STATE PARTICIPATION IN THE COMPACT

(A) In order to join the compact and thereafter continue as a participating state, a state must:

(1) enact a compact that is not materially different from the model compact as determined in accordance with commission rules;

(2) participate fully in the commission's data system;

(3) have a mechanism in place for receiving and investigating complaints about its licensees and license applicants;

(4) notify the commission, in compliance with the terms of the compact and commission rules, of any adverse action or the availability of significant investigative information regarding a licensee and license applicant;

(5) fully implement a criminal background check requirement, within a time frame established by commission rule, by receiving the results of a qualifying criminal background check;

(6) comply with the commission rules applicable to a participating state;

(7) accept the national board examinations of the joint commission on national dental examinations or another examination accepted by commission rule as a licensure examination;

(8) accept for licensure that applicants for a dentist license graduate from a predoctoral dental education program accredited by the Commission on Dental Accreditation, or another accrediting agency recognized by the United States Department of Education for the accreditation of dentistry and dental hygiene education programs, leading to the Doctor of Dental Surgery (D.D.S.) or Doctor of Dental Medicine (D.M.D.) degree;

(9) accept for licensure that applicants for a dental hygienist license graduate from a dental hygiene education program accredited by the Commission on Dental Accreditation or another accrediting agency recognized by the United States Department of Education for the accreditation of dentistry and dental hygiene education programs;

(10) require for licensure that applicants successfully complete a clinical assessment;

(11) have continuing professional development requirements as a condition for license renewal; and

(12) pay a participation fee to the commission as established by commission rule.

(B) Providing alternative pathways for an individual to obtain an unrestricted license does not disqualify a state from participating in the compact.

(C) When conducting a criminal background check, the state licensing authority shall:

(1) consider that information in making a licensure decision;

(2) maintain documentation of completion of the criminal background check and background check information to the extent allowed by state and federal law; and

(3) report to the commission whether it has completed the criminal background check and whether the individual was granted or denied a license.

(D) A licensee of a participating state who has a qualifying license in that state and does not hold an encumbered license in any other participating state, shall be issued a compact privilege in a remote state in accordance with the terms of the compact and commission rules. If a remote state has a jurisprudence requirement a compact privilege will not be issued to the licensee unless the licensee has satisfied the jurisprudence requirement.

ARTICLE IV

COMPACT PRIVILEGE

(A) To obtain and exercise the compact privilege under the terms and provisions of the compact, the licensee shall:

(1) have a qualifying license as a dentist or dental hygienist in a participating state;

(2) be eligible for a compact privilege in any remote state in accordance with (D), (G), and (H) of this article;

(3) submit to an application process whenever the licensee is seeking a compact privilege;

(4) pay any applicable commission and remote state fees for a compact privilege in the remote state;

(5) meet any jurisprudence requirement established by a remote state in which the licensee is seeking a compact privilege;

(6) have passed a National Board Examination of the Joint Commission on National Dental Examinations or another examination accepted by commission rule;

(7) for a dentist, have graduated from a predoctoral dental education program accredited by the Commission on Dental Accreditation, or another accrediting agency recognized by the United States Department of Education for the accreditation of dentistry and dental hygiene education programs, leading to the Doctor of Dental Surgery (D.D.S.) or Doctor of Dental Medicine (D.M.D.) degree;

(8) for a dental hygienist, have graduated from a dental hygiene education program accredited by the Commission on Dental Accreditation or another accrediting agency recognized by the United States Department of Education for the accreditation of dentistry and dental hygiene education programs;

(9) have successfully completed a clinical assessment for licensure;

(10) report to the commission adverse action taken by any nonparticipating state when applying for a compact privilege and, otherwise, within 30 days from the date the adverse action is taken;

(11) report to the commission when applying for a compact privilege the address of the licensee's primary residence and thereafter immediately report to the commission any change in the address of the licensee's primary residence; and

(12) consent to accept service of process by mail at the licensee's primary residence on record with the commission with respect to any action brought against the licensee by the commission or a participating state, and consent to accept service of a subpoena by mail at the licensee's primary residence on record with the commission with respect to any action brought or investigation conducted by the commission or a participating state.

(B) The licensee must comply with the requirements of (A) of this article to maintain the compact privilege in the remote state. If those requirements are met, the compact privilege will continue as long as the licensee maintains a qualifying license in the state through which the licensee applied for the compact privilege and pays any applicable compact privilege renewal fees.

(C) A licensee providing dentistry or dental hygiene in a remote state under the compact privilege shall function within the scope of practice authorized by the remote state for a dentist or dental hygienist licensed in that state.

(D) A licensee providing dentistry or dental hygiene pursuant to a compact privilege in a remote state is subject to that state's regulatory authority. A remote state may, in accordance with due process and that state's laws, by adverse action revoke or remove a licensee's compact privilege in the remote state for a specific period of time and impose fines or take any other necessary actions to protect the health and safety of its citizens. If a remote state imposes an adverse action against a compact privilege that limits the compact privilege, that adverse action applies to all compact privileges in all remote states. A licensee whose compact privilege in a remote state is removed for a specified period of time is not eligible for a compact privilege

in any other remote state until the specific time for removal of the compact privilege has passed and all encumbrance requirements are satisfied.

(E) If a license in a participating state is an encumbered license, the licensee shall lose the compact privilege in a remote state and shall not be eligible for a compact privilege in any remote state until the license is no longer encumbered.

(F) Once an encumbered license in a participating state is restored to good standing, the licensee must meet the requirements of (A) of this article to obtain a compact privilege in a remote state.

(G) If a licensee's compact privilege in a remote state is removed by the remote state, the individual shall lose or be ineligible for the compact privilege in any remote state until the following occur:

- (1) the specific period of time for which the compact privilege was removed has ended; and
- (2) all conditions for removal of the compact privilege have been satisfied.

(H) Once the requirements of (G) of this article have been met, the licensee must meet the requirements in (A) of this article to obtain a compact privilege in a remote state.

ARTICLE V

ACTIVE MILITARY MEMBER OR THEIR SPOUSES

An active military member and their spouse shall not be required to pay to the commission for a compact privilege the fee otherwise charged by the commission. If a remote state chooses to charge a fee for a compact privilege, it may choose to charge a reduced fee or no fee to an active military member and their spouse for a compact privilege.

ARTICLE VI

ADVERSE ACTIONS

(A) A participating state in which a licensee is licensed shall have exclusive authority to impose adverse action against the qualifying license issued by that participating state.

(B) A participating state may take adverse action based on the significant investigative information of a remote state, so long as the participating state follows its own procedures for imposing adverse action.

(C) Nothing in this compact shall override a participating state's decision that participation in an alternative program may be used in lieu of adverse action and that such participation shall remain nonpublic if required by the participating state's laws. Participating states must require licensees who enter any alternative program in lieu of discipline to agree not to practice pursuant to a compact privilege in any other participating state during the term of the alternative program without prior authorization from such other participating state.

(D) Any participating state in which a licensee is applying to practice or is practicing pursuant to a compact privilege may investigate actual or alleged violations of the statutes and regulations authorizing the practice of dentistry or dental hygiene in any other participating state in which the dentist or dental hygienist holds a license or compact privilege.

(E) A remote state shall have the authority to:

- (1) take adverse actions as set forth in article IV, (D), against a licensee's compact privilege in the state;

(2) in furtherance of its rights and responsibilities under the compact and the commission's rules issue subpoenas for both hearings and investigations that require the attendance and testimony of witnesses, and the production of evidence. Subpoenas issued by a state licensing authority in a participating state for the attendance and testimony of witnesses, or the production of evidence from another participating state, shall be enforced in the latter state by any court of competent jurisdiction, according to the practice and procedure of that court applicable to subpoenas issued in proceedings pending before it. The issuing authority shall pay any witness fees, travel expenses, mileage, and other fees required by the service statutes of the state where the witnesses or evidence are located; and

(3) if otherwise permitted by state law, recover from the licensee the costs of investigations and disposition of cases resulting from any adverse action taken against that licensee.

(F) Joint Investigations:

(1) In addition to the authority granted to a participating state by its dentist or dental hygienist licensure act or other applicable state law, a participating state may jointly investigate licensees with other participating states.

(2) Participating states shall share any significant investigative information, litigation, or compliance materials in furtherance of any joint or individual investigation initiated under the compact.

(G) Authority to Continue Investigation:

(1) After a licensee's compact privilege in a remote state is terminated, the remote state may continue an investigation of the licensee that began when the licensee had a compact privilege in that remote state.

(2) If the investigation yields what would be significant investigative information had the licensee continued to have a compact privilege in that remote state, the remote state shall report the presence of such information to the data system as required by article VIII, (B), (6), as if it was significant investigative information.

