upon terms and conditions, to provide special instruction and services for children with a disability. In that event, one of the participating units may employ and contract with necessary qualified personnel to offer services in the several districts. Each participating unit must reimburse the employing unit a proportionate amount of the actual cost of providing the special instruction and services, less the amount of state special education aid.

125A.12 ATTENDANCE IN ANOTHER DISTRICT.

No resident of a district who is eligible for special instruction and services pursuant to this section may be denied provision of this instruction and service because of attending a public school in another district pursuant to section 123B.88, subdivision 5, if the attendance is not subject to section 124D.08. If the pupil

attends a public school located in a contiguous district and the district of attendance does not provide special instruction and services, the district of residence must provide necessary transportation for the pupil between the boundary of the district of residence and the educational facility where special instruction and services are provided within the district of residence. The district of residence may provide necessary transportation for the pupil between its boundary and the school attended in the contiguous district, but must not pay the cost of transportation provided outside the boundary of the district of residence.

125A.14 EXTENDED SCHOOL YEAR.

A district may provide extended school year services for children with a disability living within the district and nonresident children temporarily placed in the district pursuant to section 125A.15. Prior to March 31 or 30 days after the child with a disability is placed in the district, whichever is later, the providing district shall give notice to the district of residence of any nonresident children temporarily placed in the district pursuant to section 125A.15 of its intention to provide these programs. Notwithstanding any contrary provisions in section 125A.15, the district providing the special instruction and services must apply for special education aid for the extended school year services. The unreimbursed actual cost of providing the program for nonresident children with a disability, including the cost of board and lodging, may be billed to the district of the child's residence and must be paid by the resident district. Transportation costs must be paid by the district responsible for providing transportation pursuant to section 125A.15 and transportation aid must be paid to that district.

125A.15 PLACEMENT IN ANOTHER DISTRICT; RESPONSIBILITY.

The responsibility for special instruction and services for a child with a disability temporarily placed in another district for care and treatment shall be determined in the following manner:

(a) The district of residence of a child shall be the district in which the child's parent resides, if living, or the child's guardian. If there is a dispute between school districts regarding residency, the district of residence is the district designated by the commissioner.

(b) If a district other than the resident district places a pupil for care and treatment, the district placing the pupil must notify and give the resident district an opportunity to participate in the placement decision. When an immediate emergency placement of a pupil is necessary and time constraints foreclose a resident district from participating in the emergency placement decision, the district in which the pupil is temporarily placed must notify the resident district of the emergency placement within 15 days. The resident district has up to five business days after receiving notice of the emergency placement to request an opportunity to participate in the placement decision, which the placing district must then provide.

(c) When a child is temporarily placed for care and treatment in a day program located in another district and the child continues to live within the district of residence during the care and treatment, the district of

residence is responsible for providing transportation to and from the care and treatment program and an appropriate educational program for the child. The resident district may establish reasonable restrictions on transportation, except if a Minnesota court or agency orders the child placed at a day care and treatment program and the resident district receives a copy of the order, then the resident district must provide transportation to and from the program unless the court or agency orders otherwise. Transportation shall only be provided by the resident district during regular operating hours of the resident district. The resident district may provide the educational program at a school within the district of residence, at the child's residence, or in the district in which the day treatment center is located by paying tuition to that district.

(d) When a child is temporarily placed in a residential program for care and treatment, the nonresident district in which the child is placed is responsible for providing an appropriate educational program for the child and necessary transportation while the child is attending the educational program; and must bill the district of the child's residence for the actual cost of providing the program, as outlined in section 125A.11, except as provided in paragraph (e). However, the board, lodging, and treatment costs incurred in behalf of a child with a disability placed outside of the school district of residence by the commissioner of human services or the commissioner of corrections or their agents, for reasons other than providing for the child's special educational needs must not become the responsibility of either the district providing the instruction or the district of the child's residence. For the purposes of this section, the state correctional facilities operated on a fee-for-service basis are considered to be residential programs for care and treatment.

(e) A privately owned and operated residential facility may enter into a contract to obtain appropriate educational programs for special education children and services with a joint powers entity. The entity with which the private facility contracts for special education services shall be the district responsible for providing students placed in that facility an appropriate educational program in place of the district in which the facility is located. If a privately owned and operated residential facility does not enter into a contract under this paragraph, then paragraph (d) applies.

(f) The district of residence shall pay tuition and other program costs, not including transportation costs, to the district providing the instruction and services. The district of residence may claim general education aid for the child as provided by law. Transportation costs must be paid by the district responsible for providing the transportation and the state must pay transportation aid to that district.

125A.155 SPECIAL EDUCATION RECIPROCITY; COMMISSIONER DUTIES.

The commissioner of education must develop a special education reciprocity agreement form. The reciprocity form must specify the procedures used to calculate special education tuition charges for both Minnesota students that are served in other states and for out-of-state students who are served in Minnesota.

The commissioner shall attempt to enter into reciprocity agreements with any state that sends students to Minnesota and any state that provides services to Minnesota students.

125A.17 LEGAL RESIDENCE OF A CHILD WITH A DISABILITY PLACED IN A FOSTER FACILITY.

The legal residence of a child with a disability placed in a foster facility for care and treatment is the district in which the child resides when:

- (1) parental rights have been terminated by court order;
- (2) the parent or guardian is not living within the state;
- (3) no other district residence can be established; or

(4) the parent or guardian having legal custody of the child is an inmate of a Minnesota correctional facility or is a resident of a halfway house under the supervision of the commissioner of corrections.

The school board of the district of residence must provide the same educational program for the child as it provides for all resident children with a disability in the district.

125A.18 SPECIAL INSTRUCTION; NONPUBLIC SCHOOLS.

