This exemption includes enterprise information technology equipment and computer software purchased to replace or upgrade enterprise information technology equipment and computer software in a qualified data center, a qualified refurbished data center, or a qualified large-scale data center.

(b) For purposes of this subdivision, "qualified data center" means a facility in Minnesota:

(1) that is comprised of one or more buildings that consist in the aggregate of at least 25,000 square feet, and that are located on a single parcel or on contiguous parcels, where the total cost of construction or refurbishment, investment in enterprise information technology equipment, and computer software is at least \$30,000,000 within a 48-month period. The 48-month period begins no sooner than July 1, 2012, except that costs for computer software maintenance agreements purchased before July 1, 2013, are not included in determining if the \$30,000,000 threshold has been met;

(2) that is constructed or substantially refurbished after June 30, 2012, where "substantially refurbished" means that at least 25,000 square feet have been rebuilt or modified, including:

(i) installation of enterprise information technology equipment; environmental control, computer software, and energy efficiency improvements; and

(ii) building improvements; and

(3) that is used to house enterprise information technology equipment, where the facility has the following characteristics:

(i) uninterruptible power supplies, generator backup power, or both;

(ii) sophisticated fire suppression and prevention systems; and

(iii) enhanced security. A facility will be considered to have enhanced security if it has restricted access to the facility to selected personnel; permanent security guards; video camera surveillance; an electronic system requiring pass codes, keycards, or biometric scans, such as hand scans and retinal or fingerprint recognition; or similar security features.

In determining whether the facility has the required square footage, the square footage of the following spaces shall be included if the spaces support the operation of enterprise information technology equipment: office space, meeting space, and mechanical and other support facilities. For purposes of this subdivision, "computer software" includes, but is not limited to, software utilized or loaded at a qualified data center, qualified refurbished data center, or qualified large-scale data center, including maintenance, licensing, and software customization.

(c) For purposes of this subdivision, a "qualified refurbished data center" means an existing facility that qualifies as a data center under paragraph (b), clauses (2) and (3), but that is comprised of one or more buildings that consist in the aggregate of at least 25,000 square feet, and that are located on a single parcel

or contiguous parcels, where the total cost of construction or refurbishment, investment in enterprise information technology equipment, and computer software is at least \$50,000,000 within a 24-month period.

(d) For purposes of this subdivision, "enterprise information technology equipment" means computers and equipment supporting computing, networking, or data storage, including servers and routers. It includes, but is not limited to: cooling systems, cooling towers, and other temperature control infrastructure; power infrastructure for transformation, distribution, or management of electricity used for the maintenance and operation of a qualified data center or qualified refurbished data center, including but not limited to exterior dedicated business-owned substations, backup power generation systems, battery systems, and related infrastructure; and racking systems, cabling, and trays, which are necessary for the maintenance and operation of the qualified data center, qualified refurbished data center, or qualified large-scale data center.

(e) For purposes of this subdivision, "qualified large-scale data center" means a facility in Minnesota:

(1) that is comprised of one or more buildings connected to each other by fiber and associated equipment that consist in the aggregate of at least 25,000 square feet, and that are located in one physical location or multiple locations; and

(2) for which the total cost of construction or refurbishment, investment in enterprise information technology equipment, and computer software is at least \$250,000,000 collectively by the facility and its tenants within a 60-month period beginning after June 30, 2025.

(f) A qualified data center, qualified large-scale data center, or qualified refurbished data center may claim the exemptions in this subdivision for purchases made within 35 years of the date of its first purchase qualifying for the exemption under paragraph (a).

(g) The exemption in this subdivision is allowed for qualified data centers, qualified large-scale data centers, and qualified refurbished data centers that were certified under paragraph (h) before July 1, 2042.

