

254B.12 RATE METHODOLOGY.

Subdivision 1. **CCDTF rate methodology established.** The commissioner shall establish a new rate methodology for the consolidated chemical dependency treatment fund. The new methodology must replace county-negotiated rates with a uniform statewide methodology that must include a graduated reimbursement scale based on the patients' level of acuity and complexity. At least biennially, the commissioner shall review the financial information provided by vendors to determine the need for rate adjustments.

Subd. 2. **Payment methodology for highly specialized vendors.** Notwithstanding subdivision 1, the commissioner shall seek federal authority to develop separate payment methodologies for chemical dependency treatment services provided under the consolidated chemical dependency treatment fund: (1) by a state-operated vendor; or (2) for persons who have been civilly committed to the commissioner, present the most complex and difficult care needs, and are a potential threat to the community. A payment methodology under this subdivision is effective for services provided on or after October 1, 2015, or on or after the receipt of federal approval, whichever is later.
