

424A.092 RELIEF ASSOCIATIONS PAYING LUMP-SUM SERVICE PENSIONS.

Subdivision 1. **Application.** This section shall apply to any firefighters relief association specified in section 424A.091, subdivision 1, which pays a lump-sum service pension, but which does not pay a monthly service pension, to a retiring firefighter when at least the minimum requirements for entitlement to a service pension specified in section 424A.02 or any applicable special legislation and the articles of incorporation or bylaws of the relief association have been met. Each firefighters relief association to which this section applies shall determine the accrued liability of the special fund of the relief association in accordance with subdivisions 2 and 2a, if applicable, and the financial requirements of the relief association and the minimum obligation of the municipality in accordance with the procedure set forth in subdivision 3.

Subd. 2. **Determination of accrued liability.** (a) Beginning with the calculation performed in 2021 for the 2022 calendar year, each firefighters relief association which pays a lump-sum service pension shall determine the accrued liability of the special fund of the firefighters relief association relative to each active member of the relief association, calculated using the applicable appendix to the standards for actuarial work established by the Legislative Commission on Pensions and Retirement under section 3.85, subdivision 10.

(b) For calendar years before 2022, each firefighters relief association shall determine the accrued liability of the special fund of the firefighters relief association relative to each active member of the relief association, calculated individually using the following table:

Cumulative Year	Accrued Liability
.....	
1	\$ 60
2	124
3	190
4	260
5	334
6	410
7	492
8	576
9	666
10	760
11	858
12	962
13	1070
14	1184
15	1304

16	1428
17	1560
18	1698
19	1844
20	2000
21 and thereafter	100 additional per year

As set forth in the table the accrued liability for each member of the relief association corresponds to the cumulative years of active service to the credit of the member. The accrued liability of the special fund for each active member is determined by multiplying the accrued liability from the chart by the ratio of the lump-sum service pension amount currently provided for in the bylaws of the relief association to a service pension of \$100 per year of service.

(c) If a member has fractional service as of December 31, the figure for service credit to be used for the determination of accrued liability pursuant to this section shall be rounded to the nearest full year of service credit. The total accrued liability of the special fund as of December 31 shall be the sum of the accrued liability attributable to each active member of the relief association.

(d) To the extent that the state auditor considers it to be necessary or practical, the state auditor may specify and issue procedures, forms, or mathematical tables for use in performing the calculations of the accrued liability for deferred members pursuant to this subdivision.

Subd. 2a. Determination of accrued liability for recipients of installment payments. (a) Each firefighters relief association which pays a lump-sum service pension in installment payments to a retired firefighter pursuant to section 424A.02, subdivision 8, shall determine the accrued liability of the special fund of the firefighters relief association relative to each retired member receiving a lump-sum service pension in installment payments calculated individually as the sum of each future installment payment discounted at an interest rate of five percent, compounded annually, from the date the installment payment is scheduled to be paid to December 31. If the bylaws of the relief association provide for the payment of interest on unpaid installments, the amount of interest, projected to December 31, shall be added to the accrued liability attributable to each retired member. The sum of the accrued liability attributable to each retired member of the relief association receiving a lump-sum service pension in installment payments shall be the total additional accrued liability of the special fund of the relief association as of December 31, and shall be added to the accrued liability of the special fund of the relief association calculated pursuant to subdivision 2 for purposes of calculating the financial requirements of the relief association and the minimum obligation of the municipality pursuant to subdivision 3.

(b) To the extent that the state auditor deems it to be necessary or practical, the state auditor may specify and issue procedures, forms, or mathematical tables for use in performing the calculations required pursuant to this subdivision.

Subd. 3. Financial requirements of relief association; minimum obligation of municipality. (a) During the month of July, the officers of the relief association shall determine the overall funding balance of the special fund for the current calendar year, the financial requirements of the special fund for the following calendar year and the minimum obligation of the municipality with respect to the special fund for the following calendar year in accordance with the requirements of this subdivision.

