Subd. 4a. **Credit for research.** (a) In addition to the exemptions allowed under subdivision 1, a hospital or health care provider may claim an annual credit against the total amount of tax, if any, the hospital or health care provider owes for that calendar year under sections 295.50 to 295.57. The credit shall equal 2.5 percent of revenues for patient services used to fund expenditures for qualifying research conducted by an allowable research program. The amount of the credit shall not exceed the tax liability of the hospital or health care provider under sections 295.50 to 295.57.

(b) For purposes of this subdivision, the following requirements apply:

(1) expenditures must be for program costs of qualifying research conducted by an allowable research program;

(3) qualifying research must:

(B) have as its purpose the development of new knowledge in basic or applied science relating to the diagnosis and treatment of conditions affecting the human body;

Research expenses are not exempt if the study is a routine evaluation of health care methods or products used in a particular setting conducted for the purpose of making a management decision. Costs of clinical research activities paid directly for the benefit of an individual patient are excluded from this exemption. Basic research in fields including biochemistry, molecular biology, and physiology are also included if such programs are subject to a peer review process.

(c) No credit shall be allowed under this subdivision for any revenue received by the hospital or health care provider in the form of a grant, gift, or otherwise, whether from a government or nongovernment source, on which the tax liability under section 295.52 is not imposed.

(d) The taxpayer shall apply for the credit under this section on the annual return under section 295.55, subdivision 5.

(e) Beginning September 1, 2001, if the actual or estimated amount paid under this section for the calendar year exceeds \$2,500,000, the commissioner of management and budget shall determine the rate of the research credit for the following calendar year to the nearest one-half percent so that refunds paid under this section will most closely equal \$2,500,000. The commissioner of management and budget shall publish

in the State Register by October 1 of each year the rate of the credit for the following calendar year. A determination under this section is not subject to the rulemaking provisions of chapter 14.
