(e) An applicant whose application is not denied under this subdivision is a qualified applicant.

Subd. 4. Lottery. (a) If the number of qualified applicants who are verified social equity applicants seeking a type of license exceeds the number of licenses of that type that are made available for social equity applicants, the office must first conduct a lottery consisting of verified social equity applicants to select qualified applicants for preliminary license approval. If a social equity applicant is not selected in a lottery conducted under this paragraph, the office must include the social equity applicant in the pool of applicants for licenses of that type that are made available to all applicants.

(b) If the number of qualified applicants seeking a type of license exceeds the number of licenses of that type that are made available to all applicants, the office must conduct a lottery to select applicants for preliminary license approval.

(c) A lottery conducted under this section must be impartial, random, and in a format determined by the office.

(d) Following the completion of any lottery conducted pursuant to paragraphs (a) or (b), the office must notify each applicant entered in the lottery that the applicant was either selected or not selected in the lottery.

Subd. 5. Background check; preliminary license approval. (a) Before granting preliminary license approval, the office may conduct a background check of qualified applicants consistent with section 342.15.

(b) The office must issue preliminary license approval to a qualified applicant if the applicant is not disqualified under section 342.15, and:

(1) there are a sufficient number of licenses of the type the applicant is seeking for all qualified applicants to receive preliminary license approval; or

(2) the qualified applicant is selected in the lottery conducted under subdivision 4.

(c) The office must notify an applicant of the results of any background check and whether the office has granted preliminary license approval. If the office does not grant preliminary license approval, the notice must state the specific reasons for the office's decision.

Subd. 6. Completed application; final authorization; issuance of license. (a) Within 18 months of receiving notice of preliminary license approval, an applicant must provide:

(1) the address and legal property description of the location where the business will operate;

(2) the name of the local unit of government where the business will be located; and

(3) if applicable, an updated description of the location where the business will operate, an updated security plan, and any other additional information required by the office.

(b) Upon receipt of the information required under paragraph (a) from an applicant that has received preliminary license approval, the office must:

(1) forward a copy of the application to the local unit of government in which the business operates or intends to operate with a form for certification as to whether a proposed cannabis business complies with local zoning ordinances and, if applicable, whether the proposed business complies with the state fire code and building code;

(2) schedule a site inspection; and

(3) require the applicant to pay the applicable license fee.

(c) The office may deny final authorization if:

(1) an applicant fails to submit any required information;

(2) the applicant submits a materially false statement about the applicant or fails to provide any required information;

(3) the office confirms that the cannabis business for which the office granted a preliminary license approval does not meet local zoning and land use laws;

(4) the applicant fails to pay the applicable license fee; or

(5) the office determines that the applicant is disqualified from holding the license or would operate in violation of the provisions of this chapter.

(d) Within 90 days of receiving the information required under paragraph (a) and the results of any required background check, the office shall grant final authorization and issue the appropriate license or send the applicant a notice of rejection setting forth specific reasons that the office did not approve the application.

Subd. 7. Local units of government. (a) Except as provided in paragraph (d), the office must issue a license to a city or county seeking to establish, own, or operate a single municipal cannabis store authorized under section 342.32, subdivision 5, if the city or county:

(1) submits all information required by the office;

(2) meets the minimum requirements under section 342.18, subdivision 3; and

(3) pays the applicable application and license fee.

(b) A license issued to a city or county must not be counted against the maximum number of licenses made available in a licensing period.

(c) A municipal cannabis store established, owned, or operated by a city or county must not be included in any limitation on the number of licensed cannabis retailers, cannabis mezzobusinesses with a retail operations endorsement, or cannabis microbusinesses with a retail operations endorsement that a local unit of government imposes or adopts pursuant to section 342.13, paragraph (h) or (i).

(d) The office may refuse to issue a license to a city or county if the office determines that the issuance of the license would be inconsistent with the goals in subdivision 1a.

(e) Nothing in this subdivision prohibits a city or county from applying for a cannabis retail license subject to the requirements and procedure applicable to all other applicants.

Subd. 8. Reconsideration. If the office denies an application or denies final authorization and does not issue a license after granting preliminary license approval, the applicant may seek reconsideration from the office. A decision by the office on a request for reconsideration is final.

Subd. 9. Retention. (a) If the office holds a lottery as provided in subdivision 4, the office must retain the applications of any applicant not selected in the lottery for one year. The office must consider a retained application during any licensing periods that begin within the year and, except as otherwise provided in this

subdivision, the office must treat a retained application as if the application were submitted during the licensing period.

(b) At the beginning of a subsequent licensing period, the applicant may amend an application or provide additional information to the office. The office may request additional information from any applicant whose application is retained to determine if the applicant meets the requirements for a subsequent licensing period. If the applicant does not provide the requested information to the office within 14 calendar days of the office's request, the office may deny the application.

(c) The office must not charge an additional application fee to an applicant whose application was retained by the office.

(d) An applicant may withdraw a retained application at any time. If the applicant withdraws a retained application, the applicant may submit a new application during a licensing period. An applicant who submits a new application must pay the applicable application fee.