(b) The overall funding balance of the special fund for the current calendar year must be determined in the following manner:

(1) The total accrued liability of the special fund for all active and deferred members of the relief association as of December 31 of the current year must be calculated under subdivisions 2 and 2a, if applicable.

(2) The total present assets of the special fund projected to December 31 of the current year, including receipts by and disbursements from the special fund anticipated to occur on or before December 31, must be calculated. To the extent possible, for those assets for which a market value is readily ascertainable, the current market value as of the date of the calculation for those assets must be utilized in making this calculation. For any asset for which no market value is readily ascertainable, the cost value or the book value, whichever is applicable, must be utilized in making this calculation.

(3) The amount of the total present assets of the special fund calculated under clause (2) must be subtracted from the amount of the total accrued liability of the special fund calculated under clause (1). If the amount of total present assets exceeds the amount of the total accrued liability, then the special fund is considered to have a surplus over full funding. If the amount of the total present assets is less than the amount of the total accrued liability, then the special fund is considered to have a deficit from full funding. If the amount of total present assets is equal to the amount of the total accrued liability, then the special fund is considered to be fully funded.

(c) The financial requirements of the special fund for the following calendar year must be determined in the following manner:

(1) The total accrued liability of the special fund for all active and deferred members of the relief association as of December 31 of the calendar year next following the current calendar year must be calculated under subdivisions 2 and 2a, if applicable.

(2) The increase in the total accrued liability of the special fund for the following calendar year over the total accrued liability of the special fund for the current year must be calculated.

(3) The amount of anticipated future administrative expenses of the special fund must be calculated by multiplying the dollar amount of the administrative expenses of the special fund for the most recent prior calendar year by the factor of 1.035.

(4) If the special fund is fully funded, the financial requirements of the special fund for the following calendar year are the total of the amounts calculated under clauses (2) and (3).

(5) If the special fund has a deficit from full funding, the financial requirements of the special fund for the following calendar year are the financial requirements of the special fund calculated as though the special fund were fully funded under clause (4) plus an amount equal to one-tenth of the original amount of the deficit from full funding of the special fund as determined under clause (2) resulting either from an increase in the amount of the service pension occurring in the last ten years or from a net annual investment loss occurring during the last ten years until each increase in the deficit from full funding is fully retired. The annual amortization contribution under this clause may not exceed the amount of the deficit from full funding.

(6) If the special fund has a surplus over full funding, the financial requirements of the special fund for the following calendar year are the financial requirements of the special fund calculated as though the special fund were fully funded under clause (4) reduced by an amount equal to one-tenth of the amount of the surplus over full funding of the special fund.

(d) The minimum obligation of the municipality with respect to the special fund is the financial requirements of the special fund reduced by the amount of any fire state aid and police and firefighter retirement supplemental state aid payable under chapter 477B and section 423A.022 reasonably anticipated to be received by the municipality for transmittal to the special fund during the following calendar year, an amount of interest on the assets of the special fund projected to the beginning of the following calendar year calculated at the rate of five percent per annum, and the amount of any contributions to the special fund required by the relief association bylaws from the active members of the relief association reasonably anticipated to be received during the following calendar year. A reasonable amount of anticipated fire state aid is an amount that does not exceed the fire state aid actually received in the prior year multiplied by the factor 1.035.

Subd. 4. Certification of financial requirements and minimum municipal obligation; levy. (a) The officers of the relief association shall certify the financial requirements of the special fund of the relief association and the minimum obligation of the municipality with respect to the special fund of the relief association as determined under subdivision 3 on or before August 1 of each year. The certification must be made to the entity that is responsible for satisfying the minimum obligation with respect to the special fund of the relief association. If the responsible entity is a joint powers entity, the certification must be made in the manner specified in the joint powers agreement, or if the joint powers agreement is silent on this point, the certification must be made to the chair of the joint powers board.

