

254B.05 VENDOR ELIGIBILITY.

Subdivision 1. **Licensure required.** Programs licensed by the commissioner are eligible vendors. Hospitals may apply for and receive licenses to be eligible vendors, notwithstanding the provisions of section 245A.03. American Indian programs that provide chemical dependency primary treatment, extended care, transitional residence, or outpatient treatment services, and are licensed by tribal government are eligible vendors. Detoxification programs are not eligible vendors. Programs that are not licensed as a chemical dependency residential or nonresidential treatment program by the commissioner or by tribal government or do not meet the requirements of subdivisions 1a and 1b are not eligible vendors.

Subd. 1a. **Room and board provider requirements.** (a) Effective January 1, 2000, vendors of room and board are eligible for chemical dependency fund payment if the vendor:

- (1) has rules prohibiting residents bringing chemicals into the facility or using chemicals while residing in the facility and provide consequences for infractions of those rules;
 - (2) is determined to meet applicable health and safety requirements;
 - (3) is not a jail or prison;
 - (4) is not concurrently receiving funds under chapter 256I for the recipient;

- (b) Programs licensed according to Minnesota Rules, chapter 2960, are exempt from paragraph (a), clauses (5) to (15).

Subd. 1b. **Additional vendor requirements.** Vendors must comply with the following duties:

- (1) maintain a provider agreement with the department;
- (2) continually comply with the standards in the agreement;
- (3) participate in the Drug Alcohol Normative Evaluation System;
- (4) submit an annual financial statement which reports functional expenses of chemical dependency treatment costs in a form approved by the commissioner;

Subd. 2. **Regulatory methods.** (a) Where appropriate and feasible, the commissioner shall identify and implement alternative methods of regulation and enforcement to the extent authorized in this subdivision. These methods shall include:

- (1) expansion of the types and categories of licenses that may be granted;
 - (2) when the standards of an independent accreditation body have been shown to predict compliance with the rules, the commissioner shall consider compliance with the accreditation standards to be equivalent to partial compliance with the rules; and
 - (3) use of an abbreviated inspection that employs key standards that have been shown to predict full compliance with the rules.
- (b) The commissioner shall work with the commissioners of health, public safety, administration, and education in consolidating duplicative licensing and certification rules and standards if the commissioner determines that consolidation is administratively feasible, would significantly reduce the cost of licensing, and would not reduce the protection given to persons receiving services in licensed programs. Where administratively feasible and appropriate, the commissioner shall work with the commissioners of health, public safety, administration, and education in conducting joint agency inspections of programs.
- (c) The commissioner shall work with the commissioners of health, public safety, administration, and education in establishing a single point of application for applicants who are required to obtain concurrent licensure from more than one of the commissioners listed in this clause.

Subd. 3. **Fee reductions.** If the commissioner determines that the methods in subdivision 2, clause (2) or (3), can be used in licensing a program, the commissioner shall reduce licensure fees by up to 50 percent. The commissioner may adopt rules to provide for the reduction of fees when a license holder substantially exceeds the basic standards for licensure.

Subd. 4. **Regional treatment centers.** Regional treatment center chemical dependency treatment units are eligible vendors. The commissioner may expand the capacity of chemical dependency treatment units beyond the capacity funded by direct legislative appropriation to serve individuals who are referred for treatment by counties and whose treatment will be paid for by funding under this chapter or other funding

sources. Notwithstanding the provisions of sections 254B.03 to 254B.041, payment for any person committed at county request to a regional treatment center under chapter 253B for chemical dependency treatment and determined to be ineligible under the chemical dependency consolidated treatment fund, shall become the responsibility of the county.

Subd. 5. **Rate requirements.** (a) The commissioner shall establish rates for chemical dependency services and service enhancements funded under this chapter.

(b) Eligible chemical dependency treatment services include:

(1) outpatient treatment services that are licensed according to Minnesota Rules, parts 9530.6405 to 9530.6480, or applicable tribal license;

(8) room and board facilities that meet the requirements of subdivision 1a.

(c) The commissioner shall establish higher rates for programs that meet the requirements of paragraph (b) and one of the following additional requirements:
