The increase to the annuity or benefit shall be determined by multiplying the monthly amount of the annuity or benefit by the percentage of increase specified in paragraph (b), after taking into account any reduction to the percentage of increase required under paragraph (d).

(b) The percentage of increase shall be one percent unless the federal Social Security Administration has announced a cost-of-living adjustment pursuant to United States Code, title 42, section 415(i), in the last quarter of the preceding calendar year that is greater than one percent. If the cost-of-living adjustment

(2) If the recipient of an annuity, disability benefit, or survivor's benefit has been receiving the annuity or benefit for at least one month, but less than 12 full months, as of the June 30 of the calendar year immediately preceding the effective date of the increase, the percentage of increase is multiplied by a fraction, the numerator of which is the number of months the annuity or benefit was received as of June 30 of the preceding calendar year and the denominator of which is 12.

(e) An increase in annuity or benefit payments under this subdivision must be made automatically unless written notice is filed by the recipient with the executive director of the Public Employees Retirement Association requesting that the increase not be made.

The period-certain retirement annuity plus the life retirement annuity must be the annuity amount payable until age 62, 65, or normal retirement age, as selected by the member at retirement, for an annuity amount payable under section 354.35.
