

256.0281 INTERAGENCY DATA EXCHANGE.

The Department of Human Services, the Department of Health, and the Office of the Ombudsman for Mental Health and Developmental Disabilities may establish interagency agreements governing the electronic exchange of data on providers and individuals collected, maintained, or used by each agency when such exchange is outlined by each agency in an interagency agreement to accomplish the purposes in clauses (1) to (4):

(1) to improve provider enrollment processes for home and community-based services and state plan home care services;

(2) to improve quality management of providers between state agencies;

(3) to establish and maintain provider eligibility to participate as providers under Minnesota health care programs; or

(4) to meet the quality assurance reporting requirements under federal law under section 1915(c) of the Social Security Act related to home and community-based waiver programs.

Each interagency agreement must include provisions to ensure anonymity of individuals, including mandated reporters, and must outline the specific uses of and access to shared data within each agency. Electronic interfaces between source data systems developed under these interagency agreements must incorporate these provisions as well as other HIPAA provisions related to individual data.

History: 2009 c 79 art 8 s 13; 2009 c 173 art 1 s 44
