(1) a postretirement increase of 2.5 percent must be applied each year, effective January 1, to the monthly annuity or benefit of each annuitant or benefit recipient who has been receiving an annuity or a benefit for at least 12 full months as of the June 30 of the calendar year immediately before the adjustment; and

(2) for each annuitant or benefit recipient who has been receiving an annuity or a benefit amount for at least one full month, but less than 12 full months as of the June 30 of the calendar year immediately before the adjustment, an annual postretirement increase of 1/12 of 2.5 percent for each month that the person has been receiving an annuity or benefit must be applied.

(b) An increase in annuity or benefit payments under this section must be made automatically unless written notice is filed by the annuitant or benefit recipient with the executive director of the covered retirement plan requesting that the increase not be made.

Subd. 1a. **Annual postretirement adjustments; Minnesota State Retirement System plans other than State Patrol retirement plan.** (a) Retirement annuity, disability benefit, or survivor benefit recipients of the legislators retirement plan, including constitutional officers as specified in chapter 3A, the general state employees retirement plan, the correctional state employees retirement plan, and the unclassified state employees retirement program are entitled to a postretirement adjustment annually on January 1, as follows:

(1) for each successive January 1, if the definition of funding stability under paragraph (b) has not been met as of the prior July 1 for or with respect to the applicable retirement plan, a postretirement increase of two percent must be applied each year, effective on January 1, to the monthly annuity or benefit of each annuitant or benefit recipient who has been receiving an annuity or a benefit for at least 12 full months as of the June 30 of the calendar year immediately before the adjustment; and

(2) for each successive January 1, if the definition of funding stability under paragraph (b) has not been met as of the prior July 1 for or with respect to the applicable retirement plan, for each annuitant or benefit recipient who has been receiving an annuity or a benefit for at least one full month, but less than 12 full months as of the June 30 of the calendar year immediately before the adjustment, an annual postretirement increase of 1/12 of two percent for each month that the person has been receiving an annuity or benefit must be applied.

(b) Increases under this subdivision for the general state employees retirement plan or the correctional state employees retirement plan terminate on December 31 of the calendar year in which two prior consecutive actuarial valuations prepared by the approved actuary under sections 356.214 and 356.215 and the standards for actuarial work promulgated by the Legislative Commission on Pensions and Retirement indicate that the market value of assets of the retirement plan equals or exceeds 90 percent of the actuarial accrued liability of the retirement plan and increases under subdivision 1 recommence after that date. Increases under this subdivision for the legislators retirement plan established under chapter 3A, including the constitutional officers specified in that chapter, and for the unclassified state employees retirement program, terminate on December 31 of the calendar year in which two prior consecutive actuarial valuations prepared by the approved actuary under sections 356.214 and 356.215 and the standards for actuarial work promulgated by the Legislative Commission on Pensions and Retirement indicate that the market value of assets of the general state employees retirement plan equals or exceeds 90 percent of the actuarial accrued liability of the retirement plan and increases under subdivision 1 recommence after that date.

(c) After having met the definition of funding stability under paragraph (b), the increase provided in paragraph (a), clauses (1) and (2), rather than an increase under subdivision 1, for the general state employees retirement plan or the correctional state employees retirement plan, is again to be applied in a subsequent year or years if the market value of assets of the applicable plan equals or is less than:

(1) 85 percent of the actuarial accrued liabilities of the applicable plan for two consecutive actuarial valuations; or

(2) 80 percent of the actuarial accrued liabilities of the applicable plan for the most recent actuarial valuation.

(d) After having met the definition of funding stability under paragraph (b), the increase provided in paragraph (a), clauses (1) and (2), rather than an increase under subdivision 1, for the legislators retirement plan, including the constitutional officers, and for the unclassified state employees retirement program, is again to be applied in a subsequent year or years if the market value of assets of the general state employees retirement plan equals or is less than:

(1) 85 percent of the actuarial accrued liabilities of the applicable plan for two consecutive actuarial valuations; or

(2) 80 percent of the actuarial accrued liabilities of the applicable plan for the most recent actuarial valuation.

(e) An increase in annuity or benefit payments under this subdivision must be made automatically unless written notice is filed by the annuitant or benefit recipient with the executive director of the applicable covered retirement plan requesting that the increase not be made.

(2) for each successive January 1 until funding stability is restored for the applicable retirement plan, for each annuitant or benefit recipient who has been receiving an annuity or a benefit for at least one full month, but less than 12 full months as of the June 30 of the calendar year immediately before the adjustment, an annual postretirement increase of 1/12 of one percent for each month the person has been receiving an annuity or benefit must be applied;

(4) for each January 1 following restoration of funding stability for the applicable retirement plan, for each annuity or benefit recipient who has been receiving an annuity or a benefit for at least one full month, but less than 12 full months as of the June 30 of the calendar year immediately before the adjustment, an

annual postretirement increase of 1/12 of 2.5 percent for each month the person has been receiving an annuity or benefit must be applied.

(b) Funding stability is restored when the market value of assets of the applicable retirement plan equals or exceeds 90 percent of the actuarial accrued liabilities of the applicable plan in the two most recent consecutive actuarial valuations prepared under section 356.215 and the standards for actuarial work by the approved actuary retained by the Public Employees Retirement Association under section 356.214.

(c) After having met the definition of funding stability under paragraph (b), the increase provided in paragraph (a), clauses (1) and (2), rather than an increase under subdivision 1, is again to be applied in a subsequent year or years if the market value of assets of the applicable plan equals or is less than:

(1) 85 percent of the actuarial accrued liabilities of the applicable plan for two consecutive actuarial valuations; or

(2) 80 percent of the actuarial accrued liabilities of the applicable plan for the most recent actuarial valuation.
