The guest license for volunteer services shall limit the licensee to providing dental care services for a period of time not to exceed ten days in a calendar year. Guest licenses expire on December 31 of each year.

The holder of a guest license for volunteer services shall be subject to state laws and rules regarding dentistry and the regulatory authority of the board. The board may revoke the license of a dentist, dental hygienist, or dental assistant practicing under this subdivision or take other regulatory action against the dentist, dental hygienist, or dental assistant. If an action is taken, the board shall report the action to the

regulatory board of those jurisdictions where an active license is held by the dentist, dental hygienist, or dental assistant.

Subd. 2d. **Continuing education and professional development waiver.** (a) The board shall grant a waiver to the continuing education requirements under this chapter for a licensed dentist, licensed dental therapist, licensed dental hygienist, or licensed dental assistant who documents to the satisfaction of the board that the dentist, dental therapist, dental hygienist, or licensed dental assistant has retired from active practice in the state and limits the provision of dental care services to those offered without compensation in a public health, community, or tribal clinic or a nonprofit organization that provides services to the indigent or to recipients of medical assistance or MinnesotaCare programs.

(b) The board may require written documentation from the volunteer and retired dentist, dental therapist, dental hygienist, or licensed dental assistant prior to granting this waiver.

(c) The board shall require the volunteer and retired dentist, dental therapist, dental hygienist, or licensed dental assistant to meet the following requirements:

(1) a licensee seeking a waiver under this subdivision must complete and document at least five hours of approved courses in infection control, medical emergencies, and medical management for the continuing education cycle; and

(2) provide documentation of current CPR certification from completion of the American Heart Association healthcare provider course or the American Red Cross professional rescuer course.

Subd. 3. **Waiver of examination.** (a) All or any part of the examination for dentists, dental therapists, dental hygienists, or dental assistants, except that pertaining to the law of Minnesota relating to dentistry and the rules of the board, may, at the discretion of the board, be waived for an applicant who presents a certificate of having passed all components of the National Board Dental Examinations or evidence of having maintained an adequate scholastic standing as determined by the board.

(b) The board shall waive the clinical examination required for licensure for any dentist applicant who is a graduate of a dental school accredited by the Commission on Dental Accreditation, who has passed all components of the National Board Dental Examinations, and who has satisfactorily completed a postdoctoral general dentistry residency program (GPR) or an advanced education in general dentistry (AEGD) program after January 1, 2004. The postdoctoral program must be accredited by the Commission on Dental Accreditation, be of at least one year's duration, and include an outcome assessment evaluation assessing the resident's competence to practice dentistry. The board may require the applicant to submit any information deemed necessary by the board to determine whether the waiver is applicable.

Subd. 4. **Licensure by credentials.** (a) Any dentist or dental hygienist may, upon application and payment of a fee established by the board, apply for licensure based on the applicant's performance record in lieu of passing an examination approved by the board according to section 150A.03, subdivision 1, and be interviewed by the board to determine if the applicant:

(1) has passed all components of the National Board Dental Examinations;

(2) has been in active practice at least 2,000 hours within 36 months of the application date, or passed a board-approved reentry program within 36 months of the application date;

(3) currently has a license in another state or Canadian province and is not subject to any pending or final disciplinary action, or if not currently licensed, previously had a license in another state or Canadian

province in good standing that was not subject to any final or pending disciplinary action at the time of surrender;

(4) is of good moral character and abides by professional ethical conduct requirements;

(5) at board discretion, has passed a board-approved English proficiency test if English is not the applicant's primary language; and

(6) meets other credentialing requirements specified in board rule.

(b) An applicant who fulfills the conditions of this subdivision and demonstrates the minimum knowledge in dental subjects required for licensure under subdivision 1 or 2 must be licensed to practice the applicant's profession.

(c) If the applicant does not demonstrate the minimum knowledge in dental subjects required for licensure under subdivision 1 or 2, the application must be denied. When denying a license, the board may notify the applicant of any specific remedy that the applicant could take which, when passed, would qualify the applicant for licensure. A denial does not prohibit the applicant from applying for licensure under subdivision 1 or 2.

