480.23 COMPUTER ACQUISITION BY COURTS.

In order to facilitate the effective management and coordination of the Minnesota courts system, an appropriate official of any court or of a local governmental unit in providing services to any court, if authorized by the state court administrator and with the concurrence of the contracting vendor, may acquire electronic data processing equipment or services through an existing contract originated by the supreme court. The state court administrator shall grant this authority only pursuant to the implementation of justice information systems compatible with systems administered by the Bureau of Criminal Apprehension in the Department of Public Safety.

History: *1980 c 382 s 1; 2009 c 59 art 6 s 20*