No resident of a district who is eligible for special instruction and services under this section may be denied instruction and service on a shared time basis consistent with section 126C.19, subdivision 4, because of attending a nonpublic school defined in section 123B.41, subdivision 9. If a resident pupil with a disability attends a nonpublic school located within the district of residence, the district must provide necessary transportation for that pupil within the district between the nonpublic school and the educational facility where special instruction and services are provided on a shared time basis. If a resident pupil with a disability attends a nonpublic school located in another district and if no agreement exists under section 126C.19, subdivision 1 or 2, for providing special instruction and services on a shared time basis to that pupil by the district of attendance and where the special instruction and services are provided within the district of residence, the district of residence must provide necessary transportation for that pupil between the boundary of the district of residence and the educational facility. The district of residence may provide necessary transportation for that pupil between its boundary and the nonpublic school attended, but the nonpublic school must pay the cost of transportation provided outside the district boundary.

Parties serving students on a shared time basis have access to the due process hearing system described under United States Code, title 20, and the complaint system under Code of Federal Regulations, title 34, section 300.660-662. In the event it is determined under these systems that the nonpublic school or staff impeded the public school district's provision of a free appropriate education, the commissioner may withhold public funds available to the nonpublic school proportionally applicable to that student under section 123B.42.

125A.20 TRANSPORTATION AID AGREEMENTS.

Notwithstanding the provisions of sections 125A.11, 125A.14, and 125A.15, when a child receives special instruction and services in a day program outside the resident district, the resident district and the nonresident district where the child is placed may enter into an agreement providing for the nonresident district to pay the cost of any particular transportation categories specified in section 123B.92, subdivision 1, and claim transportation aid for those categories. In this case, the nonresident district may not obtain any payment from the resident district for the categories covered by the agreement.

125A.21 THIRD-PARTY PAYMENT.

Subdivision 1. **Obligation to pay.** Nothing in sections 125A.03 to 125A.24 and 125A.65 relieves an insurer or similar third party from an otherwise valid obligation to pay, or changes the validity of an obligation to pay, for services rendered to a child with a disability, and the child's family. A school district shall pay the nonfederal share of medical assistance services provided according to section 256B.0625, subdivision 26. Eligible expenditures must not be made from federal funds or funds used to match other federal funds. Any federal disallowances are the responsibility of the school district. A school district may pay or reimburse co-payments, coinsurance, deductibles, and other enrollee cost-sharing amounts, on behalf of the student or family, in connection with health and related services provided under an individual educational plan or individualized family service plan.

Subd. 2. **Third-party reimbursement.** (a) Beginning July 1, 2000, districts shall seek reimbursement from insurers and similar third parties for the cost of services provided by the district whenever the services provided by the district are otherwise covered by the child's health coverage. Districts shall request, but may not require, the child's family to provide information about the child's health coverage when a child with a disability begins to receive services from the district of a type that may be reimbursable, and shall request, but may not require, updated information after that as needed.

(b) For children enrolled in medical assistance under chapter 256B or MinnesotaCare under chapter 256L who have no other health coverage, a district shall provide an initial and annual written notice to the enrolled child's parent or legal representative of its intent to seek reimbursement from medical assistance or MinnesotaCare for the individualized education program or individualized family service plan health-related services provided by the district. The initial notice must give the child's parent or legal representative the right to request a copy of the child's education records on the health-related services that the district provided to the child and disclosed to a third-party payer.

(c) The district shall give the parent or legal representative annual written notice of:

(1) the district's intent to seek reimbursement from medical assistance or MinnesotaCare for individualized education program or individualized family service plan health-related services provided by the district;

(2) the right of the parent or legal representative to request a copy of all records concerning individualized education program or individualized family service plan health-related services disclosed by the district to any third party; and

(3) the right of the parent or legal representative to withdraw consent for disclosure of a child's records at any time without consequence.

The written notice shall be provided as part of the written notice required by Code of Federal Regulations, title 34, section 300.504 or 303.520. The district must ensure that the parent of a child with a disability is

given notice, in understandable language, of federal and state procedural safeguards available to the parent under this paragraph and paragraph (b).

(d) In order to access the private health care coverage of a child who is covered by private health care coverage in whole or in part, a district must:

(1) obtain annual written informed consent from the parent or legal representative, in compliance with subdivision 5; and

(2) inform the parent or legal representative that a refusal to permit the district or state Medicaid agency to access their private health care coverage does not relieve the district of its responsibility to provide all services necessary to provide free and appropriate public education at no cost to the parent or legal representative.

(e) If the commissioner of human services obtains federal approval to exempt covered individualized education program or individualized family service plan health-related services from the requirement that private health care coverage refuse payment before medical assistance may be billed, paragraphs (b), (c), and (d) shall also apply to students with a combination of private health care coverage and health care coverage through medical assistance or MinnesotaCare.

(f) In the event that Congress or any federal agency or the Minnesota legislature or any state agency establishes lifetime limits, limits for any health care services, cost-sharing provisions, or otherwise provides that individualized education program or individualized family service plan health-related services impact benefits for persons enrolled in medical assistance or MinnesotaCare, the amendments to this subdivision adopted in 2002 are repealed on the effective date of any federal or state law or regulation that imposes the limits. In that event, districts must obtain informed consent consistent with this subdivision as it existed prior to the 2002 amendments and subdivision 5, before seeking reimbursement for children enrolled in medical assistance under chapter 256B or MinnesotaCare under chapter 256L who have no other health care coverage.

Subd. 3. Use of reimbursements. Of the reimbursements received, districts may:

(1) retain an amount sufficient to compensate the district for its administrative costs of obtaining reimbursements;

(2) regularly obtain from education- and health-related entities training and other appropriate technical assistance designed to improve the district's ability to access third-party payments for individualized education program or individualized family service plan health-related services; or

(3) reallocate reimbursements for the benefit of students with individualized education programs or individualized family service plans in the district.

Subd. 4. Parents not obligated to use health coverage. To the extent required by federal law, a school district may not require parents of children with disabilities, if they would incur a financial cost, to use private or public health coverage to pay for the services that must be provided under an individualized education program or individualized family service plan.