(e) The office may disqualify an application from retention if the office could deny the application under subdivision 3, paragraph (a).

Subd. 10. Revocation or expiration of preliminary approval. (a) A preliminary license approval expires after 18 months unless the office revokes the preliminary license approval or grants an extension. The office may grant a onetime extension of up to six months if an applicant has made good faith efforts to convert a preliminary license approval into a license. The office must not issue a license to an applicant whose preliminary license approval has expired.

(b) If the office determines that an applicant is not eligible for a license, the office may revoke a preliminary license approval.

(c) The office must notify an applicant if the office revokes the applicant's preliminary license approval or if the applicant's preliminary license approval expires.

Upon receipt of this information, the office must submit the completed criminal history records check consent form, full set of classifiable fingerprints, and required fees to the Bureau of Criminal Apprehension.

(b) After receiving this information, the bureau must conduct a state criminal history records check of an individual identified in paragraph (a). The bureau may exchange an individual's fingerprints with the Federal Bureau of Investigation to obtain the national criminal history record information of the individual. The bureau must return the results of the state and federal criminal history records checks to the office to determine if the individual is disqualified under rules adopted pursuant to this section.

(c) The office may, by rule, establish exceptions to the requirement under paragraphs (a) and (b) for members of a cooperative who hold less than a five percent ownership interest in the cooperative.

Subd. 1a. **Transmission of fees.** A cannabis business background check account is established as a separate account in the special revenue fund. All fees received by the office under subdivision 1 must be deposited in the account and are appropriated to the office to pay for the criminal records checks conducted by the Bureau of Criminal Apprehension and Federal Bureau of Investigation.

Subd. 2. **Criminal offenses; disqualifications.** (a) The office may by rule determine whether any felony convictions, including but not limited to convictions for noncannabis controlled substance crimes in the first or second degree, human trafficking, labor trafficking, fraud, or financial crimes, disqualify an individual from holding or receiving a cannabis business license issued under this chapter or working for a cannabis business, and the length of any such disqualification. In adopting rules pursuant to this subdivision, the office shall not disqualify an individual for a violation of section 152.025.

(b) The office must not issue a cannabis business license to any person or business who was convicted of illegally selling cannabis after August 1, 2023, unless five years have passed since the date of conviction.

(c) The office must not issue a cannabis business license to any person or business who violated this chapter after August 1, 2023, unless five years have passed since the date of violation. The office may set aside the violation if the office finds that the violation occurred as a result of a mistake made in good faith and the violation did not involve gross negligence, an illegal sale of cannabis, or cause harm to the public. The office must not issue a license to any person or business who the office has assessed a fine to under section 342.09, subdivision 6.

Subd. 3. **Risk of harm; set aside.** The office may set aside a disqualification under subdivision 2 if the office finds that the person has submitted sufficient information to demonstrate that the person does not pose a risk of harm to any person served by the applicant, license holder, or other entities as provided in this chapter.

Subd. 4. **Exception.** The background check requirements and disqualifications under this section do not apply to an applicant for a hemp business license or to hemp workers.

Subd. 5. **Civil and regulatory offenses; disqualifications.** The office may determine whether any civil or regulatory violations, as determined by another state agency, local unit of government, or any other jurisdiction, disqualify an individual from holding or receiving a cannabis business license issued under this chapter or disqualify an individual from working for a cannabis business, and the length of the disqualification. Upon the office's request, a state agency, as defined in section 13.02, subdivision 17, except for the Department of Revenue, may release civil investigative data, including data classified as protected nonpublic or confidential under section 13.39, subdivision 2, if the request is related to a specific applicant and the data is necessary to make a determination under this section.

The bureau may exchange an individual's fingerprints with the Federal Bureau of Investigation. The Bureau of Criminal Apprehension must determine whether the individual is qualified to be employed

(3) question privately any employer, owner, operator, agent, or employee of a cannabis business or hemp business.

(b) An employer, owner, operator, agent, or employee must not refuse the office entry or otherwise deter or prohibit the office from taking action under paragraph (a).

Subd. 2. Powers of office. (a) In making inspections and investigations under this chapter, the office shall have the power to administer oaths, certify as to official acts, take and cause to be taken depositions of witnesses, issue subpoenas, and compel the attendance of witnesses and production of papers, books, documents, records, and testimony. In case of failure of any person to comply with any subpoena lawfully issued, or on the refusal of any witness to produce evidence or to testify to any matter regarding which the person may be lawfully interrogated, the district court shall, upon application of the office, compel obedience proceedings for contempt, as in the case of disobedience of the requirements of a subpoena issued by the court or a refusal to testify therein.