ARTICLE VII

ESTABLISHMENT AND OPERATION OF THE COMMISSION

(A) The compact participating states hereby create and establish a joint government agency whose membership consists of all participating states that have enacted the compact. The commission is an instrumentality of the participating states acting jointly and not an instrumentality of any one state. The commission shall come into existence on or after the effective date of the compact as set forth in article XI, (A).

(B) Participation, Voting, and Meetings:

(1) Each participating state shall have and be limited to one commissioner selected by that participating state's state licensing authority or, if the state has more than one state licensing authority, selected collectively by the state licensing authorities.

(2) The commissioner shall be a member or designee of such authority or authorities.

(3) The commission may by rule or bylaw establish a term of office for commissioners and may by rule or bylaw establish term limits.

(4) The commission may recommend to a state licensing authority or authorities, as applicable, removal or suspension of an individual as the state's commissioner.

(5) A participating state's state licensing authority or authorities, as applicable, shall fill any vacancy of its commissioner on the commission within 60 days of the vacancy.

(6) Each commissioner shall be entitled to one vote on all matters that are voted upon by the commission.

(12) as set forth in the commission rules, charge a fee to a licensee for the grant of a compact privilege in a remote state and thereafter, as may be established by commission rule, charge the licensee a compact privilege renewal fee for each renewal period in which that licensee exercises or intends to exercise the compact privilege in that remote state. Nothing herein shall be construed to prevent a remote state from charging a licensee a fee for a compact privilege or renewals of a compact privilege, or a fee for the jurisprudence requirement if the remote state imposes such a requirement for the grant of a compact privilege;

(13) accept any and all appropriate gifts, donations, grants of money, other sources of revenue, equipment, supplies, materials, and services, and receive, utilize, and dispose of the same; provided that at all times the commission shall avoid any appearance of impropriety and conflict of interest;

(14) lease, purchase, retain, own, hold, improve, or use any property real, personal, or mixed, or any undivided interest therein;

(15) sell, convey, mortgage, pledge, lease, exchange, abandon, or otherwise dispose of any property real, personal, or mixed;

(23) determine whether a state's enacted compact is materially different from the model compact language such that the state would not qualify for participation in the compact; and

(24) perform such other functions as may be necessary or appropriate to achieve the purposes of this compact.

(D) Meetings of the Commission:

(1) All meetings of the commission that are not closed pursuant to (D)(4) of this article shall be open to the public. Notice of public meetings shall be posted on the commission's website at least 30 days prior to the public meeting.

(2) Notwithstanding (D)(1) of this article, the commission may convene an emergency public meeting by providing at least 24 hours prior notice on the commission's website, and any other means as provided in the commission's rules, for any of the reasons it may dispense with notice of proposed rulemaking under article IX, (L). The commission's legal counsel shall certify that one of the reasons justifying an emergency public meeting has been met.

(3) Notice of all commission meetings shall provide the time, date, and location of the meeting, and if the meeting is to be held or accessible via telecommunication, video conference, or other electronic means, the notice shall include the mechanism for access to the meeting through such means.

(4) The commission may convene in a closed, nonpublic meeting for the commission to receive legal advice or to discuss:

(i) noncompliance of a participating state with its obligations under the compact;

(ii) the employment, compensation, discipline, or other matters, practices, or procedures related to specific employees or other matters related to the commission's internal personnel practices and procedures;

(iii) current or threatened discipline of a licensee or compact privilege holder by the commission or by a participating state's licensing authority;

- (x) information related to any investigative reports prepared by or on behalf of or for use of the commission or other committee charged with responsibility of investigation or determination of compliance issues pursuant to the compact;
- (xi) legal advice;
- (xii) matters specifically exempted from disclosure to the public by federal or participating state law; and
- (xiii) other matters as promulgated by the commission by rule.

(5) If a meeting, or portion of a meeting, is closed, the presiding officer shall state that the meeting will be closed and reference each relevant exempting provision, and such reference shall be recorded in the minutes.

(6) The commission shall keep minutes that fully and clearly describe all matters discussed in a meeting and shall provide a full and accurate summary of actions taken, and the reasons therefore, including a description of the views expressed. All documents considered in connection with an action shall be identified in such minutes. All minutes and documents of a closed meeting shall remain under seal, subject to release only by a majority vote of the commission or order of a court of competent jurisdiction.

(E) Financing of the Commission:

(1) The commission shall pay, or provide for the payment of, the reasonable expenses of its establishment, organization, and ongoing activities.

(2) The commission may accept any and all appropriate sources of revenue, donations, and grants of money, equipment, supplies, materials, and services.

(3) The commission may levy on and collect an annual assessment from each participating state and impose fees on licensees of participating states when a compact privilege is granted to cover the cost of the operations and activities of the commission and its staff, which must be in a total amount sufficient to cover its annual budget as approved each fiscal year for which sufficient revenue is not provided by other sources. The aggregate annual assessment amount for participating states shall be allocated based upon a formula that the commission shall promulgate by rule.

(4) The commission shall not incur obligations of any kind prior to securing the funds adequate to meet the same; nor shall the commission pledge the credit of any participating state, except by and with the authority of the participating state.

(5) The commission shall keep accurate accounts of all receipts and disbursements. The receipts and disbursements of the commission shall be subject to the financial review and accounting procedures established under the commission's bylaws. All receipts and disbursements of funds handled by the commission shall be subject to an annual financial review by a certified or licensed public accountant, and the report of the financial review shall be included in and become part of the annual report of the commission.

(F) The Executive Board:

(1) The executive board shall have the power to act on behalf of the commission according to the terms of this compact. The powers, duties, and responsibilities of the executive board shall include:

(i) overseeing the day-to-day activities of the administration of the compact including compliance with the provisions of the compact and the commission's rules and bylaws;

(ii) recommending to the commission changes to the rules or bylaws, changes to this compact legislation, fees charged to compact participating states, fees charged to licensees, and other fees;

(iii) ensuring compact administration services are appropriately provided, including by contract;

(iv) preparing and recommending the budget;

(v) maintaining financial records on behalf of the commission;

(vi) monitoring compact compliance of participating states and providing compliance reports to the commission;

(vii) establishing additional committees as necessary;

(viii) exercising the powers and duties of the commission during the interim between commission meetings, except for adopting or amending rules, adopting or amending bylaws, and exercising any other powers and duties expressly reserved to the commission by rule or bylaw; and

(ix) other duties as provided in the rules or bylaws of the commission.

(2) The executive board shall be composed of up to seven members:

(i) the chair, vice chair, secretary, and treasurer of the commission and any other members of the commission who serve on the executive board shall be voting members of the executive board; and

(ii) other than the chair, vice chair, secretary, and treasurer, the commission may elect up to three voting members from the current membership of the commission.

(3) The commission may remove any member of the executive board as provided in the commission's bylaws.

(4) The executive board shall meet at least annually.

(i) An executive board meeting at which it takes or intends to take formal action on a matter shall be open to the public, except that the executive board may meet in a closed, nonpublic session of a public meeting when dealing with any of the matters covered under (D)(4) of this article.

(ii) The executive board shall give five business days' notice of its public meetings, posted on its website and as it may otherwise determine to provide notice to persons with an interest in the public matters the executive board intends to address at those meetings.

(5) The executive board may hold an emergency meeting when acting for the commission to:

- (i) meet an imminent threat to public health, safety, or welfare;
- (ii) prevent a loss of commission or participating state funds; or
- (iii) protect public health and safety.

(G) Qualified Immunity, Defense, and Indemnification:

(1) The members, officers, executive director, employees, and representatives of the commission shall be immune from suit and liability, both personally and in their official capacity, for any claim for damage to or loss of property or personal injury or other civil liability caused by or arising out of any actual or alleged act, error, or omission that occurred, or that the person against whom the claim is made had a reasonable basis for believing occurred within the scope of commission employment, duties, or responsibilities; provided that nothing in this paragraph shall be construed to protect any such person from suit or liability for any damage, loss, injury, or liability caused by the intentional or willful or wanton misconduct of that person. The procurement of insurance of any type by the commission shall not in any way compromise or limit the immunity granted hereunder.

(2) The commission shall defend any member, officer, executive director, employee, or representative of the commission in any civil action seeking to impose liability arising out of any actual or alleged act, error, or omission that occurred within the scope of commission employment, duties, or responsibilities, or as determined by the commission that the person against whom the claim is made had a reasonable basis for believing occurred within the scope of commission employment, duties, or responsibilities; provided that nothing herein shall be construed to prohibit that person from retaining their own counsel at their own expense; and provided further that the actual or alleged act, error, or omission did not result from that person's intentional or willful or wanton misconduct.

