466A.04 COMMUNITY INITIATIVES PROGRAM.

A city may establish a community initiatives program as part of the community resource plan. No more than ten percent of the community resource money may be distributed under the community initiatives program. State money used for the community initiatives program must be used for implementing activities included in the community resources program. Financial assistance or service contracts awarded to a single nonprofit organization under this subdivision are limited to $10,000 annually.
