

116.9407 PARTICIPATING IN INTERSTATE CHEMICALS CLEARINGHOUSE.

The state may cooperate with other states in an interstate chemicals clearinghouse regarding chemicals in consumer products, including the classification of priority chemicals in commerce; organizing and managing available data on chemicals, including information on uses, hazards, risks, and environmental and health concerns; and producing and evaluating information on safer alternatives to specific uses of priority chemicals.

History: 2009 c 37 art 1 s 52
