

256.01 COMMISSIONER OF HUMAN SERVICES; POWERS, DUTIES.

Subdivision 1. **Powers transferred.** All the powers and duties now vested in or imposed upon the State Board of Control by the laws of this state or by any law of the United States are hereby transferred to, vested in, and imposed upon the commissioner of human services, except the powers and duties otherwise specifically transferred by Laws 1939, chapter 431, to other agencies. The commissioner of human services is hereby constituted the "state agency" as defined by the Social Security Act of the United States and the laws of this state.

Subd. 2. **Specific powers.** Subject to the provisions of section 241.021, subdivision 2, the commissioner of human services shall carry out the specific duties in paragraphs (a) through (bb):

(a) Administer and supervise all forms of public assistance provided for by state law and other welfare activities or services as are vested in the commissioner. Administration and supervision of human services activities or services includes, but is not limited to, assuring timely and accurate distribution of benefits, completeness of service, and quality program management. In addition to administering and supervising human services activities vested by law in the department, the commissioner shall have the authority to:

(1) require county agency participation in training and technical assistance programs to promote compliance with statutes, rules, federal laws, regulations, and policies governing human services;

(2) monitor, on an ongoing basis, the performance of county agencies in the operation and administration of human services, enforce compliance with statutes, rules, federal laws, regulations, and policies governing welfare services and promote excellence of administration and program operation;

(3) develop a quality control program or other monitoring program to review county performance and accuracy of benefit determinations;

(4) require county agencies to make an adjustment to the public assistance benefits issued to any individual consistent with federal law and regulation and state law and rule and to issue or recover benefits as appropriate;

(5) delay or deny payment of all or part of the state and federal share of benefits and administrative reimbursement according to the procedures set forth in section 256.017;

(6) make contracts with and grants to public and private agencies and organizations, both profit and nonprofit, and individuals, using appropriated funds; and

(7) enter into contractual agreements with federally recognized Indian tribes with a reservation in Minnesota to the extent necessary for the tribe to operate a federally approved family assistance program or any other program under the supervision of the commissioner. The commissioner shall consult with the affected county or counties in the contractual agreement negotiations, if the county or counties wish to be included, in order to avoid the duplication of county and tribal assistance program services. The commissioner may establish necessary accounts for the purposes of receiving and disbursing funds as necessary for the operation of the programs.

(b) Inform county agencies, on a timely basis, of changes in statute, rule, federal law, regulation, and policy necessary to county agency administration of the programs.

(c) Administer and supervise all child welfare activities; promote the enforcement of laws protecting children with a disability and children who are dependent, neglected, or delinquent, and children born to mothers who were not married to the children's fathers at the times of the conception nor at the births of the children; license and supervise child-caring and child-placing agencies and institutions; supervise the care

of children in boarding and foster homes or in private institutions; and generally perform all functions relating to the field of child welfare now vested in the State Board of Control.

(d) Administer and supervise all noninstitutional service to persons with disabilities, including persons who have vision impairments, and persons who are deaf, deafblind, and hard-of-hearing or with other disabilities. The commissioner may provide and contract for the care and treatment of qualified indigent children in facilities other than those located and available at state hospitals when it is not feasible to provide the service in state hospitals.

(e) Assist and actively cooperate with other departments, agencies and institutions, local, state, and federal, by performing services in conformity with the purposes of Laws 1939, chapter 431.

(f) Act as the agent of and cooperate with the federal government in matters of mutual concern relative to and in conformity with the provisions of Laws 1939, chapter 431, including the administration of any federal funds granted to the state to aid in the performance of any functions of the commissioner as specified in Laws 1939, chapter 431, and including the promulgation of rules making uniformly available medical care benefits to all recipients of public assistance, at such times as the federal government increases its participation in assistance expenditures for medical care to recipients of public assistance, the cost thereof to be borne in the same proportion as are grants of aid to said recipients.

(g) Establish and maintain any administrative units reasonably necessary for the performance of administrative functions common to all divisions of the department.

