124D.085 EXPERIENTIAL AND APPLIED LEARNING OPPORTUNITIES FOR STUDENTS.

- (a) To strengthen the alignment between career and college ready curriculum and state and local academic standards and increase students' opportunities for participating in applied and experiential learning in a nontraditional setting, school districts are encouraged to provide programs such as magnet schools, language immersion programs, project-based learning, accelerated learning, college prep schools, career and technical education, Montessori schools, military schools, work-based schools, and place-based learning. Districts may provide such programs independently or in cooperation with other districts, at a school single site, for particular grades, or throughout the district. In addition to meeting the other accountability measures under chapter 120B, districts may declare that a student meets or exceeds specific academic standards required for graduation under the rigorous course of study waiver in section 120B.021, subdivision 1a, where appropriate.
- (b) The board of a district that chooses to participate must publicly adopt and review a plan for providing a program under this section. The plan must: define the program and its structure; describe the enrollment process; identify measures and processes for regularly assessing, evaluating, and publicly reporting on program efficacy and use summary data to show student progress and outcomes; and establish a data-informed public process for modifying and revising the plan as needed. A district must publish its plan contents and evaluation outcomes on the district website.
- (c) For purposes of further integrating experiential and applied learning into career and college ready curricula, the commissioner may request program information from providing districts under this section.