Subd. 5. Informed consent. When obtaining informed consent, consistent with sections 13.05, subdivision 4a; 256B.77, subdivision 2, paragraph (p); and Code of Federal Regulations, title 34, parts 99, 300, and 303, to bill health plans for covered services, the school district must notify the legal representative (1)

that the cost of the person's private health insurance premium may increase due to providing the covered service in the school setting, (2) that the school district may pay certain enrollee health plan costs, including but not limited to, co-payments, coinsurance, deductibles, premium increases or other enrollee cost-sharing amounts for health and related services required by an individual service plan, or individualized family service plan, and (3) that the school's billing for each type of covered service may affect service limits and prior authorization thresholds. The informed consent may be revoked in writing at any time by the person authorizing the billing of the health plan.

Subd. 6. District obligation to provide service. To the extent required by federal law, no school district may deny, withhold, or delay any service that must be provided under an individualized education program or individualized family service plan because a family has refused to provide informed consent to bill a health plan for services or a health plan company has refused to pay any, all, or a portion of the cost of services billed.

Subd. 7. District disclosure of information. A school district may disclose information contained in a student's individualized education program, consistent with section 13.32, subdivision 3, paragraph (a), and Code of Federal Regulations, title 34, parts 99, 300, and 303; including records of the student's diagnosis and treatment, to a health plan company only with the signed and dated consent of the student's parent, or other legally authorized individual. The school district shall disclose only that information necessary for the health plan company to decide matters of coverage and payment. A health plan company may use the information only for making decisions regarding coverage and payment, and for any other use permitted by law.

125A.22 COMMUNITY TRANSITION INTERAGENCY COMMITTEE.

A district, group of districts, or special education cooperative, in cooperation with the county or counties in which the district or cooperative is located, may establish a community transition interagency committee for youth with disabilities, beginning at grade 9 or age equivalent, and their families. Members of the committee may include representatives from special education, vocational and regular education, community education, postsecondary education and training institutions, mental health, adults with disabilities who have received transition services if such persons are available, parents of youth with disabilities, local business or industry, rehabilitation services, county social services, health agencies, and additional public or private adult service providers as appropriate. (2) facilitate the development of multiagency teams to address present and future transition needs of individual students on their individualized education programs;

(3) develop a community plan to include mission, goals, and objectives, and an implementation plan to assure that transition needs of individuals with disabilities are met;

(4) recommend changes or improvements in the community system of transition services; and

(5) exchange agency information such as appropriate data, effectiveness studies, special projects, exemplary programs, and creative funding of programs.

125A.23 AGENCY ACCESS TO NONPUBLIC DATA.

The commissioner of administration must prepare a form and disseminate guidelines for state agencies, political subdivisions, and other responsible authorities to use to enable a responsible authority to allow another responsible authority access to data about a child with a disability that is classified as not public. The form and guidelines must be consistent with section 13.05, subdivision 9, and federal law, and are not subject to the rulemaking requirements under chapter 14.

125A.24 PARENT ADVISORY COUNCILS.

In order to increase the involvement of parents of children with disabilities in district policy making and decision making, school districts must have a special education advisory council that is incorporated into the district's special education system plan.

(1) This advisory council may be established either for individual districts or in cooperation with other districts who are members of the same special education cooperative.

(2) A district may set up this council as a subgroup of an existing board, council, or committee.

(3) At least half of the designated council members must be parents of students with a disability. When a nonpublic school is located in the district, the council must include at least one member who is a parent of a nonpublic school student with a disability, or an employee of a nonpublic school if no parent of a nonpublic school student with a disability is available to serve. Each local council must meet no less than once each year. The number of members, frequency of meetings, and operational procedures are to be locally determined.

Subdivision 1. **Policy statement.** The legislature finds that conciliation conferences pursuant to sections 125A.03 to 125A.24 and 125A.65 serve better than formal hearings to promote communications between parents and school staff and to reach prompt, shared decisions about educational programs for children with a disability. Subd. 2. **State plan.** The commissioner shall not adopt any provision in the state plan for special education that reduces the opportunities for parents and school districts to resolve their differences through conciliation.

Core early intervention services must be provided at public expense with no cost to parents. Parents must be requested to assist in the cost of additional early intervention services by using third-party payment sources. Payment structures permitted under state law must be used to pay for additional early intervention services. Parental financial responsibility must be clearly defined in the IFSP. A parent's inability to pay must not prohibit a child from receiving needed early intervention services.

The county human services agency or county board must serve children with disabilities under age five and their families, or as specified in the IFSP for children with disabilities, birth through age two, or the individual service plan of each child. Special instruction and related services for which a child with a disability is eligible under this section are the responsibility of the local school board. It is the joint responsibility of county boards and school boards to coordinate, provide, and pay for all appropriate services required in section 125A.29 and to facilitate payment for services from public and private sources.

(b) A parent may resolve a dispute regarding issues in section 125A.42, paragraph (b), clause (5), through mediation. If the parent chooses mediation, mediation must be voluntary on the part of the parties. The parent and the public agencies must complete the mediation process within 30 calendar days of the date the Department of Education receives a parent's written request for mediation unless a district declines mediation. The mediation process may not be used to delay a parent's right to a due process hearing. The written, signed mediation agreement is binding on both parties and is enforceable in any state court of competent jurisdiction or in a district court of the United States.

(c) Resolution of a dispute through mediation, or other form of alternative dispute resolution, is not limited to formal disputes arising from the objection of a parent or guardian and is not limited to the period following a request for a due process hearing.

(d) The commissioner shall provide training and resources to school districts to facilitate early identification of disputes and access to mediation.

(e) The local primary agency may request mediation on behalf of involved agencies when there are disputes between agencies regarding responsibilities to coordinate, provide, pay for, or facilitate payment for early intervention services.

(1) a statement that the state has violated the Individuals with Disabilities Education Act, United States Code, title 20, section 1471 et seq. (Part C, Public Law 108-446) or Code of Federal Regulations, title 34, section 303; and

(2) the facts on which the complaint is based.

(b) The commissioner of the state lead agency shall receive and coordinate with other state agencies the review and resolution of a complaint within 60 calendar days according to the state interagency agreement required under section 125A.48. 125A.45 INTERAGENCY DISPUTE PROCEDURE.

(a) A dispute between a school board and a county board that is responsible for implementing the provisions of section 125A.29 regarding early identification, child and family assessment, service coordination, and IFSP development and implementation must be resolved according to this subdivision when the dispute involves services provided to children and families eligible under the Individuals with Disabilities Education Act, United States Code, title 20, section 1471 et seq. (Part C, Public Law 108-446).

(b) A dispute occurs when the school board and county board are unable to agree as to who is responsible to coordinate, provide, pay for, or facilitate payment for services from public and private sources.

(c) Written and signed disputes must be filed with the local primary agency.

(d) The local primary agency must attempt to resolve the matter with the involved school board and county board and may request mediation from the commissioner of the state lead agency for this purpose.

(e) When interagency disputes have not been resolved within 30 calendar days, the local primary agency must request the commissioner of the state lead agency to review the matter with the commissioners of health and human services and make a decision. The commissioner must provide a consistent process for reviewing those procedures. The commissioners' decision is binding subject to the right of an aggrieved party to appeal to the state Court of Appeals.

(f) The local primary agency must ensure that eligible children and their families receive early intervention services during resolution of a dispute. While a local dispute is pending, the local primary agency must either assign financial responsibility to an agency or pay for the service from the early intervention account under section 125A.35. If in resolving the dispute, it is determined that the assignment of financial responsibility was inappropriate, the responsibility for payment must be reassigned to the appropriate agency and the responsible agency must make arrangements for reimbursing any expenditures incurred by the agency originally assigned financial responsibility.

(11) quality assurance;

(12) data collection;

(13) an annual summary to the state Interagency Coordinating Council regarding conflict resolution activities including disputes, due process hearings, and complaints; and

(14) other components of the state and local early intervention system consistent with Public Law 108-446.

Written materials must be developed for parents, IEIC's, and local service providers that describe procedures developed under this section as required by Code of Federal Regulations, title 34, section 303.

ALTERNATIVES FOR DELIVERING SPECIALIZED INSTRUCTION**125A.50 ALTERNATIVE DELIVERY OF SPECIALIZED INSTRUCTIONAL SERVICES.**

Subdivision 1. **Commissioner approval.** The commissioner may approve applications from districts initiating or significantly changing a program to provide prevention services as an alternative to special education and other compensatory programs. A district with an approved program may provide instruction and services in a regular education classroom, or an area learning center, to eligible pupils. Pupils eligible to participate in the program are pupils who need additional academic or behavioral support to succeed in the general education environment and who may eventually qualify for special education instruction or related services under sections 125A.03 to 125A.24 and 125A.65 if the intervention services authorized by this section were unavailable. Pupils may be provided services during extended school days and throughout the entire year and through the assurance of mastery program under sections 125A.03 to 125A.24 and 125A.65.

Subd. 2. **Application contents.** The application must set forth:

(1) instructional services available to eligible pupils under section 124D.66, subdivision 2, and pupils with a disability under section 125A.02;

(2) criteria to select pupils for the program and the assessment procedures to determine eligibility;

(3) involvement in the program of parents of pupils in the program, parent advocates, and community special education advocates;

(4) accounting procedures to document that federal special education money is used to supplement or increase the level of special education instruction and related services provided with state and local revenue, but in no case to supplant the state and local revenue, and that districts are expending at least the amount for special education instruction and related services required by federal law;

(5) the role of general and special education teachers in planning, implementing, and evaluating the program;

(6) an annual budget detailing program expenditures; and

(7) other information requested by the commissioner.

Subd. 3. **Evaluation.** The application must also set forth the review and evaluation procedures to be used by the district addressing at least the following:

(1) the number of pupils with and without a disability served;

(2) the impact of the program on the academic and behavioral progress of the pupils;

(3) the level of satisfaction teachers, parents, and pupils have with the program;

(4) the effect of the program on the number of referrals for special education, federal Title 1, and other programs; and

(5) cost implications.

Subd. 4. **Budget review and approval.** (a) Each year before a district receives aid under section 125A.78, the district must submit to the commissioner for review and approval a budget detailing program expenditures for the fiscal year. The commissioner must determine whether the personnel, equipment,

supplies, and extended school year are necessary to meet the district's obligation to provide special instruction and services to children with a disability according to sections 125A.03 to 125A.24 and 125A.65. The commissioner may not approve revenue for any expenditures determined to be unnecessary.

(b) The commissioner must not approve budget increases under this section that would cause the state to fail to meet maintenance of effort requirements under federal special education law. The commissioner must establish criteria for prioritizing and approving budget increases, which may include criteria such as maintaining current programs, locating programs throughout the state, and developing innovative programs.

Subd. 5. **Annual report.** Each year the district must submit to the commissioner a report containing the information described in subdivision 3.

Subd. 6. **Pupil rights.** A pupil participating in the program must be individually evaluated according to the pupil's actual abilities and needs. A pupil who is eligible for services under sections 125A.03 to 125A.24 and 125A.65 is entitled to procedural protections provided under United States Code, title 20, section 33, in any matter that affects the identification, evaluation, placement, or change in placement of a pupil. The district must ensure the protection of a pupil's civil rights, provide equal educational opportunities, and prohibit discrimination. Failure to comply with this subdivision will at least cause a district to become ineligible to participate in the program. Notwithstanding rules of the Department of Education, the commissioner cannot waive a pupil's rights under this section.

125A.51 PLACEMENT OF CHILDREN WITHOUT DISABILITIES; EDUCATION AND TRANSPORTATION.

The responsibility for providing instruction and transportation for a pupil without a disability who has a short-term or temporary physical or emotional illness or disability, as determined by the standards of the commissioner, and who is temporarily placed for care and treatment for that illness or disability, must be determined as provided in this section.

(a) The school district of residence of the pupil is the district in which the pupil's parent or guardian resides. If there is a dispute between school districts regarding residency, the district of residence is the district designated by the commissioner.

(b) When parental rights have been terminated by court order, the legal residence of a child placed in a residential or foster facility for care and treatment is the district in which the child resides.