(b) If the office finds probable cause to believe that any cannabis plant, cannabis flower, cannabis product, artificially derived cannabinoid, lower-potency hemp edible, or hemp-derived consumer product is being distributed in violation of this chapter or rules adopted under this chapter, the office shall affix to the item a tag, withdrawal from distribution order, or other appropriate marking providing notice that the cannabis plant, cannabis flower, cannabis product, artificially derived cannabinoid, lower-potency hemp edible, or hemp-derived consumer product is, or is suspected of being, distributed in violation of this chapter, and has been detained or embargoed, and warning all persons not to remove or dispose of the item by sale or otherwise until permission for removal or disposal is given by the office or the court. It is unlawful for a person to remove or dispose of detained or embargoed cannabis plant, cannabis flower, cannabis product, artificially derived cannabinoid, lower-potency hemp edible, or hemp-derived consumer product by sale or otherwise without the office's or a court's permission and each transaction is a separate violation of this section.

(c) If any cannabis plant, cannabis flower, cannabis product, artificially derived cannabinoid, lower-potency hemp edible, or hemp-derived consumer product has been found by the office to be in violation of this chapter, the office shall petition the district court in the county in which the item is detained or embargoed for an order and decree for the condemnation of the item. The office shall release the cannabis plant, cannabis flower, cannabis product, artificially derived cannabinoid, lower-potency hemp edible, or hemp-derived consumer product when this chapter and rules adopted under this chapter have been complied with or the item is found not to be in violation of this chapter or rules adopted under this chapter.

(2) if the violation can be corrected by proper labeling or processing of the cannabis plant, cannabis flower, cannabis product, artificially derived cannabinoid, lower-potency hemp edible, or hemp-derived consumer product, the court, after entry of the decree and after costs, fees, and expenses have been paid,

and a good and sufficient bond conditioned that the cannabis plant, cannabis flower, cannabis product, artificially derived cannabinoid, lower-potency hemp edible, or hemp-derived consumer product must be properly labeled or processed has been executed, may by order direct that the cannabis plant, cannabis flower, cannabis product, artificially derived cannabinoid, lower-potency hemp edible, or hemp-derived consumer product be delivered to the claimant for proper labeling or processing under the supervision of the office. The office's supervision expenses must be paid by the claimant. The cannabis plant, cannabis flower, cannabis product, artificially derived cannabinoid, lower-potency hemp edible, or hemp-derived consumer product must be returned to the claimant and the bond must be discharged on representation to the court by the office that the cannabis plant, cannabis flower, cannabis product, artificially derived cannabinoid, lower-potency hemp edible, or hemp-derived consumer product is no longer in violation and that the office's supervision expenses have been paid.

(e) If the office finds in any room, building, piece of equipment, vehicle of transportation, or other structure any cannabis plant, cannabis flower, cannabis product, artificially derived cannabinoid, lower-potency hemp edible, or hemp-derived consumer product that is unsound or contains any filthy, decomposed, or putrid substance, or that may be poisonous or deleterious to health or otherwise unsafe, the office shall condemn or destroy the item or in any other manner render the item as unsalable, and no one has any cause of action against the office on account of the office's action.

342.54 DUTIES OF OFFICE OF CANNABIS MANAGEMENT; REGISTRY PROGRAM.

Subdivision 1. Duties related to health care practitioners. The office must:

- (1) provide notice of the registry program to health care practitioners in the state;
- (2) allow health care practitioners to participate in the registry program if they request to participate and meet the program's requirements;
- (3) provide explanatory information and assistance to health care practitioners to understand the nature of the therapeutic use of medical cannabis flower and medical cannabinoid products within program requirements;
- (4) make available to participating health care practitioners a certification form in which a health care practitioner certifies that a patient has a qualifying medical condition; and

(5) supervise the participation of health care practitioners in the registry reporting system in which health care practitioners report patient treatment and health records information to the office in a manner that ensures stringent security and record keeping requirements and that prevents the unauthorized release of private data on individuals as defined in section 13.02.

Subd. 2. Duties related to the registry program. The office must:

- (1) administer the registry program according to section 342.52;
- (2) provide information to patients enrolled in the registry program on the existence of federally approved clinical trials for the treatment of the patient's qualifying medical condition with medical cannabis flower or medical cannabinoid products as an alternative to enrollment in the registry program;
- (3) maintain safety criteria with which patients must comply as a condition of participation in the registry program to prevent patients from undertaking any task under the influence of medical cannabis flower or medical cannabinoid products that would constitute negligence or professional malpractice;
- (4) review and publicly report on existing medical and scientific literature regarding the range of recommended dosages for each qualifying medical condition, the range of chemical compositions of medical cannabis flower and medical cannabinoid products that will likely be medically beneficial for each qualifying medical condition, and any risks of noncannabis drug interactions. This information must be updated by December 1 every three years. The office may consult with an independent laboratory under contract with the office or other experts in reporting and updating this information; and
- (5) annually consult with cannabis businesses about medical cannabis that the businesses cultivate, manufacture, and offer for sale and post on the office website a list of the medical cannabis flower and medical cannabinoid products offered for sale by each cannabis business with a medical cannabis retailer endorsement.

