

214.24 INSPECTION OF PRACTICE.

Subdivision 1. **Authority.** The board is authorized to conduct inspections of the clinical practice of a regulated person to determine whether the regulated person is following accepted and prevailing infection control procedures. The board shall provide at least three business days' notice to the clinical practice prior to the inspection. The clinical practice of a regulated person includes any location where the regulated person practices that is not an institution licensed and subject to inspection by the commissioner of health. During the course of inspections the privacy and confidentiality of patients and regulated persons shall be maintained. The board may require on license renewal forms that regulated persons inform the board of all locations where they practice.

Subd. 2. **Access; records.** An inspector from the board shall have access, during reasonable business hours for purposes of inspection, to all areas of the practice setting where patient care is rendered or drugs or instruments are held that come into contact with a patient. An inspector is authorized to interview employees and regulated persons in the performance of an inspection, to observe infection control procedures, test equipment used to sterilize instruments, and to review and copy all relevant records, excluding patient health records. In performing these responsibilities, inspectors shall make reasonable efforts to respect and preserve patient privacy and the privacy of the regulated person. Boards are authorized to conduct joint inspections and to share information obtained under this section. The boards shall contract with the commissioner to perform the duties under this subdivision.

Subd. 3. **Board action.** If accepted and prevailing infection control techniques are not being followed, the board may educate the regulated person or take other actions. The board and the inspector shall maintain patient confidentiality in any action resulting from the inspection.

Subd. 4. **Rulemaking.** A board is authorized to adopt rules setting standards for infection control procedures. Boards shall engage in joint rulemaking. Boards must seek and consider the advice of the commissioner of health before adopting rules. No inspections shall be conducted under this section until after infection control rules have been adopted. Each board is authorized to provide educational information and training to regulated persons regarding infection control. All regulated persons who are employers shall make infection control rules available to employees who engage in functions related to infection control.
