ESTRAYS

346.01 WHO MAY TAKE UP.

No person shall take up any estray, except horses or mules, unless such estray shall be found on lands owned or occupied by the person in the town wherein the person resides.

History: (7267) RL s 2769; 1986 c 444

346.02 FINDER TO GIVE NOTICE; PENALTY.

A person who finds an estray and knows who owns it shall notify the owner within seven days after finding the estray and request the owner to pay all reasonable charges and take such estray away. A finder who does not know who owns the estray shall within ten days file a notice with the town clerk. The clerk shall transmit a copy thereof to the county recorder, who shall record the same in a book designated "estrays book." The finder shall give posted notice of the finding of the estray in said town. The notice shall briefly describe the estray, giving its marks, natural and artificial, as nearly as practicable, naming the residence of the finder, and specifying the town, section, and time when taken up. For failure to give such notice, the

finder shall be liable to the owner of the estray in double the amount of damages sustained by the owner thereby.

History: (7268) *RL s 2770; 1976 c 181 s 2; 1984 c 543 s 31; 1986 c 444*

346.03 APPRAISEMENT.

Every finder of an estray of the value of \$10 or more at the time of taking up shall, within one month, have it appraised by a county or municipal judge. The certificate of appraisement shall be filed with the town clerk. The finder shall pay 50 cents for the certificate and six cents per mile for each mile necessarily traveled to make the appraisal.

History: (7269) *RL s 2771; 1983 c 359 s 34*

346.04 CHARGES FOR KEEPING.

The person entitled to the possession of any estray, at any time within one year after notice is filed with the town clerk, may have it restored upon proving the right to it and paying all lawful charges that occur in relation to it. If the person and the finder cannot agree as to the amount of the charges, or upon what should be allowed for the use of the estray, either party, on notice to the other, may apply to a district court judge to settle the disagreement. The judge may examine witnesses on oath. If any amount is owed to the finder, over the value of the use of the estray, the money, with costs, shall be a lien upon the estray. The costs of the adjudication shall be allocated by the judge.

History: (7270) *RL s 2772; 1983 c 359 s 35; 1986 c 444; 1998 c 254 art 2 s 33*

346.05 SALE OF ESTRAY.

If no claimant for such estray shall cause its return to the claimant as before provided, and if such estray shall not have been appraised at more than \$10, the finder shall thereupon become the owner thereof; but, if such appraised value exceeds \$10, the estray shall be sold at public auction by any peace officer of the county on the request of the finder. Notice thereof shall be given and the sale conducted and the same fees allowed as in case of sales upon justice's execution. The finder may bid at such sale, and at the time thereof shall deliver to such officer a statement, in writing, of the finder's charges. After deducting such charges, if reasonable, and the costs of sale, the officer shall deposit the remainder of the money, together with the written statement and a statement of the costs of sale, with the county treasurer, taking the treasurer's receipt therefor. If the finder of any such estray shall fail to cause the sale to be made, the finder shall pay to the town the value of the estray, to be recovered in an action by the town.

History: (7271) *RL s 2773; 1986 c 444; 2005 c 10 art 2 s 2*

346.06 MONEY, HOW DISPOSED OF.

If the money so deposited be not claimed by the former owner of the estray within one year after such sale, the same shall be paid by the county treasurer into the public school fund.

History: (7272) *RL s 2774*

346.07 REMOVAL OF ESTRAY; NEGLECT TO GIVE NOTICE.

If any person, without the consent of the finder, shall take away any estray taken up pursuant to this chapter, without first paying all lawful charges incurred in relation to the same, the person shall be liable to the finder for the value of the estray; and, if any person taking up the estray shall neglect to comply with

the provisions of this chapter, that person shall be precluded from acquiring any right of property in such estray and from receiving any charges or compensation in relation thereto.

ANIMALS DOING DAMAGE

346.08 DISTRAINT OF ANIMALS DOING DAMAGE.

The owner or occupant of lands may distrain any beast doing damage thereon, either while upon the premises or upon immediate pursuit of such beast escaping therefrom, and before returning to the enclosure or immediate care of the owner or keeper, and keep such beast upon the distrainer's premises, or in some public ground in the distrainer's town, until the damages shall be appraised, as hereinafter provided.

History: (7274) *RL s 2776; 1986 c 444*

346.09 ANIMALS DOING DAMAGE.

Subdivision 1. **Notice; appraisers.** The person distraining shall give notice to the owner of the beast, if known to the distrainer, within 24 hours if the owner resides in the same town, and within 48 hours if the owner resides in another town in the same county, Sundays excepted. The notice shall specify the time when and the place where distrained, the number of beasts, and the place of their detention, and that at a time and place stated therein, which shall not be less than 12 hours after the service of the notice, nor more than three days after the distress, the distrainer will apply to a designated judge of the county for the appointment of appraisers to appraise the damages. If the owner is unknown or does not reside in the county, the distraining person shall apply for the appointment of appraisers within 24 hours after the distress without notice. After the application, the judge shall appoint three disinterested residents of the town to appraise the damages.

Subd. 2. **Owners right to appraisal.** If the distraining person fails to apply for appointment of appraisers within the time designated in subdivision 1, the owner of the beasts distrained may in the same manner apply for appointment of appraisers.

History: (7275) *RL s 2777; 1953 c 8 s 1; 1983 c 359 s 36; 1986 c 444; 2006 c 260 art 5 s 7*

346.10 APPRAISEMENT; PROCEDURE.

The appraisers, immediately after their appointment, shall be sworn and view the damage done. They may take the evidence of any witnesses of the facts and circumstances necessary to enable them to ascertain the extent of such damage, and the insufficiency of any line fence on the premises where the damage was done, if any dispute shall arise touching the same, and may administer oaths to such witnesses. They shall certify, under their hands, the amount of such damages, and the costs of keeping such beasts to that time, with their fees, not exceeding \$1 per day each; and their determination as to such damages, and the sufficiency of such fence, if in dispute, shall be conclusive.

History: (7276) *RL s 2778*

346.11 TENDER BY OWNER; EFFECT.

At any time before proceedings are begun for such appraisalment, or before action is brought for the recovery of damages, the owner or the owner's agent may tender, to the person aggrieved by the depredation of such animal, the amount of damages which such owner may believe has been sustained. If the tender be accepted, no further damages shall be recovered in any way; if refused, and the person aggrieved fails to

substantiate or recover as damages a sum greater than that tendered, no costs, disbursements, or expenses shall be collected or recovered in the aggrieved person's favor, but the aggrieved person shall pay the costs and disbursements of such owner.

History: (7277) *RL s 2779; 1986 c 444*

346.12 IMPOUNDMENTS.

Unless the damages so ascertained, together with the fees of the appraisers and justice, shall be paid within 24 hours after appraisal, the person distraining shall cause the beasts to be put into the nearest pound of the same town, if there be one; and, if not, then in some secure enclosure therein, where the same shall remain until sold, as hereinafter directed, or until the damages, fees, and the costs of keeping the beasts after appraisal shall be paid, or until otherwise seized or discharged according to law. From the time of seizure until discharged or sold, such beasts shall be furnished with suitable food, the expense of which, after the appraisal, shall be added thereto as additional costs; and, if the beasts be put in a pound, the certificate of appraisal shall be delivered to the keeper thereof.

History: (7278) *RL s 2780*

346.13 POUNDMASTER; CUSTODY; SALE; TIME; NOTICE.

The poundmaster shall receive and keep in the public pound any beasts so delivered to the poundmaster; and, unless seized or discharged according to law within six days, shall sell the same or as many as shall be necessary to pay such damages, fees, and costs, at public auction, giving three days' posted notice thereof, and posting one such notice on the pound.

History: (7279) *RL s 2781; 1986 c 444*

346.14 SALE OF ANIMAL NOT IMPOUNDED.

If, by reason of there being no pound within such town, such beasts shall be kept within some other enclosure, and shall not be discharged therefrom in the manner hereinbefore provided within six days after being placed therein, the sheriff of the county shall sell such beasts, or so many as may be necessary to pay such damages, fees, and costs of keeping, upon the same notice as is required in sales of personal property, on execution.

History: (7280) *RL s 2782; 2005 c 10 art 2 s 4*

346.15 REDEMPTION.

The purchaser of any animal sold under sections 346.13 and 346.14 shall keep the same at least two months, during which time the owner may redeem such animal by paying all costs and charges of keeping, and the amount paid therefor at the sale, with interest thereon at 12 percent per annum.

Subd. 2. Possession of regulated animals. (a) Except as provided in this section, it is unlawful for a person to possess a regulated animal.

(b) A person who possesses a regulated animal on January 1, 2005, has 90 days to come into compliance with regulations promulgated by the United States Department of Agriculture for regulated animals under the Animal Welfare Act, Public Law 89-544, and its subsequent amendments, and the regulations adopted under that act relating to facilities and operations, animal health and husbandry, and veterinary care for regulated animals.

(4) sell regulated animals to persons eligible under paragraph (f). Offspring under six months of age shall not be counted for the purpose of determining the number of replacement animals that can be possessed under this paragraph.

