Subdivision 1. **Legislative intent; scope.** It is a declaration and statement of legislative intent that all human burials, human remains, and human burial grounds shall be accorded equal treatment and respect for human dignity without reference to their ethnic origins, cultural backgrounds, or religious affiliations. The provisions of this section shall apply to all human burials, human remains, or human burial grounds found on or in all public or private lands or waters in Minnesota. Within the boundaries of Tribal Nation reservations, nothing in this section should be interpreted to conflict with federal law, including the Native American Graves Protection and Repatriation Act (NAGPRA), United States Code, title 25, section 3001 et seq., and its implementing regulations, Code of Federal Regulations, title 43, part 10.

Posting is at the discretion of the Indian Affairs Council in the case of American Indian burials or at the discretion of the state archaeologist in the case of non-American Indian burials. This subdivision does not require posting of a burial ground. The size, description, location, and information on the signs used for protective posting must be approved by the appropriate authority and the landowner.

Subd. 3a. **Cemeteries; records and condition assessments.** (a) Cemeteries shall be assessed according to this subdivision.

(b) The state archaeologist shall implement and maintain a system of records identifying the location of known, recorded, or suspected cemeteries. The state archaeologist shall provide access to the records as provided in subdivision 11.

(c) The cemetery condition assessment of non-American Indian cemeteries is at the discretion of the state archaeologist based on the needs identified in this section or upon request by an agency, a landowner, or other appropriate authority.

(d) The cemetery condition assessment of American Indian cemeteries is at the discretion of the Indian Affairs Council based on the needs identified in this section or upon request by an agency, a landowner, or other appropriate authority. If the Indian Affairs Council has possession or takes custody of remains they may follow United States Code, title 25, sections 3001 to 3013.

(e) The cemetery condition assessment of cemeteries that include American Indian and non-American Indian remains or include remains whose ancestry cannot be determined shall be assessed at the discretion of the state archaeologist in collaboration with the Indian Affairs Council based on the needs identified in this section or upon request by an agency, a landowner, or other appropriate authority.

(f) The state archaeologist and the Indian Affairs Council shall have 90 days from the date a request is received to begin a cemetery condition assessment or provide notice to the requester whether or not a condition assessment of a cemetery is needed.

(g) The state archaeologist and the Indian Affairs Council may retain the services of a qualified professional archaeologist, a qualified forensic anthropologist, or other appropriate experts for the purpose of gathering information that the state archaeologist or the Indian Affairs Council can use to assess or identify cemeteries. If probable American Indian cemeteries are to be disturbed or probable American Indian remains analyzed, the Indian Affairs Council must approve the professional archaeologist, qualified anthropologist, or other appropriate expert.

Subd. 4. [Repealed by amendment, 2007 c 115 s 1]

Subd. 5. **Cost.** The cost of condition assessment, recording, surveying, and marking burial grounds and the cost of identification, analysis, rescue, and reburial of human remains on public lands or waters shall be the responsibility of the state or political subdivision controlling the lands or waters. On private lands or waters these costs may be borne by the state, or the landowner upon mutual agreement with the state.

Subd. 6. [Repealed by amendment, 2007 c 115 s 1]

Subd. 7. **Remains found outside of recorded cemeteries.** (a) All unidentified human remains or burials found outside of recorded cemeteries or unplatted graves or burials found within recorded cemeteries and in contexts which indicate antiquity greater than 50 years shall be treated with the utmost respect for all human dignity and dealt with according to the provisions of this section.

(b) If such burials are not American Indian or their ethnic identity cannot be ascertained, as determined by the state archaeologist, they shall be dealt with in accordance with provisions established by the state archaeologist and other appropriate authority.

(c) If such burials are American Indian, as determined by the state archaeologist and Indian Affairs Council, efforts shall be made to follow procedures as defined in United States Code, title 25, section 3001 et seq., and its implementing regulations, Code of Federal Regulations, title 43, part 10, within reservation boundaries. For burials outside of reservation boundaries, the procedures defined in United States Code, title 25, section 3001 et seq., and its implementing regulations, Code of Federal Regulations, title 43, part 10, are at the discretion of the Indian Affairs Council.

Subd. 7a. **Landowner responsibilities.** Application by a landowner for permission to develop or disturb nonburial areas within assessed or recorded burial grounds shall be made to:

(1) the state archaeologist and other appropriate authority in the case of non-American Indian burials; and

(2) the Indian Affairs Council and other appropriate authority in the case of American Indian burials.

(b) Landowners with assessed or suspected human burial grounds on their property are obligated to inform prospective buyers of the burial ground.

Subd. 8. Burial ground relocation. No non-American Indian burial ground may be relocated without the consent of the appropriate authority. No American Indian burial ground may be relocated unless the request to relocate is approved by the Indian Affairs Council. When a burial ground is located on public lands or waters, any burial relocations must be duly licensed under section 138.36 and the cost of removal is the responsibility of and shall be paid by the state or political subdivision controlling the lands or waters. If burial grounds are assessed on private lands, efforts may be made by the state to purchase and protect them instead of removing them to another location.

Subd. 9. Interagency cooperation. (a) The state archaeologist and the Indian Affairs Council shall enter into a memorandum of understanding to coordinate their responsibilities under this section.

(b) The Department of Natural Resources, the Department of Transportation, and all other state agencies and local governmental units whose activities may be affected, shall cooperate with the state archaeologist and the Indian Affairs Council to carry out the provisions of this section.

Subd. 10. Construction and development plan review. When human burials are known or suspected to exist, on public lands or waters, the state or political subdivision controlling the lands or waters or, in the case of private lands, the landowner or developer, shall submit construction and development plans to the state archaeologist for review before plans are finalized and prior to any disturbance within the burial area. If the known or suspected burials are thought to be American Indian, plans shall also be submitted to the Indian Affairs Council. The state archaeologist and the Indian Affairs Council shall review the plans within 45 days of receipt and make recommendations for the preservation in place or removal of the human burials or remains, which may be endangered by construction or development activities.

Subd. 11. Burial sites data. Burial sites data under the authority of the Office of the State Archaeologist or Indian Affairs Council are security information for purposes of section 13.37. Persons who gain access to this data are subject to liability under section 13.08 and the penalty established by section 13.09 if they improperly use or further disseminate the data. Use of this information must be approved by the appropriate authority.

Subd. 12. Right of entry. The state archaeologist or designee may enter on property for the purpose of assessing burial sites. The Indian Affairs Council or a designated representative of the Indian Affairs Council may enter on property for the purpose of assessing or identifying American Indian cemeteries. Only after obtaining permission from the property owner or lessee, descendants of persons buried in burial grounds covered by this section may enter the burial grounds for the purpose of conducting religious or commemorative ceremonies.