(h) Act as designated guardian of both the estate and the person of all the wards of the state of Minnesota, whether by operation of law or by an order of court, without any further act or proceeding whatever, except as to persons committed as developmentally disabled. For children under the guardianship of the commissioner or a tribe in Minnesota recognized by the Secretary of the Interior whose interests would be best served by adoptive placement, the commissioner may contract with a licensed child-placing agency or a Minnesota tribal social services agency to provide adoption services. A contract with a licensed child-placing agency must be designed to supplement existing county efforts and may not replace existing county programs or tribal social services, unless the replacement is agreed to by the county board and the appropriate exclusive bargaining representative, tribal governing body, or the commissioner has evidence that child placements of the county continue to be substantially below that of other counties. Funds encumbered and obligated under an agreement for a specific child shall remain available until the terms of the agreement are fulfilled or the agreement is terminated.

(i) Act as coordinating referral and informational center on requests for service for newly arrived immigrants coming to Minnesota.

(j) The specific enumeration of powers and duties as hereinabove set forth shall in no way be construed to be a limitation upon the general transfer of powers herein contained.

(k) Establish county, regional, or statewide schedules of maximum fees and charges which may be paid by county agencies for medical, dental, surgical, hospital, nursing and nursing home care and medicine and medical supplies under all programs of medical care provided by the state and for congregate living care under the income maintenance programs.

(l) Have the authority to conduct and administer experimental projects to test methods and procedures of administering assistance and services to recipients or potential recipients of public welfare. To carry out such experimental projects, it is further provided that the commissioner of human services is authorized to waive the enforcement of existing specific statutory program requirements, rules, and standards in one or

more counties. The order establishing the waiver shall provide alternative methods and procedures of administration, shall not be in conflict with the basic purposes, coverage, or benefits provided by law, and in no event shall the duration of a project exceed four years. It is further provided that no order establishing an experimental project as authorized by the provisions of this section shall become effective until the following conditions have been met:

(1) the secretary of health and human services of the United States has agreed, for the same project, to waive state plan requirements relative to statewide uniformity; and

(2) a comprehensive plan, including estimated project costs, shall be approved by the Legislative Advisory Commission and filed with the commissioner of administration.

(m) According to federal requirements, establish procedures to be followed by local welfare boards in creating citizen advisory committees, including procedures for selection of committee members.

(n) Allocate federal fiscal disallowances or sanctions which are based on quality control error rates for the aid to families with dependent children program formerly codified in sections 256.72 to 256.87, medical assistance, or the Supplemental Nutrition Assistance Program (SNAP) in the following manner:

(1) one-half of the total amount of the disallowance shall be borne by the county boards responsible for administering the programs. For the medical assistance and the AFDC program formerly codified in sections 256.72 to 256.87, disallowances shall be shared by each county board in the same proportion as that county's expenditures for the sanctioned program are to the total of all counties' expenditures for the AFDC program formerly codified in sections 256.72 to 256.87, and medical assistance programs. For SNAP, sanctions shall be shared by each county board, with 50 percent of the sanction being distributed to each county in the same proportion as that county's administrative costs for SNAP benefits are to the total of all SNAP administrative costs for all counties, and 50 percent of the sanctions being distributed to each county in the same proportion as that county's value of SNAP benefits issued are to the total of all benefits issued for all counties. Each county shall pay its share of the disallowance to the state of Minnesota. When a county fails to pay the amount due hereunder, the commissioner may deduct the amount from reimbursement otherwise due the county, or the attorney general, upon the request of the commissioner, may institute civil action to recover the amount due; and

(2) notwithstanding the provisions of clause (1), if the disallowance results from knowing noncompliance by one or more counties with a specific program instruction, and that knowing noncompliance is a matter of official county board record, the commissioner may require payment or recover from the county or counties, in the manner prescribed in clause (1), an amount equal to the portion of the total disallowance which resulted from the noncompliance, and may distribute the balance of the disallowance according to clause (1).

(o) Develop and implement special projects that maximize reimbursements and result in the recovery of money to the state. For the purpose of recovering state money, the commissioner may enter into contracts with third parties. Any recoveries that result from projects or contracts entered into under this paragraph shall be deposited in the state treasury and credited to a special account until the balance in the account reaches \$1,000,000. When the balance in the account exceeds \$1,000,000, the excess shall be transferred and credited to the general fund. All money in the account is appropriated to the commissioner for the purposes of this paragraph.

