299A.59 NOTICE OF MULTIPLE LAW ENFORCEMENT OPERATIONS CONFLICTS.

(a) Notwithstanding section 299C.405, the Department of Public Safety may employ a secure subscription service designed to promote and enhance officer safety during tactical operations by and between federal, state, and local law enforcement agencies by notifying law enforcement agencies of conflicts where multiple law enforcement operations may be occurring on the same subject or vehicle or on or near the same location. The notification may include warrant executions, surveillance activities, SWAT activities, and undercover operations.

(b) Data created, collected, received, maintained, or disseminated by this system is classified as criminal investigative data as defined in section 13.82, subdivision 7.