(f) Except as provided in paragraph (g), a person who does not hold a United States Department of Agriculture license for regulated animals, possesses a regulated animal on January 1, 2005, and has properly registered the animal may replace the regulated animal if it dies, but may replace it only once.

(g) If a regulated animal dies of neglect or cruelty, is seized pursuant to subdivision 5, or if the person is involved in illegal activities, the person cannot acquire a replacement animal.

Subd. 3. Registration. (a) Within 60 days after January 1, 2005, a person who possesses a regulated animal must notify in writing the local animal control authority using a registration form prepared by the Minnesota Animal Control Association and approved by the Board of Animal Health. The notification shall include the person's name, address, telephone number, and a complete inventory of each regulated animal that the person possesses. The inventory shall include the following information: number and species of each regulated animal; the microchip number and manufacturer for each regulated animal if available; the exact location where each regulated animal is kept; and age, sex, color, weight, scars, and any distinguishing marks of each regulated animal.

(b) If a person who possesses a regulated animal has a microchip implanted in the animal for identification, the name of the microchip manufacturer and the identification number of the microchip must be provided to the local animal control authority. If a regulated animal is sedated for any reason and the animal does not have a microchip implanted, a microchip must be implanted in the regulated animal. Within 30 days after the microchip is implanted, the name of the microchip manufacturer and the identification number of the microchip must be provided to the local animal control authority. A person selling or transferring ownership of offspring under six months of age as provided in subdivision 2, paragraph (e), is encouraged to have a microchip implanted in the animal prior to the sale or transfer. Within 30 days of acquisition, a person acquiring ownership of an offspring with a microchip implanted shall comply with microchip information reporting requirements under this section.

(c) If a local animal control authority performs an initial site inspection, a fee of up to \$50 may be charged. An annual fee of \$25 per animal to register regulated animals up to a maximum of \$250 annually per person may be charged. The local animal control authority may charge an additional site inspection fee of \$50 if the person acquires and possesses another type of regulated animal. A certificate of registration must be issued by the local animal control authority to the person upon payment of the fee.

Subd. 4. Requirements. (a) A person who possesses a regulated animal must maintain health and ownership records on each animal and must maintain the records for the life of the animal. If possession of the regulated animal is transferred to another person, a copy of the health and ownership records must accompany the animal.

(f) A person who possesses a regulated animal must notify, as soon as practicable, local law enforcement officials of any escape of a regulated animal. The person who possesses the regulated animal is liable for any costs incurred by any person, city, county, or state agency resulting from the escape of a regulated animal unless the escape is due to a criminal act by another person or a natural event.

(g) A person who possesses a regulated animal must maintain a written recovery plan in the event of the escape of a regulated animal. The person must maintain live traps, or other equipment necessary to assist in the recovery of the regulated animal.

(h) A person may not move a regulated animal from its location unless the person notifies the local animal control authority prior to moving the animal. The notification must include the date and the location where the animal is to be moved. This paragraph does not apply to a regulated animal transported to a licensed veterinarian.

(i) If a person who possesses a regulated animal can no longer care for the animal, the person shall take steps to find long-term placement for the regulated animal.

Subd. 5. **Seizure.** (a) The local animal control authority, upon issuance of a notice of inspection, must be granted access at reasonable times to sites where the local animal control authority has reason to believe a violation of this chapter is occurring or has occurred.

(b) If a person who possesses a regulated animal is not in compliance with the requirements of this section, the local animal control authority shall take possession of the animal for custody and care, provided that the procedures in this subdivision are followed.

(c) Upon request of a person possessing a regulated animal, the local animal control authority may allow the animal to remain in the physical custody of the owner for 30 days, during which time the owner shall take all necessary actions to come in compliance with this section. During the 30-day period, the local animal control authority may inspect, at any reasonable time, the premises where the animal is kept.

(d) If a person who possesses a regulated animal is not in compliance with this section following the 30-day period described in paragraph (c), the local animal control authority shall seize the animal and place it in a holding facility that is appropriate for the species for up to ten days.

(e) The authority taking custody of an animal under this section shall provide a notice of the seizure by delivering or mailing it to the owner, by posting a copy of it at the place where the animal is taken into custody, or by delivering it to a person residing on the property. The notice must include:

(1) a description of the animal seized; the authority for and purpose of the seizure; the time, place, and circumstances under which the animal was seized; and a contact person and telephone number;

(2) a statement that a person from whom a regulated animal was seized may post security to prevent disposition of the animal and may request a hearing concerning the seizure and that failure to do so within five business days of the date of the notice will result in disposition of the animal;

(3) a statement that actual costs of the care, keeping, and disposal of the regulated animal are the responsibility of the person from whom the animal was seized, except to the extent that a court or hearing officer finds that the seizure or impoundment was not substantially justified by law; and

(4) a form that can be used by a person from whom a regulated animal was seized for requesting a hearing under this subdivision.