(3) Notwithstanding (G)(1) of this article, should any member, officer, executive director, employee, or representative of the commission be held liable for the amount of any settlement or judgment arising out of any actual or alleged act, error, or omission that occurred within the scope of that individual's employment, duties, or responsibilities for the commission, or that the person to whom that individual is liable had a reasonable basis for believing occurred within the scope of the individual's employment, duties, or responsibilities for the commission, the commission shall indemnify and hold harmless such individual; provided that the actual or alleged act, error, or omission did not result from the intentional or willful or wanton misconduct of the individual.

(4) Nothing herein shall be construed as a limitation on the liability of any licensee for professional malpractice or misconduct, which shall be governed solely by any other applicable state laws.

(5) Nothing in this compact shall be interpreted to waive or otherwise abrogate a participating state's state action immunity or state action affirmative defense with respect to antitrust claims under the Sherman Act, Clayton Act, or any other state or federal antitrust or anticompetitive law or regulation.

(6) Nothing in this compact shall be construed to be a waiver of sovereign immunity by the participating states or by the commission.

(H) Notwithstanding paragraph (G), clause (1), of this article, the liability of the executive director, employees, or representatives of the interstate commission, acting within the scope of their employment or duties, may not exceed the limits of liability set forth under the constitution and laws of this state for state

officials, employees, and agents. This paragraph expressly incorporates section 3.736, and neither expands nor limits the rights and remedies provided under that statute.

(I) Except for a claim alleging a violation of this compact, a claim against the commission, its executive director, employees, or representatives alleging a violation of the constitution and laws of this state may be brought in any county where the plaintiff resides. Nothing in this paragraph creates a private right of action.

(J) Nothing in this compact shall be construed as a limitation on the liability of any licensee for professional malpractice or misconduct, which shall be governed solely by any other applicable state laws.

ARTICLE VIII

DATA SYSTEM

(A) The commission shall provide for the development, maintenance, operation, and utilization of a coordinated database and reporting system containing licensure, adverse action, and the presence of significant investigative information on all licensees and applicants for a license in participating states.

(B) Notwithstanding any other provision of state law to the contrary, a participating state shall submit a uniform data set to the data system on all individuals to whom this compact is applicable as required by the rules of the commission, including:

- (1) identifying information;
- (2) licensure data;
- (3) adverse actions against a licensee, license applicant, or compact privilege and information related thereto;
- (4) nonconfidential information related to alternative program participation, the beginning and ending dates of such participation, and other information related to such participation;
- (5) any denial of an application for licensure, and the reasons for such denial, excluding the reporting of any criminal history record information where prohibited by law;
- (6) the presence of significant investigative information; and
- (7) other information that may facilitate the administration of this compact or the protection of the public, as determined by the rules of the commission.

(C) The records and information provided to a participating state pursuant to this compact or through the data system, when certified by the commission or an agent thereof, shall constitute the authenticated business records of the commission, and shall be entitled to any associated hearsay exception in any relevant judicial, quasi-judicial, or administrative proceedings in a participating state.

(D) Significant investigative information pertaining to a licensee in any participating state will only be available to other participating states.

(E) It is the responsibility of the participating states to monitor the database to determine whether adverse action has been taken against a licensee or license applicant. Adverse action information pertaining to a licensee or license applicant in any participating state will be available to any other participating state.

(F) Participating states contributing information to the data system may designate information that may not be shared with the public without the express permission of the contributing state.

(G) Any information submitted to the data system that is subsequently expunged pursuant to federal law or the laws of the participating state contributing the information shall be removed from the data system.

ARTICLE IX

RULEMAKING

(A) The commission shall promulgate reasonable rules in order to effectively and efficiently implement and administer the purposes and provisions of the compact. A commission rule shall be invalid and have no force or effect only if a court of competent jurisdiction holds that the rule is invalid because the commission exercised its rulemaking authority in a manner that is beyond the scope and purposes of the compact, or the powers granted hereunder, or based upon another applicable standard of review.

(B) The rules of the commission shall have the force of law in each participating state, provided that where the rules of the commission conflict with the laws of the participating state that establish the participating state's scope of practice as held by a court of competent jurisdiction, the rules of the commission shall be ineffective in that state to the extent of the conflict.

(C) The commission shall exercise its rulemaking powers pursuant to the criteria set forth in this article and the rules adopted thereunder. Rules shall become binding as of the date specified by the commission for each rule.

(D) If a majority of the legislatures of the participating states rejects a commission rule or portion of a commission rule, by enactment of a statute or resolution in the same manner used to adopt the compact, within four years of the date of adoption of the rule, then such rule shall have no further force and effect in any participating state or to any state applying to participate in the compact.

(E) Rules shall be adopted at a regular or special meeting of the commission.

(F) Prior to adoption of a proposed rule, the commission shall hold a public hearing and allow persons to provide oral and written comments, data, facts, opinions, and arguments.

(G) Prior to adoption of a proposed rule by the commission, and at least 30 days in advance of the meeting at which the commission will hold a public hearing on the proposed rule, the commission shall provide a notice of proposed rulemaking:

- (1) on the website of the commission or other publicly accessible platform;
- (2) to persons who have requested notice of the commission's notices of proposed rulemaking; and
- (3) in such other ways as the commission may by rule specify.

(H) The notice of proposed rulemaking shall include:

(1) the time, date, and location of the public hearing at which the commission will hear public comments on the proposed rule and, if different, the time, date, and location of the meeting where the commission will consider and vote on the proposed rule;

(2) if the hearing is held via telecommunication, video conference, or other electronic means, the commission shall include the mechanism for access to the hearing in the notice of proposed rulemaking;

(3) the text of the proposed rule and the reason therefor;

(4) a request for comments on the proposed rule from any interested person; and

(5) the manner in which interested persons may submit written comments.

(I) All hearings will be recorded. A copy of the recording and all written comments and documents received by the commission in response to the proposed rule shall be available to the public.

(J) Nothing in this article shall be construed as requiring a separate hearing on each commission rule. Rules may be grouped for the convenience of the commission at hearings required by this article.

(K) The commission shall, by majority vote of all commissioners, take final action on the proposed rule based on the rulemaking record.

(1) The commission may adopt changes to the proposed rule provided the changes do not enlarge the original purpose of the proposed rule.

(2) The commission shall provide an explanation of the reasons for substantive changes made to the proposed rule as well as reasons for substantive changes not made that were recommended by commenters.

(3) The commission shall determine a reasonable effective date for the rule. Except for an emergency as provided in (L) of this article, the effective date of the rule shall be no sooner than 30 days after the commission issuing the notice that it adopted or amended the rule.

(L) Upon determination that an emergency exists, the commission may consider and adopt an emergency rule with 24 hours' notice, with opportunity to comment, provided that the usual rulemaking procedures provided in the compact and in this article shall be retroactively applied to the rule as soon as reasonably possible, in no event later than 90 days after the effective date of the rule. For the purposes of this provision, an emergency rule is one that must be adopted immediately in order to:

- (1) meet an imminent threat to public health, safety, or welfare;
- (2) prevent a loss of commission or participating state funds;
- (3) meet a deadline for the promulgation of a rule that is established by federal law or rule; or
- (4) protect public health and safety.

(M) The commission or an authorized committee of the commission may direct revisions to a previously adopted rule for purposes of correcting typographical errors, errors in format, errors in consistency, or grammatical errors. Public notice of any revisions shall be posted on the website of the commission. The revision shall be subject to challenge by any person for a period of 30 days after posting. The revision may be challenged only on grounds that the revision results in a material change to a rule. A challenge shall be made in writing and delivered to the commission prior to the end of the notice period. If no challenge is made, the revision will take effect without further action. If the revision is challenged, the revision may not take effect without the approval of the commission.

(N) No participating state's rulemaking requirements shall apply under this compact.

ARTICLE X

OVERSIGHT, DISPUTE RESOLUTION, AND ENFORCEMENT

(A) Oversight:

(1) The executive and judicial branches of state government in each participating state shall enforce this compact and take all actions necessary and appropriate to implement the compact.

(2) Except as provided under article VII, paragraph (I), venue is proper and judicial proceedings by or against the commission shall be brought solely and exclusively in a court of competent jurisdiction where the principal office of the commission is located. The commission may waive venue and jurisdictional defenses to the extent it adopts or consents to participate in alternative dispute resolution proceedings. Nothing herein shall affect or limit the selection or propriety of venue in any action against a licensee for professional malpractice, misconduct, or any such similar matter.

(3) The commission shall be entitled to receive service of process in any proceeding regarding the enforcement or interpretation of the compact or commission rule and shall have standing to intervene in such a proceeding for all purposes. Failure to provide the commission service of process shall render a judgment or order void as to the commission, this compact, or the promulgated rules.

(B) Default, Technical Assistance, and Termination:

(1) If the commission determines that a participating state has defaulted in the performance of its obligations or responsibilities under this compact or the promulgated rules, the commission shall provide written notice to the defaulting state. The notice of default shall describe the default, the proposed means of curing the default, and any other action that the commission may take, and shall offer training and specific technical assistance regarding the default.