Subd. 3. Research. (a) The office must conduct or contract with a third party to conduct research and studies using data from health records submitted to the registry program under section 342.55, subdivision 2, and data submitted to the registry program under section 342.52, subdivisions 2 and 3. If the office contracts with a third party for research and studies, the third party must provide the office with access to all research and study results. The office must submit reports on intermediate or final research results to the legislature and major scientific journals. All data used by the office or a third party under this subdivision must be used or reported in an aggregated nonidentifiable form as part of a scientific peer-reviewed publication of research or in the creation of summary data, as defined in section 13.02, subdivision 19.

(b) The office may submit medical research based on the data collected under sections 342.55, subdivision 2, and data collected through the statewide monitoring system to any federal agency with regulatory or enforcement authority over medical cannabis flower and medical cannabinoid products to demonstrate the effectiveness of medical cannabis flower or medical cannabinoid products for treating or alleviating the symptoms of a qualifying medical condition.

342.55 DUTIES OF HEALTH CARE PRACTITIONERS; REGISTRY PROGRAM.

Subdivision 1. Health care practitioner duties before patient enrollment. Before a patient's enrollment in the registry program, a health care practitioner must:

(1) determine, in the health care practitioner's medical judgment, whether a patient has a qualifying medical condition and, if so determined, provide the patient with a certification of that diagnosis;

(2) advise patients, registered designated caregivers, and parents, legal guardians, and spouses acting as caregivers of any nonprofit patient support groups or organizations;

(3) provide to patients explanatory information from the office, including information about the experimental nature of the therapeutic use of medical cannabis flower and medical cannabinoid products; the possible risks, benefits, and side effects of the proposed treatment; and the application and other materials from the office;

(4) provide to patients a Tennessean warning as required under section 13.04, subdivision 2; and

(5) agree to continue treatment of the patient's qualifying medical condition and to report findings to the office.

Subd. 2. Duties upon patient's enrollment in registry program. Upon receiving notification from the office of the patient's enrollment in the registry program, a health care practitioner must:

(1) participate in the patient registry reporting system under the guidance and supervision of the office;

(2) report to the office patient health records throughout the patient's ongoing treatment in a manner determined by the office and in accordance with subdivision 4;

(3) determine, every three years, if the patient continues to have a qualifying medical condition and, if so, issue the patient a new certification of that diagnosis. The patient assessment conducted under this clause may be conducted via telehealth, as defined in section 62A.673, subdivision 2; and

(4) otherwise comply with requirements established by the office.

Subd. 3. Participation not required. Nothing in this section requires a health care practitioner to participate in the registry program.

Subd. 4. Data. Data on patients collected by a health care practitioner and reported to the registry program, including data on patients who are veterans who receive care from the United States Department of Veterans Affairs, are health records under section 144.291 and are private data on individuals under section 13.02 but may be used or reported in an aggregated nonidentifiable form as part of a scientific peer-reviewed publication of research conducted under section 342.54 or in the creation of summary data, as defined in section 13.02, subdivision 19.

Subd. 5. Exception. The requirements of this section do not apply to a patient who is a veteran who receives care from the United States Department of Veterans Affairs or a health care practitioner employed by the United States Department of Veterans Affairs. Such a patient must meet the certification requirements developed pursuant to section 342.52, subdivision 3, before the patient's enrollment in the registry program.

342.56 LIMITATIONS.

Subdivision 1. Limitations on consumption; locations of consumption. (a) Nothing in sections 342.51 to 342.60 permits any person to engage in, and does not prevent the imposition of any civil, criminal, or other penalties for:

(1) undertaking a task under the influence of medical cannabis flower or medical cannabinoid products that would constitute negligence or professional malpractice;

(2) possessing or consuming medical cannabis flower or medical cannabinoid products:

(i) on a school bus or van;

(ii) in a correctional facility;

(iii) in a state-operated treatment program, including the Minnesota sex offender program; or

(iv) on the grounds of a child care facility or family or group family day care program;

(3) vaporizing or smoking medical cannabis:

(i) on any form of public transportation;

(ii) where the vapor would be inhaled by a nonpatient minor or where the smoke would be inhaled by a minor; or

(iii) in any public place, including any indoor or outdoor area used by or open to the general public or a place of employment, as defined in section 144.413, subdivision 1b; and

(4) operating, navigating, or being in actual physical control of a motor vehicle, aircraft, train, or motorboat or working on transportation property, equipment, or facilities while under the influence of medical cannabis flower or a medical cannabinoid product.

(b) Except for the use of medical cannabis flower or medical cannabinoid products, the vaporizing or smoking of cannabis flower, cannabis products, artificially derived cannabinoids, or hemp-derived consumer products is prohibited in a multifamily housing building, including balconies and patios appurtenant thereto. A violation of this paragraph is punishable through a civil administrative fine in an amount of \$250.