(d) A candidate whose application has been denied may appeal the decision to the board according to subdivision 4a.

Subd. 4a. Appeal of denial of application. A person whose application for licensure by credentials has been denied may appeal the decision to the board. The board shall establish an appeals process and inform a denied candidate of the right to appeal and the process for filing the appeal.

Subd. 5. Fraud in securing licenses. Every person implicated in employing fraud or deception in applying for or securing a license to practice dentistry, dental hygiene, dental therapy, or dental assisting, or in annually renewing a license under sections 150A.01 to 150A.12 is guilty of a gross misdemeanor.

Subd. 6. Display of name and certificates. (a) The initial license and subsequent renewal certificate of every dentist, dental therapist, dental hygienist, or dental assistant shall be conspicuously displayed in every office in which that person practices, in plain sight of patients. When available from the board, the board shall allow the display of a wallet-sized initial license and wallet-sized subsequent renewal certificate only at nonprimary practice locations instead of displaying an original-sized initial license and subsequent renewal certificate.

(b) Near or on the entrance door to every office where dentistry is practiced, the name of each dentist practicing there, as inscribed on the current license certificate, shall be displayed in plain sight.

Subd. 7. [Repealed, 1989 c 285 s 7]

Subd. 7. Additional remedies for licensure. On a case-by-case basis, for initial or renewal of licensure, the board may add additional remedies for deficiencies found based on the applicant's performance, character, and education.

Subd. 8. Licensure by credentials. (a) Any dental assistant may, upon application and payment of a fee established by the board, apply for licensure based on an evaluation of the applicant's education, experience, and performance record in lieu of completing a board-approved dental assisting program for expanded functions as defined in rule, and may be interviewed by the board to determine if the applicant:

(1) has graduated from an accredited dental assisting program accredited by the Commission on Dental Accreditation and is currently certified by the Dental Assisting National Board;

(2) is not subject to any pending or final disciplinary action in another state or Canadian province, or if not currently certified or registered, previously had a certification or registration in another state or Canadian province in good standing that was not subject to any final or pending disciplinary action at the time of surrender;

(3) is of good moral character and abides by professional ethical conduct requirements;

(4) at board discretion, has passed a board-approved English proficiency test if English is not the applicant's primary language; and

(5) has met all expanded functions curriculum equivalency requirements of a Minnesota board-approved dental assisting program.

(b) The board, at its discretion, may waive specific licensure requirements in paragraph (a).

(c) An applicant who fulfills the conditions of this subdivision and demonstrates the minimum knowledge in dental subjects required for licensure under subdivision 2a must be licensed to practice the applicant's profession.

(d) If the applicant does not demonstrate the minimum knowledge in dental subjects required for licensure under subdivision 2a, the application must be denied. If licensure is denied, the board may notify the applicant of any specific remedy that the applicant could take which, when passed, would qualify the applicant for licensure. A denial does not prohibit the applicant from applying for licensure under subdivision 2a.

(e) A candidate whose application has been denied may appeal the decision to the board according to subdivision 4a.

Subd. 9. Graduates of nonaccredited dental programs. A graduate of a nonaccredited dental program who successfully completes the clinical licensure examination, and meets all other applicant requirements of the board shall be licensed to practice dentistry and granted a limited general dentist license by the board. The board shall place limitations on the licensee's authority to practice by requiring the licensee to practice under the general supervision of a Minnesota-licensed dentist approved by the board. A person licensed under this subdivision must practice for three consecutive years in Minnesota pursuant to a written agreement, approved by the board, between the licensee and a Minnesota-licensed dentist who may limit the types of services authorized. At the conclusion of the three-year period, the board shall grant an unlimited license without further restrictions if all supervising dentists who had entered into written agreements with the licensee during any part of the three-year period recommend unlimited licensure, and if no corrective action or disciplinary action has been taken by the board against the licensee.