(2) The commission shall provide a copy of the notice of default to the other participating states.

(C) If a state in default fails to cure the default, the defaulting state may be terminated from the compact upon an affirmative vote of a majority of the commissioners, and all rights, privileges, and benefits conferred on that state by this compact may be terminated on the effective date of termination. A cure of the default does not relieve the offending state of obligations or liabilities incurred during the period of default.

(D) Termination of participation in the compact shall be imposed only after all other means of securing compliance have been exhausted. Notice of intent to suspend or terminate shall be given by the commission to the governor, the majority and minority leaders of the defaulting state's legislature, the defaulting state's state licensing authority or authorities, as applicable, and each of the participating states' state licensing authority or authorities, as applicable.

(E) A state that has been terminated is responsible for all assessments, obligations, and liabilities incurred through the effective date of termination, including obligations that extend beyond the effective date of termination.

(F) Upon the termination of a state's participation in this compact, that state shall immediately provide notice to all licensees of the state, including licensees of other participating states issued a compact privilege to practice within that state, of such termination. The terminated state shall continue to recognize all compact privileges then in effect in that state for a minimum of 180 days after the date of said notice of termination.

(G) The commission shall not bear any costs related to a state that is found to be in default or that has been terminated from the compact, unless agreed upon in writing between the commission and the defaulting state.

(H) The defaulting state may appeal the action of the commission by petitioning the United States District Court for the District of Columbia or the federal district where the commission has its principal offices. The prevailing party shall be awarded all costs of such litigation, including reasonable attorney fees.

(I) Dispute Resolution:

(1) Upon request by a participating state, the commission shall attempt to resolve disputes related to the compact that arise among participating states and between participating states and nonparticipating states.

(2) The commission shall promulgate a rule providing for both mediation and binding dispute resolution for disputes as appropriate.

(J) Enforcement:

(1) The commission, in the reasonable exercise of its discretion, shall enforce the provisions of this compact and the commission's rules.

(2) By majority vote, the commission may initiate legal action against a participating state in default in the United States District Court for the District of Columbia or the federal district where the commission has its principal offices to enforce compliance with the provisions of the compact and its promulgated rules. The relief sought may include both injunctive relief and damages. In the event judicial enforcement is necessary, the prevailing party shall be awarded all costs of such litigation, including reasonable attorney fees. The remedies herein shall not be the exclusive remedies of the commission. The commission may pursue any other remedies available under federal or the defaulting participating state's law.

(3) A participating state may initiate legal action against the commission in the United States District Court for the District of Columbia or the federal district where the commission has its principal offices to enforce compliance with the provisions of the compact and its promulgated rules. The relief sought may include both injunctive relief and damages. In the event judicial enforcement is necessary, the prevailing party shall be awarded all costs of such litigation, including reasonable attorney fees.

(4) No individual or entity other than a participating state may enforce this compact against the commission.

ARTICLE XI

EFFECTIVE DATE, WITHDRAWAL, AND AMENDMENT

(A) The compact shall come into effect on the date on which the compact statute is enacted into law in the seventh participating state.

(1) On or after the effective date of the compact, the commission shall convene and review the enactment of each of the states that enacted the compact prior to the commission convening ("charter participating states") to determine if the statute enacted by each such charter participating state is materially different than the model compact.

(i) A charter participating state whose enactment is found to be materially different from the model compact shall be entitled to the default process set forth in article X.

(ii) If any participating state is later found to be in default, or is terminated or withdraws from the compact, the commission shall remain in existence and the compact shall remain in effect even if the number of participating states should be less than seven.

(2) Participating states enacting the compact subsequent to the charter participating states shall be subject to the process set forth in article VII, (C)(23), to determine if their enactments are materially different from the model compact and whether they qualify for participation in the compact.

(3) All actions taken for the benefit of the commission or in furtherance of the purposes of the administration of the compact prior to the effective date of the compact or the commission coming into existence shall be considered to be actions of the commission unless specifically repudiated by the commission.

(4) Any state that joins the compact subsequent to the commission's initial adoption of the rules and bylaws shall be subject to the commission's rules and bylaws as they exist on the date on which the compact becomes law in that state. Any rule that has been previously adopted by the commission shall have the full force and effect of law on the day the compact becomes law in that state.

(B) Any participating state may withdraw from this compact by enacting a statute repealing that state's enactment of the compact.

(1) A participating state's withdrawal shall not take effect until 180 days after enactment of the repealing statute.

(2) Withdrawal shall not affect the continuing requirement of the withdrawing state's licensing authority or authorities to comply with the investigative and adverse action reporting requirements of this compact prior to the effective date of withdrawal.

(3) Upon the enactment of a statute withdrawing from this compact, the state shall immediately provide notice of such withdrawal to all licensees within that state. Notwithstanding any subsequent statutory enactment to the contrary, such withdrawing state shall continue to recognize all compact privileges to practice within that state granted pursuant to this compact for a minimum of 180 days after the date of such notice of withdrawal.

(C) Nothing contained in this compact shall be construed to invalidate or prevent any licensure agreement or other cooperative arrangement between a participating state and a nonparticipating state that does not conflict with the provisions of this compact.

(D) This compact may be amended by the participating states. No amendment to this compact shall become effective and binding upon any participating state until it is enacted into the laws of all participating states.

ARTICLE XII

CONSTRUCTION AND SEVERABILITY

(A) This compact and the commission's rulemaking authority shall be liberally construed so as to effectuate the purposes and the implementation and administration of the compact. Provisions of the compact expressly authorizing or requiring the promulgation of rules shall not be construed to limit the commission's rulemaking authority solely for those purposes.

(B) The provisions of this compact shall be severable and if any phrase, clause, sentence, or provision of this compact is held by a court of competent jurisdiction to be contrary to the constitution of any participating state, a state seeking participation in the compact, or of the United States, or the applicability thereof to any government, agency, person, or circumstance is held to be unconstitutional by a court of competent jurisdiction, the validity of the remainder of this compact and the applicability thereof to any other government, agency, person, or circumstance shall not be affected thereby.

(C) Notwithstanding (B) of this article, the commission may deny a state's participation in the compact or, in accordance with the requirements of article X, (B), terminate a participating state's participation in the compact, if it determines that a constitutional requirement of a participating state is a material departure

from the compact. Otherwise, if this compact shall be held to be contrary to the constitution of any participating state, the compact shall remain in full force and effect as to the remaining participating states and in full force and effect as to the participating state affected as to all severable matters.

ARTICLE XIII

CONSISTENT EFFECT AND CONFLICT WITH OTHER STATE LAWS

(A) Nothing herein shall prevent or inhibit the enforcement of any other law of a participating state that is not inconsistent with the compact.

(B) Any laws, statutes, regulations, or other legal requirements in a participating state in conflict with the compact are superseded to the extent of the conflict.

(C) All permissible agreements between the commission and the participating states are binding in accordance with their terms.

150A.06 LICENSURE.

Subdivision 1. **Dentists.** A person of good moral character who has graduated from a dental program accredited by the Commission on Dental Accreditation, having submitted an application and fee as prescribed by the board, may be examined by the board or by an agency pursuant to section 150A.03, subdivision 1, in a manner to test the applicant's fitness to practice dentistry. A graduate of a dental college in another country must not be disqualified from examination solely because of the applicant's foreign training if the board determines that the training is equivalent to or higher than that provided by a dental college accredited by the Commission on Dental Accreditation. In the case of examinations conducted pursuant to section 150A.03, subdivision 1, applicants shall take the examination prior to applying to the board for licensure. The examination shall include an examination of the applicant's knowledge of the laws of Minnesota relating to dentistry and the rules of the board. An applicant is ineligible to retake the clinical examination required by the board after failing it twice until further education and training are obtained as specified by the board by rule. A separate, nonrefundable fee may be charged for each time a person applies. An applicant who passes the examination in compliance with subdivision 2b, abides by professional ethical conduct requirements, and meets all other requirements of the board shall be licensed to practice dentistry and granted a general dentist license by the board.

Subd. 1a. **Faculty dentists.** (a) Faculty members of a school of dentistry must be licensed in order to practice dentistry as defined in section 150A.05. The board may issue to members of the faculty of a school of dentistry a license designated as either a "limited faculty license" or a "full faculty license" entitling the holder to practice dentistry within the terms described in paragraph (b) or (c). The dean of a school of dentistry and program directors of a Minnesota dental hygiene or dental assisting school accredited by the Commission on Dental Accreditation shall certify to the board those members of the school's faculty who practice dentistry but are not licensed to practice dentistry in Minnesota. A faculty member who practices dentistry as defined in section 150A.05, before beginning duties in a school of dentistry or a dental hygiene or dental assisting school, shall apply to the board for a limited or full faculty license. Pursuant to Minnesota Rules, chapter 3100, and at the discretion of the board, a limited faculty license must be renewed annually and a full faculty license must be renewed biennially. The faculty applicant shall pay a nonrefundable fee set by the board for issuing and renewing the faculty license. The faculty license is valid during the time the holder remains a member of the faculty of a school of dentistry or a dental hygiene or dental assisting school and subjects the holder to this chapter.

