(2) beginning January 1, 2003, 80 percent state funds and 20 percent county funds for the costs of nursing facility placements of persons with disabilities under the age of 65 that have exceeded 90 days. This clause shall be subject to chapter 256G and shall not apply to placements in facilities not certified to participate in medical assistance;

(3) beginning July 1, 2004, 90 percent state funds and ten percent county funds for the costs of placements that have exceeded 90 days in intermediate care facilities for persons with developmental disabilities that have seven or more beds. This provision includes pass-through payments made under section 256B.5015; and

(4) beginning July 1, 2004, when state funds are used to pay for a nursing facility placement due to the facility's status as an institution for mental diseases (IMD), the county shall pay 20 percent of the nonfederal share of costs that have exceeded 90 days. This clause is subject to chapter 256G.

Subd. 2a. **Division of costs.** The county shall ensure that only the least costly, most appropriate transportation and travel expenses are used. The state may enter into volume purchase contracts, or use a competitive bidding process, whenever feasible, to minimize the costs of transportation services. If the state has entered into a volume purchase contract or used the competitive bidding procedures of chapter 16C to arrange for transportation services, the county may be required to use such arrangements.

Subd. 2b. **Pilot project reimbursement.** In counties where a pilot or demonstration project is operated under the medical assistance program, the state may pay 100 percent of the administrative costs for the pilot or demonstration project after June 30, 1990.

Subd. 2c. **Obligation of local agency to investigate eligibility for medical assistance.** (a) When the commissioner receives information that indicates that a MinnesotaCare program enrollee may be eligible for medical assistance, the commissioner may notify the appropriate local agency of that fact. The local agency must investigate eligibility for medical assistance and take appropriate action and notify the commissioner of that action within 90 days from the date notice is issued. If the person is eligible for medical assistance, the local agency must find eligibility retroactively to the date on which the person met all eligibility requirements.

(b) When a prepaid health plan under a contract with the state to provide medical assistance services notifies the commissioner that an infant has been or will be born to an enrollee under the contract, the commissioner may notify the appropriate local agency of that fact. The local agency must investigate eligibility for medical assistance for the infant, take appropriate action, and notify the commissioner of that action within 90 days from the date notice is issued. If the infant would have been eligible on the date of birth, the local agency must establish eligibility retroactively to that month.

(c) For MinnesotaCare program enrollees, if the local agency fails to comply with paragraph (a), the local agency is responsible for the entire cost of MinnesotaCare program services provided from the date the commissioner issues the notice until the date the local agency takes appropriate action on the case and notifies the commissioner of the action. For infants, if the local agency fails to comply with paragraph (b), the commissioner may determine eligibility for medical assistance for the infant for a period of two months, and the local agency shall be responsible for the entire cost of medical assistance services provided for that infant, in addition to a fee of \$100 for processing the case. The commissioner shall deduct any obligation incurred under this paragraph from the amount due to the local agency under subdivision 1.