(f) If a person from whom the regulated animal was seized makes a request within five business days of the seizure, a hearing must be held within five business days of the request to determine the validity of the seizure and disposition of the animal. The judge or hearing officer may authorize the return of the animal to the person from whom the animal was seized if the judge or hearing officer finds:

(1) that the person can and will provide the care required by law for the regulated animal; and

(2) the regulated animal is physically fit.

(g) If a judge or hearing officer orders a permanent disposition of the regulated animal, the local animal control authority may take steps to find long-term placement for the animal with a wildlife sanctuary, persons authorized by the Department of Natural Resources, or an appropriate United States Department of Agriculture licensed facility.

(h) A person from whom a regulated animal is seized is liable for all actual costs of care, keeping, and disposal of the animal, except to the extent that a court or hearing officer finds that the seizure was not substantially justified by law. The costs must be paid in full or a mutually satisfactory arrangement for payment must be made between the local animal control authority and the person claiming an interest in the animal before return of the animal to the person.

(i) A person from whom a regulated animal has been seized under this subdivision may prevent disposition of the animal by posting security in the amount sufficient to provide for the actual costs of care and keeping of the animal. The security must be posted within five business days of the seizure, inclusive of the day of the seizure.

(j) If circumstances exist threatening the life of a person or the life of any animal, local law enforcement or the local animal control authority may seize a regulated animal without an opportunity for hearing or court order, or destroy the animal.

Subd. 6. Disposal of animals. Upon proper determination by a Minnesota licensed veterinarian, any regulated animal taken into custody under this section may be immediately disposed of when the regulated animal is suffering and is beyond cure through reasonable care and treatment. The authority taking custody of the regulated animal may recover all costs incurred under this section.

Subd. 7. Exemptions. This section does not apply to:

(1) institutions accredited by the American Zoo and Aquarium Association;

(2) a wildlife sanctuary;

(3) fur-bearing animals, as defined in section 97A.015, possessed by a game farm that is licensed under section 97A.105, or bears possessed by a game farm that is licensed under section 97A.105;

(5) a licensed or accredited research or medical institution; or

(6) a United States Department of Agriculture licensed exhibitor of regulated animals while transporting or as part of a circus, carnival, rodeo, or fair.

Subd. 8. **License transfer.** Nothing in this section precludes a person who holds a valid United States Department of Agriculture license from selling or transferring the entire business and the regulated animals covered by that license to another person who holds a valid United States Department of Agriculture license.

Subd. 9. **Report to Board of Animal Health.** By July 1 each year, a local animal control authority shall report to the Board of Animal Health on regulated animals registered with the local animal control authority. The report shall include all registration information submitted to the local animal control authority under subdivision 3, paragraph (a), and information on enforcement actions taken under this section.

Subd. 9a. **Confinement and control.** A person violates this subdivision who possesses a regulated animal and negligently fails to control the animal or keep it properly confined and as a result the animal causes bodily harm, substantial bodily harm, or great bodily harm to another person.

Subd. 10. **Penalty.** (a) A person who knowingly violates subdivision 2, 3, paragraph (b) or (c), or 4 is guilty of a misdemeanor.

(b) A person who knowingly violates subdivision 3, paragraph (a), is guilty of a gross misdemeanor.

Subd. 3. **Water.** Equines must be provided with clean, potable water in sufficient quantity to satisfy the animal's needs or supplied by free choice. Snow or ice is not an adequate water source.

Subd. 4. **Shelter.** Equines must be provided a minimum of free choice protection or constructed shelter from adverse weather conditions, including direct rays of the sun in extreme heat or cold, wind, or precipitation. Natural or constructed shelters must be of sufficient size to provide the necessary protection. Constructed shelters must be structurally sound, free of injurious matter, maintained in good repair, and ventilated. Outside exercise paddocks for equines do not require separate constructed shelter where a shelter

is accessible to the equine on adjacent or other accessible areas of the property provided that equines are not kept in outdoor exercise paddocks during adverse weather conditions.

Subd. 5. **Space and cleanliness requirements.** Constructed shelters except for tie stalls must provide space for the animal to: (1) roll with a minimum danger of being cast; or (2) easily stand, lie down, and turn around. Stalls must be cleaned and kept dry to the extent the animal is not required to lie or stand in fluids. Bedding must be provided in all stalls, kept reasonably clean, and periodically changed. The nature of the bedding must not pose a health hazard to the animal.

