137.02 POWERS AND DUTIES OF BOARD OF REGENTS.

Subdivision 1. [Repealed, 2014 c 149 s 75]

Subd. 2. **Employees may be bonded.** The regents of the university shall have authority to indemnify the officers or the employees of the university against liability arising out of the operation of motor vehicles or other equipment by them while engaged in the performance of their duties as such public officials or employees and to pay out of the public funds the premiums on the indemnity insurance policies insuring such governmental agency against such liability. The regents may defend any such officer or employee, in the name and on behalf of the officer or employee, in any suit brought against the officer or employee to enforce a claim, whether groundless or otherwise, arising out of the operation of a motor vehicle or other equipment in the performance of official duties, and may compromise and settle such claim or suit and pay out of public funds the amount of such settlement or compromise, or the amount of any judgment against such officer or employee based on any such claim without first requiring such officer or employee to settle or pay any such claim. The regents may, in their discretion, pay the premiums of the indemnity insurance policies referred to in this subdivision, insuring such officers or employees against liability for or injury to persons or property, within the limits of this subdivision, and such payment of insurance premiums out of public funds shall in no way impose on the regents any liability.

Subd. 3. **Power of eminent domain granted.** The Board of Regents may use any money not specifically appropriated for other purposes for acquiring land by purchase or condemnation. In case it is desired to use the fund for the acquisition of land by eminent domain, the power of eminent domain shall be exercised in accordance with chapter 117.

Subd. 3a. **Consultation required.** Land must not be purchased and a building must not be purchased, constructed, or erected on land of the University of Minnesota until the regents have first consulted with the chair of the senate Finance Committee and the chair of the house of representatives Ways and Means Committee and obtained their advisory recommendations.

Subd. 4. **Employee salaries.** All nonacademic employees of the University of Minnesota shall be paid salaries comparable to salaries paid to state employees in the classified civil service.

137.022 PERMANENT UNIVERSITY FUND.

Subdivision 1. **Investment.** The investment management of the permanent university fund shall be under the jurisdiction of the Board of Regents of the University of Minnesota, subject to any limitations imposed by the Constitution of the state of Minnesota, article XI, section 9. All securities and cash held in the state treasury credited to the permanent university fund that are unappropriated or unencumbered are transferred and appropriated to the Board of Regents of the University of Minnesota solely for the purpose of investment by them. The investments are restricted to those the State Board of Investment may invest in under section 11A.24.

Subd. 2. **Income.** All income from the permanent university fund is appropriated annually to the Board of Regents. Authority over this income is vested solely in the board but must be used by the board directly to enhance the mission of the university. This appropriation of income must not be used to reduce other appropriations made to the Board of Regents. The determination of this income shall be based on the procedures detailed in section 11A.16, subdivision 5, or 11A.12.

Subd. 3. **Endowed chair account.** (a) For purposes of this section, the permanent university fund has three accounts. The sources of the money in the endowed mineral research and scholarship accounts are set out in paragraph (b) and subdivision 4. All money in the fund that is not otherwise allocated is in the endowed chair account. The income from the endowed chair account must be used, and capital gains allocated to that account may be used, to provide endowment support for professorial chairs in academic disciplines. The endowment support for the chairs from the income and the capital gains must not total more than six percent per year of the 36-month trailing average market value of the endowed chair account of the fund, as computed quarterly or otherwise as directed by the regents. The endowment support from the income and the capital gains must not provide more than half the sum of the endowment support for all university chairs and professorships endowed, with nonstate sources providing the remainder. The endowment support from the income and the capital gains may provide more than half the endowment support of an individual chair.

(b) If any portion of the annual appropriation of the income is not used for the purposes specified in paragraph (a) or subdivision 4, that portion lapses and must be added to the principal of the three accounts of the permanent university fund in proportion to the market value of each account.

Subd. 4. **Mineral research; scholarships.** (a) All income credited after July 1, 1992, to the permanent university fund from royalties for mining under state mineral leases from and after July 1, 1991, must be allocated as provided in this subdivision.

(b)(1) Beginning January 1, 2013, 50 percent of the income must be allocated according to this paragraph. One-half of the income under this paragraph, up to \$50,000,000, must be credited to the mineral research account of the fund to be allocated for the Natural Resources Research Institute-Duluth and Coleraine facilities, for mineral and mineral-related research including mineral-related environmental research. The other one-half of the income under this paragraph, up to \$25,000,000, is credited to an endowment for the costs of operating a mining, metallurgical, or related engineering degree program offered through the University of Minnesota at Mesabi Range Community and Technical College and for scholarships for students to attend the mining, metallurgical, or related engineering program. The maximum scholarship awarded to attend the mining, metallurgical, or related engineering degree program funded under this paragraph cannot exceed \$6,500 per academic year and may be awarded a maximum of four academic years.

(2) The remainder of the income under paragraph (a) plus the amount of any income under clause (1) after \$50,000,000 has been credited to the mineral research account for the Natural Resources Research Institute and the amount of any income over the \$25,000,000 for the engineering program must be credited to the endowed scholarship account of the fund for distribution annually for scholastic achievement as provided by the Board of Regents to undergraduates enrolled at the University of Minnesota who are resident students as defined in section 136A.101, subdivision 8.

