504B.117 INDIVIDUAL TAXPAYER IDENTIFICATION NUMBER.

A landlord must provide on a rental application the option for a prospective tenant to submit an individual taxpayer identification number or a Social Security number as follows:

"SSN or ITIN: ..... ."

A landlord must not deny a rental application solely because the prospective tenant provided an individual taxpayer identification number. Nothing in this section prevents a landlord from denying an application if the consumer credit report attached to an individual taxpayer identification number is insufficient.
