144.7404 DISCLOSURE OF POSITIVE BLOOD-BORNE PATHOGEN TEST RESULTS.

If the conditions of sections 144.7402 and 144.7403 are met, the facility shall ask the source individual and the emergency medical services person if they have ever had a positive test for a blood-borne pathogen. The facility must attempt to get existing test results under this section before taking any steps to obtain a blood sample or to test for blood-borne pathogens. The facility shall disclose the source individual's blood-borne pathogen test results to the emergency medical services person without the source individual's name, address, or other uniquely identifying information.