(c) The annual distribution from the endowed scholarship account must be allocated to the various campuses of the University of Minnesota in proportion to the number of undergraduate resident students enrolled on each campus.

(d) The Board of Regents must report to the education committees of the legislature biennially at the time of the submission of its budget request on the disbursement of money from the endowed scholarship account and to the environment and natural resources committees on the use of the mineral research account.

(e) Capital gains and losses and portfolio income of the permanent university fund must be credited to its three accounts in proportion to the market value of each account.

(f) The endowment support from the income and capital gains of the endowed mineral research and endowed scholarship accounts of the fund must not total more than six percent per year of the 36-month trailing average market value of the account from which the support is derived.

Subdivision 1. **Small business set asides.** Prior to the beginning of each fiscal year, the regents of the University of Minnesota shall designate and set aside for awarding to small businesses approximately 20 percent of the value of procurement contracts which are to be awarded during that fiscal year and which are to be paid in total or in part from funds appropriated to the university by the legislature. The regents shall designate specific procurement contracts to be set aside, or may authorize the university administration to divide the amount set aside into procurement contracts of economically feasible size, in order to facilitate offers or bids from small businesses. In making the annual designation, the regents shall attempt to vary the procurement contracts included in the set-aside program so that a variety of goods and services produced by different small businesses can be included in the university set-aside program over a period of years. For the purposes of this section, (a) "procurement contract" means any agreement, written or oral, by which the university obtains needed goods or services, including the construction of capital improvements; and (b)

"small business" has the meaning given that term by state law. Nothing in this section shall be construed to prevent small businesses from seeking awards of procurement contracts not included in the set-aside program.

Subd. 2. **Procurement rules.** The regents shall establish procurement rules to govern the university set aside program. The rules shall include guidelines and procedures for negotiating price or securing bids, reasonable limitations on the amount by which a contract price under the set-aside program may exceed the estimated cost of obtaining comparable goods or services on the open market, uniform procedures for providing security for performance under procurement contracts, criteria for evaluating the financial and technical capabilities of participating small businesses, and any other matter deemed necessary or desirable for the proper operation of the university small business set-aside program.

Subd. 5. **Publicity.** The regents and the administration of the University of Minnesota shall publicize the provisions of the university small business set-aside program, attempt to locate small businesses able to perform set aside procurement contracts, and encourage participation by small businesses in the University of Minnesota small business set-aside program.

137.51 LAND PROTECTION AND TRANSFER.

Subdivision 1. **Land protection.** The obligation of the state of Minnesota to make the payments required under section 137.54 is expressly conditioned upon the university's covenant in perpetuity, subject to subdivision 3, limiting the use of the university land by the university, its successors, and assigns to the permitted university uses and the other permitted uses and forbidding the use of the university land by the university, its successors, and assigns for any of the prohibited uses. A declaration imposing those restrictions and granting to the Department of Natural Resources the right to enforce the same which has been executed by the university and filed in the Office of the Dakota County Recorder shall satisfy this condition. In furtherance of the purposes of this subdivision, the university and Department of Natural Resources shall promptly endeavor to enter into a joint powers agreement pursuant to section 471.59, or a conservation easement held by a qualified conservation organization or by a conservation easement holder as described in applicable Minnesota law embodying those restrictions, which agreement or easement shall provide for cooperative oversight of the use of the university land. Nothing in this section or in any declaration, agreement, or easement made or entered into pursuant to this section shall impair the rights of third parties under leases, easements, or use agreements in force as of May 25, 2006. Any lease or other transfer of the university land made after May 25, 2006, shall, unless otherwise agreed to by the commissioner of natural resources, be for a term that expires not later than the date the university land is conveyed as provided under subdivision 2. The Department of Natural Resources may request conveyance of any or all of the university land offered to be conveyed and the regents shall convey the portion requested. The commissioner of natural resources may, at its option, request that the university convey all or part of the university land to another governmental unit of the state. Except as provided in this subdivision, the instrument of conveyance by the university may not limit the rights of the state with respect to the land. Any conveyance shall be subject to the perpetual right of the university to use the university land for the permitted university uses. A conveyance shall also be subject to the rights of third parties under leases, easements, and use agreements in force on May 25, 2006. The instruments of transfer shall otherwise limit the use of the university land to the other permitted uses and subject those uses to restrictions as may be provided in any agreement between the university and state or any conservation easement granted pursuant to subdivision 1, and proscribe its use for the prohibited purposes. The University of Minnesota shall have the right to

enforce those limitations and restrictions. The university shall promptly endeavor and use due diligence to require the federal government to fulfill its obligations under applicable laws, including the Defense Environmental Restoration Program, United States Code, title 10, section 2701, et seq., or the Comprehensive Environmental Response Compensation and Liability Act, as amended, United States Code, title 42, section 9601, et seq., with respect to environmental contamination that occurred prior to the time the university took title to the university land.