Subd. 2. Health care facilities. (a) Health care facilities licensed under chapter 144A; hospice providers licensed under chapter 144A; boarding care homes or supervised living facilities licensed under section 144.50; assisted living facilities under chapter 144G; facilities owned, controlled, managed, or under common control with hospitals licensed under chapter 144; and other health care facilities licensed by the commissioner of health or the commissioner of human services may adopt reasonable restrictions on the use of cannabis flower, cannabis products, lower-potency hemp edibles, hemp-derived consumer products, or hemp-derived topical products by a patient enrolled in the registry program who resides at or is actively receiving treatment or care at the facility. The restrictions may include a provision that the facility must not store or maintain a patient's supply of cannabis flower or cannabis products on behalf of the patient; that a patient store the patient's supply of cannabis flower, cannabis products, lower-potency hemp edibles, hemp-derived consumer products, or hemp-derived topical products in a locked container accessible only to the patient, the patient's designated caregiver, or the patient's parent, legal guardian, or spouse; that the facility is not responsible for providing cannabis or hemp for patients; and that cannabis flower, cannabis products, lower-potency hemp edibles, hemp-derived consumer products, or hemp-derived topical products are used only in a location specified by the facility or provider. Nothing in this subdivision requires facilities and providers listed in this subdivision to adopt such restrictions.

(b) No facility or provider listed in this subdivision may unreasonably limit a patient's access to or use of cannabis flower, cannabis products, lower-potency hemp edibles, hemp-derived consumer products, or hemp-derived topical products to the extent that such use is authorized under sections 342.51 to 342.59, or, in the case of a visiting patient, authorized to use cannabis under the laws of their state of residence. No

facility or provider listed in this subdivision may prohibit a patient access to or use of cannabis flower or cannabis products due solely to the fact that cannabis is a controlled substance pursuant to the federal Uniform Controlled Substances Act. If a federal regulatory agency, the United States Department of Justice, or the federal Centers for Medicare and Medicaid Services takes one of the following actions, a facility or provider may suspend compliance with this paragraph until the regulatory agency, the United States Department of Justice, or the federal Centers for Medicare and Medicaid Services notifies the facility or provider that it may resume permitting the use of cannabis flower, cannabis products, lower-potency hemp edibles, hemp-derived consumer products, or hemp-derived topical products within the facility or in the provider's service setting:

(1) a federal regulatory agency or the United States Department of Justice initiates enforcement action against a facility or provider related to the facility's compliance with the medical cannabis program; or

(2) a federal regulatory agency, the United States Department of Justice, or the federal Centers for Medicare and Medicaid Services issues a rule or otherwise provides notification to the facility or provider that expressly prohibits the use of medical cannabis in health care facilities or otherwise prohibits compliance with the medical cannabis program.

(c) An employee or agent of a facility or provider listed in this subdivision or a person licensed under chapter 144E is not violating this chapter or chapter 152 for the possession of cannabis flower or cannabis products while carrying out employment duties, including providing or supervising care to a patient enrolled in the registry program, or distribution of cannabis flower or cannabis products to a patient enrolled in the registry program who resides at or is actively receiving treatment or care at the facility or from the provider with which the employee or agent is affiliated.

(d) Nothing in this subdivision is intended to require a facility covered by this subdivision to permit violations of sections 144.411 to 144.417.

(e) This subdivision does not apply to sober homes under section 254B.181, except that a resident of a sober home who is a patient enrolled in the registry program must have access to medical cannabis flower and medical cannabinoid products subject to the restrictions and requirements in paragraphs (a) and (b).

Subd. 3. Child care facilities. A proprietor of a family or group family day care program must disclose to parents or guardians of children cared for on the premises of the family or group family day care program, if the proprietor permits the smoking or use of medical cannabis on the premises, outside of its hours of operation. Disclosure must include posting on the premises a conspicuous written notice and orally informing parents or guardians.

342.57 PROTECTIONS FOR REGISTRY PROGRAM PARTICIPANTS.

Subdivision 1. Presumption. (a) There is a presumption that an individual enrolled in the registry program or a Tribal medical cannabis program patient is engaged in the authorized use or possession of medical cannabis flower and medical cannabinoid products.

(b) This presumption may be rebutted by evidence that:

(1) the use or possession of medical cannabis flower or medical cannabinoid products by a patient or other person enrolled in the registry program was not for the purpose of assisting with, treating, or alleviating the patient's qualifying medical condition or symptoms associated with the patient's qualifying medical condition; or

(2) a Tribal medical cannabis program patient's use of medical cannabis was not for a purpose authorized by the Tribal medical cannabis program.

Subd. 2. **Criminal and civil protections.** (a) Subject to section 342.56, the following are not violations of this chapter or chapter 152:

(1) use or possession of medical cannabis flower, medical cannabinoid products, or medical cannabis paraphernalia by a patient enrolled in the registry program, a visiting patient, or a Tribal medical cannabis program patient to whom medical cannabis flower or medical cannabinoid products are distributed under section 342.51, subdivision 5;

(2) possession of medical cannabis flower, medical cannabinoid products, or medical cannabis paraphernalia by a registered designated caregiver or a parent, legal guardian, or spouse of a patient enrolled in the registry program; or

(3) possession of medical cannabis flower, medical cannabinoid products, or medical cannabis paraphernalia by any person while carrying out duties required under sections 342.51 to 342.60.