Subd. 6. **Exercise.** Equines must be provided opportunity for periodic exercise, either through free choice or through a forced work program, unless exercise is restricted by a licensed veterinarian.

Subd. 7. **Hoof care.** All equines must have their hooves properly trimmed periodically to prevent lameness.

Floors must be of nonskid construction or of nonskid material sufficient to provide the animal with traction while in transport. A minimum of 12 inches must be allowed between the withers of the largest equine and the structure above the animal while it is in a natural standing position. Sturdy partitions must be provided at a minimum of approximately every ten feet inside the vehicle. Interior compartments of transporting vehicles must be of smooth construction with no protruding or sharp objects and must provide ventilation. Food and water must be provided in sufficient quantities to minimize stress and maintain hydration.

Subd. 2. **Water.** Dogs and cats must be provided with clean, potable water in sufficient quantity to satisfy the animal's needs or supplied by free choice. Snow or ice is not an adequate water source.

Subd. 3. **Transportation and shipment.** When dogs or cats are transported in crates or containers, the crates or containers must be constructed of nonabrasive wire or a smooth, durable material suitable for the animals. Crates and containers must be clean, adequately ventilated, contain sufficient space to allow the animals to turn around, and provide maximum safety and protection to the animals. Exercise for 20 to 30 minutes and water must be provided at least once every eight hours. Food must be provided at least once every 24 hours or more often, if necessary, to maintain the health and condition of the animals.

Subd. 4. **Shelter size.** A confinement area must provide sufficient space to allow each animal to turn about freely and to easily stand, sit, and lie in a normal position. Each confined animal must be provided a minimum square footage of floor space as measured from the tip of its nose to the base of its tail, plus 25 percent, expressed in square feet. The formula for computing minimum square footage is: (length of animal plus 25 percent) times (length of animal plus 25 percent), divided by 144. A shaded area must be provided sufficient to protect the animal from the direct rays of the sun at all times during the months of May to October.

Subd. 5. **Exercise.** All dogs and cats must be provided the opportunity for periodic exercise, either through free choice or through a forced work program, unless exercise is restricted by a licensed veterinarian.

Subd. 6. **Group housing and breeding.** Animals housed together must be kept in compatible groups. Animals must not be bred so often as to endanger their health.

Subd. 7. **Temperature.** Confinement areas must be maintained at a temperature suitable for the animal involved.

Subd. 8. **Ventilation.** An indoor confinement area must be ventilated. Drafts, odors, and moisture condensation must be minimized. Auxiliary ventilation, such as exhaust fans, vents, and air conditioning, must be used when the ambient temperature rises to a level that may endanger the health of the animal.

Subd. 9. **Lighting.** An indoor confinement area must have at least eight hours of illumination sufficient to permit routine inspection and cleaning.

Subd. 10. **Confinement and exercise area surfaces.** Where applicable, the interior surfaces of confinement and exercise areas, including crates or containers, must be constructed and maintained so that they are substantially impervious to moisture and may be readily cleaned. They must protect the animal from injury and be kept in good repair.

Subd. 11. **Drainage.** Where applicable, a suitable method must be used to rapidly eliminate excess fluids from confinement areas.

Subd. 12. **Sanitation.** Food and water receptacles must be accessible to each animal and located so as to minimize contamination by excreta. Feeding and water receptacles must be kept clean. Disposable food receptacles must be discarded when soiled. Measures must be taken to protect animals from being contaminated with water, wastes, and harmful chemicals. Wastes must be disposed of properly. Where applicable, flushing methods and a disinfectant must be used periodically. Bedding, if used, must be kept clean and dry. Outdoor enclosures must be kept clean and base material replaced as necessary.

(c) provide enough space for each animal to stand up, turn around, and obtain necessary food and water;

(d) have fresh food and water available to each animal during all shipping periods exceeding six hours. Food and water requirements may be met by providing vegetables or fruits sufficient to meet an animal's food and water needs.

Subd. 4. **Shelter and cage construction.** Shelters or cages must be constructed in a manner that allows cleaning of the entire surface area. The materials used must be of sufficient strength to prevent escape or injury by chewing and to protect the animal from predators.

A shelter or cage with a solid bottom must be constructed of materials that are impervious to moisture. If the shelter or cage has a wire or mesh floor, the catch pans or troughs under the cage must be cleaned at least once a week. If the cage or shelter becomes soiled or wet to a degree that may be harmful to the caged animals due to water leakage, dead animals, or spoiled foods, the animals must be transferred to clean, dry quarters as soon as possible after discovery of the condition. The shelter or cage, and food and water receptacles, must be regularly cleaned.