(b) The board may issue to dentist members of the faculty of a Minnesota school of dentistry, dental hygiene, or dental assisting accredited by the Commission on Dental Accreditation, a license designated as a limited faculty license entitling the holder to practice dentistry within the school and its affiliated teaching facilities, but only for the purposes of teaching or conducting research. The practice of dentistry at a school facility for purposes other than teaching or research is not allowed unless the dentist was a faculty member on August 1, 1993.

(c) The board may issue to dentist members of the faculty of a Minnesota school of dentistry, dental hygiene, or dental assisting accredited by the Commission on Dental Accreditation a license designated as a full faculty license entitling the holder to practice dentistry within the school and its affiliated teaching facilities and elsewhere if the holder of the license is employed 50 percent time or more by the school in the

practice of teaching or research, and upon successful review by the board of the applicant's qualifications as described in subdivisions 1, 1c, and 4 and board rule. The board, at its discretion, may waive specific licensing prerequisites.

Subd. 1b. **Resident dentists.** A person who is a graduate of a dental school and is an enrolled graduate student or student of an accredited advanced dental education program and who is not licensed to practice dentistry in the state shall obtain from the board a license to practice dentistry as a resident dentist. The license must be designated "resident dentist license" and authorizes the licensee to practice dentistry only under the supervision of a licensed dentist. A University of Minnesota School of Dentistry dental resident holding a resident dentist license is eligible for enrollment in medical assistance, as provided under section 256B.0625, subdivision 9b. A resident dentist license must be renewed annually pursuant to the board's rules. An applicant for a resident dentist license shall pay a nonrefundable fee set by the board for issuing and renewing the license. The requirements of sections 150A.01 to 150A.21 apply to resident dentists except as specified in rules adopted by the board. A resident dentist license does not qualify a person for licensure under subdivision 1.

Subd. 1c. **Specialty dentists.** (a) The board may grant one or more specialty licenses in the specialty areas of dentistry that are recognized by the Commission on Dental Accreditation.

(b) An applicant for a specialty license shall:

(1) have successfully completed a postdoctoral specialty program accredited by the Commission on Dental Accreditation, or have announced a limitation of practice before 1967;

(2) have been certified by a specialty board approved by the Minnesota Board of Dentistry, or provide evidence of having passed a clinical examination for licensure required for practice in any state or Canadian province, or in the case of oral and maxillofacial surgeons only, have a Minnesota medical license in good standing;

(3) have been in active practice or a postdoctoral specialty education program or United States government service at least 2,000 hours in the 36 months prior to applying for a specialty license;

(4) if requested by the board, be interviewed by a committee of the board, which may include the assistance of specialists in the evaluation process, and satisfactorily respond to questions designed to determine the applicant's knowledge of dental subjects and ability to practice;

(5) if requested by the board, present complete records on a sample of patients treated by the applicant. The sample must be drawn from patients treated by the applicant during the 36 months preceding the date of application. The number of records shall be established by the board. The records shall be reasonably representative of the treatment typically provided by the applicant for each specialty area;

(6) at board discretion, pass a board-approved English proficiency test if English is not the applicant's primary language;

(7) pass all components of the National Board Dental Examinations;

(8) pass the Minnesota Board of Dentistry jurisprudence examination;

(9) abide by professional ethical conduct requirements; and

(10) meet all other requirements prescribed by the Board of Dentistry.

(c) The application must include:

- (2) a nonrefundable fee; and
- (3) a copy of the applicant's government-issued photo identification card.

(d) A specialty dentist holding one or more specialty licenses is limited to practicing in the dentist's designated specialty area or areas. The scope of practice must be defined by each national specialty board recognized by the Commission on Dental Accreditation.

(e) All specialty dentists who have fulfilled the specialty dentist requirements and who intend to limit their practice to a particular specialty area or areas may apply for one or more specialty licenses.

Subd. 1d. **Dental therapists.** A person of good moral character who has graduated with a baccalaureate degree or a master's degree from a dental therapy education program that has been approved by the board or accredited by the Commission on Dental Accreditation or another board-approved national accreditation organization may apply for licensure.

The applicant must submit an application and fee as prescribed by the board and a diploma or certificate from a dental therapy education program. Prior to being licensed, the applicant must pass a comprehensive, competency-based clinical examination that is approved by the board and administered independently of an institution providing dental therapy education. The applicant must also pass an examination testing the applicant's knowledge of the Minnesota laws and rules relating to the practice of dentistry. An applicant who has failed the clinical examination twice is ineligible to retake the clinical examination until further education and training are obtained as specified by the board. A separate, nonrefundable fee may be charged for each time a person applies. An applicant who passes the examination in compliance with subdivision 2b, abides by professional ethical conduct requirements, and meets all the other requirements of the board shall be licensed as a dental therapist.

Subd. 1e. **Resident dental providers.** A person who is a graduate of an undergraduate program and is an enrolled graduate student of an advanced dental education program shall obtain from the board a license to practice as a resident dental hygienist or dental therapist. The license must be designated "resident dental provider license" and authorizes the licensee to practice only under the supervision of a licensed dentist or licensed dental therapist. A resident dental provider license must be renewed annually by the board. An applicant for a resident dental provider license shall pay a nonrefundable fee set by the board for issuing and renewing the license. The requirements of sections 150A.01 to 150A.21 apply to resident dental providers except as specified in rules adopted by the board. A resident dental provider license does not qualify a person for licensure under subdivision 1d or 2.

Subd. 2. **Dental hygienists.** A person of good moral character, who has graduated from a dental hygiene program accredited by the Commission on Dental Accreditation and established in an institution accredited by an agency recognized by the United States Department of Education to offer college-level programs, may apply for licensure. The dental hygiene program must provide a minimum of two academic years of dental hygiene education. The applicant must submit an application and fee as prescribed by the board and a diploma or certificate of dental hygiene. Prior to being licensed, the applicant must pass the National Board of Dental Hygiene examination and a board approved examination designed to determine the applicant's clinical competency. In the case of examinations conducted pursuant to section 150A.03, subdivision 1, applicants shall take the examination before applying to the board for licensure. The applicant must also pass an examination testing the applicant's knowledge of the laws of Minnesota relating to the practice of dentistry and of the rules of the board. An applicant is ineligible to retake the clinical examination required by the board after failing it twice until further education and training are obtained as specified by board rule.

A separate, nonrefundable fee may be charged for each time a person applies. An applicant who passes the examination in compliance with subdivision 2b, abides by professional ethical conduct requirements, and meets all the other requirements of the board shall be licensed as a dental hygienist.

Subd. 2a. **Licensed dental assistant.** A person of good moral character, who has graduated from a dental assisting program accredited by the Commission on Dental Accreditation, may apply for licensure. The applicant must submit an application and fee as prescribed by the board and the diploma or certificate of dental assisting. In the case of examinations conducted pursuant to section 150A.03, subdivision 1, applicants shall take the examination before applying to the board for licensure. The examination shall include an examination of the applicant's knowledge of the laws of Minnesota relating to dentistry and the rules of the board. An applicant is ineligible to retake the licensure examination required by the board after failing it twice until further education and training are obtained as specified by board rule. A separate, nonrefundable fee may be charged for each time a person applies. An applicant who passes the examination in compliance with subdivision 2b, abides by professional ethical conduct requirements, and meets all the other requirements of the board shall be licensed as a dental assistant.

Subd. 2b. **Examination.** When the Board of Dentistry administers the examination for licensure, only those board members or board-appointed deputy examiners qualified for the particular examination may administer it. An examination which the board requires as a condition of licensure must have been taken within the five years before the board receives the application for licensure.

Subd. 2c. **Guest license.** (a) The board shall grant a guest license to practice as a dentist, dental hygienist, or licensed dental assistant if the following conditions are met:

(1) the dentist, dental hygienist, or dental assistant is currently licensed in good standing in another United States jurisdiction;

(2) the dentist, dental hygienist, or dental assistant is currently engaged in the practice of that person's respective profession in another United States jurisdiction;

(3) the dentist, dental hygienist, or dental assistant will limit that person's practice to a public health setting in Minnesota that (i) is approved by the board; (ii) was established by a nonprofit organization that is tax exempt under chapter 501(c)(3) of the Internal Revenue Code of 1986; and (iii) provides dental care to patients who have difficulty accessing dental care;

(4) the dentist, dental hygienist, or dental assistant agrees to treat indigent patients who meet the eligibility criteria established by the clinic; and

(5) the dentist, dental hygienist, or dental assistant has applied to the board for a guest license and has paid a nonrefundable license fee to the board.