(b) The Office of Cannabis Management, members of the Cannabis Advisory Council, Office of Cannabis Management employees, agents or contractors of the Office of Cannabis Management, members of a Tribal medical cannabis board, a Tribal medical cannabis board's staff, a Tribal medical cannabis board's agents or contractors, and health care practitioners participating in the registry program are not subject to any civil penalties or disciplinary action by the Board of Medical Practice, the Board of Nursing, or any business, occupational, or professional licensing board or entity solely for participating in the registry program or a Tribal medical cannabis program either in a professional capacity or as a patient. A pharmacist licensed under chapter 151 is not subject to any civil penalties or disciplinary action by the Board of Pharmacy when acting in accordance with sections 342.51 to 342.60 either in a professional capacity or as a patient. Nothing in this section prohibits a professional licensing board from taking action in response to a violation of law.

(c) Notwithstanding any law to the contrary, a Cannabis Advisory Council member, the governor, or an employee of a state agency must not be held civilly or criminally liable for any injury, loss of property, personal injury, or death caused by any act or omission while acting within the scope of office or employment under sections 342.51 to 342.60.

(d) Federal, state, and local law enforcement authorities are prohibited from accessing the registry except when acting pursuant to a valid search warrant. Notwithstanding section 13.09, a violation of this paragraph is a gross misdemeanor.

(e) Notwithstanding any law to the contrary, the office and employees of the office must not release data or information about an individual contained in any report or document or in the registry and must not release data or information obtained about a patient enrolled in the registry program, except as provided in sections 342.51 to 342.60. Notwithstanding section 13.09, a violation of this paragraph is a gross misdemeanor.

(f) No information contained in a report or document, contained in the registry, or obtained from a patient under sections 342.51 to 342.60 or from a Tribal medical cannabis program patient may be admitted as evidence in a criminal proceeding, unless:

(1) the information is independently obtained; or

(2) admission of the information is sought in a criminal proceeding involving a criminal violation of sections 342.51 to 342.60.

(g) Possession of a registry verification or an application for enrollment in the registry program and possession of a registry verification or its equivalent issued by a Tribal medical cannabis program or application for enrollment in a Tribal medical cannabis program by a person entitled to possess the verification or application:

(1) does not constitute probable cause or reasonable suspicion;

(2) must not be used to support a search of the person or property of the person with a registry verification or application to enroll in the registry program; and

(3) must not subject the person or the property of the person to inspection by any government agency.

(h) A patient enrolled in the registry program or a Tribal medical cannabis program must not be subject to any penalty or disciplinary action by an occupational or a professional licensing board solely because:

(1) the patient is enrolled in the registry program or in a Tribal medical cannabis program; or

(2) the patient has a positive test for cannabis components or metabolites.

Subd. 3. School enrollment; rental property. (a) No school may refuse to enroll or otherwise penalize a patient or person enrolled in the registry program or a Tribal medical cannabis program as a pupil solely because the patient or person is enrolled in the registry program or a Tribal medical cannabis program, unless failing to do so would violate federal law or regulations or cause the school to lose a monetary or licensing-related benefit under federal law or regulations.

(b) No landlord may refuse to lease to a patient or person enrolled in the registry program or a Tribal medical cannabis program or otherwise penalize a patient or person enrolled in the registry program or a Tribal medical cannabis program solely because the patient or person is enrolled in the registry program or a Tribal medical cannabis program, unless failing to do so would violate federal law or regulations or cause the landlord to lose a monetary or licensing-related benefit under federal law or regulations.

(c) A school must not refuse to enroll a patient as a pupil solely because cannabis is a controlled substance according to the Uniform Controlled Substances Act, United States Code, title 21, section 812.

(d) A school must not penalize a pupil who is a patient solely because cannabis is a controlled substance according to the Uniform Controlled Substances Act, United States Code, title 21, section 812.

(e) A landlord must not refuse to lease a property to a patient solely because cannabis is a controlled substance according to the Uniform Controlled Substances Act, United States Code, title 21, section 812.

(f) A landlord must not otherwise penalize a patient solely because cannabis is a controlled substance according to the Uniform Controlled Substances Act, United States Code, title 21, section 812.

Subd. 4. Medical care. For purposes of medical care, including organ transplants, a patient's use of medical cannabis flower or medical cannabinoid products according to sections 342.51 to 342.60, or a Tribal medical cannabis program patient's use of medical cannabis as authorized by a Tribal medical cannabis program, is considered the equivalent of the authorized use of a medication used at the discretion of a health care practitioner and does not disqualify a patient from needed medical care.

Subd. 5. Employment. (a) Unless a failure to do so would violate federal or state law or regulations or cause an employer to lose a monetary or licensing-related benefit under federal law or regulations, an employer may not discriminate against a person in hiring, termination, or any term or condition of employment, or otherwise penalize a person, if the discrimination is based on:

(1) the person's status as an individual enrolled in the registry program;

(2) the person's status as a Tribal medical cannabis program patient; or

(3) a patient's positive drug test for cannabis components or metabolites, unless the patient used, possessed, sold, transported, or was impaired by medical cannabis flower or a medical cannabinoid product on work premises, during working hours, or while operating an employer's machinery, vehicle, or equipment.