(p) Have the authority to establish and enforce the following county reporting requirements:

(1) the commissioner shall establish fiscal and statistical reporting requirements necessary to account for the expenditure of funds allocated to counties for human services programs. When establishing financial and statistical reporting requirements, the commissioner shall evaluate all reports, in consultation with the counties, to determine if the reports can be simplified or the number of reports can be reduced;

(2) the county board shall submit monthly or quarterly reports to the department as required by the commissioner. Monthly reports are due no later than 15 working days after the end of the month. Quarterly reports are due no later than 30 calendar days after the end of the quarter, unless the commissioner determines that the deadline must be shortened to 20 calendar days to avoid jeopardizing compliance with federal deadlines or risking a loss of federal funding. Only reports that are complete, legible, and in the required format shall be accepted by the commissioner;

(3) if the required reports are not received by the deadlines established in clause (2), the commissioner may delay payments and withhold funds from the county board until the next reporting period. When the report is needed to account for the use of federal funds and the late report results in a reduction in federal funding, the commissioner shall withhold from the county boards with late reports an amount equal to the reduction in federal funding until full federal funding is received;

(4) a county board that submits reports that are late, illegible, incomplete, or not in the required format for two out of three consecutive reporting periods is considered noncompliant. When a county board is found to be noncompliant, the commissioner shall notify the county board of the reason the county board is considered noncompliant and request that the county board develop a corrective action plan stating how the county board plans to correct the problem. The corrective action plan must be submitted to the commissioner within 45 days after the date the county board received notice of noncompliance;

(5) the final deadline for fiscal reports or amendments to fiscal reports is one year after the date the report was originally due. If the commissioner does not receive a report by the final deadline, the county board forfeits the funding associated with the report for that reporting period and the county board must repay any funds associated with the report received for that reporting period;

(6) the commissioner may not delay payments, withhold funds, or require repayment under clause (3) or (5) if the county demonstrates that the commissioner failed to provide appropriate forms, guidelines, and technical assistance to enable the county to comply with the requirements. If the county board disagrees with an action taken by the commissioner under clause (3) or (5), the county board may appeal the action according to sections 14.57 to 14.69; and

(7) counties subject to withholding of funds under clause (3) or forfeiture or repayment of funds under clause (5) shall not reduce or withhold benefits or services to clients to cover costs incurred due to actions taken by the commissioner under clause (3) or (5).

(q) Allocate federal fiscal disallowances or sanctions for audit exceptions when federal fiscal disallowances or sanctions are based on a statewide random sample in direct proportion to each county's claim for that period.

(r) Be responsible for ensuring the detection, prevention, investigation, and resolution of fraudulent activities or behavior by applicants, recipients, and other participants in the human services programs administered by the department.

(s) Require county agencies to identify overpayments, establish claims, and utilize all available and cost-beneficial methodologies to collect and recover these overpayments in the human services programs administered by the department.

(t) Have the authority to administer the federal drug rebate program for drugs purchased under the medical assistance program as allowed by section 1927 of title XIX of the Social Security Act and according to the terms and conditions of section 1927. Rebates shall be collected for all drugs that have been dispensed or administered in an outpatient setting and that are from manufacturers who have signed a rebate agreement with the United States Department of Health and Human Services.

(u) Have the authority to administer a supplemental drug rebate program for drugs purchased under the medical assistance program. The commissioner may enter into supplemental rebate contracts with pharmaceutical manufacturers and may require prior authorization for drugs that are from manufacturers that have not signed a supplemental rebate contract. Prior authorization of drugs shall be subject to the provisions of section 256B.0625, subdivision 13.