(b) A guest license must be renewed annually with the board and an annual renewal fee must be paid to the board. Guest licenses expire on December 31 of each year.

(c) A dentist, dental hygienist, or dental assistant practicing under a guest license under this subdivision shall have the same obligations as a dentist, dental hygienist, or dental assistant who is licensed in Minnesota and shall be subject to the laws and rules of Minnesota and the regulatory authority of the board. If the board suspends or revokes the guest license of, or otherwise disciplines, a dentist, dental hygienist, or dental assistant practicing under this subdivision, the board shall promptly report such disciplinary action to the dentist's, dental hygienist's, or dental assistant's regulatory board in the jurisdictions in which they are licensed.

(d) The board may grant a guest license to a dentist, dental hygienist, or dental assistant licensed in another United States jurisdiction to provide dental care to patients on a voluntary basis without compensation for a limited period of time. The board shall not assess a fee for the guest license for volunteer services issued under this paragraph.

(e) The board shall issue a guest license for volunteer services if:

(1) the board determines that the applicant's services will provide dental care to patients who have difficulty accessing dental care;

(2) the care will be provided without compensation; and

(3) the applicant provides adequate proof of the status of all licenses to practice in other jurisdictions. The board may require such proof on an application form developed by the board.

(f) The guest license for volunteer services shall limit the licensee to providing dental care services for a period of time not to exceed ten days in a calendar year. Guest licenses expire on December 31 of each year.

(g) The holder of a guest license for volunteer services shall be subject to state laws and rules regarding dentistry and the regulatory authority of the board. The board may revoke the license of a dentist, dental hygienist, or dental assistant practicing under this subdivision or take other regulatory action against the dentist, dental hygienist, or dental assistant. If an action is taken, the board shall report the action to the regulatory board of those jurisdictions where an active license is held by the dentist, dental hygienist, or dental assistant.

Subd. 2d. **Continuing education and professional development waiver.** (a) The board shall grant a waiver to the continuing education requirements under this chapter for a licensed dentist, licensed dental therapist, licensed dental hygienist, or licensed dental assistant who documents to the satisfaction of the board that the dentist, dental therapist, dental hygienist, or licensed dental assistant has retired from active practice in the state and limits the provision of dental care services to those offered without compensation in a public health, community, or tribal clinic or a nonprofit organization that provides services to the indigent or to recipients of medical assistance or MinnesotaCare programs.

(b) The board may require written documentation from the volunteer and retired dentist, dental therapist, dental hygienist, or licensed dental assistant prior to granting this waiver.

(c) The board shall require the volunteer and retired dentist, dental therapist, dental hygienist, or licensed dental assistant to meet the following requirements:

(1) a licensee seeking a waiver under this subdivision must complete and document at least five hours of approved courses in infection control, medical emergencies, and medical management for the continuing education cycle; and

(2) provide documentation of current CPR certification from completion of the American Heart Association healthcare provider course or the American Red Cross professional rescuer course.

Subd. 3. **Waiver of examination.** (a) All or any part of the examination for dentists, dental therapists, dental hygienists, or dental assistants, except that pertaining to the law of Minnesota relating to dentistry and the rules of the board, may, at the discretion of the board, be waived for an applicant who presents a certificate of having passed all components of the National Board Dental Examinations or evidence of having maintained an adequate scholastic standing as determined by the board.

(b) The board shall waive the clinical examination required for licensure for any dentist applicant who is a graduate of a dental school accredited by the Commission on Dental Accreditation, who has passed all components of the National Board Dental Examinations, and who has satisfactorily completed a postdoctoral general dentistry residency program (GPR) or an advanced education in general dentistry (AEGD) program after January 1, 2004. The postdoctoral program must be accredited by the Commission on Dental Accreditation, be of at least one year's duration, and include an outcome assessment evaluation assessing the resident's competence to practice dentistry. The board may require the applicant to submit any information deemed necessary by the board to determine whether the waiver is applicable.

Subd. 4. Licensure by credentials; dentist and dental hygienist. (a) Any dentist or dental hygienist may, upon application and payment of a fee established by the board, apply for licensure based on the applicant's performance record in lieu of passing an examination approved by the board according to section 150A.03, subdivision 1, and be interviewed by the board to determine if the applicant:

(1) has passed all components of the National Board Dental Examinations;

(2) has been in active practice at least 2,000 hours within 36 months of the application date, or passed a board-approved reentry program within 36 months of the application date;

(3) currently has a license in another state or Canadian province and is not subject to any pending or final disciplinary action, or if not currently licensed, previously had a license in another state or Canadian province in good standing that was not subject to any final or pending disciplinary action at the time of surrender;

(4) is of good moral character and abides by professional ethical conduct requirements;

(5) at board discretion, has passed a board-approved English proficiency test if English is not the applicant's primary language; and

(6) meets other credentialing requirements specified in board rule.

(b) An applicant who fulfills the conditions of this subdivision and demonstrates the minimum knowledge in dental subjects required for licensure under subdivision 1 or 2 must be licensed to practice the applicant's profession.

(c) If the applicant does not demonstrate the minimum knowledge in dental subjects required for licensure under subdivision 1 or 2, the application must be denied. When denying a license, the board may notify the applicant of any specific remedy that the applicant could take which, when passed, would qualify the applicant for licensure. A denial does not prohibit the applicant from applying for licensure under subdivision 1 or 2.

(d) A candidate whose application has been denied may appeal the decision to the board according to subdivision 4a.

Subd. 4a. Appeal of denial of application. A person whose application for licensure by credentials has been denied may appeal the decision to the board. The board shall establish an appeals process and inform a denied candidate of the right to appeal and the process for filing the appeal.

Subd. 5. Fraud in securing licenses. Every person implicated in employing fraud or deception in applying for or securing a license to practice dentistry, dental hygiene, dental therapy, or dental assisting, or in annually renewing a license under sections 150A.01 to 150A.12 is guilty of a gross misdemeanor.

Subd. 6. **Display of name and certificates.** (a) The renewal certificate of every licensee or registrant must be conspicuously displayed in plain sight of patients in every office in which that person practices. Duplicate renewal certificates may be obtained from the board.

(b) Near or on the entrance door to every office where dentistry is practiced, the name of each dentist practicing there, as inscribed on the current license certificate, must be displayed in plain sight.

(c) The board must allow the display of a mini-license for guest license holders performing volunteer dental services. There is no fee for the mini-license for guest volunteers.

Subd. 7. MS 1988 [Repealed, 1989 c 285 s 7]

Subd. 7. **Additional remedies for licensure.** On a case-by-case basis, for initial or renewal of licensure, the board may add additional remedies for deficiencies found based on the applicant's performance, character, and education.

Subd. 8. **Licensure by credentials; dental assistant.** (a) Any dental assistant may, upon application and payment of a fee established by the board, apply for licensure based on an evaluation of the applicant's education, experience, and performance record in lieu of completing a board-approved dental assisting program for expanded functions as defined in rule, and may be interviewed by the board to determine if the applicant:

(1) has graduated from an accredited dental assisting program accredited by the Commission on Dental Accreditation or is currently certified by the Dental Assisting National Board;

(2) is not subject to any pending or final disciplinary action in another state or Canadian province, or if not currently certified or registered, previously had a certification or registration in another state or Canadian province in good standing that was not subject to any final or pending disciplinary action at the time of surrender;

(3) is of good moral character and abides by professional ethical conduct requirements;

(4) at board discretion, has passed a board-approved English proficiency test if English is not the applicant's primary language; and

(5) has met all expanded functions curriculum equivalency requirements of a Minnesota board-approved dental assisting program.

(b) The board, at its discretion, may waive specific licensure requirements in paragraph (a).

(c) An applicant who fulfills the conditions of this subdivision and demonstrates the minimum knowledge in dental subjects required for licensure under subdivision 2a must be licensed to practice the applicant's profession.

(d) If the applicant does not demonstrate the minimum knowledge in dental subjects required for licensure under subdivision 2a, the application must be denied. If licensure is denied, the board may notify the applicant of any specific remedy that the applicant could take which, when passed, would qualify the applicant for licensure. A denial does not prohibit the applicant from applying for licensure under subdivision 2a.

(e) A candidate whose application has been denied may appeal the decision to the board according to subdivision 4a.