Subd. 10. Emeritus inactive license. A person licensed to practice dentistry, dental therapy, dental hygiene, or dental assisting pursuant to section 150A.05 or Minnesota Rules, part 3100.8500, who retires from active practice in the state may apply to the board for emeritus inactive licensure. An application for emeritus inactive licensure may be made on the biennial licensing form or by petitioning the board, and the applicant must pay a onetime application fee pursuant to section 150A.091, subdivision 19. In order to receive emeritus inactive licensure, the applicant must be in compliance with board requirements and cannot be the subject of current disciplinary action resulting in suspension, revocation, disqualification, condition, or restriction of the licensee to practice dentistry, dental therapy, dental hygiene, or dental assisting. An emeritus inactive license is not a license to practice, but is a formal recognition of completion of a person's dental career in good standing.

Subd. 11. Emeritus active licensure. (a) A person licensed to practice dentistry, dental therapy, dental hygiene, or dental assisting may apply for an emeritus active license if the person is retired from active

practice, is in compliance with board requirements, and is not the subject of current disciplinary action resulting in suspension, revocation, disqualification, condition, or restriction of the license to practice dentistry, dental therapy, dental hygiene, or dental assisting.

(b) An emeritus active licensee may engage only in the following types of practice:

- (1) pro bono or volunteer dental practice;
- (2) paid practice not to exceed 500 hours per calendar year for the exclusive purpose of providing licensing supervision to meet the board's requirements; or
- (3) paid consulting services not to exceed 500 hours per calendar year.

(c) An emeritus active licensee shall not hold out as a full licensee and may only hold out as authorized to practice as described in this subdivision. The board may take disciplinary or corrective action against an emeritus active licensee based on violations of applicable law or board requirements.

(d) A person may apply for an emeritus active license by completing an application form specified by the board and must pay the application fee pursuant to section 150A.091, subdivision 20.

(e) If an emeritus active license is not renewed every two years, the license expires. The renewal date is the same as the licensee's renewal date when the licensee was in active practice. In order to renew an emeritus active license, the licensee must:

- (1) complete an application form as specified by the board;
- (2) pay the required renewal fee pursuant to section 150A.091, subdivision 20; and
- (3) report at least 25 continuing education hours completed since the last renewal, which must include:
 - (i) at least one hour in two different required CORE areas;
 - (ii) at least one hour of mandatory infection control;
 - (iii) for dentists and dental therapists, at least 15 hours of fundamental credits for dentists and dental therapists, and for dental hygienists and dental assistants, at least seven hours of fundamental credits; and
 - (iv) for dentists and dental therapists, no more than ten elective credits, and for dental hygienists and dental assistants, no more than six elective credits.

150A.08 LICENSURE AND REGISTRATION ACTIONS.

Subdivision 1. **Grounds.** The board may refuse or by order suspend or revoke, limit or modify by imposing conditions it deems necessary, the license of a dentist, dental therapist, dental hygienist, or dental assisting upon any of the following grounds:

