Subdivision 1. **Program established.** In order to enhance the delivery of needed services to at-risk children and youth and maximize federal funds available for that purpose, the commissioners of human services and education shall design a statewide program of collaboration between providers of health and social services for children and local school districts, to be financed, to the greatest extent possible, from federal sources. The commissioners of health and public safety shall assist the commissioners of human services and education in designing the program.

Screenings and referrals under this program shall not duplicate screenings under section 121A.17.

Subd. 4. **Funding.** The program must be designed to take advantage of available federal funding, including the following:

Subd. 5. Waivers. The commissioner of human services shall collaborate with the commissioners of education, health, and public safety to seek the federal waivers necessary to secure federal funds for implementing the statewide school-based program mandated by this section. Each commissioner shall amend the state plans for programs specified in subdivision 3, to the extent necessary to ensure the availability of federal funds for the school-based program.

Subd. 6. Pilot projects. Within 90 days of receiving the necessary federal waivers, the commissioners of human services and education shall implement at least two pilot programs that link health and social services in the schools. One program shall be located in a school district in the seven-county metropolitan area. The other program shall be located in a greater Minnesota school district. The commissioner of human services, in collaboration with the commissioner of education, shall select the pilot programs on a request for proposal basis. The commissioners shall give priority to school districts with some expertise in collocating services for at-risk children and youth. Programs funded under this subdivision must:
