

116.062 AIR TOXICS EMISSIONS REPORTING.

(a) This section applies to facilities that are subject to paragraph (b) and are located in the counties of Anoka, Carver, Dakota, Hennepin, Ramsey, Scott, or Washington.

(b) The commissioner must require owners and operators of a facility issued an air quality permit by the agency, except a facility issued an Option B registration permit under Minnesota Rules, part 7007.1120, to annually report the facility's air toxics emissions to the agency, including a facility not required as a condition of its air quality permit to keep records of air toxics emissions. The commissioner must determine the method to be used by a facility to directly measure or estimate air toxics emissions. The commissioner must amend permits and complete rulemaking, and may enter into enforceable agreements with facility owners and operators, in order to make the reporting requirements under this section enforceable.

(c) For the purposes of this section, "air toxics" means chemical compounds or compound classes that are emitted into the air by a permitted facility and that are:

(1) hazardous air pollutants listed under the federal Clean Air Act, United States Code, title 42, section 7412, as amended;

(2) chemicals reported as released into the atmosphere by a facility located in the state for the Toxic Release Inventory under the federal Emergency Planning and Community Right-to-Know Act, United States Code, title 42, section 11023, as amended;

(3) chemicals for which the Department of Health has developed health-based values or risk assessment advice;

(4) chemicals for which the risk to human health has been assessed by either the federal Environmental Protection Agency's Integrated Risk Information System; or

(5) chemicals reported by facilities in the agency's most recent triennial emissions inventory.