- (1) fraud or deception in connection with the practice of dentistry or the securing of a license certificate;
- (2) conviction, including a finding or verdict of guilt, an admission of guilt, or a no contest plea, in any court of a felony or gross misdemeanor reasonably related to the practice of dentistry as evidenced by a certified copy of the conviction;
- (3) conviction, including a finding or verdict of guilt, an admission of guilt, or a no contest plea, in any court of an offense involving moral turpitude as evidenced by a certified copy of the conviction;
- (4) habitual overindulgence in the use of intoxicating liquors;
- (5) improper or unauthorized prescription, dispensing, administering, or personal or other use of any legend drug as defined in chapter 151, of any chemical as defined in chapter 151, or of any controlled substance as defined in chapter 152;
- (6) conduct unbecoming a person licensed to practice dentistry, dental therapy, dental hygiene, or dental assisting, or conduct contrary to the best interest of the public, as such conduct is defined by the rules of the board;
- (7) gross immorality;
- (8) any physical, mental, emotional, or other disability which adversely affects a dentist's, dental therapist's, dental hygienist's, or dental assistant's ability to perform the service for which the person is licensed;
- (9) revocation or suspension of a license or equivalent authority to practice, or other disciplinary action or denial of a license application taken by a licensing or credentialing authority of another state, territory, or country as evidenced by a certified copy of the licensing authority's order, if the disciplinary action or application denial was based on facts that would provide a basis for disciplinary action under this chapter and if the action was taken only after affording the credentialed person or applicant notice and opportunity to refute the allegations or pursuant to stipulation or other agreement;
- (10) failure to maintain adequate safety and sanitary conditions for a dental office in accordance with the standards established by the rules of the board;
- (11) employing, assisting, or enabling in any manner an unlicensed person to practice dentistry;
- (12) failure or refusal to attend, testify, and produce records as directed by the board under subdivision 7;
- (13) violation of, or failure to comply with, any other provisions of sections 150A.01 to 150A.12, the rules of the Board of Dentistry, or any disciplinary order issued by the board, sections 144.291 to 144.298 or 595.02, subdivision 1, paragraph (d), or for any other just cause related to the practice of dentistry. Suspension, revocation, modification or limitation of any license shall not be based upon any judgment as to therapeutic or monetary value of any individual drug prescribed or any individual treatment rendered, but only upon a repeated pattern of conduct;

(14) knowingly providing false or misleading information that is directly related to the care of that patient unless done for an accepted therapeutic purpose such as the administration of a placebo; or

(15) aiding suicide or aiding attempted suicide in violation of section 609.215 as established by any of the following:

(i) a copy of the record of criminal conviction or plea of guilty for a felony in violation of section 609.215, subdivision 1 or 2;

(ii) a copy of the record of a judgment of contempt of court for violating an injunction issued under section 609.215, subdivision 4;

(iii) a copy of the record of a judgment assessing damages under section 609.215, subdivision 5; or

(iv) a finding by the board that the person violated section 609.215, subdivision 1 or 2. The board shall investigate any complaint of a violation of section 609.215, subdivision 1 or 2.

Subd. 2. [Repealed, 1976 c 222 s 209]

Subd. 3. **Reinstatement.** Any licensee whose license has been suspended or revoked may have the license reinstated or a new license issued, as the case may be, when the board deems the action is warranted.

Subd. 3a. **Costs; additional penalties.** (a) The board may impose a civil penalty not exceeding \$10,000 for each separate violation, the amount of the civil penalty to be fixed so as to deprive a licensee of any economic advantage gained by reason of the violation, to discourage similar violations by the licensee or any other licensee, or to reimburse the board for the cost of the investigation and proceeding, including, but not limited to, fees paid for services provided by the Office of Administrative Hearings, legal and investigative services provided by the Office of the Attorney General, court reporters, witnesses, reproduction of records, board members' per diem compensation, board staff time, and travel costs and expenses incurred by board staff and board members.

(b) In addition to costs and penalties imposed under paragraph (a), the board may also:

(1) order the dentist, dental therapist, dental hygienist, or dental assistant to provide unremunerated service;

(2) censure or reprimand the dentist, dental therapist, dental hygienist, or dental assistant; or

(3) any other action as allowed by law and justified by the facts of the case.

Subd. 4. **Records.** The executive secretary of the board shall keep a record of all licenses and registration certificates issued, suspended, or revoked.

Subd. 5. **Medical examinations.** If the board has probable cause to believe that a dentist, dental therapist, dental hygienist, dental assistant, or applicant engages in acts described in subdivision 1, clause (4) or (5), or has a condition described in subdivision 1, clause (8), it shall direct the dentist, dental therapist, dental hygienist, assistant, or applicant to submit to a mental or physical examination or a chemical dependency assessment. For the purpose of this subdivision, every dentist, dental therapist, dental hygienist, or dental assistant licensed under this chapter or person submitting an application for a license is deemed to have given consent to submit to a mental or physical examination when directed in writing by the board and to have waived all objections in any proceeding under this section to the admissibility of the examining physician's testimony or examination reports on the ground that they constitute a privileged communication. Failure to submit to an examination without just cause may result in an application being denied or a default

