103A.403 STATEWIDE NITRATE DATA.

The Environmental Quality Board shall ensure that all available data regarding the presence of nitrates in groundwater in the state that meet state standards recommended under Laws 1992, chapter 544, section 13, are integrated into the Minnesota Geospatial Information Office's statewide nitrate database according to published data compatibility guidelines. Costs of integrating the data in accordance with data compatibility standards must be borne by the agency generating the data or, if the data are not generated by an entity that receives or received state appropriations for monitoring or information management, by the Environmental Quality Board.

History: *1992 c 544 s 4; 2009 c 101 art 2 s 107*
