148,107 RECORD KEEPING.

All items in this section should be contained in the patient record, including, but not limited to, clauses (1), (2), (3), (5), (7), and (9).

- (1) A description of past conditions and trauma, past treatment received, current treatment being received from other health care providers, and a description of the patient's current condition including onset and description of trauma if trauma occurred.
- (2) Examinations performed to determine a preliminary or final diagnosis based on indicated diagnostic tests, with a record of findings of each test performed.
- (3) A diagnosis supported by documented subjective and objective findings, or clearly qualified as an opinion.
- (4) A treatment plan that describes the procedures and treatment used for the conditions identified, including approximate frequency of care.
- (5) Daily notes documenting current subjective complaints as described by the patient, any change in objective findings if noted during that visit, a listing of all procedures provided during that visit, and all information that is exchanged and will affect that patient's treatment.
- (6) A description by the chiropractor or written by the patient each time an incident occurs that results in an aggravation of the patient's condition or a new developing condition.
- (7) Results of reexaminations that are performed to evaluate significant changes in a patient's condition, including tests that were positive or deviated from results used to indicate normal findings.
- (8) When symbols or abbreviations are used, a key that explains their meanings must accompany each file when requested in writing by the patient or a third party.
 - (9) Documentation that family history has been evaluated.