and final order being entered without the taking of testimony or presentation of evidence, other than evidence which may be submitted by affidavit, that the licensee or applicant did not submit to the examination. A dentist, dental therapist, dental hygienist, dental assistant, or applicant affected under this section shall at reasonable intervals be afforded an opportunity to demonstrate ability to start or resume the competent practice of dentistry or perform the duties of a dental therapist, dental hygienist, or dental assistant with reasonable skill and safety to patients. In any proceeding under this subdivision, neither the record of proceedings nor the orders entered by the board is admissible, is subject to subpoena, or may be used against the dentist, dental therapist, dental hygienist, dental assistant, or applicant in any proceeding not commenced by the board. Information obtained under this subdivision shall be classified as private pursuant to the Minnesota Government Data Practices Act.

Subd. 6. Medical records. Notwithstanding contrary provisions of sections 13.384 and 144.651 or any other statute limiting access to medical or other health data, the board may obtain medical data and health records of a licensee or applicant without the licensee's or applicant's consent if the information is requested by the board as part of the process specified in subdivision 5. The medical data may be requested from a provider, as defined in section 144.291, subdivision 2, paragraph (h), an insurance company, or a government agency, including the Department of Human Services. A provider, insurance company, or government agency shall comply with any written request of the board under this subdivision and shall not be liable in any action for damages for releasing the data requested by the board if the data are released pursuant to a written request under this subdivision, unless the information is false and the provider giving the information knew, or had reason to believe, the information was false. Information obtained under this subdivision shall be classified as private under the Minnesota Government Data Practices Act.

Subd. 7. Self-incrimination. No person is excused from attending and testifying at any proceeding initiated by the board or from producing any document before the board on the ground that the testimony or evidence required may tend to incriminate the person; but no person may be prosecuted for any crime related to the matter about which the person testifies or produces evidence required or requested by the board if the person first claims a privilege against self-incrimination. This immunity from criminal prosecution does not apply to prosecution for perjury or contempt committed in testifying or producing the evidence.

Subd. 8. Suspension of license. In addition to any other remedy provided by law, the board may, through its designated board members pursuant to section 214.10, subdivision 2, temporarily suspend a license without a hearing if the board finds that the licensee has violated a statute or rule which the board is empowered to enforce and continued practice by the licensee would create an imminent risk of harm to others. The suspension shall take effect upon written notice to the licensee served by first class mail specifying the statute or rule violated, and the time, date, and place of the hearing before the board. If the notice is returned by the post office, the notice shall be effective upon reasonable attempts to locate and serve the licensee. Within ten days of service of the notice, the board shall hold a hearing before its own members on the sole issue of whether there is a reasonable basis to continue, modify, or lift the suspension. Evidence presented by the board or licensee shall be in affidavit form only. The licensee or counsel of the licensee may appear for oral argument. Within five working days after the hearing, the board shall issue its order and, if the suspension is continued, the board shall schedule a disciplinary hearing to be held pursuant to the Administrative Procedure Act within 45 days of issuance of the order. The administrative law judge shall issue a report within 30 days of the closing of the contested case hearing record. The board shall issue a final order within 30 days of receiving that report. The board may allow a person who was licensed by any state to practice dentistry and whose license has been suspended to practice dentistry under the supervision of a licensed dentist for the purpose of demonstrating competence and eligibility for reinstatement.

Subd. 9. **Tax clearance certificate.** (a) In addition to the grounds provided in subdivision 1 and notwithstanding subdivision 3, the board may not issue or renew a license to practice dentistry if the commissioner of revenue notifies the board and the licensee or applicant for a license that the licensee or applicant owes the state delinquent taxes in the amount of \$500 or more. The board may issue or renew the license only if (1) the commissioner of revenue issues a tax clearance certificate and (2) the commissioner of revenue or the licensee or applicant forwards a copy of the clearance to the board. The commissioner of revenue may issue a clearance certificate only if the licensee or applicant does not owe the state any uncontested delinquent taxes.