(c) Before the placement of a pupil for care and treatment, the district of residence must be notified and provided an opportunity to participate in the placement decision. When an immediate emergency placement is necessary and time does not permit resident district participation in the placement decision, the district in which the pupil is temporarily placed, if different from the district of residence, must notify the district of residence of the emergency placement within 15 days of the placement. When a nonresident district makes an emergency placement without first consulting with the resident district, the resident district has up to five business days after receiving notice of the emergency placement to request an opportunity to participate in the placement decision, which the placing district must then provide.

(d) When a pupil without a disability is temporarily placed for care and treatment in a day program and the pupil continues to live within the district of residence during the care and treatment, the district

of residence must provide instruction and necessary transportation to and from the care and treatment program for the pupil. The resident district may establish reasonable restrictions on transportation, except if a Minnesota court or agency orders the child placed at a day care and treatment program and the resident district receives a copy of the order, then the resident district must provide transportation to and from the program unless the court or agency orders otherwise. Transportation shall only be provided by the resident district during regular operating hours of the resident district. The resident district may provide the instruction at a school within the district of residence, at the pupil's residence, or in the case of a placement outside of the resident district, in the district in which the day treatment program is located by paying tuition to that district. The district of placement may contract with a facility to provide instruction by teachers licensed by the state Board of Teaching.

(e) When a pupil without a disability is temporarily placed in a residential program for care and treatment, the district in which the pupil is placed must provide instruction for the pupil and necessary transportation while the pupil is receiving instruction, and in the case of a placement outside of the district of residence, the nonresident district must bill the district of residence for the actual cost of providing the instruction for the regular school year and for summer school, excluding transportation costs.

(f) Notwithstanding paragraph (e), if the pupil is homeless and placed in a public or private homeless shelter, then the district that enrolls the pupil under section 127A.47, subdivision 2, shall provide the transportation, unless the district that enrolls the pupil and the district in which the pupil is temporarily placed agree that the district in which the pupil is temporarily placed shall provide transportation. When a pupil without a disability is temporarily placed in a residential program outside the district of residence, the administrator of the court placing the pupil must send timely written notice of the placement to the district of residence. The district of placement may contract with a residential facility to provide instruction by teachers licensed by the state Board of Teaching. For purposes of this section, the state correctional facilities operated on a fee-for-service basis are considered to be residential programs for care and treatment.

(g) The district of residence must include the pupil in its residence count of pupil units and pay tuition as provided in section 123A.488 to the district providing the instruction. Transportation costs must be paid by the district providing the transportation and the state must pay transportation aid to that district. For purposes of computing state transportation aid, pupils governed by this subdivision must be included in the disabled transportation category if the pupils cannot be transported on a regular school bus route without special accommodations.

125A.515 PLACEMENT OF STUDENTS; APPROVAL OF EDUCATION PROGRAM.

Subdivision 1. **Approval of education programs.** The commissioner shall approve on-site education programs for placement of children and youth in residential facilities including detention centers, before being licensed by the Department of Human Services or the Department of Corrections. Education programs in these facilities shall conform to state and federal education laws including the Individuals with Disabilities Education Act (IDEA). This section applies only to placements in facilities licensed by the Department of Human Services or the Department of Corrections. For purposes of this section, "on-site education program" means the educational services provided directly on the grounds of the care and treatment facility to children and youth placed for care and treatment.

Subd. 2. [Repealed, 2006 c 263 art 3 s 17]

Subd. 3. **Responsibilities for providing education.** (a) The district in which the residential facility is located must provide education services, including special education if eligible, to all students placed in a facility.

(b) For education programs operated by the Department of Corrections, the providing district shall be the Department of Corrections. For students remanded to the commissioner of corrections, the providing and resident district shall be the Department of Corrections.

Subd. 3a. **Students without a disability from other states.** A school district is not required to provide education services under this section to a student who:

(1) is not a resident of Minnesota;

(2) does not have an individualized education program; and

(3) does not have a tuition arrangement or agreement to pay the cost of education from the placing authority.

Subd. 4. **Education services required.** (a) Education services must be provided to a student beginning within three business days after the student enters the care and treatment facility. The first four days of the student's placement may be used to screen the student for educational and safety issues.

(b) If the student does not meet the eligibility criteria for special education, regular education services must be provided to that student.

Subd. 5. **Education programs for students placed in residential facilities.** (a) When a student is placed in a facility approved under this section that has an on-site education program, the providing district, upon notice from the care and treatment facility, must contact the resident district within one business day to determine if a student has been identified as having a disability, and to request at least the student's transcript, and for students with disabilities, the most recent individualized education program (IEP) and evaluation report, and to determine if the student has been identified as a student with a disability. The resident district must send a facsimile copy to the providing district within two business days of receiving the request.

(b) If a student placed under this section has been identified as having a disability and has an individualized education program in the resident district:

(1) the providing agency must conduct an individualized education program meeting to reach an agreement about continuing or modifying special education services in accordance with the current individualized education program goals and objectives and to determine if additional evaluations are necessary; and

(2) at least the following people shall receive written notice or documented phone call to be followed with written notice to attend the individualized education program meeting:

(i) the person or agency placing the student;

(ii) the resident district;

(iii) the appropriate teachers and related services staff from the providing district;

- (iv) appropriate staff from the residential facility;
- (v) the parents or legal guardians of the student; and
- (vi) when appropriate, the student.

(c) For a student who has not been identified as a student with a disability, a screening must be conducted by the providing districts as soon as possible to determine the student's educational and behavioral needs and must include a review of the student's educational records.

Subd. 6. Exit report summarizing educational progress. If a student has been placed in a facility under this section for 15 or more business days, the providing district must prepare an exit report summarizing the regular education, special education, evaluation, educational progress, and service information and must send the report to the resident district and the next providing district if different, the parent or legal guardian, and any appropriate social service agency. For students with disabilities, this report must include the student's IEP.