(b) An employee who is a patient in the registry program or a Tribal medical cannabis program and whose employer requires the employee to undergo drug testing according to section 181.953 may present the employee's registry verification or verification of enrollment in a Tribal medical cannabis program as part of the employee's explanation under section 181.953, subdivision 6.

Subd. 5a. **Notice.** An employer, a school, or a landlord must provide written notice to a patient at least 14 days before the employer, school, or landlord takes an action against the patient that is prohibited under subdivision 3 or 5. The written notice must cite the specific federal law or regulation that the employer, school, or landlord believes would be violated if the employer, school, or landlord fails to take action. The notice must specify what monetary or licensing-related benefit under federal law or regulations that the employer, school, or landlord would lose if the employer, school, or landlord fails to take action.

Subd. 6. **Custody; visitation; parenting time.** An individual must not be denied custody of a minor child or visitation rights or parenting time with a minor child based solely on the individual's status as an individual enrolled in the registry program or on the individual's status as a Tribal medical cannabis program patient. There must be no presumption of neglect or child endangerment for conduct allowed under sections 342.51 to 342.60 or under a Tribal medical cannabis program, unless the individual's behavior creates an unreasonable danger to the safety of the minor as established by clear and convincing evidence.

Subd. 6a. **Retaliation prohibited.** A school, a landlord, a health care facility, or an employer must not retaliate against a patient for asserting the patient's rights or seeking remedies under this section or section 152.32.

Subd. 7. **Action for damages; injunctive relief.** In addition to any other remedy provided by law, an individual enrolled in the registry program or a Tribal medical cannabis program may bring an action for damages against any person who violates subdivision 3, 4, or 5. A person who violates subdivision 3, 4, or 5 is liable to an individual enrolled in the registry program or a Tribal medical cannabis program injured by the violation for the greater of the person's actual damages or a civil penalty of \$1,000 and reasonable attorney fees. A patient may bring an action for injunctive relief to prevent or end a violation of subdivisions 3 to 6a.

Subd. 8. **Sanctions restricted for those on parole, supervised release, or conditional release.** (a) This subdivision applies to an individual placed on parole, supervised release, or conditional release.

(b) The commissioner of corrections may not:

(1) prohibit an individual from participating in the registry program or a Tribal medical cannabis program as a condition of release; or

(2) revoke an individual's parole, supervised release, or conditional release or otherwise sanction an individual solely:

(i) for participating in the registry program or a Tribal medical cannabis program; or

(ii) for a positive drug test for cannabis components or metabolites.

Data specified in subdivision 1 and maintained by the Office of Cannabis Management or Division of Medical Cannabis must not be used for any purpose not specified in sections 342.51 to 342.60 and must not be combined or linked in any manner with any other list, dataset, or database. Data specified in subdivision 1 must not be shared with any federal agency, federal department, or federal entity unless specifically ordered to do so by a state or federal court.

342.60 APPLIED RESEARCH.

The office may conduct, or award grants to health care providers or research organizations to conduct, applied research on the safety and efficacy of using medical cannabis flower or medical cannabinoid products to treat a specific health condition. A health care provider or research organization receiving a grant under this section must provide the office with access to all data collected in applied research funded under this section. The office may use data from applied research conducted or funded under this section as evidence to approve additional qualifying medical conditions or additional allowable forms of medical cannabis.

342.61 TESTING.

Subdivision 1. **Testing required.** (a) Cannabis businesses and hemp businesses shall not sell or offer for sale cannabis flower, cannabis products, artificially derived cannabinoids, lower-potency hemp edibles, or hemp-derived consumer products to another cannabis business or hemp business, or to a customer or patient, or otherwise transfer cannabis flower, cannabis products, artificially derived cannabinoids, lower-potency hemp edibles, or hemp-derived consumer products to another cannabis business or hemp business, unless:

(1) a representative sample of the batch of cannabis flower, cannabis products, artificially derived cannabinoids, lower-potency hemp edibles, or hemp-derived consumer products has been tested according to this section and rules adopted under this chapter;

(2) the testing was completed by a cannabis testing facility licensed under this chapter or meeting the requirements of paragraph (b); and

(3) the tested sample of cannabis flower, cannabis products, artificially derived cannabinoids, lower-potency hemp edibles, or hemp-derived consumer products was found to meet testing standards established by the office.

(b) Testing of lower-potency hemp edibles and hemp-derived consumer products that do not contain intoxicating cannabinoids may be performed by any laboratory that has been accredited pursuant to standard ISO/IEC 17025 of the International Organization for Standardization with specific accreditation for cannabis testing until January 1, 2026.