(b) For purposes of this subdivision, the following terms have the meanings given.

(1) "Taxes" are all taxes payable to the commissioner of revenue, including penalties and interest due on those taxes.

(2) "Delinquent taxes" do not include a tax liability if (i) an administrative or court action that contests the amount or validity of the liability has been filed or served, (ii) the appeal period to contest the tax liability has not expired, or (iii) the licensee or applicant has entered into a payment agreement to pay the liability and is current with the payments.

(c) In lieu of the notice and hearing requirements of subdivision 8, when a licensee or applicant is required to obtain a clearance certificate under this subdivision, a contested case hearing must be held if the licensee or applicant requests a hearing in writing to the commissioner of revenue within 30 days of the date of the notice provided in paragraph (a). The hearing must be held within 45 days of the date the commissioner of revenue refers the case to the Office of Administrative Hearings. Notwithstanding any law to the contrary, the licensee or applicant must be served with 20 days' notice in writing specifying the time and place of the hearing and the allegations against the licensee or applicant. The notice may be served personally or by mail.

(d) The board shall require all licensees or applicants for a license to practice dentistry to provide their Social Security number and Minnesota business identification number on all license applications. Upon request of the commissioner of revenue, the board must provide to the commissioner of revenue a list of all licensees and applicants for a license to practice dentistry including the name and address, Social Security number, and business identification number. The commissioner of revenue may request a list of the licensees and applicants no more than once each calendar year.

150A.081 ACCESS TO MEDICAL DATA.

Subdivision 1. **Access to data on licensee.** When the board has probable cause to believe that a licensee's condition meets a ground listed in section 150A.08, subdivision 1, clause (4) or (8), it may, notwithstanding sections 13.384, 144.651, or any other law limiting access to medical data, obtain medical or health records on the licensee without the licensee's consent. The medical data may be requested from a provider, as defined in section 144.291, subdivision 2, paragraph (h), an insurance company, or a government agency. A provider, insurance company, or government agency shall comply with a written request of the board under this subdivision and is not liable in any action for damages for releasing the data requested by the board if the data are released under the written request, unless the information is false and the entity providing the information knew, or had reason to believe, the information was false.

Subd. 2. **Access to data on patients.** The board has access to medical records of a patient treated by a licensee under review if the patient signs a written consent permitting access. If the patient has not given consent, the licensee must delete data from which a patient may be identified before releasing medical records to the board.

Subd. 3. **Data classification; release of certain health data not required.** Information obtained under this section is classified as private data on individuals under chapter 13. Under this section, the commissioner of health is not required to release health data collected and maintained under section 13.3805, subdivision 2.

Within 30 days after changing postal or electronic mail addresses, every dentist, dental therapist, dental hygienist, and dental assistant shall provide the board written notice of the new address either personally or by first class mail.

Subd. 4. **Duplicate certificates.** Duplicate licenses or duplicate certificates of license renewal may be issued by the board upon satisfactory proof of the need for the duplicates and upon payment of the fee established by the board.

Subdivision 1. **Dental hygienists.** Any licensed dentist, licensed dental therapist, public institution, or school authority may obtain services from a licensed dental hygienist. The licensed dental hygienist may provide those services defined in section 150A.05, subdivision 1a. The services provided shall not include the establishment of a final diagnosis or treatment plan for a dental patient. All services shall be provided under supervision of a licensed dentist. Any licensed dentist who shall permit any dental service by a dental hygienist other than those authorized by the Board of Dentistry, shall be deemed to be violating the provisions of sections 150A.01 to 150A.12, and any unauthorized dental service by a dental hygienist shall constitute a violation of sections 150A.01 to 150A.12.