(b) The financial requirements of the relief association and the minimum municipal obligation must be included in the financial report or financial statement under section 424A.014. The schedule forms related to the determination of the financial requirements must be filed with the state auditor by March 31, annually, if the relief association is required to file a financial statement under section 424A.014, subdivision 2, or by June 30, annually, if the relief association is required to file a financial report and audit under section 424A.014, subdivision 1.

(c) The municipality shall provide for at least the minimum obligation of the municipality with respect to the special fund of the relief association by tax levy or from any other source of public revenue.

(d) The municipality may levy taxes for the payment of the minimum municipal obligation without any limitation as to rate or amount and irrespective of any limitations imposed by other provisions of law upon the rate or amount of taxation until the balance of the special fund or any fund of the relief association has attained a specified level. In addition, any taxes levied under this section must not cause the amount or rate of any other taxes levied in that year or to be levied in a subsequent year by the municipality which are subject to a limitation as to rate or amount to be reduced.

(e) If the municipality does not include the full amount of the minimum municipal obligations in its levy for any year, the officers of the relief association shall certify that amount to the county auditor, who shall spread a levy in the amount of the certified minimum municipal obligation on the taxable property of the municipality.

(f) If the state auditor determines that a municipal contribution actually made in a plan year was insufficient under section 424A.091, subdivision 3, paragraph (c), clause (5), the state auditor may request a copy of the certifications under this subdivision from the relief association or from the city. The relief association or the city, whichever applies, must provide the certifications within 14 days of the date of the request from the state auditor.

Subd. 5. Crediting of investment income; effect of excess interest. All investment income earned on the assets of the special fund of the relief association shall be credited to the special fund. Investment income

earned or anticipated to be earned in a calendar year in excess of the assumed rate specified in subdivision 3, clause (3) shall not be included in the calculations of the financial requirements of the special fund of the relief association or the minimum obligation of the municipality with respect to the special fund of the relief association for that calendar year.

Subd. 6. Municipal ratification for plan amendments. If the special fund of the relief association does not have a surplus over full funding under subdivision 3, paragraph (c), clause (5), and if the municipality is required to provide financial support to the special fund of the relief association under this section, the adoption of or any amendment to the articles of incorporation or bylaws of a relief association which increases or otherwise affects the retirement coverage provided by or the service pensions or retirement benefits payable from the special fund of any relief association to which this section applies is not effective until it is ratified by the governing body of the municipality served by the fire department to which the relief association is directly associated or by the independent nonprofit firefighting corporation, as applicable, and the officers of a relief association shall not seek municipal ratification prior to preparing and certifying an estimate of the expected increase in the accrued liability and annual accruing liability of the relief association attributable to the amendment. If the special fund of the relief association has a surplus over full funding under subdivision 3, paragraph (c), clause (5), and if the municipality is not required to provide financial support to the special fund of the relief association under this section, the relief association may adopt or amend its articles of incorporation or bylaws which increase or otherwise affect the retirement coverage provided by or the service pensions or retirement benefits payable from the special fund of the relief association which are effective without municipal ratification so long as this does not cause the amount of the resulting increase in the accrued liability of the special fund of the relief association to exceed 90 percent of the amount of the surplus over full funding reported in the prior year and this does not result in the financial requirements of the special fund of the relief association exceeding the expected amount of the future fire state aid and police and firefighter retirement supplemental state aid to be received by the relief association as determined by the board of trustees following the preparation of an estimate of the expected increase in the accrued liability and annual accruing liability of the relief association attributable to the change. If a relief association adopts or amends its articles of incorporation or bylaws without municipal ratification under this subdivision, and, subsequent to the amendment or adoption, the financial requirements of the special fund of the relief association under this section are such so as to require financial support from the municipality, the provision which was implemented without municipal ratification is no longer effective without municipal ratification and any service pensions or retirement benefits payable after that date may be paid only in accordance with the articles of incorporation or bylaws as amended or adopted with municipal ratification.
