256B.693 STATE-OPERATED SERVICES; MANAGED CARE.

Subdivision 1. **Proposals for managed care; role of state-operated services.** Any proposal integrating state-operated services with managed care systems for persons with disabilities must identify the specific role to be assumed by state-operated services and the funding arrangement in which state-operated services shall effectively operate within the managed care initiative. The commissioner of human services shall not approve or implement an initiative that consolidates funding appropriated for state-operated services with funding for managed care initiatives for persons with disabilities.