Subd. 1a. **Collaborative practice authorization for dental hygienists in community settings.** (a) Notwithstanding subdivision 1, a dental hygienist licensed under this chapter may be employed or retained by a health care facility, program, or nonprofit organization to perform the dental hygiene services listed in Minnesota Rules, part 3100.8700, subpart 1, without the patient first being examined by a licensed dentist if the dental hygienist:

(c) Before performing any services authorized under this subdivision, a dental hygienist must provide the patient with a consent to treatment form which must include a statement advising the patient that the dental hygiene services provided are not a substitute for a dental examination by a licensed dentist. When the patient requires a referral for additional dental services, the dental hygienist shall complete a referral form and provide a copy to the patient, the facility, if applicable, the dentist to whom the patient is being referred, and the collaborating dentist, if specified in the collaborative agreement. A copy of the referral form shall be maintained in the patient's health care record. The board by rule may require continuing education for differing levels of dental assistants, as a condition to their license or authority to perform their authorized duties. Any licensed dentist or dental therapist who permits an unlicensed assistant to perform any dental service other than that authorized by the board shall be deemed to be enabling an unlicensed person to practice dentistry, and commission of such an act by an unlicensed assistant shall constitute a violation of sections 150A.01 to 150A.12.

Subdivision 1. **Unlawful practice.** It is unlawful for any person to: enable an unlicensed person to practice dentistry; to practice or attempt to practice dentistry without a license; to practice dentistry under the name of a corporation or company; or to practice under any name that may tend to deceive the public or imply professional superiority to or greater skill than that possessed by another dentist. If a dentist practices under the dentist's own name, any public display or cards shall include the initials of the dentist's dental degree, such as D.D.S. or D.M.D., following the name. If a dentist practices under another name, the name shall include some designation which makes clear that the person is practicing dentistry or a specialty of dentistry; and that the names of all of the participating dentists practicing under the name be clearly identified on letterheads and building or office signs that display a name other than the dentist's own name. Any communication between dentist and patient shall clearly indicate the name of the dentist treating the patient. The board may promulgate rules regarding the name under which a dentist may practice. No corporation shall practice dentistry or engage in it, or hold itself out as being entitled to practice dentistry, or furnish dental services or dentists, or advertise under or assume the title of dentists or dental surgeons or equivalent title. No corporation shall furnish dental advice, or advertise or hold itself out with any other person or alone, that it has or owns a dental office or can furnish dental service, dentists, or dental surgeons, or solicit, through itself, or its agents, officers, employees, directors or trustees, dental patronage for any dentist or dental surgeon. This section:

(1) Does not apply to any licensee while acting as an instructor in or under the University of Minnesota, the Mayo Foundation, or any other school in the state recognized by the state Board of Dentistry;

(2) Does not prohibit dentists from incorporating their practice of dentistry for business purposes under the special provisions of a corporate practice act for dentistry;

(3) Shall not be construed to change or amend the right of licensed dentists to provide dental care under any form of organization that is lawful under the laws of this state, or to contract to sell their services in any manner that is lawful under the laws of this state.

Subd. 2. **Professional advertising.** Public advertising by dentists may be controlled by reasonable rules of the board. Such rules shall include permission for such things as publication of a professional card, reasonable signs on or about the place of business, announcements of changes or opening of offices and telephone listings.

All such advertisements shall contain the words "A written work order from a licensed dentist is required" in at least 10-point type size. Except for advertising permitted under this subdivision, a person not licensed to practice dentistry in this state shall not sell or offer any such service or products to other than the dental profession or its ancillary trades, provided, however that the mere delivery of such products to an ultimate consumer or person acting in the consumer's behalf for the purpose of transporting such products to the licensed dentist who provided the work order shall not violate this subdivision. This subdivision shall not apply to mailings, displays, and advertisements the primary distribution of which is to the dental profession or its ancillary trades.

Subd. 4. **Dividing fees.** It shall be unlawful for any dentist to divide fees with or promise to pay a part of the dentist's fee to, or to pay a commission to, any dentist or other person who calls the dentist in consultation or who sends patients to the dentist for treatment, or operation, but nothing herein shall prevent licensed dentists from forming a bona fide partnership for the practice of dentistry, nor to the actual employment by a licensed dentist of, a licensed dental therapist, a licensed dental hygienist, or another licensed dentist.