Subd. 7. Minimum educational services required. When a student is placed in a facility approved under this section, at a minimum, the providing district is responsible for:

- (1) the education necessary, including summer school services, for a student who is not performing at grade level as indicated in the education record or IEP; and
- (2) a school day, of the same length as the school day of the providing district, unless the unique needs of the student, as documented through the IEP or education record in consultation with treatment providers, requires an alteration in the length of the school day.

Subd. 8. Placement, services, and due process. When a student's treatment and educational needs allow, education shall be provided in a regular educational setting. The determination of the amount and site of integrated services must be a joint decision between the student's parents or legal guardians and the treatment and education staff. When applicable, educational placement decisions must be made by the IEP team of the providing district. Educational services shall be provided in conformance with the least restrictive environment principle of the Individuals with Disabilities Education Act. The providing district and care and treatment facility shall cooperatively develop discipline and behavior management procedures to be used in emergency situations that comply with the Minnesota Pupil Fair Dismissal Act and other relevant state and federal laws and regulations.

Subd. 9. Reimbursement for education services. (a) Education services provided to students who have been placed under this section are reimbursable in accordance with special education and general education statutes.

125A.56 ALTERNATE INSTRUCTION REQUIRED BEFORE ASSESSMENT REFERRAL.

Subdivision 1. **Requirement.** (a) Before a pupil is referred for a special education evaluation, the district must conduct and document at least two instructional strategies, alternatives, or interventions using a system of scientific, research-based instruction and intervention in academics or behavior, based on the pupil's needs, while the pupil is in the regular classroom. The pupil's teacher must document the results. A special

education evaluation team may waive this requirement when it determines the pupil's need for the evaluation is urgent. This section may not be used to deny a pupil's right to a special education evaluation.

(b) A school district shall use alternative intervention services, including the assurance of mastery program under section 124D.66, or an early intervening services program under subdivision 2 to serve at-risk pupils who demonstrate a need for alternative instructional strategies or interventions.

Subd. 2. **Early intervening services program.** (a) A district may meet the requirement under subdivision 1 by establishing an early intervening services program that includes:

(1) a system of valid and reliable general outcome measures aligned to state academic standards that is administered at least three times per year to pupils in kindergarten through grade 8 who need additional academic or behavioral support to succeed in the general education environment. The school must provide interim assessments that measure pupils' performance three times per year and implement progress monitoring appropriate to the pupil. For purposes of this section, "progress monitoring" means the frequent and continuous measurement of a pupil's performance that includes these three interim assessments and other pupil assessments during the school year. A school, at its discretion, may allow pupils in grades 9 through 12 to participate in interim assessments;

(2) a system of scientific, research-based instruction and intervention; and

(3) an organizational plan that allows teachers, paraprofessionals, and volunteers funded through various sources to work as a grade-level team or use another configuration across grades and settings to deliver instruction. The team must be trained in scientific, research-based instruction and intervention. Teachers and paraprofessionals at a site operating under this paragraph must work collaboratively with those pupils who need additional academic or behavioral support to succeed in a general education environment.

(b) As an intervention under paragraph (a), clause (2), staff generating special education aid under section 125A.76 may provide small group instruction to pupils who need additional academic or behavioral support to succeed in the general education environment. Small group instruction that includes pupils with a disability may be provided in the general education environment if the needs of the pupils with a disability are met, consistent with their individualized education programs, and all pupils in the group receive the same level of instruction and make the same progress in the instruction or intervention. Teachers and paraprofessionals must ensure that the needs of pupils with a disability participating in small group instruction under this paragraph remain the focus of the instruction. Expenditures attributable to the time special education staff spends providing instruction to nondisabled pupils in this circumstance is eligible for special education aid under section 125A.76 as an incidental benefit if:

(1) the group consists primarily of disabled pupils;

(2) no special education staff are added to meet nondisabled pupils' needs; and

(3) the primary purpose of the instruction is to implement the individualized education programs of pupils with a disability in this group.

Expenditures attributable to the time special education staff spends providing small group instruction to nondisabled pupils that affords more than an incidental benefit to such pupils is not eligible for special education aid under section 125A.76, except that such expenditures may be included in the alternative delivery initial aid adjustment under section 125A.78 if the district has an approved program under section 125A.50. During each 60-day period that a nondisabled pupil participates in small group instruction under

this paragraph, the pupil's progress monitoring data must be examined to determine whether the pupil is making progress and, if the pupil is not making progress, the pupil's intervention strategies must be changed or the pupil must be referred for a special education evaluation.

The board of the Minnesota State Academies must pay the tuition and other program costs including the unreimbursed transportation costs. Aids for children with a disability must be paid to the district providing the special instruction and services. Subd. 6. Tuition reduction. Notwithstanding the provisions of subdivisions 3 and 5, the board of the Minnesota State Academies may agree to make a tuition charge, or receive an aid adjustment, as applicable, for less than the amount specified in subdivision 3 for pupils attending the applicable school who are residents of the district where the institution is located and who do not board at the institution, if that district agrees to make a tuition charge to the board of the Minnesota State Academies for less than the amount specified in subdivision 5 for providing appropriate educational programs to pupils attending the applicable school.

- (1) the total number of enrolled students on May 1 less 175; times
- (2) the ratio of the number of students in that grade category to the total number of students on May 1; times
- (3) the general education revenue formula allowance; times
- (4) the pupil unit weighting factor pursuant to section 126C.05.

(d) For fiscal year 2007 and later, the Minnesota State Academies shall report to the department the number of students by grade level counted according to paragraph (a). The amount paid to the Minnesota State Academies under subdivision 3, paragraph (c), must be reduced by an amount equal to:

- (1) the ratio of 175 to the total number of students on May 1; times
- (2) the total basic revenue determined according to subdivision 3, paragraph (c).

Subd. 9. **Calculation.** The sum provided by the calculation in subdivision 8 must be deposited in the state treasury and credited to the general operation account of the Minnesota State Academy for the Deaf and the Minnesota State Academy for the Blind.

Subd. 10. **Annual appropriation.** There is annually appropriated to the department for the Minnesota State Academies the tuition or aid payment amounts received and credited to the general operation account of the academies under this section. 125A.68 STATE ADOPTED PROCEDURES.

