1

Subdivision 1. **Management plan required.** (a) The operator of a vessel that is designed, constructed, or adapted to carry ballast water in state waters of Lake Superior shall conduct all ballast water management operations of the vessel according to a ballast water management plan that is designed to minimize the discharge of invasive species, meets the requirements prescribed by the commissioner under subdivision 2, and is approved by the commissioner.

- (b) The owner or operator of a vessel required to have a ballast water management plan under paragraph (a) shall maintain a copy of the vessel's ballast water management plan on board at all times and keep the plan readily available for examination by the commissioner.
- Subd. 2. **Management plan approval.** (a) The commissioner may not approve a ballast water management plan unless the commissioner determines that the plan:
 - (1) describes in detail the actions to be taken to implement ballast water management;
 - (2) describes in detail the procedures to be used for disposal of sediment at sea and on shore;
- (3) describes in detail the safety procedures for the vessel and crew associated with ballast water management;
- (4) designates the officer on board of the vessel in charge of ensuring that the plan is properly implemented;
 - (5) contains the reporting requirements for vessels as prescribed by the commissioner; and
 - (6) meets all other requirements prescribed by the commissioner.
- (b) The commissioner may approve a ballast water management plan for a foreign vessel on the basis of a certificate of compliance with the criteria described in paragraph (a) issued by the vessel's country of registration according to standards established by the commissioner.
