18B.045 PESTICIDE MANAGEMENT PLAN.

Subdivision 1. **Development.** The commissioner shall develop a pesticide management plan for the prevention, evaluation, and mitigation of occurrences of pesticides or pesticide breakdown products in groundwaters and surface waters of the state. The pesticide management plan must include components promoting prevention, developing appropriate responses to the detection of pesticides or pesticide breakdown products in groundwater and surface waters, and providing responses to reduce or eliminate continued pesticide movement to groundwater and surface water. By September 1 of each even-numbered year, the commissioner must submit a status report on the plan to the Environmental Quality Board for review and then to the house of representatives and senate committees with jurisdiction over the environment, natural resources, and agriculture.

Subd. 2. **Coordination.** The pesticide management plan shall be coordinated and developed with other state agency plans and with other state agencies through the Environmental Quality Board. In addition, the University of Minnesota Extension Service, farm organizations, farmers, environmental organizations, and industry shall be involved in the pesticide management plan development.