(h) The commissioner of employment and economic development must certify to the commissioner of revenue, in a format approved by the commissioner of revenue, when a qualified data center has met the requirements under paragraph (b), a qualified refurbished data center has met the requirements under paragraph (c), or a qualified large-scale data center has met the requirements under paragraph (e). The certification must provide the following information regarding each qualified data center or qualified refurbished data center:

(1) the total square footage amount;

(2) the total amount of construction or refurbishment costs and the total amount of qualifying investments in enterprise information technology equipment and computer software;

(3) the beginning and ending of the applicable period under paragraph (b), (c), or (e) in which the qualifying expenditures and purchases under clause (2) were made, but in no case shall the period begin before July 1, 2012; and

(4) the date upon which the qualified data center first met the requirements under paragraph (b), a qualified refurbished data center first met the requirements under paragraph (c), or a qualified large-scale data center first met the requirements under paragraph (e).

(i) Any refund for sales tax paid on qualifying purchases under this subdivision must not be issued unless the commissioner of revenue has received the certification required under paragraph (h) issued by the commissioner of employment and economic development.

(j) The commissioner of employment and economic development must annually notify the commissioner of revenue of the qualified data centers that are projected to meet the requirements under paragraph (b), the qualified refurbished data centers that are projected to meet the requirements under paragraph (c), and the qualified large-scale data centers that are projected to meet the requirements under paragraph (e), in each of the next four years. The notification must provide the information required under paragraph (h), clauses (1) to (4), for each qualified data center, qualified refurbished data center, or qualified large-scale data center.

(k) Laborers and mechanics performing work to construct or refurbish qualified large-scale data centers must be paid the prevailing wage rate for the work as defined in section 177.42, subdivision 6. Work performed to construct or refurbish qualified large-scale data centers is subject to the requirements and enforcement provisions of sections 177.27, 177.30, 177.32, and 177.41 to 177.45. For purposes of this paragraph, "refurbish" does not include maintenance or equipment refreshment or replacement. The commissioner of employment and economic development must not certify a qualified large-scale data center under paragraph (h) unless the entity seeking an exemption certifies to the commissioner of employment and economic development that it has complied with this paragraph for all covered work after June 30, 2025.

(l) Within three years after being placed in service, a qualified large-scale data center must certify to the commissioner of commerce that the facility has attained certification under one or more of the following sustainable design or green building standards:

- (1) BREEAM for new construction or BREEAM in-use;
- (2) Energy Star;
- (3) Envision;
- (4) ISO 50001-energy management;
- (5) LEED for building design and construction or LEED for operations and maintenance;
- (6) green globes for new construction or green globes for existing buildings;
- (7) UL 3223; or
- (8) other reasonable standards approved by the commissioner of employment and economic development.

(m) Notwithstanding section 289A.38, subdivision 1, the amount of the exemption allowed to a qualified large-scale data center must be repaid to the commissioner of revenue if the commissioner of commerce determines that a qualified large-scale data center has not met the requirements under paragraph (l). Nothing in this paragraph prohibits the commissioner of revenue from making an assessment of tax, interest, or penalties if the commissioner of revenue determines that sales to and purchases made by a qualified large-scale data center do not qualify for the exemption under this subdivision.

Subd. 43. **Resold admission tickets.** (a) When a ticket reseller who purchased a ticket from a seller who is in the business of selling tickets resells the ticket, the ticket reseller must charge tax on the total amount for which the ticket is resold and the following rules apply:

(1) if the ticket reseller did not use a fully completed exemption certificate to claim the exemption from tax for resale, but instead paid tax on the original purchase, then the ticket reseller may do one of the following:

- (i) seek a refund of that tax under section 289A.50; or

(ii) pass through to the purchaser the amount of the tax the ticket reseller paid on the original purchase, by giving the purchaser credit for the Minnesota state and local tax paid by the ticket reseller on the ticket reseller's original purchase of the ticket. Credit for the tax cannot exceed either the sales tax paid on the original price of the ticket or the sales tax charged by the ticket reseller to the final purchaser;

(2) if the ticket reseller did not pay tax on the original purchase, tax is due on the full amount of the ticket when resold, without a credit given to the final purchaser; and

(3) the ticket reseller must retain records documenting the price and tax paid by the ticket reseller when purchasing the ticket and the price and tax collected when the ticket reseller resells the ticket.