(v) Operate the department's communication systems account established in Laws 1993, First Special Session chapter 1, article 1, section 2, subdivision 2, to manage shared communication costs necessary for the operation of the programs the commissioner supervises. A communications account may also be established for each regional treatment center which operates communications systems. Each account must be used to manage shared communication costs necessary for the operations of the programs the commissioner supervises. The commissioner may distribute the costs of operating and maintaining communication systems to participants in a manner that reflects actual usage. Costs may include acquisition, licensing, insurance, maintenance, repair, staff time and other costs as determined by the commissioner. Nonprofit organizations and state, county, and local government agencies involved in the operation of programs the commissioner supervises may participate in the use of the department's communications technology and share in the cost of operation. The commissioner may accept on behalf of the state any gift, bequest, devise or personal property of any kind, or money tendered to the state for any lawful purpose pertaining to the communication activities of the department. Any money received for this purpose must be deposited in the department's communication systems accounts. Money collected by the commissioner for the use of communication systems must be deposited in the state communication systems account and is appropriated to the commissioner for purposes of this section.

(w) Receive any federal matching money that is made available through the medical assistance program for the consumer satisfaction survey. Any federal money received for the survey is appropriated to the commissioner for this purpose. The commissioner may expend the federal money received for the consumer satisfaction survey in either year of the biennium.

(x) Designate community information and referral call centers and incorporate cost reimbursement claims from the designated community information and referral call centers into the federal cost reimbursement claiming processes of the department according to federal law, rule, and regulations. Existing information and referral centers provided by Greater Twin Cities United Way or existing call centers for which Greater Twin Cities United Way has legal authority to represent, shall be included in these designations upon review by the commissioner and assurance that these services are accredited and in compliance with national standards. Any reimbursement is appropriated to the commissioner and all designated information and referral centers shall receive payments according to normal department schedules established by the commissioner upon final approval of allocation methodologies from the United States Department of Health and Human Services Division of Cost Allocation or other appropriate authorities.

(y) Develop recommended standards for foster care homes that address the components of specialized therapeutic services to be provided by foster care homes with those services.

(z) Authorize the method of payment to or from the department as part of the human services programs administered by the department. This authorization includes the receipt or disbursement of funds held by the department in a fiduciary capacity as part of the human services programs administered by the department.

(aa) Designate the agencies that operate the Senior LinkAge Line under section 256.975, subdivision 7, and the Disability Hub under subdivision 24 as the state of Minnesota Aging and Disability Resource Center under United States Code, title 42, section 3001, the Older Americans Act Amendments of 2006, and incorporate cost reimbursement claims from the designated centers into the federal cost reimbursement claiming processes of the department according to federal law, rule, and regulations. Any reimbursement must be appropriated to the commissioner and treated consistent with section 256.011. All Aging and Disability Resource Center designated agencies shall receive payments of grant funding that supports the activity and generates the federal financial participation according to Board on Aging administrative granting mechanisms.

Subd. 2a. [Repealed, 2013 c 107 art 4 s 22]

Subd. 2b. **Performance payments.** The commissioner shall develop and implement a pay-for-performance system to provide performance payments to eligible medical groups and clinics that demonstrate optimum care in serving individuals with chronic diseases who are enrolled in health care programs administered by the commissioner under chapters 256B and 256L. The commissioner may receive any federal matching money that is made available through the medical assistance program for managed care oversight contracted through vendors, including consumer surveys, studies, and external quality reviews as required by the federal Balanced Budget Act of 1997, Code of Federal Regulations, title 42, part 438-managed care, subpart E-external quality review. Any federal money received for managed care oversight is appropriated to the commissioner for this purpose. The commissioner may expend the federal money received in either year of the biennium.

(b) The state agency may:

(1) subpoena witnesses and administer oaths, make rules, and take such action as may be necessary or desirable for carrying out the provisions of Laws 1937, chapter 438. All rules made by the state agency shall be binding on the counties and shall be complied with by the respective county agencies;

(2) cooperate with other state agencies in establishing reciprocal agreements in instances where a child receiving Minnesota family investment program assistance moves or contemplates moving into or out of the state, in order that the child may continue to receive supervised aid from the state moved from until the child has resided for one year in the state moved to; and

childhood diseases. The state agency must examine the feasibility of utilizing the capacity of a statewide computer system to assist county agency financial workers in performing this function at appropriate intervals.