Subdivision 1. **Subjects.** The board of the Minnesota State Academies must establish procedures for:

- (1) admission, including short-term admission, to the academies;
- (2) discharge from the academies;
- (3) decisions on a pupil's program at the academies; and
- (4) evaluation of a pupil's progress at the academies.

Subd. 2. **Minimum content.** The discharge procedures must include reasonable notice to the child's district of residence. The procedures must guarantee a pupil and the pupil's parent or guardian appropriate

safeguards. The safeguards must include a review of the placement determination made under sections 125A.03 to 125A.24, 125A.65, and 125A.69 and the right to participate in educational program decisions.

History: 1989 c 220 s 2; 1Sp1995 c 3 art 11 s 15; 1998 c 397 art 11 s 3; 1998 c 398 art 5 s 25,26; 1999 c 241 art 2 s 28

125A.69 ADMISSION STANDARDS.

Subdivision 1. **Admissions.** Admission to the Minnesota State Academies is described in this section.

(a) A pupil who is deaf, hard of hearing, or deafblind, may be admitted to the Academy for the Deaf. A pupil who is blind or visually impaired, deafblind, or multiply disabled may be admitted to the Academy for the Blind. For a pupil to be admitted, two decisions must be made under sections 125A.03 to 125A.24 and 125A.65.

(1) It must be decided by the individualized education program team that education in regular or special education classes in the pupil's district of residence cannot be achieved satisfactorily because of the nature and severity of the deafness or blindness or visual impairment respectively.

(2) It must be decided by the individualized education program team that the academy provides the most appropriate placement within the least restrictive alternative for the pupil.

(b) A deaf or hard of hearing child or a visually impaired pupil may be admitted to get socialization skills or on a short-term basis for skills development.

(c) A parent of a child who resides in Minnesota and who meets the disability criteria for being deaf or hard of hearing, blind or visually impaired, or multiply disabled may apply to place the child in the Minnesota State Academies. Academy staff must review the application to determine whether the Minnesota State Academies is an appropriate placement for the child. If academy staff determine that the Minnesota State Academies is an appropriate placement, the staff must invite the individualized education program team at the child's resident school district to participate in a meeting to arrange a trial placement of between 60 and 90 calendar days at the Minnesota State Academies. If the child's parent consents to the trial placement, the Minnesota State Academies is the responsible serving school district and incurs all due process obligations under law, and the child's resident school district is responsible for any transportation included in the child's individualized education program during the trial placement. Before the trial placement ends, academy staff must convene an individualized education program team meeting to determine whether to continue the child's placement at the Minnesota State Academies or that another placement is appropriate. If the academy members of the individualized education program team and the parent are unable to agree on the child's placement, the child's placement reverts to the placement in the child's individualized education program that immediately preceded the trial placement. If the parent and individualized education program team agree to continue the placement beyond the trial period, the transportation and due process responsibilities are the same as those described for the trial placement under this paragraph.

Subd. 2. **Pupils with multiple disabilities eligible to attend.** This section does not prevent a pupil with disabilities in addition to being

(1) deaf or hard of hearing, or

(2) blind or visually impaired

from attending the Academy for the Deaf or the Academy for the Blind, respectively.

Subd. 3. **Out-of-state admissions.** An applicant from another state who can benefit from attending either academy may be admitted to the academy if the admission does not prevent an eligible Minnesota resident from being admitted. The board of the Minnesota State Academies must obtain reimbursement from the other state for the costs of the out-of-state admission. The state board may enter into an agreement with the appropriate authority in the other state for the reimbursement. Money received from another state must be deposited in the special revenue fund and credited to the general operating account of the academies. The money is appropriated to the academies.

Subd. 4. **Compulsory attendance.** The compulsory attendance provisions of section 120A.22 apply to attendance at the academies. Attendance may be excused under that section by the commissioner of education or a designee. A person who fails to comply with section 120A.22 is subject to section 120A.26. The academies' administrator must exercise the duties imposed on a superintendent by section 120A.26. Attendance at the Academy for the Deaf or the Academy for the Blind fulfills the requirements of sections 125A.03 to 125A.24 and 125A.65. The academies are subject to sections 121A.40 to 121A.45, the Pupil Fair Dismissal Act of 1970, as amended.

Subd. 2. **Local social services agency.** If the person liable for support of a pupil cannot support the pupil, the local social services agency of the county of the pupil's residence must do so. The commissioner of education must decide how much the local social services agency must pay. The board of the Minnesota State Academies must adopt rules that tell how the commissioner is to fix the amount. The local social services agency must make the payment to the superintendent of the school district of residence.

Subd. 3. **Transportation expenses.** The school district of residence must pay for the transportation of the pupil from the pupil's residence to the academy and back.

Payment from the revolving fund for rental income may be made only according to vouchers authorized by the administrator of the academies.

Subd. 2. **Fees; appropriation.** Income received under subdivision 3 must be deposited in the state treasury and credited to a revolving fund of the academies. Money in the revolving fund for fees from conferences, seminars, technical assistance, production of instructionally related materials and other services is annually appropriated to the academies to defray expenses of those services. Payment from the revolving fund for conferences and other fees may be made only according to vouchers authorized by the administrator of the academies.

Subd. 3. **Contracts; fees; appropriation.** The board of the Minnesota State Academies may enter into agreements for the academies to provide respite care and supplemental educational instruction and services including assessments and counseling. The agreements may be made with public or private agencies or institutions, school districts, service cooperatives, or counties. Subd. 2. **Statewide data management system.** The commissioner of education, in cooperation with the commissioner of human services, shall develop a statewide data management system using the educational data reporting system or other existing data management system for school districts and cooperative units to use to maximize medical assistance reimbursement for health and health-related services provided under

individualized education programs and individual family service plans. The system must be appropriately integrated with state and local existing and developing human services and education data systems. The statewide data management system must enable school district and cooperative unit staff to:

- (1) establish medical assistance billing systems or improve existing systems;
- (2) understand the appropriate medical assistance billing codes for services provided under individualized education programs and individual family service plans;
- (3) comply with the Individuals with Disabilities Education Act, Public Law 105-17;
- (4) contract with billing agents; and
- (5) carry out other activities necessary to maximize medical assistance reimbursement.

Subd. 3. **Implementation.** Consistent with section 256B.0625, subdivision 26, school districts may enroll as medical assistance providers or subcontractors and bill the Department of Human Services under the medical assistance fee for service claims processing system for special education services which are covered services under chapter 256B, which are provided in the school setting for a medical assistance recipient, and for whom the district has secured informed consent consistent with section 13.05, subdivision 4, paragraph (d), and section 256B.77, subdivision 2, paragraph (p), to bill for each type of covered service. School districts shall be reimbursed by the commissioner of human services for the federal share of individualized education program health-related services that qualify for reimbursement by medical assistance, minus up to five percent retained by the commissioner of human services for administrative costs, not to exceed \$450,000 per fiscal year. The commissioner may withhold up to five percent of each payment to a school district. Following the end of each fiscal year, the commissioner shall settle up with each school district in order to ensure that collections from each district for departmental administrative costs are made on a pro rata basis according to federal earnings for these services in each district. A school district is not eligible to enroll as a home care provider or a personal care provider organization for purposes of billing home care services under sections 256B.0651, 256B.0653, and 256B.0654 until the commissioner of human services issues a bulletin instructing county public health nurses on how to assess for the needs of eligible recipients during school hours. To use home care nursing services or personal care services at school, the recipient or responsible party must provide written authorization in the care plan identifying the chosen provider and the daily amount of services to be used at school.

Subdivision 1. **Travel aid.** The state must pay each district one-half of the sum actually expended by a district, based on mileage, for necessary travel of essential personnel providing home-based or community-based services to children with a disability under age five and their families.

Subd. 2. **Aid payment.** The aids provided for children with a disability must be paid to the district providing the special instruction and services. General education aid must be paid to the district of the pupil's residence. The total amount of aid paid may not exceed the amount expended for children with a disability in the year for which the aid is paid.

Subd. 3. **Full state payment.** The state must pay each district the actual cost incurred in providing instruction and services for a child whose district of residence has been determined by section 125A.17 or 125A.51, paragraph (b), and who is temporarily placed in a state institution, a licensed residential facility, or foster facility for care and treatment. The regular education program at the facility must be an approved program according to section 125A.515.

Upon following the procedure specified by the commissioner, the district may bill the state the actual cost incurred in providing the services including transportation costs and a proportionate amount of capital expenditures and debt service, minus the amount of the basic revenue, as defined in section 126C.10, subdivision 2, of the district for the child and the special education aid, transportation aid, and any other aid earned on behalf of the child. The limit in subdivision 2 applies to aid paid pursuant to this subdivision.

To the extent possible, the commissioner shall obtain reimbursement from another state for the cost of serving any child whose parent or guardian resides in that state. The commissioner may contract with the appropriate authorities of other states to effect reimbursement. All money received from other states must be paid to the state treasury and placed in the general fund.

Subd. 4. **Program and aid approval.** Before June 1 of each year, each district providing special instruction and services to children with a disability, including children eligible for Part C, as defined in section 125A.02, subdivision 1, and section 125A.27, subdivision 8, must submit to the commissioner an application for approval of these programs and their budgets for the next fiscal year. The application must include an enumeration of the costs proposed as eligible for state aid pursuant to this section and of the estimated number and grade level of children with a disability in the district who will receive special instruction and services during the next fiscal year. The application must also include any other information deemed necessary by the commissioner for the calculation of state aid and for the evaluation of the necessity of the program, the necessity of the personnel to be employed in the program, for determining the amount which the program will receive from grants from federal funds, or special grants from other state sources, and the program's compliance with the rules and standards of the Department of Education. The commissioner shall review each application to determine whether the program and the personnel to be employed in the program are actually necessary and essential to meet the district's obligation to provide special instruction and services to children with a disability pursuant to sections 125A.03 to 125A.24, 125A.259 to 125A.48, and 125A.65. The commissioner shall not approve aid pursuant to this section for any program or for the salary of any personnel determined to be unnecessary or unessential on the basis of this review. The commissioner may withhold all or any portion of the aid for programs which receive grants from federal funds, or special grants from other state sources. By August 31 the commissioner shall approve, disapprove, or modify each application, and notify each applying district of the action and of the estimated amount of aid for the programs. The commissioner shall provide procedures for districts to submit additional applications for program and budget approval during the fiscal year, for programs needed to meet any substantial changes in the needs of children with a disability in the district. Notwithstanding the provisions of section 127A.42, the commissioner may modify or withdraw the program or aid approval and withhold aid pursuant to this section without proceeding according to section 127A.42 at any time the commissioner determines that the program does not comply with rules of the Department of Education or that any facts concerning the program or its budget differ from the facts in the district's approved application.

Subd. 5. **Regular classroom programs.** When planning programs for the education of children with a disability in the regular classroom, school districts are encouraged to consider the size of the regular class and to provide the support services necessary to ensure successful mainstreaming.

Subd. 6. [Repealed, 2007 c 146 art 3 s 25]

Subd. 7. **Allocation from cooperative centers, service cooperatives, education districts, and intermediate districts.** For purposes of this section, a special education cooperative, service cooperative, education district, or an intermediate district must allocate its approved expenditures for special education programs among participating districts. Special education aid for services provided by a cooperative, service cooperative, education district, or intermediate district must be paid to the participating school districts.

Subd. 8. [Repealed, 1Sp2005 c 5 art 3 s 19]

Subd. 9. **Litigation costs; annual report.** (a) By November 30 of each year, a school district must annually report the district's special education litigation costs, including attorney fees and costs of due process hearings, to the commissioner of education, consistent with the Uniform Financial Accounting and Reporting Standards.

(b) By February 1 of each year, the commissioner shall report school district special education litigation costs to the house of representatives and the senate committees having jurisdiction over kindergarten through grade 12 education finance.