(b) When a ticket reseller who purchased a ticket from a seller who is not in the business of selling tickets resells the ticket, the ticket reseller must charge tax on the total amount for which the ticket is resold and the following rules apply:

(1) the ticket reseller may credit its purchaser an amount equal to the tax the ticket reseller would have paid its seller, had the seller been registered to collect tax on its sale of the ticket to the ticket reseller. Credit for the tax cannot exceed either the sales tax paid on the original price of the ticket or the sales tax charged by the ticket reseller to the final purchaser. It is presumed that the original purchase price of the ticket is the face amount of the ticket;

(2) if no tax was paid on the original purchase, tax is due on the full amount of the ticket when resold, without a credit given to the ticket reseller's purchaser; and

(3) the ticket reseller must retain records documenting the price and tax paid by the ticket reseller when purchasing the ticket and the price and tax collected when the ticket reseller resells the ticket.

(c) For purposes of this subdivision, "ticket reseller" means a person who:

(1) purchases admission tickets to a sporting event, theater, musical performance, or place of public entertainment or amusement of any kind;

(2) resells admission tickets to events under clause (1); and

(3) is registered to collect tax under this chapter.

Subd. 44. **Greater Minnesota business expansions.** (a) Purchases and use of tangible personal property or taxable services by a qualified business are exempt if:

(1) the commissioner of employment and economic development certifies to the commissioner of revenue, in a format approved by the commissioner of revenue, that the qualified business meets the requirements under section 116J.8738;

(2) the business subsidy agreement provides that the exemption under this subdivision applies;

(3) the property or services are primarily used or consumed at the facility in greater Minnesota identified in the business subsidy agreement; and

(4) the purchase was made and delivery received during the duration of the business subsidy agreement.

(b) Purchase and use of construction materials and supplies used or consumed in, and equipment incorporated into, the construction of improvements to real property in greater Minnesota are exempt if the improvements after completion of construction are to be used in the conduct of the trade or business of the qualified business, and the commissioner of employment and economic development certifies to the

commissioner of revenue, in a format approved by the commissioner of revenue, that the qualified business meets the requirements under section 116J.8738. This exemption applies regardless of whether the purchases are made by the business or a contractor.

(c) The exemptions under this subdivision apply to a local sales and use tax.

(d) The tax on purchases imposed under this subdivision must be imposed and collected as if the rate under section 297A.62 applied, and then refunded in the manner provided in section 297A.75. The total amount refunded for a facility over the certification period is limited to the amount listed in the business subsidy agreement. No more than \$7,000,000 may be refunded in a fiscal year for all purchases under this subdivision. Refunds must be allocated on a first-come, first-served basis. If more than \$7,000,000 of eligible claims are made in a fiscal year, claims by qualified businesses carry over to the next fiscal year, and the commissioner of revenue must first allocate refunds to qualified businesses eligible for a refund in the preceding fiscal year. Any portion of the balance of funds allocated for refunds under this paragraph does not cancel and shall be carried forward to and available for refunds in subsequent fiscal years. Notwithstanding section 297A.75, subdivision 4, for an eligible refund claim that carries over to a subsequent fiscal year, the interest on the amount carried over must be paid on the refund no sooner than from 90 days after July 1 of the fiscal year in which funds are available for the eligible claim.

Subd. 45. Jukebox music. The purchase of music, either as a digital audio work or in tangible form such as a record or compact disc, by operators that provide the service of making available jukeboxes as amusement devices, as provided in section 297A.61, subdivision 3, paragraph (g), clause (1), is exempt if the music is used exclusively for the jukebox.

Subd. 46. Amenities included with the privilege of admission. (a) The sale of amenities, including but not limited to food and beverages, parking services, and promotional items, that are included in the sales price of the privilege of admission to athletic events and places of amusement under section 297A.61, subdivision 3, paragraph (m), are exempt when sold by a seller of the privilege of admission that is a professional sports team competing in Major League Baseball, Major League Soccer, the National Basketball Association, the Women's National Basketball Association, the National Football League, or the National Hockey League.

(b) Under this subdivision, the exempt portion of the sale of the privilege of admission is equal to the purchase price of the amenity if sales or use tax was paid on the amenity when purchased by the seller.

(c) The seller must retain records documenting the price and tax paid by the seller when purchasing the amenities and the price and tax collected when the seller sells the privilege of admission.

(d) This subdivision expires July 1, 2030.