Subd. 5. Gifts, contributions, pensions and benefits; acceptance. The commissioner shall have the power and authority to accept in behalf of the state contributions and gifts for the use and benefit of children under the guardianship or custody of the commissioner; the commissioner may also receive and accept on behalf of such children, and on behalf of patients and residents at the several state hospitals for persons with mental illness or developmental disabilities during the period of their hospitalization and while on provisional discharge therefrom, money due and payable to them as old age and survivors insurance benefits, veterans benefits, pensions or other such monetary benefits. Notwithstanding section 15.059, the commissioner may pay a per diem of \$35 to consumers and family members whose participation is needed in legislatively authorized state-level task forces, and whose participation on the task force is not as a paid representative of any agency, organization, or association.

Subd. 7. Special consultant on aging. The commissioner of human services may appoint a special consultant on aging in the classified service. Within the limits of appropriations available therefor, the commissioner may appoint such other employees in the classified service as the commissioner deems necessary to carry out the purposes of Laws 1961, chapter 466. Such special consultant and staff shall encourage cooperation among agencies, both public and private, including the departments of the state government, in providing services for the aging. The coordinator shall perform such other duties as the agency may direct to stimulate, demonstrate, initiate, and coordinate local public, private, and voluntary services within the county dedicated to providing the maximum opportunities for self help, independence, and productivity of individuals concerned. The agency may appoint a citizens advisory committee which shall advise the coordinator and the agency on the development of services and perform such other functions at the county level as are prescribed for the Minnesota Board on Aging at the state level. The members shall serve without compensation. Members of citizens advisory committees required by federal law for programs for the aging who receive federal money in payment for a portion of their actual expenses incurred in performance of their duties may receive the remaining portion from state money appropriated for programs for the aging.

Subd. 9. Staff assistance to the Minnesota Board on Aging. The board shall be provided staff assistance from the Department of Human Services through the special consultant on aging, who shall serve as the executive secretary to the board and its committees.

Subd. 11a. **Contracting with financial institutions.** The state agency may contract with banks or other financial institutions to provide services associated with the processing of public assistance checks and may pay a service fee for these services, provided the fee charged does not exceed the fee charged to other customers of the institution for similar services.

Subd. 12. **Child mortality review panel.** (a) The commissioner shall establish a child mortality review panel to review deaths of children in Minnesota, including deaths attributed to maltreatment or in which maltreatment may be a contributing cause and to review near fatalities as defined in section 260E.35. The commissioners of health, education, and public safety and the attorney general shall each designate a representative to the child mortality review panel. Other panel members shall be appointed by the commissioner, including a board-certified pathologist and a physician who is a coroner or a medical examiner. The purpose of the panel shall be to make recommendations to the state and to county agencies for improving the child protection system, including modifications in statute, rule, policy, and procedure.

(b) The commissioner may require a county agency to establish a local child mortality review panel. The commissioner may establish procedures for conducting local reviews and may require that all professionals with knowledge of a child mortality case participate in the local review. In this section, "professional" means a person licensed to perform or a person performing a specific service in the child protective service system. "Professional" includes law enforcement personnel, social service agency attorneys, educators, and social service, health care, and mental health care providers.

The commissioner shall also have access to records of private hospitals as necessary to carry out the duties prescribed by this section. Access to data under this paragraph is limited to police investigative data; autopsy records and coroner or medical examiner investigative data; hospital, public health, or other medical records of the child; hospital and other medical records of the child's parent that relate to prenatal care; and records created by social service agencies that provided services to the child or family within three years preceding the child's death. A state agency, statewide system, or political subdivision shall provide the data upon request of the commissioner. Not public data may be shared with members of the state or local child mortality review panel in connection with an individual case.

(d) Notwithstanding the data's classification in the possession of any other agency, data acquired by a local or state child mortality review panel in the exercise of its duties is protected nonpublic or confidential data as defined in section 13.02, but may be disclosed as necessary to carry out the purposes of the review panel. The data is not subject to subpoena or discovery. The commissioner may disclose conclusions of the review panel, but shall not disclose data that was classified as confidential or private data on decedents, under section 13.10, or private, confidential, or protected nonpublic data in the disseminating agency, except that the commissioner may disclose local social service agency data as provided in section 260E.35, on individual cases involving a fatality or near fatality of a person served by the local social service agency prior to the date of death.