Subd. 9. **Graduates of nonaccredited dental programs.** A graduate of a nonaccredited dental program who successfully completes the clinical licensure examination, and meets all other applicant requirements of the board shall be licensed to practice dentistry and granted a limited general dentist license by the board. The board shall place limitations on the licensee's authority to practice by requiring the licensee to practice under the general supervision of a Minnesota-licensed dentist approved by the board. A person licensed under this subdivision must practice for three consecutive years in Minnesota pursuant to a written agreement, approved by the board, between the licensee and a Minnesota-licensed dentist who may limit the types of services authorized. At the conclusion of the three-year period, the board shall grant an unlimited license without further restrictions if all supervising dentists who had entered into written agreements with the licensee during any part of the three-year period recommend unlimited licensure, and if no corrective action or disciplinary action has been taken by the board against the licensee.

Subd. 10. **Emeritus inactive license.** A person licensed to practice dentistry, dental therapy, dental hygiene, or dental assisting pursuant to section 150A.05 or Minnesota Rules, part 3100.8500, who retires from active practice in the state may apply to the board for emeritus inactive licensure. An application for emeritus inactive licensure may be made on the biennial licensing form or by petitioning the board, and the applicant must pay a onetime application fee pursuant to section 150A.091, subdivision 19. In order to receive emeritus inactive licensure, the applicant must be in compliance with board requirements and cannot be the subject of current disciplinary action resulting in suspension, revocation, disqualification, condition, or restriction of the licensee to practice dentistry, dental therapy, dental hygiene, or dental assisting. An emeritus inactive license is not a license to practice, but is a formal recognition of completion of a person's dental career in good standing.

Subd. 11. **Emeritus active licensure.** (a) A person licensed to practice dentistry, dental therapy, dental hygiene, or dental assisting may apply for an emeritus active license if the person is retired from active practice, is in compliance with board requirements, and is not the subject of current disciplinary action resulting in suspension, revocation, disqualification, condition, or restriction of the license to practice dentistry, dental therapy, dental hygiene, or dental assisting.

(b) An emeritus active licensee may engage only in the following types of practice:

- (1) pro bono or volunteer dental practice;
- (2) paid practice not to exceed 500 hours per calendar year for the exclusive purpose of providing licensing supervision to meet the board's requirements; or
- (3) paid consulting services not to exceed 500 hours per calendar year.

(c) An emeritus active licensee shall not hold out as a full licensee and may only hold out as authorized to practice as described in this subdivision. The board may take disciplinary or corrective action against an emeritus active licensee based on violations of applicable law or board requirements.

(d) A person may apply for an emeritus active license by completing an application form specified by the board and must pay the application fee pursuant to section 150A.091, subdivision 20.

(e) If an emeritus active license is not renewed every two years, the license expires. The renewal date is the same as the licensee's renewal date when the licensee was in active practice. In order to renew an emeritus active license, the licensee must:

- (1) complete an application form as specified by the board;
- (2) pay the required renewal fee pursuant to section 150A.091, subdivision 20; and

(3) report at least 25 continuing education hours completed since the last renewal, which must include:

(i) at least one hour in two different required CORE areas;

(ii) at least one hour of mandatory infection control;

(iii) for dentists and dental therapists, at least 15 hours of fundamental credits for dentists and dental therapists, and for dental hygienists and dental assistants, at least seven hours of fundamental credits; and

(iv) for dentists and dental therapists, no more than ten elective credits, and for dental hygienists and dental assistants, no more than six elective credits.

Subd. 12. Licensure by credentials; dental therapist. (a) Any dental therapist may, upon application and payment of a fee established by the board, apply for licensure based on an evaluation of the applicant's education, experience, and performance record. The applicant may be interviewed by the board to determine if the applicant:

(1) graduated with a baccalaureate or master's degree from a dental therapy program accredited by the Commission on Dental Accreditation;

(2) provided evidence of successfully completing the board's jurisprudence examination;

(3) actively practiced at least 2,000 hours within 36 months of the application date or passed a board-approved reentry program within 36 months of the application date;

(4) either:

(i) is currently licensed in another state or Canadian province and not subject to any pending or final disciplinary action; or

(ii) was previously licensed in another state or Canadian province in good standing and not subject to any final or pending disciplinary action at the time of surrender;

(5) passed a board-approved English proficiency test if English is not the applicant's primary language required at the board's discretion; and

(6) met all curriculum equivalency requirements regarding dental therapy scope of practice in Minnesota.

(b) The 2,000 practice hours required by clause (3) may count toward the 2,000 practice hours required for consideration for advanced dental therapy certification, provided that all other requirements of section 150A.106, subdivision 1, are met.

(c) The board, at its discretion, may waive specific licensure requirements in paragraph (a).

(d) The board must license an applicant who fulfills the conditions of this subdivision and demonstrates the minimum knowledge in dental subjects required for licensure under subdivision 1d to practice the applicant's profession.

(e) The board must deny the application if the applicant does not demonstrate the minimum knowledge in dental subjects required for licensure under subdivision 1d. If licensure is denied, the board may notify the applicant of any specific remedy the applicant could take to qualify for licensure. A denial does not prohibit the applicant from applying for licensure under subdivision 1d.

(f) A candidate may appeal a denied application to the board according to subdivision 4a.

150A.08 LICENSURE AND REGISTRATION ACTIONS.

Subdivision 1. **Grounds.** The board may refuse or by order suspend or revoke, limit or modify by imposing conditions it deems necessary, the license of a dentist, dental therapist, dental hygienist, or dental assistant upon any of the following grounds:

- (1) fraud or deception in connection with the practice of dentistry or the securing of a license certificate;
- (2) conviction, including a finding or verdict of guilt, an admission of guilt, or a no contest plea, in any court of a felony or gross misdemeanor reasonably related to the practice of dentistry as evidenced by a certified copy of the conviction;
- (3) conviction, including a finding or verdict of guilt, an admission of guilt, or a no contest plea, in any court of an offense involving moral turpitude as evidenced by a certified copy of the conviction;
- (4) habitual overindulgence in the use of intoxicating liquors;
- (5) improper or unauthorized prescription, dispensing, administering, or personal or other use of any legend drug as defined in chapter 151, of any chemical as defined in chapter 151, or of any controlled substance as defined in chapter 152;
- (6) conduct unbecoming a person licensed to practice dentistry, dental therapy, dental hygiene, or dental assisting, or conduct contrary to the best interest of the public, as such conduct is defined by the rules of the board;
- (7) gross immorality;
- (8) any physical, mental, emotional, or other disability which adversely affects a dentist's, dental therapist's, dental hygienist's, or dental assistant's ability to perform the service for which the person is licensed;
- (9) revocation or suspension of a license or equivalent authority to practice, or other disciplinary action or denial of a license application taken by a licensing or credentialing authority of another state, territory, or country as evidenced by a certified copy of the licensing authority's order, if the disciplinary action or application denial was based on facts that would provide a basis for disciplinary action under this chapter and if the action was taken only after affording the credentialed person or applicant notice and opportunity to refute the allegations or pursuant to stipulation or other agreement;
- (10) failure to maintain adequate safety and sanitary conditions for a dental office in accordance with the standards established by the rules of the board;

(11) employing, assisting, or enabling in any manner an unlicensed person to practice dentistry;

(13) violation of, or failure to comply with, any other provisions of sections 150A.01 to 150A.12, the rules of the Board of Dentistry, or any disciplinary order issued by the board, sections 144.291 to 144.298 or 595.02, subdivision 1, paragraph (d), or for any other just cause related to the practice of dentistry. Suspension, revocation, modification or limitation of any license shall not be based upon any judgment as to therapeutic or monetary value of any individual drug prescribed or any individual treatment rendered, but only upon a repeated pattern of conduct;

(14) knowingly providing false or misleading information that is directly related to the care of that patient unless done for an accepted therapeutic purpose such as the administration of a placebo; or

(15) aiding suicide or aiding attempted suicide in violation of section 609.215 as established by any of the following:

Subd. 2. MS 1974 [Repealed, 1976 c 222 s 209]

Subd. 3. **Reinstatement.** Any licensee whose license has been suspended or revoked may have the license reinstated or a new license issued, as the case may be, when the board deems the action is warranted.

Subd. 3a. **Costs; additional penalties.** (a) The board may impose a civil penalty not exceeding \$10,000 for each separate violation, the amount of the civil penalty to be fixed so as to deprive a licensee of any economic advantage gained by reason of the violation, to discourage similar violations by the licensee or any other licensee, or to reimburse the board for the cost of the investigation and proceeding, including, but not limited to, fees paid for services provided by the Office of Administrative Hearings, legal and investigative services provided by the Office of the Attorney General, court reporters, witnesses, reproduction of records, board members' per diem compensation, board staff time, and travel costs and expenses incurred by board staff and board members.

(b) In addition to costs and penalties imposed under paragraph (a), the board may also:

(1) order the dentist, dental therapist, dental hygienist, or dental assistant to provide unremunerated service;

(2) censure or reprimand the dentist, dental therapist, dental hygienist, or dental assistant; or

(3) any other action as allowed by law and justified by the facts of the case.