Subd. 2. Procedures and standards established by office. (a) The office shall by rule establish procedures governing the sampling, handling, testing, storage, and transportation of cannabis flower, cannabis products, artificially derived cannabinoids, lower-potency hemp edibles, or hemp-derived consumer products tested under this section; the contaminants for which cannabis flower, cannabis products, artificially derived cannabinoids, lower-potency hemp edibles, or hemp-derived consumer products must be tested; standards for potency and homogeneity testing; and procedures applicable to cannabis businesses, hemp businesses, and cannabis testing facilities regarding cannabis flower, cannabis products, artificially derived cannabinoids, lower-potency hemp edibles, or hemp-derived consumer products that fail to meet the standards for allowable levels of contaminants established by the office, that fail to meet the potency limits in this chapter, or that do not conform with the content of the cannabinoid profile listed on the label.

(b) All testing required under this section must be performed in a manner that is consistent with general requirements for testing and calibration activities.

Subd. 3. Standards established by Office of Cannabis Management. The office shall by rule establish standards for allowable levels of contaminants in cannabis flower, cannabis products, artificially derived cannabinoids, lower-potency hemp edibles, or hemp-derived consumer products, and growing media. Contaminants for which the office must establish allowable levels must include but are not limited to residual solvents, foreign material, microbiological contaminants, heavy metals, pesticide residue, and mycotoxins.

Subd. 4. Testing of samples; disclosures. (a) On a schedule determined by the office, every cannabis microbusiness, cannabis mezzobusiness, cannabis cultivator, cannabis manufacturer, cannabis wholesaler with an endorsement to import products, lower-potency hemp edible manufacturer, or medical cannabis combination business shall make each batch of cannabis flower, cannabis products, artificially derived cannabinoids, lower-potency hemp edibles, or hemp-derived consumer products grown, manufactured, or imported by the cannabis business or hemp business available to a cannabis testing facility.

(b) A cannabis microbusiness, cannabis mezzobusiness, cannabis cultivator, cannabis manufacturer, cannabis wholesaler with an endorsement to import products, lower-potency hemp edible manufacturer, or medical cannabis combination business must disclose all known information regarding pesticides, fertilizers, solvents, or other foreign materials, including but not limited to catalysts used in creating artificially derived cannabinoids, applied or added to the batch of cannabis flower, cannabis products, artificially derived cannabinoids, lower-potency hemp edibles, or hemp-derived consumer products subject to testing. Disclosure must be made to the cannabis testing facility and must include information about all applications by any person, whether intentional or accidental.

(c) A cannabis business shall select one or more representative samples from each batch, test the samples for the presence of contaminants, and test the samples for potency and homogeneity and to allow the cannabis flower, cannabis product, artificially derived cannabinoid, lower-potency hemp edible, or hemp-derived consumer product to be accurately labeled with its cannabinoid profile. Testing for contaminants must include testing for residual solvents, foreign material, microbiological contaminants, heavy metals, pesticide residue, mycotoxins, and any items identified pursuant to paragraph (b), and may include testing for other contaminants. A cannabis testing facility must destroy or return to the cannabis business or hemp business any part of the sample that remains after testing.

Subd. 5. **Test results.** (a) If a sample meets the applicable testing standards, a cannabis testing facility shall issue a certification to a cannabis microbusiness, cannabis mezzobusiness, cannabis cultivator, cannabis manufacturer, cannabis wholesaler with an endorsement to import products, lower-potency hemp edible manufacturer, or medical cannabis combination business and the cannabis business or hemp business may then sell or transfer the batch of cannabis flower, cannabis products, artificially derived cannabinoids, lower-potency hemp edibles, or hemp-derived consumer products from which the sample was taken to another cannabis business or hemp business, or offer the cannabis flower, cannabis products, lower-potency hemp edibles, or hemp-derived consumer products for sale to customers or patients. If a sample does not meet the applicable testing standards or if the testing facility is unable to test for a substance identified pursuant to subdivision 4, paragraph (b), the batch from which the sample was taken shall be subject to procedures established by the office for such batches, including destruction, remediation, or retesting.

(b) A cannabis microbusiness, cannabis mezzobusiness, cannabis cultivator, cannabis manufacturer, cannabis wholesaler with an endorsement to import products, lower-potency hemp edible manufacturer, or medical cannabis combination business must maintain the test results for cannabis flower, cannabis products, artificially derived cannabinoids, lower-potency hemp edibles, or hemp-derived consumer products grown, manufactured, or imported by that cannabis business or hemp business for at least five years after the date of testing.

(c) A cannabis microbusiness, cannabis mezzobusiness, cannabis cultivator, cannabis manufacturer, cannabis wholesaler with an endorsement to import products, lower-potency hemp edible manufacturer, or medical cannabis combination business shall make test results maintained by that cannabis business or hemp business available for review by any member of the public, upon request. Test results made available to the public must be in plain language.

Subd. 1a. **Appeal to individuals under 21 years of age.** For the purposes of this section and section 342.64, "appeal to individuals under 21 years of age" means any of the following:

- (1) the use of images depicting toys or robots;
- (2) the use of any images depicting fruits or vegetables, except when used to accurately describe ingredients or flavors contained in a product;
- (3) the use of any images bearing a likeness to characters or phrases that are popularly used to advertise to children; or

(4) the use of brand names or close imitations of brand names of candies, cereals, sweets, chips, or other food products typically marketed to children.
