115A.936 CONSTRUCTION DEBRIS AS COVER MATERIAL PROHIBITED.

- (a) Construction debris or residuals from processed construction debris containing any amount of gypsum shall not be managed as cover material at disposal facilities unless:
- (1) residual material is managed in an industrial or construction and demolition disposal facility equipped with a liner and leachate collection system;
- (2) residual material is not mechanically pulverized or size-reduced prior to processing, screening, or application;
- (3) a maximum effort is made to remove gypsum from the waste prior to processing, screening, or application;
- (4) residual material is mixed at a ratio of one part soil to one part residual material prior to application; and
- (5) the disposal facility does not accept any amount of cover material greater than what is operationally necessary.
- (b) For the purposes of this section, "residual material" means construction debris or residuals from processed construction debris containing any amount of gypsum.