(e) A person attending a child mortality review panel meeting shall not disclose what transpired at the meeting, except to carry out the purposes of the mortality review panel. The proceedings and records of the mortality review panel are protected nonpublic data as defined in section 13.02, subdivision 13, and are not subject to discovery or introduction into evidence in a civil or criminal action against a professional, the state or a county agency, arising out of the matters the panel is reviewing. Information, documents, and records otherwise available from other sources are not immune from discovery or use in a civil or criminal action solely because they were presented during proceedings of the review panel. A person who presented information before the review panel or who is a member of the panel shall not be prevented from testifying about matters within the person's knowledge. However, in a civil or criminal proceeding a person shall not be questioned about the person's presentation of information to the review panel or opinions formed by the person as a result of the review meetings.

Subd. 12a. **Department of Human Services child fatality and near fatality review team.** (a) The commissioner shall establish a Department of Human Services child fatality and near fatality review team to review child fatalities and near fatalities due to child maltreatment and child fatalities and near fatalities that occur in licensed facilities and are not due to natural causes. The review team shall assess the entire child protection services process from the point of a mandated reporter reporting the alleged maltreatment through the ongoing case management process. Department staff shall lead and conduct on-site local reviews and utilize supervisors from local county and tribal child welfare agencies as peer reviewers. The review process must focus on critical elements of the case and on the involvement of the child and family with the county or tribal child welfare agency. The review team shall identify necessary program improvement planning to address any practice issues identified and training and technical assistance needs of the local agency. Summary reports of each review shall be provided to the state child mortality review panel when completed.

(b) A member of the child fatality and near fatality review team shall not disclose what transpired during the review, except to carry out the duties of the child fatality and near fatality review team. The proceedings and records of the child fatality and near fatality review team are protected nonpublic data as defined in section 13.02, subdivision 13, and are not subject to discovery or introduction into evidence in a civil or criminal action against a professional, the state, or a county agency arising out of the matters the team is reviewing. Information, documents, and records otherwise available from other sources are not immune from discovery or use in a civil or criminal action solely because they were assessed or presented during proceedings of the review team. A person who presented information before the review team or who is a member of the team shall not be prevented from testifying about matters within the person's knowledge. In a civil or criminal proceeding a person shall not be questioned about the person's presentation of information to the review team or opinions formed by the person as a result of the review.

Subd. 14b. **American Indian child welfare projects.** (a) The commissioner of human services may authorize projects to initiate tribal delivery of child welfare services to American Indian children and their parents and custodians living on the reservation. The commissioner has authority to solicit and determine which tribes may participate in a project. Grants may be issued to Minnesota Indian tribes to support the projects. The commissioner may waive existing state rules as needed to accomplish the projects. The commissioner may authorize projects to use alternative methods of (1) screening, investigating, and assessing reports of child maltreatment, and (2) administrative reconsideration, administrative appeal, and judicial

appeal of maltreatment determinations, provided the alternative methods used by the projects comply with the provisions of section 256.045 and chapter 260E that deal with the rights of individuals who are the subjects of reports or investigations, including notice and appeal rights and data practices requirements. The commissioner shall only authorize alternative methods that comply with the public policy under section 260E.01. The commissioner may seek any federal approval necessary to carry out the projects as well as seek and use any funds available to the commissioner, including use of federal funds, foundation funds, existing grant funds, and other funds. The commissioner is authorized to advance state funds as necessary to operate the projects. Federal reimbursement applicable to the projects is appropriated to the commissioner for the purposes of the projects. The projects must be required to address responsibility for safety, permanency, and well-being of children.

(b) For the purposes of this section, "American Indian child" means a person under 21 years old and who is a tribal member or eligible for membership in one of the tribes chosen for a project under this subdivision and who is residing on the reservation of that tribe.

(c) In order to qualify for an American Indian child welfare project, a tribe must:

(1) be one of the existing tribes with reservation land in Minnesota;

(2) have a tribal court with jurisdiction over child custody proceedings;

(3) have a substantial number of children for whom determinations of maltreatment have occurred;

(4)(i) have capacity to respond to reports of abuse and neglect under chapter 260E; or (ii) have codified the tribe's screening, investigation, and assessment of reports of child maltreatment procedures, if authorized to use an alternative method by the commissioner under paragraph (a);