Subd. 4. **Records.** The executive secretary of the board shall keep a record of all licenses and registration certificates issued, suspended, or revoked.

Subd. 5. **Medical examinations.** If the board has probable cause to believe that a dentist, dental therapist, dental hygienist, dental assistant, or applicant engages in acts described in subdivision 1, clause (4) or (5), or has a condition described in subdivision 1, clause (8), it shall direct the dentist, dental therapist, dental hygienist, dental assistant, or applicant to submit to a mental or physical examination or a substance use disorder assessment. For the purpose of this subdivision, every dentist, dental therapist, dental hygienist, or dental assistant licensed under this chapter or person submitting an application for a license is deemed to have given consent to submit to a mental or physical examination when directed in writing by the board and to have waived all objections in any proceeding under this section to the admissibility of the examining physician's testimony or examination reports on the ground that they constitute a privileged communication. Failure to submit to an examination without just cause may result in an application being denied or a default and final order being entered without the taking of testimony or presentation of evidence, other than evidence which may be submitted by affidavit, that the licensee or applicant did not submit to the examination. A dentist, dental therapist, dental hygienist, dental assistant, or applicant affected under this section shall at reasonable intervals be afforded an opportunity to demonstrate ability to start or resume the competent practice of dentistry or perform the duties of a dental therapist, dental hygienist, or dental assistant with reasonable skill and safety to patients. In any proceeding under this subdivision, neither the record of proceedings nor the orders entered by the board is admissible, is subject to subpoena, or may be used against the dentist, dental therapist, dental hygienist, dental assistant, or applicant in any proceeding not commenced by the board. Information obtained under this subdivision shall be classified as private pursuant to the Minnesota Government Data Practices Act.

Subd. 6. **Medical records.** Notwithstanding contrary provisions of sections 13.384 and 144.651 or any other statute limiting access to medical or other health data, the board may obtain medical data and health records of a licensee or applicant without the licensee's or applicant's consent if the information is requested by the board as part of the process specified in subdivision 5. The medical data may be requested from a provider, as defined in section 144.291, subdivision 2, paragraph (h), an insurance company, or a government agency, including the Department of Human Services. A provider, insurance company, or government agency shall comply with any written request of the board under this subdivision and shall not be liable in any action for damages for releasing the data requested by the board if the data are released pursuant to a written request under this subdivision, unless the information is false and the provider giving the information knew, or had reason to believe, the information was false. Information obtained under this subdivision shall be classified as private under the Minnesota Government Data Practices Act.

Subd. 7. **Self-incrimination.** No person is excused from attending and testifying at any proceeding initiated by the board or from producing any document before the board on the ground that the testimony or evidence required may tend to incriminate the person; but no person may be prosecuted for any crime related to the matter about which the person testifies or produces evidence required or requested by the board if the person first claims a privilege against self-incrimination. This immunity from criminal prosecution does not apply to prosecution for perjury or contempt committed in testifying or producing the evidence.

Subd. 8. **Suspension of license.** In addition to any other remedy provided by law, the board may, through its designated board members pursuant to section 214.10, subdivision 2, temporarily suspend a license without a hearing if the board finds that the licensee has violated a statute or rule which the board is empowered to enforce and continued practice by the licensee would create an imminent risk of harm to others. The suspension shall take effect upon written notice to the licensee served by first class mail specifying the statute or rule violated, and the time, date, and place of the hearing before the board. If the notice is returned by the post office, the notice shall be effective upon reasonable attempts to locate and serve the licensee. Within ten days of service of the notice, the board shall hold a hearing before its own members on the sole issue of whether there is a reasonable basis to continue, modify, or lift the suspension. Evidence

presented by the board or licensee shall be in affidavit form only. The licensee or counsel of the licensee may appear for oral argument. Within five working days after the hearing, the board shall issue its order and, if the suspension is continued, the board shall schedule a disciplinary hearing to be held pursuant to the Administrative Procedure Act within 45 days of issuance of the order. The administrative law judge shall issue a report within 30 days of the closing of the contested case hearing record. The board shall issue a final order within 30 days of receiving that report. The board may allow a person who was licensed by any state to practice dentistry and whose license has been suspended to practice dentistry under the supervision of a licensed dentist for the purpose of demonstrating competence and eligibility for reinstatement.

Subd. 9. Tax clearance certificate. (a) In addition to the grounds provided in subdivision 1 and notwithstanding subdivision 3, the board may not issue or renew a license to practice dentistry if the commissioner of revenue notifies the board and the licensee or applicant for a license that the licensee or applicant owes the state delinquent taxes in the amount of \$500 or more. The board may issue or renew the license only if (1) the commissioner of revenue issues a tax clearance certificate and (2) the commissioner of revenue or the licensee or applicant forwards a copy of the clearance to the board. The commissioner of revenue may issue a clearance certificate only if the licensee or applicant does not owe the state any uncontested delinquent taxes.

(b) For purposes of this subdivision, the following terms have the meanings given.

(1) "Taxes" are all taxes payable to the commissioner of revenue, including penalties and interest due on those taxes.

(2) "Delinquent taxes" do not include a tax liability if (i) an administrative or court action that contests the amount or validity of the liability has been filed or served, (ii) the appeal period to contest the tax liability has not expired, or (iii) the licensee or applicant has entered into a payment agreement to pay the liability and is current with the payments.

(c) In lieu of the notice and hearing requirements of subdivision 8, when a licensee or applicant is required to obtain a clearance certificate under this subdivision, a contested case hearing must be held if the licensee or applicant requests a hearing in writing to the commissioner of revenue within 30 days of the date of the notice provided in paragraph (a). The hearing must be held within 45 days of the date the commissioner of revenue refers the case to the Office of Administrative Hearings. Notwithstanding any law to the contrary, the licensee or applicant must be served with 20 days' notice in writing specifying the time and place of the hearing and the allegations against the licensee or applicant. The notice may be served personally or by mail.

(d) The board shall require all licensees or applicants for a license to practice dentistry to provide their Social Security number and Minnesota business identification number on all license applications. Upon request of the commissioner of revenue, the board must provide to the commissioner of revenue a list of all licensees and applicants for a license to practice dentistry including the name and address, Social Security number, and business identification number. The commissioner of revenue may request a list of the licensees and applicants no more than once each calendar year.

The medical data may be requested from a provider, as defined in section 144.291, subdivision 2, paragraph (h), an insurance company, or a government agency. A provider, insurance company, or government agency shall comply with a written request of the board under this subdivision and is not liable in any action for damages for releasing the data requested by the board if the data are released under the written request, unless the information is false and the entity providing the information knew, or had reason to believe, the information was false.

When the patient requires a referral for additional dental services, the dental hygienist shall complete a referral form and provide a copy to the patient, the facility, if applicable, the dentist to whom the patient is being referred, and the collaborating dentist, if specified in the collaborative agreement. A copy of the referral form shall be maintained in the patient's health care record. The patient does not become a new patient of

The board by rule may require continuing education for differing levels of dental assistants, as a condition to their license or authority to perform their authorized duties. Any licensed dentist or dental therapist who permits an unlicensed assistant to perform any dental service other than that authorized by the board shall be deemed to be enabling an unlicensed person to practice dentistry, and commission of such an act by an unlicensed assistant shall constitute a violation of sections 150A.01 to 150A.12.

Subd. 2a. Collaborative practice authorization for dental assistants in community settings. (a) Notwithstanding subdivision 2, a dental assistant licensed under this chapter may be employed or retained by a health care facility, program, or nonprofit organization as defined in subdivision 1a to perform the dental assisting services described in paragraph (b) without the patient first being examined by a licensed dentist, without a dentist's diagnosis or treatment plan, and without the dentist being present at the location where services are being performed, if:

The collaborative agreement must include the elements listed in subdivision 1a, paragraph (b).

The work order shall be made in duplicate form, a duplicate copy to be retained in a permanent file of the dentist or dental therapist at the practice setting for a period of two years, and the original to be retained in a permanent file for a period of two years by the unlicensed person in that person's place of business. (3) a licensed dentist or licensed advanced dental therapist has authorized the procedure to be performed; and

(4) a licensed dentist or licensed advanced dental therapist is available in the clinic while the procedure is being performed.

(c) The dental faculty who teaches the educators of the board-approved courses specified in paragraph (b) must have prior experience teaching these procedures in an accredited dental education program.

Except for advertising permitted under this subdivision, a person not licensed to practice dentistry in this state shall not sell or offer any such service or products to other than the dental profession or its ancillary trades, provided, however that the mere delivery of such products to an ultimate consumer or person acting in the consumer's behalf for the purpose of transporting such products to the licensed dentist who provided the work order shall not violate this subdivision.
